2023
ANNUAL REPORT

CHARACTERISTICS OF THE GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the "Directors") of Cool Link (Holdings) Limited (the "Company" and together with its subsidiaries, the "Group") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the "GEM Listing Rules") for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.

Chairman's Statement

Dear Shareholders,

On behalf of the Board of Director (the "Board"), I am pleased to present the annual report of the Group for the year ended 31 December 2023.

For the year ended 31 December 2023, the Group recorded total revenue of approximately \$\$30.8 million, attaining an decrease when compared with the previous financial year. The Group recorded a loss of approximately \$\$1.1 million for the year ended 31 December 2023 as compared to a loss of approximately \$\$8.7 million for the year ended 31 December 2022. The decrease in loss was mainly attributable to the i) absence of impairment loss on goodwill and intangible assets; and ii) decrease in administrative expenses.

Going forward, despite the unfavorable and challenging business environment, the Group will continuously focus its efforts to expand its business by broadening the customer base and cultivate new clients for long term growth. In addition, the Group continues to seek for different business and investment opportunities. The Group will also put in place sound corporate governance and effective cost controls to maximise the return to the shareholders.

On behalf of the Board, I would like to express my sincere gratitude to the relentless support of all our valuable shareholders, investors, suppliers, business partners and customers. The management team and all staff members of the Group will continue striving for better results for the Group and bringing returns to the shareholders. The Group has also explored new business opportunities to maximize the interest of the Company and its shareholders as a whole and shoulder its corporate social responsibilities on contributing the society.

Tan Seow Gee

Chairman and Executive Director

Hong Kong, 28 March 2024

BUSINESS REVIEW

The Group is principally engaged in food and healthcare supplies business in Singapore and Hong Kong. During the year ended 31 December 2023, the Group continued to supply products to ship chandlers, retailers and customers who are in the related service industry.

The Group's suppliers mainly comprise manufacturers and trading companies around the globe, including but not limited to Asia, Europe and Middle East. The process of procuring products from our overseas suppliers requires coordination between our suppliers (who are either original manufacturers, or trading companies), overseas freight forwarders, local freight forwarders and us. Our local suppliers deliver their products to our warehouse directly at their own cost. On occasion, where the need is urgent, we may collect the products from these local suppliers ourselves.

As regards our typical sales process, we maintain an orderly system established for customers to enquire and obtain quotations for products. We coordinate and communicate with customers on their orders. Once such requests for quotations are received, we prepare quotations based on our product offering, stock level and price. Once our response is received and accepted by the customer, the customer then submits a purchase order to us. We receive the purchase order, then issue invoices for the accepted orders and arrange for packing and delivery.

We supply various types of food products mainly including canned food and packaged beverages in the dry category, various dairy products in the chilled category and ice cream and frozen cakes and pies in the frozen category to our customers, who consist mainly of ship chandlers based in Singapore. Our major products being sold include cheeses, juices, milk, ice-cream and bread etc. We also provide certain value-added food processing services. For example, we import different types of food products and repackage them according to the recipes and instructions from customer.

For the year ended 31 December 2023, the Group recorded total revenue of approximately \$\$30.8 million, attaining an decrease when compared with the previous financial year. The Group recorded a loss of approximately \$\$1.1 million for the year ended 31 December 2023 as compared to a loss of approximately \$\$8.7 million for the year ended 31 December 2022. The decrease in loss was mainly attributable to the i) absence of impairment loss on goodwill and intangible assets; and ii) decrease in administrative expenses.

OUTLOOK

The future prospect of the Group is full of challenges with the global economy being affected by ongoing geopolitical risks, Russia-Ukraine war and upcoming interest rate hikes. However, the Group will continue its effort to promote its brand as well as to provide quality products and seize business opportunities in various regions.

The Group has been continuously exploring different opportunities to broaden its income stream and strengthen its market presence. Those disruptions pose threat on affecting the entire world and make the outlook highly uncertain. However, the Board remains optimistic and taking necessary actions to ensure the impact to our core businesses is minimized, through dedication and expansion so as to deliver sustainable growth and profitability to the Group. Looking forward, the Group will continue to adopt diversified strategies with a view to grasping all valuable business opportunities for the Group to advance its business model and to growth in the coming years.

In addition, a key management personnel of a subsidiary of the Group which principally engaged in distribution of disinfectant and antiseptic products passed away during the year. The Group is taking necessary actions to ensure the impact to our businesses is minimized, our employees and associates are safe and that our values customers continue to be served as best as we can.

FINANCIAL REVIEW

Revenue

The Group's revenue decreased by approximately \$\$3.9 million or approximately 11.2% from approximately \$\$34.7 million for the year ended 31 December 2022 to approximately \$\$30.8 million for the year ended 31 December 2023. Such decrease was mainly due to the decrease in order of frozen products.

Cost of Sales

The Group's cost of sales decreased by approximately \$\$2.7 million or approximately 10.8% from approximately \$\$24.9 million for the year ended 31 December 2022 to approximately \$\$22.2 million for the year ended 31 December 2023. The decrease in cost of sales is in line with the decrease in sales.

Save as disclosed above, no share options were granted or exercised or cancelled or lapsed during the year ended 31 December 2023.

(1) Purpose

The purpose of the Share Option Scheme is to advance the interests of the Company and the shareholders by enabling the Company to grant options to attract, retain and reward the eligible persons and to provide the eligible persons an incentive or reward for their contribution to the Group and by enabling such persons' contribution to further advance the interests of the Group.

(2) Eligible person

Eligible persons include (i) any Directors (whether executive or non-executive and whether independent or not) and any employee (whether full time or part time) of the Group; (ii) any consultants or advisers (in the areas of legal, technical, financial or corporate managerial) of the Group (whether on an employment or contractual or honorary basis or otherwise and whether paid or unpaid); any provider of goods and/or services to the Group; any customer of the Group; or any holder of securities issued by any member of the Group; and (iii) any other person, who at the sole discretion of the Board, has contributed to the Group.

(3) Total number of shares available for issue

As of the date of this report, the total number of shares in respect of which options may be granted under this Share Option Scheme and any other share option schemes shall not in aggregate exceed 275,200 shares, being approximately 0.28% of the total number of shares in issue. The number of share options available for grant under scheme mandate at 1 January 2023 and 31 December 2023 were 275,200.

(4) Total maximum entitlement of each eligible person

Unless there is prior approval from the Company's shareholders, the total number of shares issued and to be issued upon exercise of the options granted to each eligible person (including both exercise and outstanding options under the Share Option Scheme) in any 12-month period shall not exceed 1% of the issued shares. Where any further grant of options to an eligible person would result in excess of such limit, such further grant must be subject to the approval of the Company's shareholders at general meeting with such eligible person and his close associates abstaining for voting.

(5) Option period and payment on acceptance of the option

Options granted must be taken up within ten business days from the date of grant. The amount payable by the grantee to the Company on acceptance of the offer shall be a nominal amount to be determined by the Board. Options may be exercised at any time during a period commencing on or after the date on which the option is accepted and granted and expiring on a date to be notified by the Board to each grantee which shall not be more than 10 years from the date on which the option is accepted and granted.

(6) Minimum Period for which an option must be held before it can be exercised

No minimum period for which an option must be held before it can be exercised unless otherwise determined by the Board at the time of grant.

(7) Subscription price of shares

The subscription price shall be such price as determined on the date of grant by the Board, and shall be at least the highest of:

- (a) the closing price per share as stated in the Stock Exchange's daily quotation sheet on the offer date;
- (b) the average of the closing prices per share as stated in the Stock Exchange's daily quotation sheets for the five business days immediately preceding the offer date; and
- (c) the nominal value of the share.

(8) Life of the Share Option Scheme

The Share Option Scheme shall be valid and effective for a period of ten years commencing from the date of adoption, after which period no further options will be offered or granted but the provisions of the Share Option Scheme shall remain in full force and effect in all other aspects with respect to options granted during the life of the Share Option Scheme.

SHARE AWARD PLAN

On 14 September 2021, the Company adopted the Share Award Plan (the "**Plan**") in which the Group's employees (whether full time or part time, but exclude directors), providers of goods and/or services, customers, consultants, advisers of the Group or any invested entity, and holders of securities issued by any member of the Group will be entitled to participate (the "**Eligible Participant(s)**").

The objectives of the Plan are to (i) recognize and reward the contribution of certain Eligible Participants to the growth and development of the Group through an award of Shares and to give incentives thereto in order to retain them for the continual operation and development of the Group; and (ii) attract and remain suitable personnel for further development of the Group.

The Plan shall be subject to the administration of the Board and the trustee in accordance with the plan rules and the trust deed of the Plan. The Plan will be valid and effective from the adoption date (i.e. 14 September 2021) and will terminate on the earlier of (i) the tenth anniversary date of the adoption date; and (ii) such date of early termination as determined by the Board provided that such termination will not affect any subsisting rights of any Selected Participant under the Plan. As at the date of this report, the remaining life of the Plan is less than 8 years.

The maximum number of Share to be subscribed for and/or purchased by the Trustee by applying Trust Fund for each calendar year for the purpose of the Plan shall not exceed 10% of the total number of issued Shares as at the beginning of such calendar year subject to adjustment in the event of capitalization issue or right issue. The Directors shall not instruct the Trustee to subscribe and/or purchase any Shares for the purpose of the Plan when such subscription and/or purchase will result in the said limit being exceeded. The maximum number of Shares which may be awarded to a Selected Participant under the Plan, shall not exceed 1% of the total number of issued Shares during any 12-month period. No amount is payable on application or acceptance of the award and the period within which payments or calls must or may be made or loans for such purposes must be repaid.

Details of the Plan were set out in the announcements of the Company dated 14 September 2021 and 23 November 2021.

The total number of shares available for issue under the Scheme and the Plan is 1,855,000 shares, which represents 1.86% of the total shares in issue as at the date of the annual report.

Subscribing for such new Shares at such price to be determined by the Board for subscription by the Trustee by utilising the Trust Fund, subject to compliance by the Company with the relevant GEM Listing Rules. The purchase price of the share award should be at the prevailing market price according to the instructions set out in the purchase notice within the price range.

The number of shares that may be issued in respect of options and awards granted under the Scheme and the Plan are 1,558,356 during the year ended 31 December 2023 divided by the weighted average number of shares of the relevant class in issue of 89,443,781 shares for the period is 1.74%.

BOARD COMMITTEES

The Board has established specific committees, namely the Audit Committee, the Remuneration Committee and the Nomination Committee to oversee particular aspects of the Company's affairs. The written terms of reference of the Audit Committee, the Remuneration Committee and the Nomination Committee are posted on the respective websites of the Stock Exchange and the Company. All the Board committees should report to the Board on their decisions or recommendations made.

The Board is responsible for performing the functions set out in code provision A.2.1 of the CG Code. The Board reviewed the Company's corporate governance policies and practices, continuous professional development of Directors and senior management of the Company, the Company's policies and practices on compliance with legal and regulatory requirements, the code of conduct applicable to employees and Directors and the Company's compliance with the CG Code and disclosure in the Corporate Governance Report.

AUDIT COMMITTEE

The Company established an Audit Committee on 30 August 2017 with written terms of reference in compliance with Rule 5.28 of the GEM Listing Rules and the CG Code. The Audit Committee comprises three independent non-executive Directors and a non-executive Director: Ms. Chan Oi Chong, Ms. Luk Huen Ling Claire, Mr. Choi Wai Tong Winton (resigned on 28 March 2023), Mr. Yim Harrison Chun Fung (resigned on 1 November 2023), Mr. Tang Tsz Kin (appointed on 28 March 2023) and Mr. Peng Xiukai (appointed on 31 January 2024). Mr. Peng Xiukai was appointed to serve as the chairman of the Audit Committee on 31 January 2024. The primary duties of the Audit Committee are mainly to make recommendations to the Board on the appointment and dismissal of the external auditor, review the financial statements and information and provide advice in respect of financial reporting and oversee the risk management and internal control systems of the Company.

During the year ended 31 December 2023, the Audit Committee reviewed and discussed the relevant quarterly, interim and annual financial statements, results announcements and reports of the Group; reviewed the risk management and internal control systems of the Group; and reviewed the effectiveness of the Group's internal audit function. The Audit Committee is of the opinion that the consolidated financial statements of the Group for the year ended 31 December 2023 comply with applicable accounting standards, GEM Listing Rules and that adequate disclosures have been made.

REMUNERATION COMMITTEE

The Company established a Remuneration Committee on 30 August 2017 with written terms of reference in compliance with Rule 5.34 of the GEM Listing Rules and the CG Code. The Remuneration Committee comprises three independent non-executive Directors, an executive Director and a non-executive Director: Ms. Chan Oi Chong, Ms. Luk Huen Ling Claire, Mr. Gay Teo Siong, Mr. Choi Wai Tong Winton (resigned on 28 March 2023), Mr. Yim Harrison Chun Fung (resigned on 1 November 2023), Mr. Tang Tsz Kin (appointed on 28 March 2023) and Mr. Peng Xiukai (appointed on 31 January 2024). Ms. Chan Oi Chong was appointed as the chairlady of the Remuneration Committee. The primary functions of the Remuneration Committee are to make recommendations to the Board on the overall remuneration policy and the structure relating to all Directors and senior management of the Group, review performance-based remuneration and ensure that none of the Directors determine their own remuneration.

During the year ended 31 December 2023, the Remuneration Committee reviewed and made recommendation to the Board on the remuneration policy and structure of the Company and the remuneration packages of all Directors and senior management of the Group; reviewed management's remuneration proposals with reference to the Board's corporate goals and objectives; and ensure that none of the Directors determine their own remuneration.

NOMINATION COMMITTEE

The Company established a Nomination Committee on 30 August 2017 with written terms of reference in compliance with Rule 5.36A of the GEM Listing Rules and the CG Code. The Nomination Committee comprises three independent non-executive Directors, an executive Director and a non-executive Director: Ms. Luk Huen Ling Claire, Ms. Chan Oi Chong, Mr. Gay Teo Siong, Mr. Choi Wai Tong Winton (resigned on 28 March 2023), Mr. Yim Harrison Chun Fung (resigned on 1 November 2023), Mr. Tang Tsz Kin (appointed on 28 March 2023) and Mr. Peng Xiukai (appointed on 31 January 2024).

Ms. Luk Huen Ling Claire was appointed as the chairlady of the Nomination Committee. The primary functions of the Nomination Committee are to review the structure, size and composition (including the skills, knowledge and experience) of the Board at least annually and make recommendations to the Board on any proposed changes to the Board to complement the Company's corporate strategy; identify individuals suitably qualified as potential Board members and select or make recommendations to the Board on the selection of individuals nominated for directorships; to assess the independence of the independent non-executive Directors; and make recommendations to the Board on the appointment or reappointment of Directors and succession planning of Directors, in particular that of the Board's Chairman and the chief executive.

During the year ended 31 December 2023, the Nomination Committee reviewed the structure, size, composition and diversity of the Board; made recommendations to the Board on the re-appointment of retiring Directors; and assessed the independence of the independent non-executive Directors.

Board Nomination Policy

The Board adopted a nomination policy in compliance with the CG Code with effect from 1 January 2019, which establishes written guidelines to Nomination Committee to identify individuals suitably qualified to become Board members and make recommendations to the Board on the selection of individuals nominated for directorships with reference to the formulated criteria. The Board is ultimately responsible for selection and appointment of new Directors.

The Board, through the delegation of its authority to the Nomination Committee, has used its best efforts to ensure that Directors appointed to the Board possess the relevant background, experience and knowledge in business, finance and management skills critical to the Group's business to enable the Board to make sound and well considered decisions. Collectively, they have competencies in areas which are relevant and valuable to the Group.

Nomination Process

The Nomination Committee shall assess whether any vacancy on the Board has been created or is expected on a regular basis or as required.

The Nomination Committee utilises various methods for identifying director candidates, including recommendations from Board members, management, and professional search firms. All director candidates, including incumbents and candidates nominated by shareholders are evaluated by the Nomination Committee based upon the director qualifications. While director candidates will be evaluated on the same criteria through review of resume, personal interview and performance of background checks. The Nomination Committee retains the discretion to establish the relative weighting of such criteria, which may vary based on the composition, skill sets, age, gender and experiences of the collective Board rather than on the individual candidate for the purpose of diversity perspectives appropriate to the requirement of the Company's business.

Selection Criteria

The Nomination Committee will take into account whether a candidate has the qualifications, skills, experience and gender diversity that add to and complement the range of skills, experience and background of existing Directors by considering the highest personal and professional ethics and integrity of the director candidates, proven achievement and competence in the nominee's field and the ability to exercise sound business judgment, skills that are complementary to those of the existing Board, the ability to assist and support management and make significant contributions to the Company's success and such other factors as it may deem are in the best interests of the Company and its shareholders. The Company shall review and reassess the nomination policy and its effectiveness on a regular basis or as required.

DIVERSITY OF THE BOARD

The Board has adopted policy in relation to the diversity of the members of the Board and the summary of the policy is as follows:

- (1) selection of Board members will be based on a range of diversity perspectives, which would include but not limited to gender, age, cultural and educational background, professional experience, skills, knowledge and length of service; and
- (2) the Nomination Committee will monitor the implementation of the diversity policy from time to time to ensure its effectiveness.

The Board shall review such policy and its implementation and effectiveness on an annual basis to ensure the effectiveness of the policy. The Nomination Committee will also continue to give adequate consideration to the abovementioned measurable perspectives when making recommendations of candidates' appointment to the Board.

As at the date of this annual report, the Board comprises Directors with both genders, diverse background and experiences. The Board has a balanced composition for its executive Directors being in possession of extensive industrial expertise and experience in the operation of Group's business and the independent non-executive Directors contributing their independent opinions and judgements, which facilitate an effective decision-making process for the Board. The composition of the Board is reviewed on an annual basis by the Nomination Committee.

The Board also recognizes the importance of diversity at the workforce level. As at 31 December 2023, the Group had a total of 60 employees, of which 38 were male and 22 were female. The gender ratio of the Group's workforce (including senior management) was approximately 63% male to 37% female.

As the plans for the Group in terms of gender diversity in workforce, the Group will periodically review internal records on gender diversity, identify suitable female candidates for relevant positions within the Company, and try to ensure that there is gender diversity when recruiting staff at mid to senior level and training female staff with the aim of promoting them to the senior management or directorship of the Company, so as to maintain the balance of gender diversity in the foreseeable future.

NON-EXECUTIVE DIRECTOR

The non-executive Director has been appointed for a fixed term and is subject to retirement by rotation and re-election at the AGM.

INDEPENDENT NON-EXECUTIVE DIRECTORS

All independent non-executive Directors have been appointed for a fixed term. Every Director is subject to re-election on retirement by rotation in accordance with the Articles of Association. The Company has received from each of the independent non-executive Directors an annual confirmation of independence pursuant to Rule 5.09 of the GEM Listing Rules and considers the independent non-executive Directors to be independent as at the date of this annual report.

DIRECTORS' TRAINING AND CONTINUING PROFESSIONAL DEVELOPMENT

The Group has adopted policy in relation to the diversity of the members of the Board and the summary of the policy is as follows:

In compliance with the code provision C.1.4 of the CG Code, all Directors shall participate in continuous professional development to develop and refresh their knowledge and skills to ensure that their contribution to the Board remains informed and relevant.

The Group continuously updates the Directors on the latest developments regarding the GEM Listing Rules and other applicable regulatory requirements, so as to ensure that the Directors are aware of their responsibilities and obligations as well as to maintain good corporate governance practices.

DIRECTORS' RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

The Directors acknowledge their responsibilities for overseeing the preparation of the financial statements which give a true and fair view of the state of affairs of the Group. In preparing the financial statements, appropriate accounting policies and standards are selected and applied consistently. The Directors are not aware of any material uncertainties relating to events or conditions which may cast significant doubt upon the Company's ability to continue as a going concern.

RISK MANAGEMENT AND INTERNAL CONTROL

The Board is accountable for overseeing the Group's risk management, including the risks relating to the Company's environmental, social and governance ("ESG") performance and internal control systems and reviewing their effectiveness, while the management are responsible for implementing and maintaining the internal controls systems that covers governance, compliance, risk management (including ESG risks), financial and operational controls to safeguard the Group's assets and stakeholders' interests. However, such systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss. Procedures are in place to identify major business risks and evaluate potential financial implications. The Board recognizes the importance of identifying and addressing ESG-related risks, including those related to climate, and believes that a focus on managing these factors can result in an enhanced and long-lasting business value for the Group.

The Group has formulated a risk management policy and adopted a three-tier risk management approach to identify, assess and manage different types of risks. At the first line of defence, business units are responsible for identifying, assessing and monitoring risk associated with each business or transaction. The management, as the second line of defence, defines rule sets and models, provides technical support, develops new system and oversees portfolio management. It ensures that risks are within acceptable range and that the first line of defence is effective. As the final line of defence, the independent consultant, as an internal audit function, assists the Audit Committee to review the first and second lines of defence.

The Group is committed to the identification, evaluation and management of risks associated with its business activities through ongoing assessment, by considering the likelihood and impact of each identified risk. The Group has implemented an effective control system which includes a defined management structure with limits of authority, a sound management system and periodic review of the Group's performance by the Audit Committee and the Board.

Through the Audit Committee, the Board has conducted an annual review of the effectiveness of the Group's risk management (including ESG risks) and internal control systems for the year ended 31 December 2023, covering the material financial, operational and compliance controls, which are considered effective and adequate. The Audit Committee has reviewed the adequacy of resources, staff qualifications and experience, training programmes and budget of the accounting, internal audit and financial reporting functions on an annual basis.

Based on the framework for risk management (including ESG risks) and internal control system established by the Group, the Board and the Audit Committee admitted that through the review of risk management (including ESG risks) and internal control systems of the Group, it can evaluate and improve its effectiveness. The Board, with the concurrence of the Audit Committee, considered that such systems, including financial, operational and compliance were effective and adequate for the year ended 31 December 2023 based on the work performed and report prepared by the independent consultant. The Company will perform the ongoing assessment to update all material risk factors on a regular basis. In any case, review on risk management (including ESG risks) and internal control system will be conducted annually.

Internal Audit

During the year ended 31 December 2023, the Group had engaged an independent internal control consultant to assess the Group's overall internal controls and to give recommendations to make any enhancement. It was reported that there were no material deficiencies in relation to the Group's internal controls. The Board is of the view that the internal control measures of the Group are adequately and effectively monitoring its business operations for the year ended 31 December 2023.

Inside Information

The Group has adopted and implemented its own disclosure policy aiming to provide a general guide to the Directors and senior management of the Company in handling of confidential information and/or monitoring of information disclosure pursuant to applicable laws and regulations in compliance with the GEM Listing Rules and SFO and shall seek legal advice where necessary.

The disclosure policy provides the procedures and internal controls for the handling and dissemination of inside information by publication of the announcement to the respective websites of the Stock Exchange and the Company on a timely basis to enable the public, namely shareholders, institutional investors, potential investors and other stakeholders of the Company to access the latest information of the Group, unless such information fall within the safe harbours with the SFO. The management has notified all employees to comply with the disclosure policy. Briefing and training on the implementation of the policy have been provided to Directors, officers and senior management of the Group. The Board emphasises that only the authorised representatives registered in the Stock Exchange are authorised to speak on behalf of the Company.

WHISTLEBLOWING POLICY

The Company has adopted arrangement, including a whistleblowing policy and the policy of anti-corruption to allow and encourage employees and other stakeholders to raise concerns, in confidential, about possible improprieties in financial reporting, internal control, criminal action, compliance and other malpractices or other matters. All the concerns received will be handled confidential in prompt and fair manner. The Board shall regularly review such arrangement, conduct independent investigation on these matters if necessary, and considers appropriate follow-up action.

SHAREHOLDERS' RIGHT

One of the measures to safeguard the shareholders' interests and rights is to separate resolutions proposed at the shareholders' meetings on each substantial issue, including the election of individual Directors, for shareholders' consideration and voting. All resolutions put forward at the shareholders' meetings will be voted by poll pursuant to the GEM Listing Rules and the poll voting results will be posted on the Stock Exchange's website and the Company's website after the relevant shareholders' meeting.

Extraordinary general meeting may be convened by the Board on requisition of shareholders holding not less than one-tenth of the paid up capital of the Company or by such shareholders who made the requisition (the "Requisitionists") (as the case may be) pursuant to article 58 of the Articles of Association. Such requisition must state the object of business to be transacted at the meeting and must be signed by the Requisitionists and deposited at the registered office of the Company or the Company's principal place of business in Hong Kong. Shareholders should follow the requirements and procedures as set out in such article for convening an extraordinary general meeting. Shareholders may put forward proposals at general meetings by sending the same to the Company at the principal office of the Company in Hong Kong.

Shareholders may send written enquiries or requests in respect of their rights to the Company's principal business address in Hong Kong.

INVESTOR RELATIONS

The Company believes that maintaining a high level of transparency is a key to enhancing investor relations. It is committed to a policy of open and timely disclosure of corporate information to its shareholders and the public. The Company updates its shareholders on its latest business developments and financial performance through its annual, interim and quarterly reports. The Company's website provides an effective communication platform to the public and the shareholders.

COMMUNICATION WITH SHAREHOLDERS

The AGM provides a useful forum for the shareholders to exchange views with the Board. The Chairman as well as the chairlady/chairman of the Audit Committee, the Remuneration Committee and the Nomination Committee are pleased to answer the enquiries raised by the shareholders. Separate resolutions are proposed at general meetings on each substantially separate issue, including the election of individual directors. The Company has also established a shareholders' communication policy to ensure that the shareholders' views and concerns are appropriately addressed. Such policy is reviewed annually to ensure its implementation and effectiveness. All the announcements and circulars are published on the Company's website and on the Stock Exchange's website.

CONSTITUTIONAL DOCUMENTS

During the year ended 31 December 2023 and up to the date of this annual report, there was no significant change in constitutional documents of the Company.

PROCEDURES FOR PUTTING FORWARD PROPOSALS AT GENERAL MEETINGS BY SHAREHOLDERS

Pursuant to article 85 of the Articles of Association, no person (other than a retiring Director) shall be eligible for election to the office of Director at any general meeting unless a notice in writing of the intention to propose that person for election as a Director and notice in writing by that person of his/her willingness to be elected shall have been lodged at the head office or at the office of the branch share registrar and transfer office of the Company in Hong Kong no earlier than the day after the despatch of the notice of the general meeting appointed for such election and end no later than 7 days prior to the date of such general meeting and the minimum length of the period during which such notices to the Company may be given will be at least 7 days. The procedures for shareholders to propose a person for election as a Director is posted on the website of the Company.

DIVIDEND POLICY

The Company has adopted a general dividend policy (the "Dividend Policy") that aims to provide its shareholders out of the Group's profit attributable to shareholders in any financial year. In proposing any dividend payout, the Company shall take into account, among other things, the Group's actual and expected financial results, the general economic conditions and other internal or external factors that may have an impact on the business or financial performance and position of the Company, the Company's liquidity position, current and future operations, statutory and regulatory restrictions and so on.

The Company does not have any pre-determined dividend distribution proportion or distribution ratio. The declaration, payment and amount of dividends will be subject to the Board's discretion. The Board will review and re-assess the Dividend Policy on a regular basis.

TO THE SHAREHOLDERS OF COOL LINK (HOLDINGS) LIMITED

(Incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of Cool Link (Holdings) Limited (the "Company") and its subsidiaries ("the Group") set out on pages 44 to 129, which comprise the consolidated statement of financial position as at 31 December 2023, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements including material accounting policy information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2023, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements" section of our report. We are independent of the Group in accordance with the HKICPA's "Code of Ethics for Professional Accountants" (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTER

Key audit matter is the matters that, in our professional judgement, was of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. The key audit matters we identified are:

- 1. Impairment assessment of trade receivables
- 2. Impairment assessment of interests in associates
- 3. Fair value measurement of financial assets at fair value through other comprehensive income ("FVTOCI")

The Key Audit Matter

How the matter was addressed in our audit

1. Impairment assessment of trade receivables

Refer to Note 22 to the consolidated financial statements and the accounting policies in Note 4.21 to the consolidated financial statements

The Group has trade receivables of approximately S\$7,971,000, net of loss allowance for trade receivables of approximately S\$360,000 as at 31 December 2023. The Group generally allows a credit period ranged from cash on delivery to 60 days to its customers.

During the year ended 31 December 2023, impairment loss on trade receivable of approximately \$\$157,000 is recognised.

The loss allowance is estimated by taking into account the credit loss experience, aging of trade receivables, customers' repayment history and financial position and an assessment of both the current and forecast general economic conditions, all of which involve a significant degree of management judgement.

Our audit procedures in relation to management's impairment assessment on trade receivables included the following:

- Obtained an understanding of the internal control and processes over the impairment assessment on trade receivables by management;
- Assessed the grouping of trade receivables by considering the nature of the debtors and credit risk characteristics;
- Tested the accuracy and completeness of the data used by management to develop the historical loss rates and assessing the sufficiency, reliability and relevance of that data;
- Assessed the appropriateness of the impairment loss methodology, testing the calculation of the historical loss rates and evaluating the reasonableness of the forward-looking adjustments made to reflect current and forecast future economic conditions;
- Tested the aging of trade receivables on a sample basis; and
- Tested the calculation of expected credit loss provisions applying the provision rates to the age categories of the trade receivables outstanding at the reporting date.

The Key Audit Matter

How the matter was addressed in our audit

2. Impairment assessment of interests in associates

Refer to Note 19 to the consolidated financial statements and the accounting policies in Note 4.3 to the consolidated financial statements

As at 31 December 2023, the carrying amount of the Group's interests in associates is approximately \$\\$1,132,000.

During the year ended 31 December 2023, impairment loss recognised for interests in associates is approximately \$\$476,000.

Management performed assessment at the end of each reporting period whether there is any indication that the interests in associates in may be impaired. Should indication of impairment exists, an impairment assessment will be performed accordingly.

The management of the Group engaged independent professional valuers as management's expert to estimate the recoverable amount of the investments in associates.

The recoverable amount of the interests in associates was based on the calculation of value-in-use which requires management to make assumptions about the future including budgeted sales, gross profit ratio and growth rates and to determine an appropriate market discount rate. These estimates require significant management judgement.

Our audit procedures in relation to management's impairment assessment on investments in associates included the following:

- Evaluated the future cash flow forecast prepared by the management;
- Assessed the competency, objectivity and independence of the management's expert engaged by the management;
- Assessed the reasonableness of management's key assumptions based on the current operating environment and our knowledge of the business and industry;
- Tested the arithmetical accuracy on the value-in use calculation;
- Evaluated the appropriateness of the assumptions and variables, including the future revenue, the future expenses and profit margin, against latest market expectations;
- Assessed the appropriateness of the discount rates; and
- Considered the potential impact of reasonable possible downside changes in the key assumption.

The Key Audit Matter

How the matter was addressed in our audit

3. Fair value measurement of financial assets at FVTOCI

Refer to Note 20 to the consolidated financial statements and the accounting policies in Note 4.12 to the consolidated financial statements

As at 31 December 2023, the carrying amount of the Group's investments in unlisted equity instrument classified as financial assets at FVTOCI amounted to \$\$3,278,000.

During the year ended 31 December 2023, change in fair value of financial assets at FVTOCI of approximately \$\$229,000 is recognised in other comprehensive income.

The management of the Group engaged independent professional valuers as management's expert to estimate the fair values of the unlisted equity instruments. In determining the fair value, the management's expert adopted a market-based approach using the guideline transaction method in the valuation.

The valuation involves the estimates and judgments, e.g. selection of the comparable companies and certain specific assumptions in the valuation.

We identified the fair value measurement of financial assets at FVTOCI as a key audit matter due to significant on the amount and the judgments and estimates applied by the management and the management's expert of the Group.

Our audit procedures in relation to the fair value measurement of financial assets at FVTOCI included the following:

- Assessed the competency, objectivity and independence of the management's expert engaged by the management;
- Assessed the reasonableness of the valuation methodology and key assumptions used;
- Discussed with the management of the Group and the management's expert on the fair values measurement of the unlisted equity instruments including the valuation model adopted and key assumptions used;
- Checked the arithmetic accuracy of the valuation; and
- Considered the adequacy of the Group's disclosure in respect of the valuation.

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises all the information in the 2023 annual report of the Company, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS OF THE COMPANY AND AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors of the Company assisted by the Audit Committee are responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, in accordance with the terms of our engagements, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the consolidated financial statements, including
 the disclosures, and whether the consolidated financial statements represent the underlying transactions
 and events in a manner that achieves fair presentation.
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business
 activities within the Group to express an opinion on the consolidated financial statements. We are
 responsible for the direction, supervision and performance of the group audit. We remain solely responsible
 for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken into eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Mr. Chin Wang Leung.

1. GENERAL INFORMATION

Cool Link (Holdings) Limited (the "Company") was incorporated as an exempted company with limited liability in the Cayman Islands on 27 January 2017. The shares of the Company were listed on GEM of The Stock Exchange of Hong Kong Limited (the "Stock Exchange") on 22 September 2017.

The address of the Company's registered office is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman KY1-1111, Cayman Islands. The address of its principal place of business of the Company is 33 Chin Bee Crescent, Singapore, 619901.

The principal activity of the Company is investment holding. Details of the principal activities of the Company's subsidiaries are set out in Note 38 to the consolidated financial statements.

The functional currencies of the Company and the subsidiaries (hereinafter collectively referred to as the "Group") incorporated in Singapore are Singapore dollars ("S\$") while that of the subsidiaries established in Hong Kong are Hong Kong dollars ("HK\$"). For the purpose of presenting the consolidated financial statements, the Group adopted S\$ as its presentation currency which is the same as the functional currency of the Company.

2. BASIS OF PREPARATION

The consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA"). In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on GEM of The Stock Exchange of Hong Kong Limited ("Listing Rules") and by the Hong Kong Companies Ordinance.

For the year ended 31 December 2023

3. APPLICATION OF NEW AND AMENDMENTS TO HKFRSs

In the current year, the Group has applied, for the first time, the following amendments to HKFRSs issued by the HKICPA which are effective for the Group's financial year beginning 1 January 2022:

Amendments to HKAS 1 and HKFRS Practice Statement 2 Amendments to HKAS 8 Amendments to HKAS 12

Amendments to HKAS 12
HKFRS 17 (including the October 2020 and February 2022 Amendments to HKFRS 17)

Disclosure of Accounting Policies

Definition of Accounting Estimates

Deferred Tax related to Assets and Liabilities arising from a Single Transaction

International Tax Reform – Pillar Two Model Rules
Insurance Contracts

The application of the amendments to HKFRSs in the current year has had no material effect on the Group's financial performance and positions for the current and prior periods and/or on the disclosures set out in these consolidated financial statements.

New and amendments to HKFRSs issued but not yet effective

The Group has not early applied the following new and amendments to HKFRSs that have been issued but are not yet effective:

Amendments to HKAS 1 Classification of Liabilities as Current or Non-current¹

Amendments to HKAS 1

Amendments to HKFRS 16

Amendments to HKFRS 17

Amendments to HKAS 7 and

Non-current Liabilities with Covenants

Lease Liability in a Sale and Leaseback

Supplier Finance Arrangements

HKFRS 7

Amendments to HKAS 21 Lack of Exchangeability²

Amendments to HKFRS 10 and Sale or Contribution of Assets between an Investor and its Associate or HKAS 28 Joint Venture³

- ¹ Effective for annual periods beginning on or after 1 January 2024
- ² Effective for annual periods beginning on or after 1 January 2025
- ³ Effective for annual periods beginning on or after a date to be determined

The directors of the Company anticipate that the application of the new and amendments to HKFRSs will have no material impact on the results and the financial position of the Group.

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICIES

The consolidated financial statements have been prepared on the historical cost basis except for financial assets at FVTPL and financial assets at FVTOCI that are measured at fair values, at the end of each reporting period.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date regardless of whether that price is directly observable or estimated using another valuation technique. Details of fair value measurement are explained in the accounting policies set out below.

The significant accounting policies are set out below.

4.1 Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company entities controlled by the Company and its subsidiaries.

Control is achieved where the Group has: (i) the power over the investee; (ii) exposure, or rights, to variable returns from its involvement with the investee; and (iii) the ability to use its power over the investee to affect the amount of the Group's returns.

The Group includes the income and expenses of a subsidiary in the consolidated financial statements from the date it gains control until the date when the Group ceases to control the subsidiary. Intra-group transactions, balances and unrealised gains and losses on transactions between group companies are eliminated in preparing the consolidated financial statements. Where unrealised losses on sales of intra-group asset are reversed on consolidation, the underlying asset is also tested for impairment from the Group's perspective.

Non-controlling interests represent the equity in subsidiaries not attributable, directly or indirectly, to the Company. Non-controlling interests are presented in the consolidated statement of financial position and consolidated statement of changes in equity within equity. Non-controlling interests are presented in the consolidated statement of profit or loss and consolidated statement of profit or loss and other comprehensive income as an allocation of profit or loss and total comprehensive income for the year between the non-controlling shareholders and owners of the Company.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling shareholders even if this results in the non-controlling interests having a deficit balance.

In the Company's statement of financial position, an investment in a subsidiary is stated at cost less impairment loss, unless the investment is classified as held for sale (or included in a disposal group that is classified as held for sale).

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICIES (Continued)

4.2 Business combination and goodwill

Acquisition of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs incurred to effect a business combination are recognised in profit or loss as incurred.

Goodwill is measured as the excess of the aggregate of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the Group's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after re-assessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the aggregate of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests, unless as required by another standards, are measured at acquisition-date fair value except for non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation are initially measured either at fair value or at the present ownership instruments' proportionate share in the recognised amounts of the acquiree's identifiable net assets on a transaction-by-transaction basis.

Goodwill arising from a business combination is carried at cost less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination.

A cash-generating unit (or groups of cash-generating units) to which goodwill has been allocated is tested for impairment annually or more frequently when there is indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the cash-generating unit (or groups of cash-generating units) to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit on a pro rata basis based on the carrying amount of each asset in the unit (or groups of cash-generating units). Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal.

The Group's policy for goodwill relating to an associate is set out in "Associates" below.

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICIES (Continued)

4.3 Associates

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control of those policies.

The Group's investments in associates are accounted for in the consolidated financial statements using the equity method are initially recognised at cost. The Group's share of the profit or loss and changes in the other comprehensive income of the associates are recognised in profit or loss and other comprehensive income respectively after the date of acquisition. If the Group's share of losses of an associate equal or exceeds its interest in the associate, which determined using the equity method together with any long-term interests that, in substance, form part of the Group's net investment in the associate, the Group discontinues recognising its share of further losses. Additional losses are provided for, and a liability is recognised, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

If an associate uses accounting policies other than those of the Group for like transactions and events in similar circumstances, adjustments are made to make the associate's accounting policies conform to those of the Group when the associate's financial statements are used by the Group in applying the equity method.

An investment in an associate is accounted for using the equity method from the date on which the investee becomes an associate. On acquisition of the investment, any excess of the cost of acquisition over the Group's share of the net fair value of the identifiable assets and liabilities of the associate is recognised as goodwill and is included in the carrying amount of the investment.

Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition, after reassessment, is recognised in profit or loss in the period in which the investment is acquired.

The requirements of HKAS 36 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in an associate. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs to sell) with its carrying amount. Any impairment loss recognised is not allocated to any asset, including goodwill that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised to the extent that the recoverable amount of the net investment subsequently increases.

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICIES (Continued)

4.3 Associates (Continued)

The Group discontinues the use of the equity method from the date when the investment ceases to be an associate or a joint venture. When the Group retains an interest in the former associate or a joint venture and the retained interest is a financial asset, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition in accordance with HKFRS 9. The difference between the carrying amount of the associate or a joint venture at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from disposing of a part interest in the associate or a joint venture is included in the determination of the gain or loss on disposal of the associate or joint venture. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate or joint venture on the same basis as would be required if that associate or joint venture had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associate or joint venture would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when the associate or joint venture is disposed of.

When the Group's ownership interest in an associate is reduced, but the Group continues to apply the equity method, the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest is reclassified to profit or loss if that gain or loss would be required to be reclassified to profit or loss on the disposal of the related assets or liabilities.

Gains and losses resulting from transactions between the Group and its associate are recognised in consolidated financial statements only to the extent of unrelated investors' interests in the associate. The Group's share in the associate's gains or losses resulting from these transactions is eliminated.

4.4 Intangible assets

Intangible assets acquired in a business combination

Intangible assets acquired in a business combination are recognised separately from goodwill and are initially recognised at their fair value at the acquisition date (which is regarded as their cost).

Subsequent to initial recognition, intangible assets with finite useful lives are carried at costs less accumulated amortisation and any accumulated impairment losses (see the accounting policies in respect of impairment losses on tangible and intangible assets below). Amortisation for intangible assets with finite useful lives is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICIES (Continued)

4.5 Foreign currency translation

Transactions and balances in each entity's financial statements

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in the respective functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchanges prevailing at the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

Translation on consolidation

The results and financial position of all the Group entities that have a functional currency different from the Company's presentation currency are translated into the Company's presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- income and expenses are translated at average exchange rates for the period (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the exchange rates on the transaction dates); and
- all resulting exchange differences are recognised in other comprehensive income and accumulated in the equity under the heading of translation reserve.

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, a disposal involving loss of joint control over a joint arrangement that includes a foreign operation, or a disposal involving loss of significant influence over an associate that includes a foreign operation), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss. In addition, in relation to a partial disposal of a subsidiary that does not result in the Group losing control over the subsidiary, the proportionate share of accumulated exchange differences are re-attributed to non-controlling interests and are not recognised in profit or loss. For all other partial disposals (i.e. partial disposals of associates or joint arrangements that do not result in the Group losing significant influence or joint control), the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICIES (Continued)

4.5 Foreign currency translation (Continued)

Translation on consolidation (Continued)

Goodwill and fair value adjustments on identifiable assets acquired arising on an acquisition of a foreign operation are treated as assets and liabilities of that foreign operation and retranslated at the rate of exchange prevailing at the end of each reporting period. Exchange differences arising are recognised in other comprehensive income.

4.6 Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses. The cost of property, plant and equipment includes its purchase price and the costs directly attributable to the acquisition of the items.

Ownership interests in leasehold land and buildings

When the Group makes payments for ownership interests of properties which includes both leasehold land and building elements, the entire consideration is allocated between the leasehold land and the building elements in proportion to the relative fair values at initial recognition. To the extent the allocation of the relevant payments can be made reliably, interest in leasehold land is presented as "right-of-use assets" in the consolidated statement of financial position. When the consideration cannot be allocated reliably between non-lease building element and undivided interest in the underlying leasehold land, the entire properties are classified as property, plant and equipment.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Costs include professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other costs, such as repairs and maintenance are recognised as an expense in profit or loss during the financial period in which they are incurred.

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICIES (Continued)

4.6 Property, plant and equipment (Continued)

Depreciation is recognised so as to write off the cost of assets their residual values over their estimated useful lives, using the straight-line method, at the following rates per annum:

Land and building	4 – 5%
Land and building	
Computers	25%
Furniture and fittings	20 – 25%
Kitchen equipment	25%
Machinery and equipment	25%
Motor vehicles	17%
Renovation	20 - 33%

The residual values, useful lives and depreciation method are reviewed and adjusted, if appropriate, at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

4.7 Investment properties

Investment properties are land and/or buildings which are owned or held under a leasehold interest to earn rental income and/or for capital appreciation. These include land held for a currently undetermined future use and property that is being constructed or developed for future use as investment property.

Owned investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are stated at cost less subsequent accumulated depreciation and any accumulated impairment losses. Depreciation is recognised so as to write off the cost of investment properties over their estimated useful lives and after taking into account of their estimated residual value, using the straight-line method.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposals. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the profit or loss in the period in which the property is derecognised.

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICIES (Continued)

4.8 Leasing

Definition of a lease

A contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration.

The Group as lessee

The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less from the commencement date and do not contain a purchase option) and leases of low value assets. For these leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

Right-of-use assets

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement date and any initial direct costs, less lease incentives received.

Right-of-use assets are subsequently measured at cost less accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease. They are depreciated over the shorter period of lease term and useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The Group presents right-of-use assets as a separate line in the consolidated statement of financial position.

The Group applies HKAS 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss.

Lease liabilities

At the commencement date, the Group measures lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted by using the interest rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise fixed lease payments (including in-substance fixed payments) less any lease incentives receivable, variable payments based on an index or rate, and amounts expected to be payable under a residual value guarantee. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payment of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate.

4.8 Leasing (Continued)

The Group as lessee (Continued)

Lease liabilities (Continued)

The lease liability is presented as a separate line in the consolidated statement of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

Lease liability is remeasured (and with a corresponding adjustment to the related right-of-use asset) whenever:

- the lease term has changed or there is a significant event or change in circumstances resulting
 in a change in the assessment of exercise of a purchase option, in which case the lease
 liability is remeasured by discounting the revised lease payments using revised discount rate.
- the lease payments change due to changes in an index or rate or a change in expected
 payment under a guaranteed residual value, in which cases the lease liability is remeasured by
 discounting the revised lease payments using the initial discount rate (unless the lease
 payments change is due to a change in a floating interest rate, in which case a revised
 discount rate is used).
- A lease contract is modified and the lease modification is not accounted for as a separate
 lease, in which case the lease liability is remeasured based on the lease term of the modified
 lease by discounting the revised lease payments using a revised discount rate at the effective
 date of the modification.

Lease Modification

The Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the lease increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for a separate lease, the Group remeasures the lease liability based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

4. MATERIAL ACCOUNTING POLICIES (Continued)

4.8 Leasing (Continued)

The Group as lessor

The Group enters into lease agreements as a lessor with respect to some of its investment properties. Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

4.9 Inventories

Inventories are carried at the lower of cost and net realisable value. Cost of inventories are calculated using the first-in-first-out method. Cost comprises all costs of purchase, Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and costs necessary to make the sale.

4.10 Cash and cash equivalents

In the consolidated statement of financial position, cash and bank balances comprise cash (i.e. cash on hand and demand deposits) and cash equivalents. Cash equivalents are short-term (generally with original maturity of three months or less), highly liquid investments that are readily convertible to a known amount of cash and which are subject to an insignificant risk of changes in value. Cash equivalents are held for the purpose of meeting short-term cash commitments rather for investment or other purposes.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and cash equivalents, as defined above, net of outstanding bank overdrafts which are repayable on demand and form an integral part of the Group's cash management. Such overdrafts are presented as short-term borrowings in the consolidated statement of financial position.

4.11 Recognition and derecognition of financial instruments

Financial assets and financial liabilities are recognised in the statement of financial position when the Group becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value, except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICIES (Continued)

4.12 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets. Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, FVTOCI, and FVTPL.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them.

Financial assets at amortised cost

The Group measures financial assets subsequently at amortised cost if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial recognition, these are measured at amortised cost using the effective interest method and are subject to impairment. Interest income from these financial assets is included in 'other income and gains' line item (note 6(b)).

Amortised cost and effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period.

For financial assets, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses, through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition.

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICIES (Continued)

4.12 Financial assets (Continued)

Equity instruments designated as at FVTOCI

On initial recognition, the Group may make an irrevocable election (on an instrument-by-instrument basis) to designate investments in equity instruments as at FVTOCI. Designation at FVTOCI is not permitted if the equity investment is held for trading or if it is contingent consideration recognised by an acquirer in a business combination.

Investments in equity instruments at FVTOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the financial assets at FVTOCI reserve. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the equity investments, instead, they will be transferred to retained earnings or will continue to be held in financial assets at FVTOCI reserve.

Dividends from investments in equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment. Dividends are included in the 'other income and gains/losses' line item (note 6(b)).

Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortised cost or FVTOCI are measured at FVTPL. Specifically:

- Investments in equity instruments are classified as at FVTPL, unless the Group designates an
 equity investment that is neither held for trading nor a contingent consideration arising from a
 business combination as at FVTOCI on initial recognition.
- Debt instruments that do not meet the amortised cost criteria or the FVTOCI criteria are classified as at FVTPL. In addition, debt instruments that meet either the amortised cost criteria or the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases. The Group has not designated any debt instruments as at FVTPL.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICIES (Continued)

4.13 Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognised at the proceeds received, net of direct issue costs.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method.

Financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies, and financial guarantee contracts issued by the Group, are measured in accordance with the specific accounting policies set out below.

Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not 1) contingent consideration of an acquirer in a business combination, 2) held-for-trading, or 3) designated as at FVTPL, are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

4. MATERIAL ACCOUNTING POLICIES (Continued)

4.14 Revenue from contracts from customers

Revenue is recognised to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the Group uses a five-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation.

The Group recognised revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to customers.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- The customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- The Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- The Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct goods or service.

Revenue is measured based on the consideration specified in a contract with a customer, excludes amounts collected on behalf of third parties, value added tax or other sales taxes and is after deduction of any trade discounts.

The Group recognised revenue from sales of goods.

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICIES (Continued)

4.14 Revenue from contracts from customers (Continued)

Revenue from sales of goods is recognised at a point in time when the control of the goods is transferred to the customers. Control of the goods is considered transferred to customers at the time of delivery.

Some of the Group's contracts with customers from the sales of goods provides customers a volume rebate if the customers purchase more than certain volume of product in a calendar year. The volume rebates give rise to variable consideration. The Group applies the most likely amount method to estimate the variable consideration. A refund liability would be recognised based on the estimate of the expected to be paid to customer's volume-based rebates.

In case of the existence of consideration payable to a customer in the contract, the Group accounts for consideration payable to a customer as a reduction of the transaction price and, therefore, of revenue unless the payment to the customer is in exchange for a distinct good or service. The Group recognises the reduction of revenue at the later of recognising relevant revenue and paying (or promising to pay) the consideration.

Principal versus agent

When another party is involved in providing goods or services to a customer, the Group determines whether the nature of its promise is a performance obligation to provide the specified goods or services itself (i.e. the Group is a principal) or to arrange for those goods or services to be provided by the other party (i.e. the Group is an agent).

The Group is a principal if it controls the specified good or service before that good or service is transferred to a customer.

The Group is an agent if its performance obligation is to arrange for the provision of the specified good or service by another party. In this case, the Group does not control the specified good or service provided by another party before that good or service is transferred to the customer. When the Group acts as an agent, it recognises revenue in the amount of any fee or commission to which it expects to be entitled in exchange for arranging for the specified goods or services to be provided by the other party.

4. MATERIAL ACCOUNTING POLICIES (Continued)

4.15 Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred income/a deduction from the carrying amount of the relevant asset in the consolidated statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants related to income that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

4.16 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowing pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All borrowing costs are recognised in profit or loss in the period in which they are incurred.

4. MATERIAL ACCOUNTING POLICIES (Continued)

4.17 Employee benefits

Short-term employee benefits

Short-term employee benefits are employee benefits (other than termination benefits) that are expected to be settled wholly before twelve months after the end of the annual reporting period in which the employees render the related service. Short-term employee benefits are recognised in the year when the employees render the related service.

Defined contribution retirement plan

The Group contributes to defined contribution retirement schemes which are available to all employees. Contributions to the schemes by the Group and employees are calculated as a percentage of employees' basic salaries. The retirement benefit scheme cost charged to profit or loss represents contributions payable by the Group to the funds.

Termination benefits

Termination benefits are recognised at the earlier of the dates when the Group can no longer withdraw the offer of those benefits, and when the Group recognises restructuring costs and involves the payment of termination benefits.

4.18 Equity-settled share-based payment transactions

Share options granted to employees

The fair value of services received determined by reference to the fair value of share options granted at the date of grant is recognised as an expense in full at the grant date when the share options granted vest immediately, with a corresponding increase in equity (share options reserve).

When share options are exercised, the amount previously recognised in share options reserve will be transferred to share premium. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share options reserve will be transferred to retained earnings.

Shares held under share award scheme

Own equity instruments which are repurchased and held by the Company or the Group (treasury shares) are recognised directly in equity at cost. No gain or loss is recognised in the statement of profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments.

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICIES (Continued)

4.19 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from "loss before tax" as reported in the consolidated statement of profit or loss and other comprehensive income because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of each reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of each reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of each reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority on either (i) the same taxable entity; or (ii) different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICIES (Continued)

4.19 Taxation (Continued)

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 Income Taxes requirements to right-of-use assets and lease liabilities separately. Temporary differences relating to right-of-use assets and lease liabilities are not recognised at initial recognition and over the lease terms due to application of the initial recognition exemption.

Current and deferred tax are recognised in profit or loss. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

4.20 Impairment losses on property, plant and equipment, right-of-use assets and intangible assets (other than impairment of goodwill set out in accounting policy of goodwill above)

At the end of the reporting period, the Group reviews the carrying amounts of its property, plant and equipment, right-of-use assets and intangible assets with finite useful lives to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating unit, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or the cash-generating unit) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a cash-generating unit, the Group compares the carrying amount of a group of cash-generating units, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of cash-generating units, with the recoverable amount of the group of cash-generating units. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of cash-generating units. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of cash-generating units. An impairment loss is recognised immediately in profit or loss.

4. MATERIAL ACCOUNTING POLICIES (Continued)

4.20 Impairment losses on property, plant and equipment, right-of-use assets and intangible assets (other than impairment of goodwill set out in accounting policy of goodwill above) (Continued)

Where an impairment loss subsequently reverses, the carrying amount of the asset (or the cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or the cash-generating unit) in prior years. A reversal of an impairment loss is recognised as income immediately.

4.21 Impairment of financial assets

The Group recognises a loss allowance for expected credit losses on investments in debt instruments that are measured at amortised cost or at FVTOCI. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group always recognises lifetime ECL for trade receivables. The ECL on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

Significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered includes the future prospects of the industries in which the Group's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organisations, as well as consideration of various external sources of actual and forecast economic information that relate to the Group's operations.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk for a particular debtor, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor, or the length of time or the extent to which the fair value of a financial asset has been less than its amortised cost;

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICIES (Continued)

4.21 Impairment of financial assets (Continued)

Significant increase in credit risk (Continued)

- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- significant increases in credit risk on other financial instruments of the same debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological
 environment of the debtor that results in a significant decrease in the debtor's ability to meet
 its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A financial instrument is determined to have low credit risk if i) the financial instrument has a low risk of default, ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term, and iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

The Group considers a debt instrument to have low credit risk when the asset has external credit rating of 'investment grade' in accordance with the globally understood definition or if an external rating is not available, the asset has an internal rating of 'performing'. Performing means that the counterparty has a strong financial position and there is no past due amounts.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

Definition of default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the debtor; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICIES (Continued)

4.21 Impairment of financial assets (Continued)

Definition of default (Continued)

Irrespective of the above analysis, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

Write-off policy

The Group writes off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over one year past due, whichever occurs sooner. Financial assets written-off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

4. MATERIAL ACCOUNTING POLICIES (Continued)

4.21 Impairment of financial assets (Continued)

Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date; for financial guarantee contracts, the exposure includes the amount drawn down as at the reporting date, together with any additional amounts expected to be drawn down in the future by default date determined based on historical trend, the Group's understanding of the specific future financing needs of the debtors, and other relevant forward-looking information.

For financial assets, the ECL is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate.

If the Group has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Group measures the loss allowance at an amount equal to 12-month ECL at the current reporting date, except for assets for which simplified approach was used.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

4.22 Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts issued by a group entity are initially measured at their fair values and, if not designated as at FVTPL and do not arise from a transfer of a financial asset, are subsequently measured at the higher of:

- the amount of the loss allowance determined in accordance with HKFRS 9; and
- the amount initially recognised less, where appropriate, cumulative amortisation recognised over the guarantee period.

4. MATERIAL ACCOUNTING POLICIES (Continued)

4.23 Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group has a present legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditures expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow is remote.

4.24 Fair value measurement

When measuring fair value except value-in-use of property, plant and equipment, intangible assets and right-of-use assets for the purpose of impairment assessment, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

For the year ended 31 December 2023

4. MATERIAL ACCOUNTING POLICIES (Continued)

4.24 Fair value measurement (Continued)

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. Specifically, the Group categorised the fair value measurements into three levels, based on the characteristics of inputs, as follow:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

At the end of the reporting period, the Group determines whether transfer occur between levels of the fair value hierarchy for assets and liabilities which are measured at fair value on recurring basis by reviewing their respective fair value measurement.

5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 4, the directors of the Company are required to make judgements, estimates and assumptions about the amounts of assets, liabilities, revenue and expenses reported and disclosures made in the consolidated financial statements. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

For the year ended 31 December 2023

5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

(a) Critical judgements in applying accounting policy

The following are the critical judgements, apart from those involving estimations (see below), that the directors of the Company have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised and disclosures made in the consolidated financial statements.

(i) Determining the method to estimate variable consideration and assessing the constraint for the sales of goods

Certain contracts for the sales of goods include volume rebates of approximately \$\$260,000 (2022: \$\$260,000) that give rise to variable consideration. In estimating the variable consideration, the Group is required to use either the expected value method or the most likely amount method based on which method better predicts the amount of consideration to which it will be entitled.

In estimating the variable consideration for the sales of goods with volume rebates, the Group determines that the most likely amount method is appropriate given the contracts have only two possible outcomes.

Before including any amount of revenue in the transaction price, the Group considers whether the amount of variable consideration is constrained. The Group determines that the estimates of variable consideration are not constrained based on its historical experience, business forecast and the current economic environment, as well as the uncertainty being resolved within a short period of time.

(ii) Principal versus agent consideration

The Group engages in trading of food and healthcare supplies. The Group reassessed whether the Group should continue to recognise revenue on gross basis based on the requirements in HKFRS 15. The Group concluded that the Group acts as the principal for such transactions as it controls the specified good before it is transferred to the customer after taking into consideration indicators such as that the Group is primarily responsible for fulfilling the promise to provide the goods. The Group has inventory risk and discretion in establishing selling prices of the goods.

For the year ended 31 December 2023

5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

(b) Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

(i) Allowance recognised in respect of trade receivables

The impairment provisions for trade receivables are based on assumptions about ECL. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, bases on the number of days that an individual receivable is outstanding as well as the Group's historical experience and forward-looking information at the end of the reporting period. Changes in these assumptions and estimates could materially affect the result of the assessment and it may be necessary to make additional impairment charge to the consolidated statement of profit or loss and other comprehensive income. At 31 December 2023, the carrying amount of trade receivables is approximately \$\$7,971,000 (2022: \$\$8,261,000), with accumulated impairment loss of trade receivables is approximately \$\$360,000 (2022: \$\$203,000). During the year ended 31 December 2023, impairment loss on trade receivable of approximately \$\$157,000 (2022: \$\$138,000) is recognised.

(ii) Impairment of goodwill and other intangible assets

The management of the Group performed the impairment assessment on the separate acquired intangible assets by identifying the indication of possible impairment of such intangible assets. Once identified, the management of the Group performed impairment testing, which requires an estimation of the recoverable amount of the cash-generating units to which such intangible assets have been allocated.

The management of the Group performed impairment testing annually, or if there is indication of possible impairment identified, for the goodwill.

Determining whether goodwill and other intangible assets are impaired requires an estimation of the value-in-use of the cash-generating units to which goodwill and other intangible assets have been allocated. The value-in-use calculation requires the Group to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate the present value. The future cash flow is estimated based on past performance and expectation for market development, including but not limited to the impacts of COVID-19 pandemic. As the current environment is uncertain, the estimated cash flows and discount rate are subject to higher degree of estimation uncertainty. Where the actual future cash flows are less than expected, a material impairment loss may arise. As at 31 December 2023, the carrying amounts of goodwill and other intangible assets are Nil (2022: Nil) and approximately S\$621,000 (2022: S\$721,000) respectively, with accumulated impairment losses on goodwill and other intangible assets of approximately S\$2,550,000 (2022: S\$2,550,000) and S\$4,414,000 (2022: S\$4,414,000) respectively. Details of the impairment assessment are set out in Note 17.

For the year ended 31 December 2023

5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

(b) Key sources of estimation uncertainty (Continued)

(iii) Impairment of interests in associates

The management of the Group performed impairment testing if there is indication of possible impairment identified, for the interests in associates.

Determining whether interests in associates are impaired requires an estimation of the value-in-use of the interests in associates. The value-in-use calculation requires the Group to estimate the future cash flows expected to arise from the interests in associates and a suitable discount rate in order to calculate the present value. The future cash flow is estimated based on past performance and expectation for market development, including but not limited to the impacts of COVID-19 pandemic. As the current environment is uncertain, the estimated cash flows and discount rate are subject to higher degree of estimation uncertainty. Where the actual future cash flows are less than expected, a material impairment loss may arise. As at 31 December 2023, the carrying amount of interests in associates is approximately S\$1,132,000 (2022: S\$1,631,000), with accumulated impairment losses on interests in associates of approximately S\$2,242,000 (2022: S\$1,766,000). Details of the impairment assessment are set out in Note 19.

(iv) Estimated impairment of property, plant and equipment, investment properties and right-of-use assets

Property, plant and equipment, investment properties and right-of-use assets are stated at costs less accumulated depreciation and impairment, if any. In determining whether an asset is impaired, the Group has to exercise judgement and make estimation, particularly in assessing: (1) whether an event has occurred or any indicators that may affect the asset value; (2) whether the carrying value of an asset can be supported by the recoverable amount, in the case of value-in-use, the net present value of future cash flows which are estimated based upon the continued use of the asset; and (3) the appropriate key assumptions to be applied in estimating the recoverable amounts including cash flow projections and an appropriate discount rate. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the assets belong.

The future cash flow is estimated based on past performance and expectation for market development. As the current environment is uncertain, the estimated cash flows and discount rate are subject to higher degree of estimation uncertainty. Changing the assumptions and estimates, including the discount rates or the growth rate in the cash flow projections, could materially affect the recoverable amounts.

As at 31 December 2023, the carrying amounts of property, plant and equipment, investment properties and right-of-use assets were approximately \$\$8,252,000, \$\$1,177,000 and \$\$1,985,000 (2022: \$\$8,298,000, \$\$1,238,000 and \$\$2,135,000) respectively.

For the year ended 31 December 2023

5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

(b) Key sources of estimation uncertainty (Continued)

(v) Estimated useful life of property, plant and equipment, right-of-use assets, investment properties and other intangible assets

The Group's management determines the estimated useful lives and residual values for its property, plant and equipment, right-of-use assets, investment properties and other intangible assets. This estimate is based on the historical experience of the actual useful lives of property, plant and equipment, right-of-use assets, investment properties and other intangible assets of similar nature and functions. Management will increase the depreciation/amortisation charge where useful lives are less than previously estimated lives. It will write-off or write-down technically obsolete or nonstrategic assets that have been abandoned or sold. Actual economic lives may differ from estimated useful lives; actual residual values may differ from estimated residual values. Periodic review could result in a change in depreciable lives and residual values and therefore depreciation/amortisation expense in the future periods. The carrying amounts of property, plant and equipment, right-of-use assets, investment properties and other intangible assets with finite useful life as at 31 December 2023 are approximately \$\$8,252,000, \$\$1,985,000, \$\$1,177,000 and \$\$621,000 (2022: \$\$8,298,000, \$\$2,135,000, \$\$1,238,000 and \$\$721,000) respectively.

(vi) Allowance for slow-moving inventories

Allowance for slow-moving inventories is made based on the ageing and estimated net realisable value of inventories. The assessment of the allowance amount involves judgement and estimates. Where the actual outcome in future is different from the original estimate, such difference will impact the carrying value of inventories and allowance charge/write-back in the period in which such estimate has been changed. As at 31 December 2023 the carrying amount of inventories is approximately \$\$3,642,000 (2022: \$\$3,146,000), \$\$70,000 for slow-moving inventories was made for the year ended 31 December 2023 (2022: Nil).

(vii) Income taxes

Determining income tax provisions involves judgement on the future tax treatment of certain transactions. The Group carefully evaluates tax implications of transactions and tax provisions are set up accordingly. The tax treatment of such transactions is reconsidered periodically to take into account all changes in tax legislations. Deferred tax assets are recognised for tax losses not yet used and temporary deductible differences. As those deferred tax assets can only be recognised to the extent that it is probable that future taxable profit will be available against which the unused tax credits can be utilised, management judgement is required to assess the probability of future taxable profits. Management's assessment is constantly reviewed and additional deferred tax assets are recognised if it becomes probable that future taxable profits will allow the deferred tax assets to be recovered.

For the year ended 31 December 2023

5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

(b) Key sources of estimation uncertainty (Continued)

(viii) Fair value measurement of financial assets at FVTOCI

The estimation of fair value of unlisted equity instruments includes some assumptions not supported by observable market prices or rates. As at 31 December 2023, the carrying amount of the unlisted equity instruments classified as FVTOCI was approximately \$\$3,278,000 (2022: nil). During the year ended 31 December 2023, change in fair value of financial assets at FVTOCI of approximately \$\$229,000 is recognised in other comprehensive income. The management of the Group engaged independent professional valuers as management's expert to estimate the fair values of the unlisted equity instruments. In determining the fair value, the management's expert adopted a market-based approach using the guideline transaction method in the valuation.

The valuation involves the estimates and judgments, e.g. selection of the comparable companies and certain specific assumptions in the valuation. The fair value of financial assets at FVTOCI is subject to the judgments and estimates applied by the management and the management's expert of the Group.

For the year ended 31 December 2023

6. REVENUE AND OTHER INCOME AND GAINS, NET

 (a) Revenue from contracts with customers within the scope of HKFRS 15 recognised is as follows:

	2023 S\$'000	2022 S\$'000
Sales of goods	30,765	34,694

The following table provides information about disaggregation of revenue from contracts with customers:

Timing of revenue recognition At a point in time	30,765	34,694
	30,765	34,694
Disaggregated by types of customers Ship supply customers Other wholesale and retail customers	30,448 317	30,243 4,451
	2023 S\$'000	2022 S\$'000

Transaction price allocated to the remaining performance obligations

All of the Group's remaining performance obligations for contracts with customers are for periods of one year or less. As permitted under HKFRS 15, the transaction price allocated to these unsatisfied contracts is not disclosed.

(b) An analysis of the Group's other income and gains/(losses) is as follows:

	2023 S\$'000	2022 S\$'000
Interest income	30	47
Exchange gain, net	56	72
Fair value loss on financial assets at FVTPL		(1)

Others	55	11
	539	647

Notes:

a. Government grants comprised cash subsidies from (1) government for subsidising the Group's operation; and (2) COVID-19 related job support scheme. There are no unfulfilled conditions and other contingencies affected to the receipts of those subsidies.

For the year ended 31 December 2023

7. SEGMENT INFORMATION

The Group identifies its operating segments and prepared segment information based on the regular internal financial information reported to the Group's executive directors, being the chief operating decision maker ("CODM") for the purpose of resources allocation to the Group's business components and review of these components' performance. There is only one business component in the internal reporting to the executive directors, which is the food and healthcare supplies business. The Group's assets and capital expenditure are principally attributable to this business component.

Geographical segment information

The Group's operations are located in Singapore and Hong Kong.

Information about the Group's revenue from external customers is presented based on location at which the goods are delivered. Information about the Group's non-current assets is presented based on the geographical location of the assets.

Deferred tax (Note 31)	(9)	(961)
Income tax credit	146	(509)

Pursuant to the rules and regulations of the Cayman Islands and the British Virgin Islands (the "BVI"), the Group is not subject to any taxation under the jurisdictions of the Cayman Islands and the BVI.

Singapore income tax has been provided at the rate of 17% on the estimated assessable profits for the year.

Under the two-tiered profits tax rates regime of Hong Kong Profits Tax, the first HK\$2 million of profits of qualifying corporation will be taxed at 8.25%, and profits above HK\$2 million will be taxed at 16.5%. Hong Kong profits tax of the qualified entity of the Group is calculated in accordance with the two-tiered profits tax rates regime. The profits of other Group entities in Hong Kong not qualifying for the two-tiered profits tax rates regime will continue to be taxed at the flat rate of 16.5%.

The tax credit for the year can be reconciled to the loss before tax per the consolidated statement of profit or loss and other comprehensive income as follows:

	2023 S\$'000	2022 S\$'000
Loss before tax	(925)	(9,210)

11. DIRECTORS' EMOLUMENTS AND FIVE HIGHEST PAID INDIVIDUALS (Continued)

(a) Directors' emoluments (Continued)

Notes:

- (i) Mr. Choi Wai Tong Winton resigned as the non-executive director and Mr. Tang Tsz Kin was appointed as the non-executive director of the Company with effect from 28 March 2023.
- (ii) Mr. Yim Harrison Chun Fung resigned as the independent non-executive director of the Company with effect from 1 November 2023 and Mr. Peng Xiukai was appointed as the independent non-executive director of the Company with effect from 31 January 2024.

Mr. R Gay is also the chief executive of the Company and his emoluments disclosed above include those for services rendered by him as Chief Executive.

Neither the directors nor any of the highest paid individuals waived or agreed to waive any emoluments in the years ended 31 December 2023 and 2022.

No emoluments were paid by the Group to any directors or any of the highest paid individuals of the Group as an inducement to join or upon joining the Group or as compensation for loss of office as a director of any member of the Group or of any other office in connection with the management of the affairs of any member of the Group (2022: Nil).

(b) Five highest paid individuals

Of the five individuals with the highest emoluments in the Group, two (2022: two) were directors of the Company whose emoluments are included in the disclosures in Note (a) above. The emoluments of the remaining three (2022: three) individuals were as follows:

2023	2022
S\$'000	S\$'000
382	357
18	18
35	35
435	410
	382 18 35

Their emoluments were within the following bands:

	2023 No. of employees	2022 No. of employees
Nil to HK\$1,000,000 (equivalent to Nil to S\$176,000)	3	3

For the year ended 31 December 2023

12. DIVIDENDS

No dividend was paid or proposed during the year ended 31 December 2023, nor has any dividend been proposed since the end of the reporting period (2022: Nil).

13. LOSS PER SHARE

The calculation of the basic and diluted loss per share is based on the following:

	2023 S\$'000	2022 S\$'000
Loss		
Loss attributable to owners of the Company	(1,071)	(8,701)
	2023	2022
Weighted average number of ordinary shares for the purpose of calculating basic and diluted loss per share	89,443,781	74,511,419

The diluted loss per share is the same as the basic loss per share as the computation of diluted loss per share does not assume the exercise of the Company's share options since their exercise would result in an anti-dilutive effect on loss per share for the years ended 31 December 2023 and 2022.

15. RIGHT-OF-USE ASSETS (Continued)

Lease liabilities of approximately \$\$2,202,006 (2022: \$\$2,316,000) are recognised with related right-of-use assets of approximately \$\$1,985,000 (2022: \$\$2,135,000) as at 31 December 2023. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets may not be used as security for borrowing purposes.

The Group has lease arrangements for leasehold land, office premises staff quarter and motor vehicles. The lease terms are generally ranged from 2 to 22 years (2022: 2 to 22 years).

Additions to the right-of-use assets for the year ended 31 December 2023 amounted to approximately \$\$177,000 (2022: \$\$101,000), due to new leases of motor vehicles (2022: motor vehicles).

Details of total cash outflow for leases is set out in note 42.

The fair value of the Group's investment properties as at 31 December 2023 was approximately S\$1,630,000 (2022: S\$1,560,000). The fair value has been arrived at based on a valuation carried out by an independent valuer not connected with the Group. The valuation was determined by direct comparison method based on market observable transactions of similar properties and adjusted to reflect the conditions and locations of the subject properties.

The investment properties are measured using direct comparison approach subsequent to initial recognition at fair value based on Level 3 of fair value hierarchy. Significant unobservable input used was the recent sales prices of comparable properties on a price per square feet basis.

The estimated useful lives of the investment properties are from 23 to 27 years (2022: 23 to 27 years). The investment properties are stated at cost less accumulated depreciation and any impairment loss.

As at 31 December 2023, the Group's investment properties with an aggregate net carrying amount of approximately S\$667,000 (2022: S\$701,000) have been pledged to secure banking facilities granted to the Group (Note 28).

For the purpose of impairment testing, goodwill and other intangible assets (Note 18) arising from the business combination was allocated to one individual CGU of the Group, which is included in the Group's CGU of Bright Path Group.

The recoverable amount of this CGU has been determined based on value-in-use calculation, which uses cash flow projections based on financial budgets approved by the management of the Company covering a five-year period, and a discount rate of 18.85% (2022: 19.98%). Cash flows beyond the five-year period are extrapolated using the estimated weighted average growth rate of 2.50% (2022: 2.50%) for the CGU. This growth rate is based on the relevant industry growth forecasts and does not exceed the average long-term growth rate for the relevant industry.

During the year ended 31 December 2023, nil impairment loss is recognised by the Group (2022: \$\\$2,550,000) in relation to goodwill of Bright Path Group CGU due to the unforeseen business environment in the near future. During the year ended 31 December 2022, Goodwill amounting to approximately \$\\$2,550,000 has been fully impaired and impairment amounting to approximately \$\\$4,414,000 has been allocated pro rata to other intangible assets to the extent the carrying amount of the asset is not reduced below the highest of its fair value less costs of disposal, its value in use and zero. The recoverable amount of Bright Path Group CGU amounted to approximately \$\\$676,000 as at 31 December 2023 (2022: \$\\$721,000).

Management believes that any reasonably possible change in any of these assumptions would not cause the aggregate carrying amount of CGU of Bright Path Group to exceed the aggregate recoverable amount of Bright Path Group.

The recoverable amount of interests in associates has been determined based on value-in-use calculation, which uses cash flow projections based on financial budgets approved by the management of the Company covering a five-year period, and a discount rate of 18.11% (2022: 20.03%). Cash flows beyond the five-year period are extrapolated using the estimated weighted average growth rate of 2.50% (2022: N/A) for the interests in associates. This growth rate is based on the relevant industry growth forecasts and does not exceed the average long-term growth rate for the relevant industry.

During the year ended 31 December 2023, the Group recognised an impairment loss of approximately S\$476,000 (2022: S\$1,766,000) in relation to interests in associates due to the unforeseen business environment in the near future.

Management believes that any reasonably possible change in any of these assumptions would not cause the aggregate carrying amount of interests in associates to exceed the aggregate recoverable amount of interests in associates.

Details of the Group's associates at 31 December 2023 and 2022 are as follows:

Financial assets at FVTOCI Unlisted equity investments	3,278	

The unlisted equity investment represented the Group's equity interests in an unlisted entity which is principally engaged in video game development business in Hong Kong. At 31 December 2023, the fair value of the unlisted equity instrument was derived based on market approach. The valuation was carried out by Access Partner Consultancy & Appraisals Limited, an independent firm of qualified professional value not connected with the Group.

During the year, the Group entered into an agreement with an independent third party to acquire 4.54% ownership interests in Blissful Link Investments Limited at a consideration of approximately to HK\$17,800,000 (equivalent to approximately S\$3,049,000). The consideration was settled by a promissory note issued by the Company (note 30).

As 31 December 2023, the fair value is estimated to approximately \$\$3,278,000 and a change in fair value of financial assets at FVTOCI of approximately \$\$229,000 was recognised in other comprehensive income.

As 31 December 2022, the financial assets at FVTOCI represented 15% of the entire issued share capital of an unlisted company principally engaged in dessert catering business. The business was closed down and become dormant in 2022.

The Group designated its investment in unlisted equity instruments as FVTOCI (non-recycling), as the Group intended to hold this equity investment for long term strategic purpose.

Details of fair value measurement are set out in note 44(vi).

39. SHARE OPTIONS SCHEME

The Company operates a share option scheme (the "Scheme") for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Eligible participants include (i) any Directors (whether executive or non-executive and whether independent or not) and any employee (whether full time or part time) of the Group; (ii) any consultants or advisers (in the areas of legal, technical, financial or corporate managerial) of the Group (whether on an employment or contractual or honorary basis or otherwise and whether paid or unpaid); any provider of goods and/or services to the Group; any customer of the Group; or any holder of securities issued by any member of the Group; and (iii) any other person, who at the sole discretion of the Board, has contributed to the Group. The Scheme became effective on 30 August 2017 and, unless otherwise cancelled or amended, will remain in force for 10 years from that date.

The maximum number of unexercised share options currently permitted to be granted under the Scheme is an amount equivalent, upon their exercise, to 10% of the shares of the Company in issue at any time. The maximum number of shares issuable under share options to each eligible participant in the Scheme within any 12-month period is limited to 1% of the shares of the Company in issue at any time. Any further grant of shares options in excess of this limit is subject to shareholders' approval in a general meeting.

Share options granted to a director, chief executive or substantial shareholder of the Company, or to any of their associates, are subject to approval in advance by the independent non-executive directors. In addition, any share options granted to a substantial shareholder or an independent non-executive director of the Company, or to any of their associates, in excess of 0.1% of the shares of the Company in issue at any time or with an aggregate value (based on the price of the Company's shares at the date of the grant) in excess of HK\$5 million, within any 12-month period, are subject to shareholders' approval in advance in a general meeting.

The offer of a grant of share options may be accepted within 10 days from the date of the offer. The amount payable by the grantee to the Company on acceptance of the offer shall be a nominal amount to be determined by the Board. The exercise period of the share options granted is determinable by the directors, and commences after a certain vesting period and ends on a date which is not later than five years from the date of the offer of the share options or the expiry date of the Scheme, if earlier.

The exercise price of the share options is determinable by the directors, but may not be less than the highest of (i) the Stock Exchange closing price of the Company's shares on the date of the offer of the share options; (ii) the average Stock Exchange closing price of the Company's shares for the five trading days immediately preceding the date of the offer; and (iii) the nominal value of the Company's shares on the date of the offer, when applicable.

Share options do not confer rights on the holder to dividends or to vote at shareholders' meetings.

For the year ended 31 December 2023

39. SHARE OPTIONS SCHEME (Continued)

Details of the specific categories of options are as follows:

	Date of grant	Vesting date	Exercise period	Exercise price
2022	27 June 2022	27 June 2022	27 June 2022 to 26 December 2023	0.71

Details of the movement of share options during the year are as follows:

Exercisable at the end of the year	_	_	1,580,000		0.71	

As at 31 December 2023, no share option was granted and exercised, and all outstanding share options were expired during the year.

The weighted average share price at the date of exercise for share options exercised during the year was Nil (2022: HK\$0.71). In 2022, options were granted on 27 June 2022. The estimated fair value of the options on this date is HK\$1,732,000 (equivalent to approximately S\$309,000).

For the year ended 31 December 2023

39. SHARE OPTIONS SCHEME (Continued)

These fair values were calculated using the Binominal Option Pricing Model. The inputs into the model are as follows:

	2023	2022
Weighted average share price (HK\$)	_	0.63
Weighted average exercise price (HK\$)	_	0.71
Expected volatility	_	151.40%
Expected life (years)	_	1.499
Risk free rate	_	2.42%
Expected dividend yield	-	0%

Expected volatility was determined by calculating the historical volatility of the Company's share price over the previous 1.5 years. The expected life used in the model has been adjusted, based on the Group's best estimate, for the effects of non-transferability, exercise restrictions and behavioural considerations.

The Group recognised the total expense of approximately HK\$1,732,000 (equivalent to approximately S\$309,000) for the year ended 31 December 2022 in relation to share options granted by the Company.

40. SHARE AWARD PLAN

On 14 September 2021, the Company adopted the share award plan (the "Plan") in which the Group's employees (whether full time or part time, but excluding directors), providers of goods and/or services, customers, consultants, advisers of the Group or any invested entity, and holders of securities issued by any member of the Group will be entitled to participate (the "Eligible Participant(s)").

The objectives of the Plan are to (i) recognize and reward the contribution of certain Eligible Participants to the growth and development of the Group through an award of shares and to give incentives thereto in order to retain them for the continual operation and development of the Group; and (ii) attract and remain suitable personnel for further development of the Group.

For the year ended 31 December 2023

40. SHARE AWARD PLAN (Continued)

The Plan shall be subject to the administration of the Board and the trustee in accordance with the plan rules and the trust deed of the Plan. The Plan will be valid and effective from the adoption date (i.e. 14 September 2021) and will terminate on the earlier of (i) the tenth anniversary date of the adoption date; and (ii) such date of early termination as determined by the Board provided that such termination will not affect any subsisting rights of any Selected Participant under the Plan.

The maximum number of share to be subscribed for and/or purchased by the Trustee by applying Trust Fund for each calendar year for the purpose of the Plan shall not exceed 10% of the total number of issued shares as at the beginning of such calendar year subject to adjustment in the event of capitalisation issue or right issue. The Directors shall not instruct the Trustee to subscribe and/or purchase any shares for the purpose of the Plan when such subscription and/or purchase will result in the said limit being exceeded. The maximum number of shares which may be awarded to a Selected Participant under the Plan, shall not exceed 1% of the total number of issued shares during any 12-month period.

During the year ended 31 December 2022, a sum of approximately HK\$4,556,000 (equivalent to approximately S\$791,000) has been used to acquire 5,795,000 shares from the market by the trustee of the Plan. The amount paid on the repurchase of these shares was debited to the shares held under the shares held under share award scheme account.

As at 31 December 2023, no shares have been granted under the Plan.

41. MAJOR NON-CASH TRANSACTIONS

During the year ended 31 December 2023, the Group has following major non-cash transactions:

- a. During the year, the Group entered into certain lease contracts in which additions to right-of-use assets and lease liabilities amounting to approximately S\$177,000 (2022: S\$101,000) was recognised at the lease commencement date respectively.
- b. During the year, the Group entered into an agreement with an independent third party to acquire 4.54% ownership interests in Blissful Link Investments Limited at a consideration of approximately to HK\$17,800,000 (equivalent to approximately \$\$3,049,000). The consideration was settled by a promissory note issued by the Company (note 30).

44. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group is exposed to a variety of financial risks in the normal course of business. The Group does not have written risk management policies and guidelines. However, the directors meet periodically to analyse and formulate strategies to manage the Group's exposure to market risks (specifically to foreign currency risk, interest rate risk and other price risk), credit risk and liquidity risk. Generally, the Group utilises conservative strategies on its risk management. The Group's exposure to market risk is kept to minimum. The Group has not used any derivatives or other instruments for hedging purposes. The Group does not hold or issue derivative financial instruments for trading purposes. The directors review and agree policies for managing each of these risks and they are summarised below.

For the year ended 31 December 2023

44. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

(i) Foreign currency risk

The Group operates in Singapore and Hong Kong with most of the transactions denominated and settled in S\$, HK\$, RM, EUR and US\$. No foreign currency risk has been identified for the financial assets and financial liabilities denominated in S\$ and HK\$/US\$, which are the functional currencies of the subsidiaries in Singapore and Hong Kong to which these transactions relate.

The Group currently does not have a foreign exchange hedging policy. However, the management of the Group monitors foreign exchange exposure and will consider hedging significant foreign exchange exposure should the need arise.

The following table indicates the approximate effect on the result for the year in response to reasonably possible changes in the foreign exchange rates, with all other variables held constant, to which the Group has significant exposure at the end of the reporting period. The appreciation and depreciation of 4% in S\$ exchange rate against foreign currencies represents management's assessment of a reasonably possible change in currency exchange rate over the year.

	Loss for the year (decrease)/increase by			
	2023	2022

Appreciation by 4%	(7)	(6)		
Depreciation by 4%	7	6		
EUR to S\$				
Appreciation by 4%	<u>-</u> -	(6)		
Depreciation by 4%	_	6		

The measures to manage foreign currency risk have since prior years and are considered to be effective.

For the year ended 31 December 2023

44. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

(ii) Interest rate risk

The Group is exposed to fair value interest rate risk in relation to fixed-rate promissory notes (Note 30). The Group currently does not have any interest rate hedging policy. However, the management monitors interest rate exposure and will consider other necessary actions when significant interest rate exposure is anticipated.

The Group is exposed to cash flow interest rate risk in relation to variable-rate cash and cash equivalents (Note 25) and bank borrowings (Note 28). It is the Group's policy to keep its borrowings at floating rate of interest so as to minimise the fair value interest rate risk.

At 31 December 2023, it is estimated that a general increase/decrease of 50 basis points in interest rates, with all other variables held constant, would increase/decrease the Group's loss for the year (through the impact on the Group's bank borrowings which are subject to floating interest rate) by approximately S\$23,000 (2022: S\$24,000). No impact would be on other components of consolidated equity in response to the general increase/decrease in interest rates.

The sensitivity analysis as above has been determined assuming that the change in interest rates had occurred at the reporting date and had been applied to the exposure to interest rate risk for financial instruments in existence at that date. The 50 basis point increase or decrease represents the management's assessment of a reasonably possible change in interest rates over the period until the next annual reporting date.

(iii) Credit risk

As at 31 December 2023, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from the carrying amount of respective financial assets as stated in the consolidated statement of financial position.

The credit risk of our Group mainly arises from cash and cash equivalents and trade and other receivables. The carrying amounts of these balances represent our Group's maximum exposure to credit risk in relation to financial assets.

The objective of the Group's measures to manage credit risk is to control potential exposure to recoverability problem. Most of the Group's cash and cash equivalents are held in major reputable financial institutions, which management believes are of high credit quality.

For the year ended 31 December 2023

44. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

(iii) Credit risk (Continued)

The Group has a certain concentration of credit risk with respect to trade receivables. As at 31 December 2023, the Group's trade receivables due from five largest customers amounting to approximately \$\$3,543,000 (2022: \$\$3,438,000) represents 44% (2022: 42%) of trade receivables. These customers have a good settlement record and reputation.

For trade receivables, the Group has applied the simplified approach in HKFRS 9 to measure the loss allowance at lifetime ECL. The Group determines the ECL on an individual basis for customer with significant balances by using a provision matrix, estimated based on historical credit loss experience, as well as the general economic conditions of the industry in which the debtors operate. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

The Group recognised lifetime ECL for trade receivables based on individually significant customer or the ageing of customers collectively that are not individually significant as follows:

2023

	Expected loss rate %	Gross carrying amount S\$'000	Loss allowance S\$'000	Net carrying amount S\$'000
Neither past due nor impaired	1.7	2,851	(50)	2,801
1 to 30 days past due	1.7	2,339	(41)	2,298

Expected loss rates are based on actual loss experience over the past 3 years. These rates are adjusted to reflect differences between economic conditions during the period over which the historic data has been collected, current conditions and the Group's view of economic conditions over the expected lives of the receivables.

For deposits and other receivables, management makes periodic as individual assessment on the recoverability based on historical settlement records, past experience, and also available reasonable and supportive forward-looking information. The management believes that there is no material credit risk inherent in the Group's outstanding balance of deposits and other receivables.

The credit risk for bank balances is considered not material as such amounts are placed in reputable banks with high credit ratings assigned by international credit-rating agencies. There has been no recent history of default in relation to these banks and thus the risk of default is regard as low.

No significant changes to estimation techniques or assumptions were made during the year.

For the year ended 31 December 2023

44. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

(iii) Credit risk (Continued)

At each reporting date, the Group's trade receivables are individually determined for impairment testing. At 31 December 2023, the Group's trade receivables that were neither past due nor impaired for whom there was no recent history of default. The Group's management considers that trade receivables that were past due but not impaired under review are of good credit quality. Based on past experience, management believes that no impairment is necessary in respect of these balances as there has not been a significant change in credit quality and the balances are considered fully recoverable. The Group does not hold any collateral in respect of trade receivables past due but not impaired. When the Group is satisfied that recovery of trade receivables is remote, the amount considered irrecoverable is written off against trade receivables directly.

Movement in the loss allowance account in respect of trade receivables during the year is as follows:

	2023	2022
	S\$ '000	S\$'000
Balance at 1 January	203	65
Impairment losses recognised (Note 10)	157	138
Balance at 31 December	360	203

(iv) Liquidity risk

Liquidity risk relates to the risk that the Group will not be able to meet its obligations associated with its financial liabilities. The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank borrowings, also regularly monitor its liquidity requirements, its compliance with lending covenants and its relationship with its bankers to ensure that it maintains sufficient reserves of cash and adequate committed lines of funding from major financial institutions to meet its liquidity requirements in the short and longer term. The Group's liquidity position is monitored on a daily basis by management.

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The maturity dates for non-derivative financial liabilities are based on the agreed repayment dates.

The table includes both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curve at the end of the reporting period.

(v) Other price risk

Other price risk relates to the risk that the fair values or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than changes in interest rates and foreign exchange rates). The Group is mainly exposed to change in market prices of listed equity securities in respect of its investments in listed equity classified as financial assets at FVTPL. The management will monitor the price movements and take appropriate actions when it is required.

The sensitivity analyses below have been determined based on the exposure to equity price risks at the end of the reporting period. If the prices of the respective equity instruments had been 10% (2022: 10%) higher/lower, post-tax loss for the year ended 31 December 2023 would decrease/increase by approximately S\$2,000 (2022: S\$1,000) as a result of the changes in fair value of financial assets at FVTPL.

(vi) Fair value measurements (Continued)

Note:

- (a) The listed equity securities are denominated in HK\$. Fair values have been determined by reference to their quoted bid prices at the reporting date.
- (b) The fair value of unlisted equity instruments classified as financial assets at FVTOCI measured using a market-based approach.

The fair values of the unlisted equity instruments were determined using a market-based approach using the guideline transaction method in the valuation. The significant unobservable inputs included changes in market capitalisation of comparable companies. The higher the changes, the higher will be the fair value.

The Group engaged an independent professional valuer to perform valuation of these investments where quoted market prices are not available. The management of the Group will discuss with the valuer on the valuation assumptions and valuation results once a year when the valuation is performed for annual financial reporting.

Reconciliation of Level 3 fair value measurements of financial assets at FVTOCI and on recurring basis:

As at 1 January 2022, 31 December 2022 and 1 January 2023	-

Changes in fair value	229

As at 31 December 2023

(vii) Fair value measurement objective and policies

The fair values of financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices or rates from observable current market transactions as input.

45. CAPITAL MANAGEMENT

The Group's objective of managing capital is to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce cost of capital. The Group's overall strategy remains unchanged from prior year.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debts. The capital structure of the Group consists of debts, which includes the bank borrowings (Note 28), lease liabilities (Note 29), promissory notes (Note 30), cash and cash equivalents (Note 25) and total equity, comprising share capital (Note 32) and reserves (Note 33). The Group's risk management reviews the capital structure on a semi-annual basis. As part of this review, management considers the cost of capital and the risks associated with each class of capital.
