Last but not least, I would like to express my gratitude to our customers and shareholders for their steadfast support and trust and also thank the Directors, senior management and staff for their unremitting efforts and contribution.

By order of the Board

**Zhang Xiaobo** Chairman

Shanghai, the PRC, 21 March 2025

### **DIVIDENDS**

The Directors do not recommend the payment of any dividends in respect of the year ended 31 December 2024.

### RESULTS

For the year ended 31 December 2024, the Group recorded a turnover of approximately RMB56,471,731.84 (2023: approximately RMB42,661,494.19), representing an increase of RMB13,810,237.65 or 32.37% as compared to last year. The Group recorded a loss of RMB2,688,988.48 for the year ended 31 December 2024, while a loss for the year ended 31 December 2023 was RMB6,989,010.94.

### **BUSINESS REVIEW AND FUTURE PROSPECTS**

For the entire financial year under review ended 31 December 2024, the total revenue of the Group increased from RMB42,661,494.19 to RMB56,471,731.84. The increase of RMB13,810,237.65 in revenue represents an increase of 32.37% of the Group's total revenue as compared with that for 2023. The Group recorded a loss before tax of RMB6,995,713.22 for the previous year and a loss before tax of RMB2,669,975.00 during the year.

Revenue of the main business was mainly generated from business solutions and application software business, which accounted for 60.63% of the total operating income (or RMB34,239,827.06), and, to a lesser extent, from installation and maintenance of network and data security products, which accounted for 35.86% of the total operating income (or RMB20,253,165.28), followed by sales of electrical products and fittings which accounted for 2.20% of the total operating income (or RMB1,242,246.63). These business segments remain the core services and products for the Company in the past and also for the future.

Revenue of business application solutions and application software increased by RMB12,602,246.15 from RMB21,637,580.91 for the previous year, representing an increase of 58.24%. The increase was mainly due to an increase in intelligent building integration projects during the year.

Revenue from the installation and maintenance of network and data security products increased by RMB2,157,578.11 from the previous year of RMB18,095,587.17, representing an increase of 11.92%. The increase was mainly due to an increase of maintenance projects during the year.

Revenue of sales of electronic products and accessories decreased by RMB124,093.67 from RMB1,366,340.30 for the previous year, representing a decrease of 9.08%. The decrease was mainly due to the net method of accounting for goods sold resulted in a simultaneous reduction in the cost of revenue.

The gross profit of the main business increased from RMB11,417,884.99 for the previous year to RMB19,375,357.05, representing an increase of RMB7,957,472.06 or 69.69%. The gross profit margin of the main business increased from 27.78% for the previous financial year to 34.76% for the current year.

Other revenue decreased by RMB825,492.94 to RMB736,492.87 for the current year from RMB1,561,985.81 for the previous year, representing a decrease of 52.85%.

The share of profits of associates amounted to RMB416,931.10 for the current year as compared to the profit of RMB947,316.97 for the previous year, representing a decrease of RMB530,385.87.

Selling expenses decreased by RMB181,389.16 from RMB4,708,455.61 for the previous year to RMB4,527,066.45 for the current year.

### LIQUIDITY, FINANCIAL RESOURCES AND CAPITAL STRUCTURE

As at 31 December 2024, shareholders' funds of the Group amounted to approximately RMB15,987,472.90 (2023: RMB18,767,906.96). Current assets amounted to approximately RMB40,388,563.32 (2023: RMB24,826,693.21), of which approximately RMB22,113,514.78 (2023: RMB17,869,475.62) were cash and bank balances. The Group had non-current liabilities amounting to approximately RMB0 (2023: RMB324,887.08), and its current liabilities amounted to approximately RMB36,877,553.02 (2023: RMB20,306,505.41), which mainly comprised other payables and accrued expenses. The Group did not have any long-term debts.

### WORKING CAPITAL RATIO AND GEARING RATIO

As at 31 December 2024, the Group had a net cash position and its working capital ratio (current assets divided by current liabilities) was 1.10 (2023: 1.22), and its gearing ratio (liabilities divided by total assets) was approximately 69.76% (2023: 52.36%).

He joined Jiaoda Withub as manager of Storage Division in 2011 and was appointed as a chief technology officer of the Intelligent Internet of Things department by the Company in 2019.

# **Report of the Supervisory Committee**

#### To All Shareholders,

上海交大慧谷信息產業股份有限公司 (Shanghai Jiaoda Withub Information Industrial Company Limited\*) has complied with the Company Law of the PRC during the year ended 31 December 2024, requirements of the relevant laws and regulations of Hong Kong and the Articles of Association of the Company, exercised conscientiously its authority, safeguarded the interests of the shareholders and the Company, followed the principles of honesty and trustworthiness and worked cautiously and diligently.

During the year we carefully reviewed the use of the proceeds raised in strict compliance with the plan of use of proceeds disclosed in the prospectus of the Company dated 25 July 2002 for the listing of the Company's H shares on the GEM. We provided reasonable suggestions and advice on the operations and development plans of the Company to the Board and strictly and effectively monitored whether the policies and decisions made by the management of the Company had conformed with the state laws and regulations and the Articles of Association of the Company (the "Articles of Association") or safeguarded the interests of shareholders.

After investigation, we consider that the financial statements of the Group and of the Company, audited by ShineWing Certified Public Accountants (Special General Partnership), truly and fairly reflect the operating results of the Group and asset positions of the Group and of the Company. We also reviewed the Report of the Directors and profit distribution proposal. We consider that the aforesaid report and proposal meet the requirements of the relevant regulations and articles of the Company. We have attended the meeting of the Board. We consider that the members of the Board, the general manager and other officers have strictly complied with the principles of honesty and trustworthiness, worked diligently and sincerely acted in the best interests of the Group. None of the Directors, the general manager and the officers have abused their authorities, caused damage to the interests of the Group and infringed upon the interests of the Group and its staff, nor have they violated any laws, regulations or the Company's Articles of Association.

We are satisfied with the various tasks achieved by the Company as well as the cost-effectiveness gained in 2024 and are confident about the prospects and future development of the Group.

#### Supervisory Committee

Shanghai, the PRC, 21 March 2025

The Company is committed to the principles of corporate governance and corporate responsibility consistent with prudent management. The Board believes that such commitment will in the long term serve to enhance the Shareholders' value. The Company has applied the principles and adopted all code provisions, where applicable, as set out in the Corporate Governance Code (the "CG Code") as contained in Appendix C1 to the Rules Governing the GEM Listing Rules as its own the CG code.

Save as disclosed below, the Company has complied with all the code provisions in the CG Code during the Current Period except the following deviation:

Under code provision C.2.1 of the Code, the roles of the Chairman and the Chief Executive (the "CE") should be separated and should not be performed by the same individual. The division of responsibilities between the chairman and the CE should be clearly established and set out in writing. Mr. Zhang Xiaobo was appointed as an executive Director and Chairman from 4 September 2023. The Chairman focuses on the business strategy and direction of the Company and has executive responsibilities, provides leadership for the Board and ensures proper and effective functioning of the Board in discharging of its responsibilities. The CE is accountable to the Board for the overall implementation of the Company's strategies and the coordination of overall business operations.

Mr. Zhang Xiaobo ("Mr. Zhang") was appointed as the CE of the Company on 30 August 2024. Under the current organization structure of the Company, Mr. Zhang is our Chairman and the CE. With his extensive experience in the industry, the Directors believe that vesting the roles of both Chairman and the CE in the same person provides the Company with strong and consistent leadership, allowing effective and efficient planning and implementation of business decisions and strategies, and is beneficial to the business prospects and management of the Group. Although Mr. Zhang performs both the roles of Chairman and the CE, the division of responsibilities between the Chairman and the CE is clearly established. Further, the current structure does not impair the balance of power and authority between the Board and management of the independent non-executive Directors.

# CODE OF CONDUCT REGARDING SECURITIES TRANSACTIONS BY THE DIRECTORS AND SUPERVISORS

The Company had adopted a code of conduct regarding securities transactions by the Directors and supervisors on terms no less exacting than the standard of dealings in Rules 5.48 to 5.67 of the GEM Listing Rules. The Company had made specific enquiries of all Directors and supervisors and the Company was not aware of any non-compliance with the Stock Exchange's required standard of dealings and its code of conduct regarding securities transactions by the Directors and supervisors during the year.

#### **BOARD OF DIRECTORS**

The Board comprises eight Directors, of whom five are executive Directors and three are independent nonexecutive Directors. Details of backgrounds and qualifications of the chairman of the Company and the other Directors are set out in the pages 9 to 14 of the annual report. The participation of independent non-executive Directors in the Board brings independent judgement on issues relating to the Group's strategy, performance, conflicts of interest and management process to ensure that the interests of all shareholders of the Company have been duly considered.

The Company did not enter into any service contract with its executive Directors and independent nonexecutive Directors. However, according to article 98 of the Articles of Association, the terms of the Directors shall be three years. Upon the expiry of the term, the Directors shall be eligible for re-election at the annual general meeting of the Company. Therefore, the terms of the independent non-executive Directors of (i) Mr. Yuan Shumin commenced from 22 June 2022 to 21 June 2025; (ii) Mr. Liu Feng commenced from 24 June 2024 to 23 June 2027 and (iii) Mr. Zhou Guolai commenced from 7 July 2022 to 6 July 2025.

The Board considers that all of the independent non-executive Directors are independent and it has received from each of them the annual confirmation of independence required by the GEM Listing Rules.

The Board is responsible for the leadership and control of the Company and also approve business plans, evaluate the performance of the Group and oversight of management. The Board focuses on overall strategies and policies with particular attention paid to the growth and financial performance of the Group.

The Board delegates day-to-day operations of the Group to executive Directors and senior management, while reserving certain key matters for its approval. When the Board delegates aspects of its management and administration functions to the management, it has given clear directions as to the powers of the management, in particular, with respect to the circumstances where the management shall report back and obtain prior approval from the Board before making decisions or entering into any commitments on behalf of the Company.

The Board held four board meetings during the year ended 31 December 2024. Details of the attendance of the Board are as follows:

Board Meetings		Number of attendance
Mr. Zhang Xiaobo	(Chairman)	4/4
Mr. Shuai Ge	(Vice Chairman)	4/4
Ms. Cao Zhen	(Resigned on 30 August 2024)	2/2
Mr. Sun Jingchen		4/4
Mr. Hu Lunjie		4/4
Ms. Gu Xiaomin		4/4

The Directors will receive details of agenda items for decision and minutes of committee meetings in advance of each board meeting.

During the year ended 31 December 2024, the Company held one annual general meeting on 20 June 2024.

Name of Directors		Number of attendance
Mr. Zhang Xiaobo	(Chairman)	1/1
Mr. Shuai Ge	(Vice Chairman)	1/1
Ms. Cao Zhen	(Resigned on 30 August 2024)	1/1
Mr. Sun Jingchen		1/1
Mr. Hu Lunjie		1/1
Ms. Gu Xiaomin		1/1

### **DIRECTORS' TRAINING**

According to the code provision C.1.4 of the CG Code, all directors shall participate in a programme of continuous professional development to develop and refresh their knowledge and skills to ensure that their contribution to the board remains informed and relevant. The Company shall be responsible for arranging and funding training, and place appropriate emphasis on the roles, functions and duties of the Directors.

For the year ended 31 December 2024, the Directors participated in the following continuous professional development:

		Training organized by professional
Name of Directors		organization
Executive Directors		
Mr. Zhang Xiaobo	(Chairman)	~
Mr. Shuai Ge	(Vice Chairman)	~
Ms. Cao Zhen	(Resigned on 30 August 2024)	~
Mr. Hu Lunjie		~
Ms. Gu Xiaomin		~
Mr. Sun Jingchen		V
Independent Non-executive Dir	ectors	
Mr. Yuan Shumin		~
Mr. Liu Feng		~
Mr. Zhou Guolai		<b>v</b>

Note: The Company received from each of the Directors the confirmations on taking continuous professional training.

### CHAIRMAN AND THE CHIEF EXECUTIVE

In order to maintain the transparency and independence of the corporate governance, the roles of the Chairman, Vice Chairman and the CE are segregated and assumed by those separate individuals who have no relationship with each other to strike a balance of power and authority so that the job responsibilities are not concentrated on any one individual. The Chairman of the Board is responsible for the leadership and effective running of the Board, the Vice Chairman is responsible for the overall business planning of the Group, while the Chief Executive is delegated with the authorities to manage the business of the Group in all aspects effectively. The division of responsibilities among the Chairman, Vice Chairman and the CE have been clearly established and set out in writing.

Under the current organization structure of the Company, Mr. Zhang Xiaobo is our Chairman and the CE. With his extensive experience in the industry, the Directors believe that vesting the roles of both Chairman and the CE in the same person provides the Company with strong and consistent leadership, allowing effective and efficient planning and implementation of business decisions and strategies, and is beneficial to the business prospects and management of the Group. Although Mr. Zhang performs both the roles of Chairman and the CE, the division of responsibilities between the Chairman and the CE is clearly established. Further, the current structure does not impair the balance of power and authority between the Board and management of the Company given the appropriate delegation of the power of the Board and the effective functions of the independent non-executive Directors.

### INDEPENDENCE OF INDEPENDENT NON-EXECUTIVE DIRECTORS

In compliance with the Rules 5.05(1) and 5.05A of the GEM Listing Rules, there are three independent non-executive Directors representing one-third of the Board. Among the three independent non-executive Directors, one of them has appropriate professional qualifications in accounting or relevant financial management expertise as required by the Rule 5.05(2) of the GEM Listing Rules. The independent non-executive Directors bring independent judgment on issues of strategy, performance and risk. The Company has received from each of the independent non-executive Directors written confirmations of their independence pursuant to the Rule 5.09 of the GEM Listing Rules. Based upon the said confirmations, the Board considers that all the independent non-executive Directors are independent.

### AUDIT COMMITTEE

The audit committee of the Company (the "Audit Committee") was established on 7 July 2002 with written terms of reference. The financial reporting system, risk management and internal control systems of the Company have also been reviewed by the Audit Committee, which was of the opinion that no improvement was required for the time being.

The Audit Committee comprises three independent non-executive Directors, Mr. Yuan Shumin (Chairman), Mr. Liu Feng and Mr. Zhou Guolai.

The Audit Committee held two meetings during the year. The attendance records of the Audit Committee meetings during the year ended 31 December 2024 are as follows:

Meetings of Audit Committee		Number of attendance
Mr. Yuan Shumin	(Chairman)	2/2
Mr. Liu Feng		2/2
Mr. Zhou Guolai		2/2

The Group's unaudited quarterly and interim results and audited annual results during the year ended 31 December 2024 have been reviewed by the Audit Committee, which was of the opinion that the preparation of such results complied with the applicable accounting standards and requirements and that adequate disclosures have been made.

### **REMUNERATION COMMITTEE**

The remuneration committee of the Company (the "Remuneration Committee") was established on 7 July 2005 with written terms of reference and comprising a total of four members, being one executive Director, namely, Mr. Zhang Xiaobo and three independent non-executive Directors, namely, Mr. Yuan Shumin (Chairman), Mr. Liu Feng and Mr. Zhou Guolai.

The role and function of the Remuneration Committee include the determination of the remuneration package of all Directors and senior management of the Company. The principal elements of the remuneration packages may include basic salary, discretionary bonus and share option. The determined guidelines are based on their skills, knowledge and involvement in the Company's affairs and which are determined by reference to the Company's performance and profitability, as well as remuneration benchmark in the industry and the prevailing market conditions and to review and/or approve matters reflecting chapter 23 of the Listing Rules in relation to the Share Scheme.

The Remuneration Committee consults the Chairman and Chief Executive about its proposals related to the remuneration of the Directors and senior management of the Company. The Remuneration Committee held one meeting during the year. The attendance records of the Remuneration Committee meeting during the year ended 31 December 2024 are as follows:

Meetings of Remuneration Committee		Number of attendance
Mr. Yuan Shumin	(Chairman)	1/1
Mr. Zhang Xiaobo		1/1
Mr. Liu Feng		1/1
Mr. Zhou Guolai		1/1

For the year ended 31 December 2024, the remuneration of the senior management of the Company falls within the following bands.

Remuneration bands (RMB)	Number of senior management

1

#### Nil to 1,000,000

#### **Directors' Remuneration Policy**

A directors' remuneration policy has been adopted. It aims to set out the Company's policy in respect of remuneration paid to executive Directors and non-executive Directors.

The Directors' remuneration policy sets out the remuneration structure that allows the Company to attract, motivate and retain qualified Directors who can manage and lead the Company in achieving its strategic objective and contribute to the Company's performance and sustainable growth, and to provide Directors with a balanced and competitive remuneration. The remuneration policy is, therefore, aiming at being competitive but not excessive. To achieve this, remuneration package is determined with efference to a matrix of factors, including the individual performance, qualification and experience of Directors concerned and prevailing industry practice. It will be reviewed and, if necessary, updated from time to time to ensure its continued effectiveness.

### NOMINATION COMMITTEE

On 20 March 2012, the Company established the nomination committee of the Company (the "Nomination Committee") with clear written terms of reference as to its authority and duties. The Nomination Committee consists of three members, being one executive Director, namely, Mr. Zhang Xiaobo (Chairman), and two independent non-executive Directors, namely, Mr. Yuan Shumin and Mr. Liu Feng. Accordingly, a majority of the members are independent non-executive Directors.

The Nomination Committee is responsible for electing and recommending candidates for directorship, based on assessment of their professional qualifications and experience and also for assessing the independence of each independent non-executive Director.

The Nomination Committee held one meeting during the year. The attendance records of the Nomination Committee meeting during the year ended 31 December 2024 are as follows:

Meetings of Nomination Committee		Number of attendance
Mr. Zhang Xiaobo Mr. Yuan Shumin	(Chairman)	1/1 1/1
Mr. Liu Feng		1/1

#### **Board Diversity Policy**

The Nomination Committee adopted the board diversity policy on 8 August 2013.

The Company recognises and embraces the benefits of having a diverse Board to enhance the quality of its performance. Selection of candidates will be based on a range of diversity perspectives, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service. The ultimate decision will be based on merit and contribution that the selected candidates will bring to the Board.

#### **Nomination Policy**

The Board has adopted the nomination policy (the "Nomination Policy") on 9 November 2018 which sets out the nomination criteria and procedures for the Company to select candidate(s) for possible inclusion in the Board. The Nomination Policy could assist the Company to achieve board diversity in the Company and enhance the effectiveness of the Board and its corporate governance standard.

When assessing the suitability of a candidate, factors such as the qualifications, skills, integrity and experience will be taken into consideration as a whole. In the case of independent non-executive Directors, they must further satisfy the independence criteria set out within Rule 5.09 of the Listing Rules. Since the selection of candidates should ensure that diversity remains a central feature of the Board, a range of diverse perspectives, including but not limited to gender, age, cultural and educational background, or professional experience would be considered.

#### **Board Independence**

The Board should establish mechanisms to ensure independent views and input are available to the Board and such mechanisms should be reviewed annually by the Board. During the year, the Board has reviewed the implementation and effectiveness of such mechanisms and made the following observations:

- (a) Three out of nine Directors are INEDs, satisfying the requirement of the Listing Rules that at least onethird of the Board are INEDs;
- (b) INEDs are encouraged to join Board committees to ensure independent views are available at committee levels;
- (c) The nomination committee will assess the independence of a candidate who is nominated to be a new INED before appointment. The nomination committee will also assess the continued independence of the long-serving INEDs on an annual basis;
- (d) Each INED is required to inform the Company as soon as practicable if there is any change in his/her own personal particulars that may materially affect his/her independence;
- (e) All INEDs are required to submit a written confirmation to the Company annually to confirm their independence;
- (f) All Directors are encouraged to seek further information and documentation from the management on the matters to be discussed at or outside Board and Board committee meetings;
- (g) All Directors are aware of their right to seek assistance from the Company's management and company secretary and, where necessary, to seek independent advice from external professional

advisers at the Company's expense;

- (h) All Directors are encouraged to express their views in an open and candid manner at or outside Board and Board committee meetings; and
- (i) All Directors are reminded at Board and Board committee meetings to disclose any material interest in contract, transaction or arrangement and where such material interest does exist, shall abstain from voting and not be counted in the quorum on any Board or committee resolution approving the same.

The process to identify potential candidates for the Board would be as follows:

- identifying potential candidates, including recommendations from the Board members, professional search firms and the shareholders of the Company;
- (2) evaluating the candidates based on the approved selection criteria through methods such as reviewing the resume and conducting the background checks;
- (3) reviewing the profiles of the shortlisted candidates and interview them; and
- (4) making recommendations to the Board on the selected candidates.

The Nomination Policy also includes the Board succession plan to assess whether vacancies on the Board would be created or expected due to the Directors' resignation, retirement, death and other circumstances and to identify candidates in advance if necessary. The Nomination Policy will be reviewed on a regular basis.

#### **CORPORATE GOVERNANCE FUNCTIONS**

The terms of reference on corporate governance functions was adopted by the Board on 20 March 2012. The Board is responsible for performing the corporate governance functions to develop and review the Company's policies and practices on corporate governance and make recommendations; to review and monitor the training and continuous professional development of Directors and senior management; to review and monitor the Company's policies and practices on compliance with legal and regulatory requirements; to develop, review and monitor the code of conduct and compliance manual (if any) applicable to employees and Directors; and to review the Company's compliance with the "Corporate Governance Code and Corporate Governance Report" as set out in Appendix C1 of the GEM Listing Rules and disclosure in the Corporate Governance Report contained in the annual report of the Company.

### AUDITOR'S REMUNERATION

An amount of RMB360,000.00 was charged to the Group's consolidated income statement and income statement for the year ended 31 December 2024 for the auditing services provided by ShineWing Certified Public Accountants (Special General Partnership), the existing auditor of the Company. During the year, the amount charged in respect of non-auditing services provided by ShineWing Certified Public Accountants (Special General Partnership) was RMB0.00.

### DIRECTORS' RESPONSIBILITIES FOR FINANCIAL STATEMENTS

#### **Annual Report and Financial Statements**

The Directors acknowledge their responsibilities to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Group and in presenting the quarterly and annual financial statements, and announcements to shareholders. The Directors aim to present a balanced and understandable assessment of the Group position and prospects.

#### **Accounting Period**

The Directors consider that in preparing the financial statements, the Group uses appropriate accounting policies that are consistently applied, and that all applicable accounting standards are followed.

#### **Accounting Records**

The Directors are responsible for ensuring that the Group keeps accounting records which disclose with reasonable accuracy the financial position of the Group and which enable the preparation of financial statements in accordance with the Hong Kong Companies Ordinance and the applicable accounting standards.

#### **Going Concern**

The Directors, having made appropriate enquiries, consider that the Group has adequate resources to continue in operational existence for the foreseeable future and that, for this reason, is appropriate to adopt the going concern basis in preparing the financial statements.

### THE COMPANY SECRETARY

After entering into the service contracts by the Company and the external service providers, Ms. Ho Wing Yan ("Ms. Ho") has been appointed as the company secretary of the Company (the "Company Secretary"). Mr. Zhang Xiaobo, our executive Director, is the main contact person of Ms. Ho at the Company when she fulfills her duties.

As the Company Secretary, Ms. Ho supports the Board to ensure a smooth exchange of information within the members of the Board and that the policies and procedures of the Board are followed. She is responsible for advising the Board on corporate governance matters and making arrangements for the Directors' induction training and ongoing training as well as professional development.

Ms. Ho is an associate member of The Chartered Governance Institute and The Hong Kong Chartered Governance Institute. Ms. Ho constantly pursues continuing education courses relating to the certificates of corporate governance. She has extensive experience in acting as the company secretary of a listed company and is awarded practitioners professional accreditation by the Hong Kong Institute of Chartered Secretaries. According to Rule 5.15 of the GEM Listing Rules, Ms. Ho has attended more than 15 hours of relevant professional training during the year.

#### **DIVERSITY POLICY**

The Company recognizes and embraces the benefits of having a diverse Board and sees diversity at Board level as an essential element in achieving a sustainable and balanced development of the Company. A truly diverse Board shall be inclusive and make good use of differences in the talents, skills, regional and industrial experience, background, gender and other qualities of the members of the Board. These differences will be considered in determining the optimum composition of the Board and when possible, should be balanced appropriately. All appointments of the members of the Board are made on merit, taking into account the talents, skills and experience the Board as a whole in order for the Board to be effective. The selection process of the Board members will include but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service.

In respect of the gender diversity of the Board, as at the date of the Annual Report, the Company had 7 male Directors and 1 female Directors. The Company recognizes and embraces the benefits of having a diverse Board to enhance the quality of its performance, and regards increasing diversity at the Board level as an essential element in supporting the attainment of its strategic objectives and its sustainable development. It is expected that the ratio of female Directors will reach more than 10% in the following years. The Company will achieve this goal through active nomination of suitable candidates with no gender limitation to be newly appointed Directors in the next few years.

Moreover, the current gender ratio of the Company's workforce (including senior management) is 52 males to 31 females, compared with 52 males to 29 females in the previous year. Company has already achieved gender diversity and will continue focusing on the area because workforce gender diversity is associated with resources that can provide a sustained competitive advantage to the company, which include market insight, creativity and innovation, and improved problem-solving. The different experiences of male and female may provide insights into the different needs of male and female customers. Further, men and women may have different cognitive abilities, such as men's proficiency in mathematics and women's proficiency in verbal and interpersonal skills. Therefore, a mix of cognitive abilities in a gender diverse team may enhance the team's overall creativity and innovation as proved by research. Moreover, a gender diverse team produces high quality decisions. Although there may be some mitigating circumstances where gender diversity can be very hard to achieve (for instance, male workers are more commonly seen regarding physical labor and female workers are more often seen during psychological consultation), the Company will keep focusing on the workforce gender diversity to maintain its current strength as well as to further improve its competitive strength in the future.

### SHAREHOLDER'S RIGHTS

#### The Convening of an Extraordinary General Meeting

Pursuant to the Article 80 of the Memorandum of Association, Shareholders who request the convening of an extraordinary general meeting or a class meeting of shareholders shall do so in accordance with the following procedures:

(1) Two or more shareholders with an aggregate of more than 10% (including 10%) of shares with voting rights at the meeting to be convened may sign one or several written requests in the same format and with the same contents to the board of directors to convene an extraordinary general meeting or class meeting of shareholders and which shall also specify the meeting's agenda. After receiving the aforesaid written request, the board of directors shall promptly convene an extraordinary general meeting or class meeting of shareholders. The aforesaid number of shares held by shareholders shall be calculated as at the date of the written request.

(2) If the Board fails to issue notice for convening a meeting within thirty days after receiving the aforesaid written request, the shareholders who raised the request may convene the meeting within four months after the Board received that request. The procedures for convening such a meeting shall be, as much as possible, the same as the procedures for convening a general meeting by the Board.

In the case of shareholders organizing the convening of a meeting as a result of the failure of the Board to convene a meeting as requested above, reasonable expenses incurred on the meeting shall be borne by the Company and shall be deducted from the funds owed by the Company to those directors who were negligent in the performance of their duties.

#### Putting enquiries to the Board

To ensure effective communication between the Board and the Shareholders, the Company has adopted a shareholders' communication policy (the "Policy") on 20 March 2012. Under the Policy, the Company's information shall be communicated to the Shareholders mainly through general meetings, including annual general meetings, the Company's financial reports (interim reports and annual reports), and its corporate communications and other corporate publications on the Company's website and the Stock Exchange's website. Shareholders may at any time make a request for the Company's information to the extent such information is publicly available. Any such questions shall be first directed to the Company Secretary at the Company's head office and principal place of business in Hong Kong.

#### Putting forward a proposal at a general meeting

Pursuant to the Article 61 of the Memorandum of Association, the Board of Directors, the Supervisory Committee and the Shareholder(s) individually or aggregately holding more than 3% of the Shares of the Company may put forward written proposals to the shareholders' general meeting. The shareholders that severally or jointly hold more than 3% of the Company's shares may raise interim proposals and notify them in writing to the convener ten days prior to the general meeting. The convener shall issue a supplemental notice of the general meeting within two days after receipt of such proposal. The contents of such proposals shall fall within the scope of the shareholder's general meeting and such proposals shall have clear and specific topics for discussion and comply with the relevant provisions of the laws, administrative regulations and the Articles of Association. Save for the circumstances mentioned in the preceding paragraphs, no amendment to the proposals specified in the notice of general meeting or additional proposals shall not be made after the notice of convening a general meeting is delivered. No proposal which has not been set out in the notice of the general meeting or not in compliance with the requirement under this Article shall be considered and decided at the general meeting.

### **CONSTITUTIONAL DOCUMENTS**

There was no changes in the Company's constitutional documents during the year ended 31 December 2024.

### SHAREHOLDERS' COMMUNICATION POLICY

#### Purpose

The Company recognises the importance of providing current and relevant information to its Shareholders. This shareholders' communication policy (the "Policy") aims to set out the provisions with the objective to ensure that the Shareholders and potential investors are provided with equal and timely access to balanced and understandable information about the Company, in order to enable Shareholders to exercise their rights in an informed manner, and to allow Shareholders and potential investors to engage actively with the Company.

#### **General Policy**

The Board shall maintain an on-going dialogue with Shareholders and will regularly review the Policy to ensure its effectiveness.

Information is communicated to the Shareholders as well as the stakeholders through periodic disclosure through the Company's financial reports (interim and annual reports), annual general meetings and other general meetings that may be convened, as well as by making available all the disclosures submitted to The Stock Exchange of Hong Kong Limited ("HKEx") and other corporate publications on the HKEx's website and corporate communications on the HKEx website (www.hkex.com.hk) and the Company's website (http://www. withub.com.cn).

Effective and timely dissemination of information to Shareholders shall be ensured at all times. Any questions, requests and comments can be addressed to the Company by mail to Suite 2703, 27/F, Shui On Centre, Nos. 6-8 Harbour Road, Wanchai, Hong Kong or through the Company's share registrar.

The Company believes that communication with Shareholders by electronic means, particularly through its website, is an efficient way to distribute information in a timely and convenient manner. Shareholders are encouraged to access to the corporate communications posted on the Company's website to help reduce the quantity of printed copies and hence reduce the impact on the environment.

The Company's website will be updated with material posted to the HKEx website immediately thereafter. Such material includes but not limited to financial statements, results announcements, circulars and notices of general meetings and associated explanatory documents.

Shareholders may at any time make a request for the Company's information to the extent such information is publicly available.

Shareholders shall be provided with designated contacts, email addresses and enquiry lines of the Company in order to enable them to make any query in respect of the Company.

The Company has reviewed the Policy conducted for the year ended 31 December 2024 and considered that the Policy has been well implemented and effective.

### **DIVIDEND POLICY**

The Board has adopted the dividend policy (the "Dividend Policy") on 9 November 2018 which sets out the appropriate procedure on declaring and recommending the dividend payment of the Company. The Company takes priority to distributing dividends in cash and shares its profits with the shareholders. The dividend distribution decision of the Company will depend on, among others, the financial results, the current and future operations, liquidity and capital requirements, financial condition and other factors as the Board may deem relevant. The Board may also declare special dividends from time to time. The Dividend Policy will be reviewed on a regular basis.

#### **INVESTOR RELATIONS**

The Company continues to pursue a proactive policy in promoting communications with the investors. The Board recognized that effective communication with investors is the key to establish investor confidence and to attract more new investors.

The Company communicates with its investors through the publication of annual and interim reports, press announcements and releases and also the Company's website at www.withub.com.cn. The Group regularly releases corporate information such as awards received, and the latest news of the Group's developments on its website. The public are welcome to give their comments and make their enquiries through the Company's website, and the management will give their prompt response.

### **RISK MANAGEMENT AND INTERNAL CONTROL**

During the year, the Audit Committee has discussed with the management of the Company the matters relating to risk management and internal control of the Group. The Board complied with the code provisions on risk management and internal control as set out in the CG code. The Board has responsibility for evaluating and determining the nature and extent of the risks it is willing to take in achieving the Group's strategic objectives, and maintaining appropriate and effective risk management and internal control systems for the Group. The systems are designed to manage the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

The management of the Company has established a set of comprehensive policies, standards and procedures in areas of operational, financial and risk controls for safeguarding assets against unauthorised use or disposition; for maintaining proper accounting records; and for ensuring the reliability of financial information to achieve a satisfactory level of assurance against the likelihood of the occurrence of fraud and errors.

The Board has overseen the Company's risk management and internal control systems on an ongoing basis. A year end review of the effectiveness of the Group's risk management and internal control systems has been conducted annually and the systems are considered to be effective and adequate. Self-assessment and comprehensive risk assessment surveys have been conducted during the review. The Company also has an internal audit function to carry out the analysis and independent appraisal of the adequacy and effectiveness of the systems, and has procedures in place to keep information confidential and manage actual or potential conflicts of interest. Stringent internal control structures have been designed to prevent the misuse of inside information and avoid conflicts of interest.

All Directors and those employees who could have access to, and monitor, the information of the Group are responsible for making appropriate precautions to prevent abuse or misuse of such information. Employees of the Group are prohibited from using inside information for their own benefit.

The Board is also vested with the responsibility to disseminate to the Shareholders and the public any inside information in the form of announcements and circulars, in accordance with the GEM Listing Rules.

The Group is committed to promote sustainable development, which is extremely important to create longterm value for the Group's shareholders, clients, employees, other stakeholders, as well as general public. The Company cares about the impact of its daily operation on the environment and society, strives to set a good example for the public, while conducting business operation. It makes effort to meet the interests of all stakeholders, economy, environment, society and corporate governance and does its best to achieve a fine balance.

### THE ESG GOVERNANCE STRUCTURE

We consider ESG commitment as a part of our fiduciary duty and we pledge to embed ESG considerations into our decision-making process. To achieve this, we have developed a core governance framework to ensure the alignment of ESG governance with our strategic growth, while advocating ESG integration into our business operations. The structure of our corporate social responsibility is divided into two components, namely the board of directors (the "Board") and an ESG Taskforce.

The Board holds the overall responsibility on the Group's ESG issues and oversees the ESG strategies, direction and policies. In order to better manage the Group's ESG performance, related issues and potential risks, the Board discusses and reviews the Group's ESG risks and opportunities, performance, progress, goals and targets regularly with the assistance of the ESG Taskforce. The Board is also responsible for ensuring the effectiveness of ESG risk management and internal control mechanism and facilitates the exchange of best practices with other comparison companies.

The ESG taskforce is composed of core members from different departments of the Group. The ESG taskforce facilitates the Board's oversight of ESG matters and has the responsibility for collecting and analysing ESG data, monitoring and evaluating the Group's ESG performance, ensuring compliance with ESG-related laws and regulations, and preparing ESG reports. The ESG taskforce arranges meeting semi-annually to evaluate the effectiveness of current policies and procedures, and formulate appropriate solutions to improve the overall performance of ESG policies. At meetings, the ESG taskforce discussed the existing and upcoming plans in order to monitor and manage the Group's strategic goals in terms of sustainable development, mitigating potential risks, and minimising the negative impact on our business operations. The ESG taskforce would periodically report to the Board, assist in assessing and identifying the Group ESG risks and opportunities and evaluate the implementation and effectiveness of internal control mechanism.

#### **REPORTING SCOPE**

Unless otherwise stated, the ESG Report mainly covers the Group's operation in investment holding located in the PRC principally engaged in the development and provision of business application solutions. The Company operates through two segments. Business Application Project and Application Software segment is engaged in the development and provision of business application project services, including business solutions, application software, installation and maintenance services and data security products. It focuses on medical care sector, intelligent elderly care sector, intelligent surveillance sector, e-politics sector and e-commerce sector, among others. The Sales of Products segment is engaged in the sales and distribution of computers and electronic products and accessories. The Company mainly operates businesses in China, which contributed to the majority of the Group's revenue during the Reporting Period. The Group will continue to assess the major ESG aspects of different businesses of its major subsidiaries to determine the reporting scope of the ESG Report.

The reporting boundary is determined according to the corresponding materiality of each entity to our business and operations. Entities outside the scope of the ESG Report can be found in the Annual Report 2024, note 1 to the financial statements.

### **REPORTING FRAMEWORK**

The Report has been prepared in accordance with the Environmental, Social and Governance Reporting Guide (the "ESG Reporting Guide") as set out in Appendix C2 of the Rules Governing the Listing of Securities (the "Listing Rules") on The Stock Exchange of Hong Kong Limited (the "Stock Exchange"). Information relating to the Group's corporate governance structure and practices has been set out in the Corporate Governance Report of the Annual Report 2024.

During preparation for this ESG Report, the Group has applied the reporting principles in the aforementioned ESG Reporting Guide as the following:

**Materiality:** Materiality assessment was conducted to identify material issues during the Reporting Period, thereby adopting the confirmed material issues as the focus for the preparation of the Report. The materiality of issues was reviewed and confirmed by the Board and senior management. Please refer to the section headed "Stakeholder Engagement" for further details.

**Quantitative:** The standards and methodologies used in the calculation of relevant data in this Report, as well as the applicable assumptions were disclosed. The key performance indicators ("KPIs") are supplemented by explanatory notes to establish benchmarks where feasible.

**Balance:** This Report was written in an objective and impartial manner to ensure that the information disclosed faithfully reflects the overall performance of the Group in ESG aspects.

**Consistency:** The preparation approach of this Report was substantially consistent with the previous year, and explanations were provided regarding data with changes in the scope of disclosure and calculation methodologies.

This ESG Report has undergone the internal review process of the Group and was approved by the Board.

### **REPORTING PERIOD**

The ESG Report specifies the ESG activities, challenges, and measures being taken during the year ended 31 December 2024.

### STAKEHOLDER ENGAGEMENT

The Group values its stakeholders and their feedback regarding its businesses and ESG aspects. To understand and address stakeholders' key concerns, the Group has maintained close communication with its key stakeholders, including but not limited to shareholders and investors, customers, tenants, employees, suppliers and subcontractors, government and other regulatory bodies as well as the local community.

In formulating operational and ESG strategies, the Group considers stakeholders' expectations by utilising diversified communication channels as shown below:

Stakeholders	Communication channels	Expectations		
Shareholders and investors	<ul> <li>Financial reports</li> <li>Annual general meeting</li> <li>Company website</li> <li>Press releases</li> <li>Investor relations inquiry</li> <li>Hotline and email</li> </ul>	<ul><li>Business strategy</li><li>Financial performance</li><li>Corporate governance</li><li>Business sustainability</li></ul>		
Customers	<ul> <li>Customer service hotline and email</li> <li>Complaint hotline</li> <li>Exhibitions</li> </ul>	<ul><li>Quality of the services and products</li><li>Timely service</li></ul>		
Employees	<ul> <li>Staff performance appraisal</li> <li>Training</li> <li>Internal policies</li> <li>Regular meetings</li> <li>Surveys</li> </ul>	<ul> <li>Rights and benefits</li> <li>Staff remuneration</li> <li>Development and training</li> <li>Working hours</li> <li>Occupational health and safety</li> </ul>		
Suppliers and subcontractors	<ul> <li>Business meetings</li> <li>Quotation and tendering processes</li> <li>Regular audits and assessments</li> </ul>	<ul><li>Commitments</li><li>Payment schedule</li><li>Business ethics and reputation</li></ul>		
Government and other regulatory bodies	<ul><li>Statutory filings and notices</li><li>Compulsory or voluntary disclosure</li></ul>	<ul><li>Compliance with laws and regulations</li><li>Transparency of internal information</li></ul>		
Local community	<ul><li>Community activities</li><li>Sponsorships and donations</li></ul>	<ul><li>Business ethics</li><li>Fair employment opportunity</li><li>Environmental protection</li></ul>		

The Group aims to collaborate with its stakeholders to improve its ESG performance and continuously create greater value for the wider community.

### **BOARD STATEMENT**

Dear Shareholders,

On behalf of the Board, I am pleased to present the ESG report of the Group for the year ended 31 December 2024. This report demonstrates our growing commitment to advancing our sustainability performance in areas such as corporate governance, community participation, customer satisfaction, and employee care.

We view ESG commitments as part of our responsibility and are committed to incorporating ESG considerations into our decision-making process. As such, the Group decided to set directional targets for the financial year ending 31 December 2027 ("2027"), which would be a three-year target plan. By setting ESG related goals, the Group can raise the employee's awareness of environmental protection and improve its ESG performance continuously.

We believe that a forceful governance structure is of utmost importance to the successful integration and effective management of sustainability at the Company. The Board holds the overall responsibility on the Group's ESG issues and oversees the ESG strategies, directions and policies. In order to better manage the Group's ESG performance, related issues and potential risks, the Board analyses and reviews the Group's ESG risks and opportunities, performance, progress, goals and targets regularly. The Board is also responsible for ensuring the effectiveness of ESG risk management and internal control mechanism and facilitates the exchange of best practices with other comparable companies.

Looking forward, we will continue our efforts to further deepen the integration of ESG concepts internally and externally, implement sustainable management more responsibly, and work together.

Finally, I would like to express my greatest gratitude to the Board, management and staff of the Group for their strenuous contribution in the past year. Furthermore, I would also like to take this opportunity to sincerely thank our customers, suppliers, business partners and shareholders for their continuous support and trust. I believe all members of the Group will dedicate their best effort to drive business growth and to deliver enhanced returns to shareholders.

### MATERIALITY ASSESSMENT

The management and staff of the Group's major operations have participated in the preparation of the Report in order to assist the Group in reviewing its operations, identifying relevant ESG issues and assessing the importance of related matters to its businesses and stakeholders. The Group has compiled a questionnaire with reference to the identified material ESG issues to collect the information from the stakeholders of the Group.

During the Reporting Period, the Group has confirmed that it has established appropriate and effective management policies and internal control systems for ESG issues and confirmed that the disclosed contents are in compliance with the requirements of the ESG Reporting Guide.

### **ENVIRONMENTAL TARGETS**

To better manage the Group's material topics and its performance on those aspects, the Group has set some directional targets for the financial year ending 31 December 2027 ("2027"), which would be a three-year target plan.

The table below summarises the Group's sustainability targets for 2027. The Group will continue to review the progress of the set targets every Reporting Period prior to 2024, and will continue to work for the targets set.

Environmental Targets Se	etting	Status
Emissions	<ul> <li>Reduce emissions intensities by 1% in 2027 compared to 2024</li> </ul>	In progress
Waste Management	Reduce waste intensity by 1% in 2027 compared to 2024	In progress
Energy Consumption	<ul> <li>Reduce electricity and gasoline intensities by 1% in 2027 compared to 2024</li> </ul>	In progress
Water Consumption	Reduce water consumption intensity by 1% in 2027     compared to 2024	In progress

### **CONTACT US**

Please feel free to provide comments and suggestions on this Report or the Group's ESG work performance through email at sunguofang@withub.com.cn.

### **ENVIRONMENT**

# A1. Policy on emission of exhaust gas and greenhouse gas, discharging pollution through water and land, producing hazardous and non-hazardous wastes

Protecting environment is one of our key concerns; we are committed to protecting environment and focusing on environmental protection in our operation, hoping that through rigorous supervision and control to reduce our long-term negative impact on the environment.

#### 1. Energy Management

The indirect greenhouse gas emission, which is generated from our daily electricity power consumption, is the main source of the Group's carbon footprint, we will keep monitoring and disclosing the Company's carbon footprint to find out and control the impact of our daily operation on the environment. At the same time, we will implement the following energy-saving and energy efficiency measures at various office locations to reduce greenhouse gas emission:

- a. Install high-performance electrical equipments
- b. Purchasing department is required to purchase energy-efficient products
- c. Employ automatic lighting control system
- d. Deploy LED lighting on office floors
- e. The employees must turn off light and unnecessary energy device before leaving to reduce energy consumption and avoid unnecessary waste of energy
- f. Deploy natural light as much as possible on office floors
- g. Install auxiliary electricity meter to monitor electricity consumption
- h. Other energy-saving and energy efficiency measures

Our finance department should collect information about the Group's usage of electricity annually for the management to disclose in the Environmental, Social Government report (the "ESG report") in the financial year starts from 1 January 2020.

#### 2. Waste Management

In order to lighten the load of landfills, we adopt a responsible waste management policy, including waste avoidance, reducing waste from its source and reuse, recycling and responsible disposal of waste. Our offices should post notices and memos everywhere, encouraging the employees to reduce the production of waste. We have introduced waste separation measures from the start:

- a. Waste paper (excluding paper cup, paper plate, etc.)
- b. Metal (aluminum can and other metal cans)
- c. Plastics (plastic bottle, container and packaging materials)
- d. Other recyclables (such as old cloth, electrical appliance, computer, magazine, etc.)

# A2. Policy on effective use of resources (including energy, water and other raw materials)

#### 1. Reducing electricity consumption

We will comply with the Group's policy on emission of exhaust gas and greenhouse gas, discharging pollution through water and land, producing hazardous and non-hazardous wastes to reduce electricity consumption.

#### 2. Paper reduction

In order to reduce waste paper, we have developed the following measures:

- a. Deploy recycling bins to collect paper products that can not be reused such as waste paper, poster, letter and envelope
- b. Place recycling bin for waste paper and papers that already printed once next to printer so that you can choose whether put it into the bin or reuse it
- c. Saving paper by double-sided printing
- d. Writing on both sides of papers
- e. Bring your own cup and avoid using paper cup
- f. Reuse stationeries such as file folder and envelope
- g. Reuse packaging box
- h. Other than the waste paper that contains confidential information, waste paper should be shipped to paper mill or scrap paper company so as to be recycled into new paper.

Each year, our finance department shall collect information about the paper products purchased and the waste paper that shipped to scrap paper company or paper mill annually for the management to disclose in the ESG report in the financial year starts from 1 January 2018.

#### 3. Water conservation

In Hong Kong and the PRC, fresh water is a precious resource. We should economize water, try to protect water resource, and for which we have developed the following measures:

- a. Repair dripping faucet and hose in a timely manner
- b. Adopt effective water-saving production methods and instruments
- c. Check water consumption regularly
- d. Minimize water pressure

#### 4. Green procurement

Green procurement is based on reducing environmental load. Quality, cost, delivery time are the main focuses when we procure goods or chooses supplier, but other than that, we give priority to environmentally friendly and energy-saving products. We adopt the following measures:

- a. Give priority to energy-efficient products at the highest level
- b. Give priority to effective water-saving products
- c. We require the suppliers to reduce packaging material
- d. Send the message to suppliers that we value environmental protection, energy saving

# A3. Policy on mitigating the Group's significant impact on environment and natural resources

The Group manages and minimizes the impact it may cause on environment, directly or indirectly, through the following methods:

- 1. Make sure its business operation comply with the environmental law in Hong Kong and its operating locations including the PRC
- 2. Establish and improve environmental protection mechanism to ensure its operation does not pollute water and land
- 3. Monitor gas emission and use of resource, establish emission reduction target
- 4. Make sure that in our daily business operation, with all efforts, we conserve energy, water and other raw materials to reduce direct impact on environment
- 5. Whenever the Company holds banquet, shark fin is out of question and sustainable seafood should be served. Order reasonable quantity and reduce waste
- 6. Urge the employees to reduce paper usage and adopt other energy-saving measures
- 7. Cooperate with government agencies and support environmental organizations' activities

# A4. Policy on measures to identify and mitigate the significant climate-related issues on issuer

#### **Climate Change Adaptation and Mitigation**

The Group recognises the importance of the identification and mitigation of significant climate-related issues, and is committed to managing the potential climate-related risks which may impact the Group's business activities. Therefore, the Group has established a robust set of policy and procedures to identify, monitor and manage ESG issues, including climate change. Material climate-related risks are identified and managed under our enterprise risk management framework.

#### **Climate-related Issues**

#### Extreme Weather

The increased frequency and severity of extreme weather events such as extreme cold or heat, storms, heavy rains, typhoons can disrupt operations by damaging the power grid or communication infrastructures, obstructing and injuring our employees on the road or during their work. These events could disrupt supply chains, interrupt business operations, and damage Group assets. As countermeasure, the Group will identify these risks and prioritise those that have a serious impact to take precautionary measures in the first place. At the same time, the Group will examine the possibility of a change of business model to reduce or avoid these serious effects on business operations.

#### Transition Risks

There are more stringent climate legislations and regulations to support the global vision of decarbonisation. For instance, the Stock Exchange has required the listed companies to enhance the climate-related disclosures in their ESG reports. Stricter environmental laws and regulations may expose enterprises to higher risks of claims and lawsuits. Corporate reputation may also decline due to failure to meet the compliance requirements for climate change. The Company's related capital investment and compliance costs thus increase. In response to the policy and legal risks as well as the reputation risks, the Group regularly monitors existing and emerging trends, policies and regulations relevant to climate and be prepared to alert the top management where necessary to avoid cost increments, non-compliance fines or reputational risks due to delayed response. Besides, we have set targets to reduce our energy consumption and emissions during 2024.

### SOCIETY

#### **Employment and Labor Convention**

Employee is an important asset of the Company, we care about their well-being, respect their personal traits, make sure that all employees are subject to legislative protection and have equal opportunity in their career path, also, we strive to increase their sense of belonging.

# B1. Policy on salary, dismissal, recruitment and promotion, working hours, day off, equal opportunity, diversity, anti-discrimination and other benefits and welfare

#### 1. Salary

We offer competitive pay and benefits to our employees according to their job requirement and individual performance. We will annually review the overall salary and benefits of employee to ensure its competitiveness in local market, and we will also refer to the relevant industries and similar organizations. Each year, our KPIs will provide direction and guidance to the employees' individual work plan. We also assess the achievements and contributions of the employees to appraise and reward them.

#### 2. Dismissal

We ensure that all employees are protected the applicable employment laws, including:

- a. Whenever an employee resigns or is being laid off, human resources department should interview him or her before quitting to find out the reason of quitting;
- b. The human resources department is required to issue employment verification document to the dismissed employee;
- c. When the employer terminates an employee's employment contract, the dismissed employee shall be given due notice or wages in lieu of notice, and the notice should not be given during his or her paid annual leave and maternity leave;
- d. An employee cannot be dismissed when she has been confirmed pregnant and given notice of pregnancy;
- e. An employee cannot be dismissed when he or she takes a paid sick leave;
- An employee cannot be dismissed due to he or she gives evidence or information in any legal proceeding relating to enforcement of labor laws, industrial accident or breach of work safety regulation;
- g. An employee cannot be dismissed due to he or she joins in labor union or participates in labor union activities; and
- h. If an employee is injured on duty, if a compensation agreement has not yet been reached or the relevant evaluation certificate has not yet been issued, the employee cannot be dismissed.

#### 3. Recruitment and promotion

In the Group, recruitment and promotion should be fair and open for all employees, and cannot be affected by age, sex, physical or mental health status, marital status, family status, race, skin colour, nationality, religion, political affiliation and sexual orientation and other factors, the employees will be recognized and rewarded by their contribution, work performance and skills, and provide them with good working environment and development opportunity.

#### 4. Working hours and day-off

The employees shall enjoy deserved days-off under the applicable laws and regulations. Employees in Hong Kong are entitled to enjoy the following days-off:

- a. Each employee can take a day off in every 7 days during his or her tenure;
- b. If the day-off falls on a statutory holiday, compensatory time off shall be offered on the following day;
- c. Manager can ask employee to work on the day off, but employee can choose not to. If the employee agrees, a day off can be arranged in other time, but the said day off shall be planned before the scheduled day off in the same month, or within 30 days after it;
- d. Statutory holidays;
- e. Paid annual leave prescribed by employment contract;
- f. Sick leave;
- g. Female employee can take maternity leave so long as she complies with the continuous contract to serve the employer and give notice of pregnancy before the leave; and
- h. Maternity leave cannot be substituted by wage.

# 5. Policy on equal opportunity, diversity, anti-discrimination and other benefits and welfare

Sex Discrimination Ordinance, Disability Discrimination Ordinance, Family Status Discrimination Ordinance must be complied with, equal opportunity must be provided on recruitment, training, promotion, transfer, remuneration, benefits and termination of contract. Such opportunities shall not be affected by factors such as age, gender, physical or mental health status, marital status, family status, race, skin colour, nationality, religion, political affiliation and sexual orientation.

# B2. Policy on safe working environment and safeguarding the employees from occupational hazards

We are committed to protecting the health and safety of the employees and the community, we require all employees to comply with all relevant occupational health and safety regulations, and do our utmost to provide them with safe and healthy working environment, as a result, we have implemented the following policies:

- 1. Develop internal guidelines to ensure that office and work environment is in line with or higher than the requirements of relevant laws;
- 2. Establish safety procedures for the recognized dangerous work;
- 3. Provide necessary protective equipment and medical insurance to the employees;
- 4. Provide and ensure that office and working environment is healthy and safe, regularly check machinery and equipment;
- 5. Establish emergency measures such as fire or explosion emergency plan;
- 6. Regularly arrange rescue, fire and evacuation drills;

- 7. Establish mechanism to record industrial injury and analyze the cause;
- 8. Provide and maintain an environmental-friendly, healthy and safe working condition;
- 9. Unless prior approval, purchasing and using alcoholic beverage and illegal drugs is prohibited in the workplace;
- 10. Actively promote environmental protection, health and safety awareness of the employees, and support development of environmental protection, health and safety in the industry; and
- 11. Provide all employees with needed job information, guidance, training and supervision.

# B3. Policy on improving the employees' knowledge and skills to perform their responsibilities

Talent development is an important part of our human resource strategy. We understand that the employees' knowledge and skills are essential to the Company's operation and business growth, good development plan lays a good foundation for the employees to face business challenge in the future, it also helps them to grasp promotion opportunities, fulfill their career aspirations. We provide the employees with effective training and develop a clear promotion ladder, ensuring that the employees have the required skills; we also nurture outstanding successors for the Group and breed academic atmosphere. The Group conducts performance evaluation annually, and based on the assessment result to provide the staff with appropriate training, and offer job, development and promotion opportunities for outstanding employees. Under the Group's Human Resource Management System requirements, Manager of our human resources department is responsible for carrying out related assessment and training.

#### B4. Policy on preventing child labor or forced labor

The Group firmly adopts a zero-tolerance policy on child labor and forced labor, such conduct is prohibited by international standard and relevant domestic legislation and shall never be tolerated in here. In any part of the business process (including our suppliers or subcontractors), child labor or forced labor is not allowed. We see child labor or forced labor as a serious crime. The following is the policy on preventing child labor or forced labor:

- 1. Child labor refers to employment of people under 16 years of age, if any country or region in which the subsidiary of the Company locates/operates has a more stringent definition of child labor, the definition shall prevail;
- 2. Forced labor refers to people who provide labor or service against their will and under the threat of punishment;
- The hired employees must be at least 16 years of age, the Group shall never recruit child labor and forced labor, and if it knows child labor or forced labor exists in its suppliers or subcontractors, the Group will not conduct business with them anymore;
- 4. The employees under 18 may not engage in any possible hazardous work and prohibited to work at night, because it might affect their education;
- 5. Before hiring any job applicant, HR should take effective procedures to verify their age. HR should check documents that prove the age of the applicant, including governmentissued photo identification and birth certificate, driver's license, household register, academic certificates or any other credentials that prove the date of birth. And HR must ensure that the applicant's looks is consistent with the photograph on the ID card;

- 6. HR department should carry out prevention training about child labor and forced labor, especially those responsible for recruitment;
- 7. If employment of child labor under the legal minimum age is found in the Group, we will see to the best interests of the child, and take the following measures in line with relevant legislations:
  - a. Take the child away from workplace immediately, ensure the safety of the child;
  - b. Immediately notify the person in charge of HR to verify all relevant information, confirm whether the child under 16 years of age, sever labor relations with the child, notify the local social welfare institution, and take remedial measures to protect the child's best interest;
  - c. Send the child to a special occupational health labor inspection institution to do medical check-up, it is required to confirm the child's physical and mental health, and conduct investigation to fully understand the child's situation;
  - d. When the child reaches legal minimum age for employment, we will provide the child with re-employment opportunity; and
  - e. Immediately find out the problems exist in the hiring process of the operating location and take improvement measures within 90 working days.
- 8. If forced labor is found in the Group, we will take the following measures in accordance with the requirements of the relevant legislation:
  - a. Take the labor away from workplace immediately, ensure the safety of the labor;
  - b. Immediately notify the person in charge of HR to verify all relevant information, confirm whether the person is subject to compulsory labor;
  - c. Send the labor to a special occupational health labor inspection institution to do medical check-up, it is required to confirm the labor's physical and mental health, and conduct investigation to fully understand the labor's situation; and
  - d. Immediately find out the problems exist in the hiring process of the operating location and take improvement measures within 90 working days.

### **OPERATING PRACTICE**

#### **B5.** Policy on controlling environmental and social risk in supply chain

We attach importance to developing and maintaining long-term relationships with our suppliers, looking forward to forming long-term partnerships with them. We will take a fair and open principle on procurement of materials and services. We will only cooperate with the suppliers that share common moral values and standards with us, the Company also supports and encourages the suppliers to promote efficient use of resources and environmental protection and fulfill corporate social responsibility:

1. We advocate the principle of fair and open competition, and based on mutual trust, we develop and maintain long-term relationships with the suppliers and contractors;

- 2. We have strict ethical standards in procurement of materials and services to ensure the quality of the finished products and maintain the continued confidence of the clients, suppliers and general public on the Group;
- 3. We review our suppliers, assess them based on price, quality, suitability and demands, only those being rated as qualified are our approved suppliers, we only purchase from the approved suppliers;
- 4. We conduct follow-up assessment on the suppliers, and, if necessary, review them through a third party organization. When a supplier is found to be inconsistent with the Company's policy or contractual requirements, the Company will terminate future cooperation until the situation has been improved;
- 5. In an unprejudiced way, we choose appropriate, capable and responsible suppliers;
- 6. Support and encourage the suppliers to improve their environmental products and services, and their employees' benefits and protection;
- 7. The suppliers must comply with the relevant laws, regulations and contractual obligations; and
- 8. We shall adopt effective monitoring and management system to detect and prevent bribery, fraud or other misconducts in procurement and bidding processes.

# B6. Policy on health, safety, advertising, labeling, privacy and remedies of the products and services

#### Health and safety of products and services

We are committed to providing the customers with high-quality products and services and settling customer complaints effectively, continuously improving service level and ensuring customer satisfaction.

- 1. Make sure that the products and services comply with related laws and guidelines;
- 2. Provide the customers with accurate product information and high-quality products, and develop recovery policy and after-sale service for related products;
- 3. If there is a problem with a product, we will take the initiative to explain the problem and find a mutually satisfactory solution for the customers; and
- 4. After handling a customer complaint, a document should be archived properly, and the relevant department shall review the complaint and develop measures to prevent the recurrence of similar complaints, so that the Company's service quality keeps improving.

#### Advertising, labeling and protection of customer information

Customer information will only be used for business purpose, not for other unrelated purposes. All employees should handle and use customer information with extreme caution, protect customer information, and comply with statutory requirements of the Personal Data (Privacy) Ordinance.

#### B7. Policy on preventing bribery, extortion, fraud and money laundering

Ethics and integrity is the cornerstone of the Company's success, the Company adopts a Zero Tolerance approach to bribery, extortion, fraud and money laundering, in their daily work, the directors, management and staff must comply with related national and local government laws and regulations on prevention of bribery, extortion, fraud and money laundering. All employees not only have responsibility to understand and comply with the above policies on prevention of bribery, extortion, fraud and money laundering, but also have obligation to report violation to the fit and appropriate person. Any person, who contravenes the regulations, will be subject to disciplinary sanction. We will make every effort to protect the informer and received information. However, if an informer's intention is to harm others, they may be subject to disciplinary punishment.

#### 1. Soliciting or accepting benefit

Any employee (including the directors, management and all full-time, part-time, hourly, temporary workers) cannot directly, indirectly, or in any form, solicit or accept any form of benefits or do anything that might be seen as bribe from a third party, including, but not limited to, money, gift, excessive entertainment and hospitality, subsidized travel and accommodation, loan, pledging as guarantor, extending preferential credit terms, fee, reward, position, employment, contract, service, privilege, exemption of all or part of the responsibilities that ought to be fulfilled. The employees should reject any direct or indirect interests and benefits relating to the Group's business, should such benefits being accepted, their objective attitude would hamper, or the interests of the Company would be harmed or invaded, or causing bias or misconduct.

In social events such as festivals, activities, entertainments and other daily routine, refusing to accept a modest gift may be considered impolite or lack of social grace, with that in mind, under the following principles, the employees may consider accepting benefits on a voluntary basis:

- a. Receiving related benefits will not affect performance and decision of the employee;
- b. The employee will not feel the need to reciprocate;
- c. The employee can openly discuss the benefits;
- d. Holiday or banquet gift, prize or souvenir, its value shall not more than HKD500.

For gift, prize or souvenir worth more than HKD500, the employee shall file a declaration form, if the employee has questions about admissibility of the related benefits, he or she could consult HR manager or general manager.

If the Company finds out any employee's inappropriate behavior of soliciting or accepting benefits, it will call the police and terminate labor relations with the employee.

#### 2. Providing benefits

In any case, any employee shall not provide bribe or improper benefits to any person or organization in order to seek personal gain or group interests. If the Company finds out any employee has conducted bribery, it will call the police and terminate labor relations with the employee.

#### 3. Extortion

Any person who seeks for benefit for his own or another person, or with intent to cause loss to another person, and makes any unwarranted demand by extortion, such conduct shall be considered as extortion. All employees shall not participate in, assist, cover up any kind of extortion, if the Company finds out any employee has conducted extortion, it will call the police and terminate labor relations with the employee.

#### 4. Fraud

Any person, who uses any means of deception to benefit himself or another person, or with intent to cause loss to another person, such conduct shall be considered fraud, the common employee fraud includes embezzlement, wage fraud and stealing company assets. All employees shall not participate in, assist, cover up any fraud, if the Company finds out any employee has conducted fraud, it will call the police and terminate labor relations with the employee.

#### 5. Money Laundering

Money laundering refers to an individual or institution attempts to conceal the source of illicit money, or makes such money look legitimate in any way. The Company will not tolerate any employee conduct, assist, and support any form of money laundering.

The Company should establish an anti money laundering team, general manager should be the team leader and responsible for organizing the anti money laundering team. The team's main responsibilities include organizing, implementing anti money laundering task, follow-up and investigating reported money laundering, arranging anti money laundering training, working with regulatory and judiciary authorities to investigate suspicious transactions of funds, as well as paying attention to requirements and updates in anti money laundering laws and regulations.

Anti money laundering procedures include identifying clients, keeping transaction record, reporting and follow-up investigating of suspicious transaction, and anti money laundering training.

#### a. Identifying clients

In the development of clients, sales people must establish a high degree of awareness of anti money laundering, through communication with prospective clients to comprehensively grasp the clients' basic information, running the first check on the clients. After successful client acquisition, regular contact is required to grasp the clients' updates. If an abnormal situation occurs, the sales person needs to timely communicate with the relevant departments.

#### b. Keeping transaction record

Sales people and accounting personnel should keep customer identification information, including registering customer identification and related information, all sorts of records and information reflecting payment authority's customer identification process, and keep transaction records such as each transaction's information, business voucher, ledger and documents reflecting real situation of each transaction and other relevant information to ensure that each transaction is traceable.

#### c. Reporting and follow-up investigating of suspicious transaction

Sales people and accounting staff, should they find out a suspicious transaction, they would need to report such transaction immediately to the corporate headquarter. The headquarter analyzes and investigates all suspicious transaction reported, if there are reasonable grounds to believe that the transaction or the customer has ties with money-laundering, terrorism and other criminal activities, the HKSAR Government JFIU should be notified.

#### d. Anti money laundering training

All employees should attend in anti money laundering training at least once a year, the training includes the danger of money laundering, anti money laundering regulations, the role of the employees in anti-money laundering, how to identify suspicious transactions, ways to report suspicious transaction, the consequences if one fails to comply with anti money laundering regulations.

### COMMUNITY

B8. Policy on finding out the needs of the community, at which the Company operates, by means of community involvement, and ensuring that its business activities will take into account the interests of the community

For the Group's long-term development, community participation is important, we are committed to promoting development and construction activities of the community, at which we operate. We benefit the community through a variety of actions, such as investment, contributing money, time, products, services, influence, management knowledge and other resources.

We participate in community building through three main ways:

- 1. Organize, facilitate and support the staff to take part in volunteer services, such as regularly visiting people who need help, arranging outdoor activities for disadvantaged groups, holding Blood Donation Day.
- 2. By means of donation, we donate money, goods or services, directly supporting or funding projects of various social service agencies. In addition to donation itself, we also appeal to the Company's stakeholders (including the employees and customers) to donate to charity organization.
- 3. We endeavor to provide employment opportunities for the disadvantaged and create a win-win situation. The Company is willing to hire the people or disabled people who have completed retraining courses, and give priority to purchasing from the suppliers who hired the said people, or participate in a variety of mentorship programs.

### **KEY PERFORMANCE INDICATORS**

The Group mainly engages in computer network and internet security integration, application software development, building intelligent system integration and IT products sales agency. Hence, the emission relating to air and greenhouse gas emissions, discharges into the water and land, as well as generation of hazardous and non-hazardous wastes are minimal in 2024. This also means that there is no direct emission of gaseous fuel consumption and other pollutants regulated under the national laws and regulations, discharging pollution through water and land by the principal activities of the Group. There is also no disposal of products and packaging materials by the principal activities of the Group.

### **AIR POLLUTANTS**

Fuel consumption by motor vehicles are the major source of nitrogen oxides ("NOx"), sulphur oxides ("SOx") and particulate matter ("PM") emissions. Relevant data for the years ended 31 December 2024 and 2023 were as follows:

	Year ended	Year ended
	31 December 2023	31 December 2024
NOx	25,052.40 (g)	25,285.74
SOx	4,391.91 (g)	4,324.44
PM	2,332.52 (g)	2,354.25

### **GREENHOUSE GAS EMISSIONS**

Greenhouse gas comes from all sorts of daily activities, such as the use of electricity, water and gas as well as the combustion of fuels in motor vehicles. Total greenhouse gas emissions include carbon dioxide ("CO<sub>2</sub>") and other greenhouse gases, such as methane ("CH<sub>4</sub>") and nitrous oxide ("N<sub>2</sub>O"). The Group strives to reduce burning and improve energy and resource use efficiency in its daily operation so as to manage its greenhouse gas emissions.

The combustion of fuels in motor vehicles cause the direct emission of greenhouse gas. Relevant data for the years ended 31 December 2024 and 2023 were as follows:

	Year ended	Year ended
	31 December 2023	31 December 2024
CO <sub>2</sub>	4,391.91 (kg)	4,324.44
CH <sub>4</sub>	92,230.07 (kg)	90,813.34
N <sub>2</sub> O	1,361,491.57 (kg)	1,340,577.83

The electricity consumption of the Company which mainly comes from the daily operation of the office, which cause the indirect emission of greenhouse gas of CO<sub>2</sub>. Indirect CO<sub>2</sub> emissions from electricity purchased from power companies was 148,576.89 kg for the year ended 31 December 2024 (2023: 147,984.93 kg).

For water consumption, electricity used for sewage processing by sewage processing companies cause the indirect emission of greenhouse gas of CO<sub>2</sub>. 1,422.14 kg CO<sub>2</sub> have been emitted for the year ended 31 December 2024 (2023: 1,439.61 kg).

### **HAZARDOUS WASTE PRODUCTION**

According to the National Catalogue of Hazardous Wastes (《國家危險廢物名錄》) which was formulated in accordance with Law of the People's Republic of China on Prevention and Control of Environmental Pollution by Solid Wastes (《中華人民共和國固體廢物污染環境防治法》) by the Ministry of Environmental Protection the People's Republic of China (中華人民共和國環境保護部), printing inks are classed as hazardous waste.

The disposal of printing inks produced by the Company contributed to the total amount of hazardous waste of the Company. Relevant data for the years ended 31 December 2024 and 2023 were as follows:

	Year ended	Year ended
	31 December 2023	31 December 2024
Hazardous waste per printer	0.013 (tonnes)	0.0131 (tonnes)
Intensity of hazardous waste	0.0013	0.00131

### NON-HAZARDOUS WASTE PRODUCTION

Daily commercial wastes constitute the production of non-hazardous waste of the Company. Relevant data for the years ended 31 December 2024 and 2023 were as follows:

	Year ended	Year ended
	31 December 2023	31 December 2024
Domestic waste	8.36 (tonnes)	8 (tonnes)
Intensity of non-hazardous waste	4.18	4

The Group is wholly committed to the policies relating to air and greenhouse gas emissions, discharges into water and land, and generation of hazardous and non-hazardous waste as set out in this ESG report in the annual report in order to mitigate such pollution.

### **ENERGY CONSUMPTION**

The daily energy consumption of the Group mainly comes from purchased electricity. For the year ended 31 December 2024, the intensity of energy consumption was 60,446.26 (2023: 60,205.43).

### WATER CONSUMPTION

The total water consumption of the Group mainly consists of domestic sewage. For the year ended 31 December 2024, the intensity of water consumption was 578.58 with the stable water supply under the regulation by Shanghai Water Authority of Shanghai Municipal Oceanic Bureau (上海市水務局) (2023: 585.69).

The Group is wholly committed to the policies on the efficient use of resources as set out in this ESG report in the annual report in order to reduce the consumption of energy and water.

The daily operation of the Group does not have material impact on the environment and natural resources. The Group will continue to be wholly committed to the policies on minimising its significant impact on the environment and natural resources as set out in this ESG report in the annual report in order to safeguard the environment and natural resources.

#### **Total employees**

The Group had a total number of 83 full-time employees as at 31 December 2024, all employees were located in China. During the year ended 31 December 2024, the Group adjusted the number of employees that was suitable for its business needs.

Set forth below is the Group's employee turnover rate by gender, age group and geographical region:

Category	For the year ended 31 December 2023	For the year ended 31 December 2024
By gender

By age group		
30 or below	11	13%
31-40	23	28%
41-50	34	41%
51 or above	15	18%

#### **Development and training**

The Group provides comprehensive training and development opportunities to its employees on a regular basis. The trainings are arranged according to needs of employees, which were identified annually by individual departments:

- a. Orientation training To familiarise employees with the Group's objectives, culture, rules and regulations, safety and product-related knowledge on the first day of work;
- b. Pre-job training To familiarise new employees or transferred employees with their new duties;
- c. On-the-job training To ensure that the employees are familiar with the Group's products, to sharpen the sales technique and customer service standard of sales and marketing personnel and to ensure the production and quality control personnel perform proper quality control procedures.

Set forth below is the number and percentage of training hours completed by the Group's employees by gender and employee category:

#### Supply chain management

The Group purchases raw materials and equipment based on its own needs, specifications, quality and safety performance of equipment, reputation, after-sales service and delivery time of the supplier. The Group compares different suppliers to select qualified suppliers (based on their product specifications, product compliances, production management, quality management, environmental friendliness and also corporate social responsibility performances) before the Group enters into contract with the qualified suppliers.

When selecting equipment, the Group would also consider whether the equipment is energy efficient and environmental friendly. During the year ended 31 December 2024, all of the Group's 186 suppliers were situated in the PRC.

The Group expects its suppliers to uphold the ESG principles that the Group has adopted into the management of its business operations. In order to ensure that the components and raw materials meet the requisite safety and quality standards, the Group adopts stringent criteria in supplier selection (including but not limited to whether they provide high quality raw materials, whether they maintain a high standard on environmental protection and comply with relevant laws on environmental issues, whether price is comparable to market rate and location of their factories) and continuously monitors existing suppliers on an annual basis, based on criteria such as product quality, product defect ratio, delivery punctuality ratio and responsiveness.

Whether the supplier will continue to be included in the Group's list of approved suppliers depends on the marks it achieved under annual evaluation. The awareness of environmental protection is one of the key criteria for the Group to evaluate the suppliers.

#### Product assurance and recall

Product quality is crucial to the Group's continued success. The Group places strong emphasis on achieving a consistently high quality for its products. To achieve such purpose, stringent quality control measures throughout the production process were implemented to ensure the quality and safety of our products. The Group's quality control department performs regular inspections to evaluate the effectiveness of the quality control measures and further enhance these measures when necessary.

During the year ended 31 December 2024, the Group did not experience any product recall, material non-compliance with laws and regulations in relation to product health and safety or receive any material complaints from consumers.

#### **Intellectual Property Rights and Information Security**

The Group registered various trademarks for the Group itself and its products in the PRC to foster its corporate image. The Group relies on the relevant laws and regulations to protect its brand names, trademarks and other intellectual property rights.

During the year ended 31 December 2024, the Group was not aware of any material infringement by the Group of any intellectual property rights owned by any third parties. Further, there were no pending or threatened material claims made against the Group with respect to the infringement of intellectual property rights owned by the Group.

#### **Anti-corruption**

According to the Group's anti-corruption policy, all employees shall abide by the laws and regulations of the PRC and shall not engage in any illegal activities. Employees shall uphold the code of ethics, advocate fair competition and act against bribery. Any bribery, fraud, money laundering and embezzlement are prohibited.

Employees must not accept or request any improper benefits including banquets, gifts, securities, valuables and high-expenditure entertainment activities from business partners, suppliers and merchants, etc. When there is any alleged case in violation of laws, regulations, code of conduct or Group's policies, the Group will investigate and impose disciplinary actions upon offenders after verification. Directors and employees received training from time to time to ensure that they comply and familiar with the anti- corruption guides, policies and procedures of the Group.

During the year ended 31 December 2024, the Group complied with all applicable laws on prohibiting corruption and bribery of the PRC and there was no concluded legal case regarding corrupt practices brought against the Group or its employees.

The Board of Directors is pleased to present the annual report and the audited consolidated financial statements of the Group for the year ended 31 December 2024.

#### **Principal Activities**

The Group is principally engaged in the development and provision of business application solutions. The Company operates through two segments. Business Application Project and Application Software segment is engaged in the development and provision of business application project services, including business solutions, application software, installation and maintenance services and data security products. It focuses on medical care sector, intelligent elderly care sector, intelligent surveillance sector, e-politics sector and e-commerce sector, among others.

#### **Business Review**

The business review of the Group for the year is set out in the sections of Chairman's Statement, Management Discussion and Analysis, Environmental, Social and Governance Report, Five-year Financial Summary and the paragraphs below.

The Group complies with the requirements under the Companies Ordinance, the GEM Listing Rules and the Securities and Futures Ordinance (the "SFO") for the disclosure of information and corporate governance. The Group also complies with the requirements of Employment Ordinance and ordinances relating to occupational safety for the interest of employees of the Group. No important event affecting the Group has occurred since the end of the financial year under review.

#### **Key Risk Factors**

The following lists out the key risks and uncertainties facing the Group.

#### Impact of Local and International Regulations

The business operation of the Group is also subject to government policy, relevant regulations and guidelines established by the regulatory authorities. Failure to comply with the rules and requirements may lead to penalties, amendments or suspension of the business operation by the authorities. The Group closely monitors changes in government policies, regulations and markets as well as conducting studies to assess the impact of such changes.

#### **Third-Party Risks**

The Group has been relying on third-party service providers in parts of business to improve performance and efficiency of the Group. While gaining the benefits from external service providers, the management realizes that such operational dependency may pose a threat of vulnerability to unexpected poor or lapses in service including reputation damage, business disruption and monetary losses. To address such uncertainties, the Group engages only reputed third-party providers and closely monitors their performance.

#### Key Relationships with Employees, Customers and Suppliers

The Group recognizes the accomplishment of the employees by providing comprehensive benefit package, career development opportunities and internal training appropriate to individual needs. The Group provides a healthy and safe workplace for all employees. No strikes and cases of fatality due to workplace accidents are found in the year.

The Group encompasses working relationships with suppliers to meet our customers' needs in an effective and efficient manner. The departments work closely to make sure the tendering and procurement process is conducted in an open, fair and just manner. The Group's requirements and standards are also wellcommunicated to suppliers before the commencement of a project.

The Group values the views and opinions of all customers through various means and channels, including usage of business intelligence to understand customer trends and needs and regular analysis on customer feedback. The Group also conducts comprehensive tests and checks to ensure that only quality products and services are offered to the customers.

Most businesses related with software development of the Group mainly involve labor cost and do not involve any long-term supplier. The business relationship between our major suppliers and the Group lasts for about one year on an average basis and they mainly locate in Eastern China. Suppliers are mainly determined based on the actual conditions of projects. In order to regulate prices, the purchase of necessary consumables shall be conducted through network platforms such as JD.COM. The payment term granted by offline suppliers is generally 30-90 days or depends on actual conditions, and payables usually shall be settled by wire transfer within the payment term. Details of the trade payables of the Group as at 31 December 2024 are set out in Note 5.15 to the financial statements.

During the Reporting Period, the Group did not have any significant dispute with our major suppliers.

Our major customers include public security bureaus, state-owned enterprises and institutions and courts, such as Shanghai Municipal Big Data Centre, Shanghai DS Communication Devices Co., Ltd., Xuhui Branch of Shanghai Municipal Public Security Bureau, Shanghai Construction No. 7 (Group) Co., Ltd., China UnionPay Merchant Services Co., Ltd., Minsheng Life Insurance Company Ltd., Zhejiang SWIN Culture and Creativity Co., Ltd., Fengxian Branch of Shanghai Municipal Public Security Bureau, Shanghai Electric Power and Communication Co., Ltd. and Wuning County People's Court of Jiujiang Municipality. The terms of business relationship with the Group range from 3 to 10 years and the credit terms granted to major customers shall be within 6 months. Depending on different projects, advances also can be paid before the construction commences. Details of the trade receivables of the Group as at 31 December 2024 are set out in Note 5.2 to the financial statements.

During the Reporting Period, the Group has not experienced any major disruption of business due to material delay or default of payment by our customers due to their financial difficulties. We did not have any material dispute with our customers.

The Group is aware that receivables are potential risks. In order to cope with this uncertainty, the Group mainly adopts the policy of prepayments and hardly participates in advances of projects. Construction process control shall be adjusted based on the payments of contract amounts of customers.

#### **Major Customers and Suppliers**

During the year under review, the Group's sales to the five largest customers accounted for 47.94% of the Group's turnover for the year, of which the largest customer accounted for 22.61% of the Group's turnover for the year.

Purchases from major suppliers accounted for the following percentages:

The largest supplier:	11.70%
Total percentage of the five largest suppliers:	35.13%

Save as disclosed above, as far as the Directors are aware, neither the Directors or their close associates nor any shareholders (which to the knowledge of the Directors own more than 5% of the Company's issued capital) and management shareholders had any material interest in the five largest customers and five largest suppliers.

#### **Results**

The Group's results and financial position for the year ended 31 December 2024 are set out in the annual report on pages 65 to 194.

#### **Dividends**

The directors do not recommend the payment of any dividends in respect of the year ended 31 December 2024.

#### **Financial Summary**

A summary of the results and assets and liabilities of the Group for each of the five years ended 31 December 2024 is set out on page 195 of the annual report.

#### **Plant and Equipment**

Details of the movements in the plant and equipment of the Group during the year are set out in note 5.10 to the notes to the financial statements.

#### Share Capital

Details of movements in the share capital of the Company during the year ended 31 December 2024 are set out in note 5.23 to the notes to the financial statements.

### EQUITY-LINKED AGREEMENT

Details of the equity-linked agreement entered into during the financial year or subsisting at the end of the year are set out below:

#### **Share Option Scheme**

The Company conditionally adopted a share option scheme (the "Share Option Scheme") by a resolution of all shareholders of the Company on 7 July 2002. The Share Option Scheme is to enable the Group to grant options to selected participants as incentives or rewards for their contribution to the Group.

The maximum total number of H shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the Share Option Scheme and any other share option scheme of the Group must not in aggregate exceed 30 percent of the H shares in issue from time to time. The total number of H shares which may be issued upon exercise of all options to be granted under the Share Option Scheme and any other share option scheme of the Group must not in aggregate exceed 13,200,000 H shares, being 10 percent of issued H shares. The total number of H shares issued and which may fall to be issued upon exercise of the options granted or to be granted under the Share Option Scheme and any other share option scheme of the Group to each grantee in any 12-month period up to the date of grant shall not exceed one percent of the H shares in issue for the time being (the "Individual Limit"). Any further grant of options in excess of the Individual Limit in any 12-month period up to and including the date of such further grant shall be subject to the issue of a circular to the shareholders and the shareholders' approval in general meeting of the Company with such grantee and his associates abstaining from voting.

An option may be accepted by a participant within 21 days from the date of grant of the option. No eligible participants who are PRC nationals and have taken up any options to subscribe for H shares shall be entitled to exercise any such options until the current restrictions imposed by the relevant PRC laws and regulations restricting PRC nationals from subscribing for and dealing in H shares or any laws or regulations with similar effects (the "H Shares Restrictions") have been abolished or removed. Options may be exercised in accordance with the terms of the Share Option Scheme at any time during a period to be determined and notified by the Directors to each grantee, which period may commence on a day after the date upon which the offer for the grant of options is made but shall end in any event not later than 10 years from the date of grant of the Share Option Scheme shall be a price determined by the Directors, but shall not be less than the highest of (aa) the closing price of the H shares on GEM as stated in the Stock Exchange's daily quotations on the date of the offer of grant, which must be a business day; (bb) the average closing price of the H shares on GEM as stated in the Stock Exchange's daily preceding the date of the offer of grant; and (cc) the nominal value of the H shares.

The Share Option Scheme of the Company has become invalid on 6 July 2012. As at the date of this report, there are no outstanding share options and no shares are available for issue under the Share Option Scheme.

#### Reserves

Details of movements in the reserves of the Company during the year are set out on page 150 and in note 5.27 to the notes to the financial statements.

#### **Reserves and Distributable Reserves**

Details of movements in the reserves of the Company during the year are set out on page 150 and in note 5.27 to the notes to the financial statements.

As at 31 December 2024, the distributable reserve of the Company in deficit was RMB111,004,920.56 (2023: the distributable reserve of the Company in deficit was RMB108,315,932.08). Details of distributable reserves of the Company during the year are set out in notes 5.27 to the notes to the financial statements.

#### **Retirement Benefits**

The employees of the Group are required to participate in a central pension scheme (the "Defined Contribution Schemes") operated by the local municipal government, to which the Group is required to contribute a certain percentage, which was pre-determined by the local municipal government, of the sum of basic salary and allowance of employees to the Defined Contribution Schemes. The contributions by the Group for the Defined Contribution Schemes are charged to the statement of profit or loss as they become payable in accordance with the relevant rules of the respective schemes.

The Group's contributions to the Defined Contribution Schemes vest fully and immediately with the employees. Accordingly, (i) for each of the two years ended 31 December 2023 and 31 December 2024, there was no forfeiture of contributions under the Defined Contribution Schemes; and (ii) there were no forfeited contributions available for the Group to reduce its existing level of contributions to the Defined Contribution Schemes as at 31 December 2023 and 31 December 2024.

For each of the two years ended 31 December 2023 and 31 December 2024, the Group did not have any defined benefit plan.

Details of the retirement benefit scheme of the Group are set out in note 5.17 to the notes to the financial statements.

### **DIRECTORS AND SUPERVISORS**

The directors and supervisors of the Company during the year and up to the date of this report were:

#### **Executive Directors**

Mr. Zhang Xiaobo Mr. Shuai Ge Ms. Cao Zhen Mr. Hu Lunjie Ms. Gu Xiaomin Mr. Sun Jingchen *(Chairman) (Vice Chairman)* (Resigned on 30 August 2024)

#### **Independent Non-executive Directors**

Mr. Yuan Shumin Mr. Liu Feng Mr. Zhou Guolai

#### **Supervisors**

Mr. Rong Yinsheng Ms. Sun Guofang Mr. Yang Binghuai Mr. Yang Qing Ms. Sun Yunyun

According to the provisions of the Articles of Association, the terms of service of all the Directors and the Supervisors are three years. All Directors and the Supervisors (except the representative of the employees) are subject to re-election at a general meeting upon the expiration of their terms of service.

#### **Directors' and Supervisors' Service Contracts**

The Company did not enter into any service contract with each of the executive Directors, independent nonexecutive Directors and Supervisors.

None of the Directors or supervisors of the Company has or is proposed to have a service contract with the Company (other than contracts expiring or determinable by any member of the Company within one year without payment of compensation, other than statutory compensation).

#### **Indemnity of Directors**

The Company has maintained appropriate directors and officers liability insurance and such permitted indemnity provision for the benefit of the Directors is currently in force and was in force throughout the year.

#### **Directors', Supervisors' and Senior Executives' Emoluments**

Details of the Directors', Supervisors' and senior executives' emoluments and the highest paid individuals are set out in note 12.4 to the financial statements.

### Directors', Supervisors' and Chief Executives' Interests and Short Positions in Shares, Underlying Shares and Debentures

As at 31 December 2024, none of the Directors, Supervisors or chief executives of the Company had any interests or short positions in the shares, underlying shares or debentures of the Company or any of its associated corporations (within the meaning of Part XV of the SFO) which were recorded in the register required to be kept by the Company under Section 352 of the SFO, or which were required to be notified to the Company and the Stock Exchange pursuant to the required standard of dealings by directors of listed issuers as referred to in Rule 5.46 of the GEM Listing Rules.

# Arrangement for Directors, Supervisors' and Chief Executives to Purchases Shares or Debentures

At no time during the year were rights to acquire benefits by means of the acquisition of Shares in or debentures of the Company granted to any Director, supervisors' and chief executives of the Company or their respective spouses or minor children, or were such rights exercised by them, or was the Company, its holding company or any of its subsidiaries a party to any arrangements to enable the Directors, supervisors' and chief executives of the Company to acquire benefits by means of the acquisition of shares in, or debt securities (including debentures) of the Company or any other body corporate.

# Substantial Shareholders' and Other Persons' Interests and Short Position in Shares and Underlying Shares in the Company

#### A. Substantial shareholders

As at 31 December 2024, the following shareholders (other than the Directors and the Supervisors (as if the requirements applicable to the Directors under the SFO had applied to the Supervisors) of the Company) had an interest or a short position in the shares and underlying shares in the Company as recorded in the register required to be kept under section 336 of the SFO and were directly or indirectly interested in 10 percent or more of the Shares:

Name of shareholders	Capacity and nature	Number and class of shares (Note 1)	Approximate percentage of interest
State-owned Assets Supervision and Administration Commission of Shangh	Interest of a controlled corporation nai (Note 2)	114,000,000 domestic shares (L)	23.75%
Shanghai Jiaoda Industrial Investment Management (Group) Limited	Beneficial owner	114,000,000 domestic shares (L)	23.75%
Shanghai Xin Xuhui (Group) Company Limited	Beneficial owner	60,000,000 domestic shares (L)	12.50%
Xuhui District Industrial Association	Interest of a controlled corporation (Note 3)	60,000,000 domestic shares (L)	12.50%
Shanghai Huixin Investment Operation Company Limited	Beneficial owner	57,000,000 domestic shares (L)	11.88%
Shanghai Technology Venture Capital Management Company Limited	Beneficial owner	57,000,000 domestic shares (L)	11.88%

Notes:

		domestic shares (L)	

Note: The letter "L" represents the entity's interest in the shares of the Company.

Save as disclosed above, as at 31 December 2024, the Directors are not aware of any other person (other than the Directors or chief executive of the Company) who has interests or short positions in the shares or underlying shares of the Company which would fall to be disclosed to the Company and the Stock Exchange under the provision of Divisions 2 and 3 of Part XV of the SFO or which were recorded in the register required to be kept by the Company under section 336 of the SFO.

#### **Board Practices and Procedures**

Throughout the year ended 31 December 2024, the Company was in compliance with the Board Practices and Procedures as set out in Rule 5.34 of the GEM Listing Rules.

#### Directors' and Supervisors' Interests in Transactions, Arrangements or Contracts

Save as disclosed in the annual report, no transaction, arrangement or contract of significance to which the Company, or any of its holding company, subsidiaries or fellow subsidiaries was a party, and in which a Director, a supervisor and any of their connected entity had a material interest, subsisted at the end of the year or at any time during the year.

#### **Management Contracts**

No contracts concerning the management and administration of the whole or any substantial part of the business of the Company or its subsidiaries were entered into or existed during the year.

#### **Closure of Register of Members**

The register of members of the Company will be closed from 21 May 2025 to 20 June 2025 (both days inclusive), during which no transfer of shares will be effected. The holders of shares whose name appears on the register of members of the Company on 20 June 2025 will be entitled to attend and vote at the annual general meeting. In order to qualify for attending and voting at the above meeting, instruments of transfer accompanied by share certificates and other appropriate documents must be lodged with the Company's H share registrar, Union Registrars Limited at Suites 3301-04, 33/F., Two Chinachem Exchange Square, 338 King's Road, North Point, Hong Kong, not later than 4:00 p.m. on 20 May 2025.

#### Purchase, Sale or Redemption of Securities

Neither the Company nor any of its subsidiaries purchased, sold or redeemed any listed securities of the Company during the year ended 31 December 2024.

#### **Competing Interests**

None of the Directors or the management shareholders of the Company (as defined in the GEM Listing Rules) had any interest in a business which competes or may compete with the business of the Company.

#### **Pre-Emptive Rights**

Pursuant to the Articles of Association of the Company and the laws of the PRC, the Company is not subject to any pre-emptive rights requiring it to propose new issues to its existing shareholders in proportion to their shareholdings.

#### **Public Float**

As far as the information publicly available to the Company is concerned and to the best knowledge of the Directors, at least 25% of the Company's issued share capital were held by the public as at the date of the annual report.

#### **Audit Committee**

The Company established an Audit Committee on 7 July 2002 with written terms of reference. The Audit Committee comprises the three independent non-executive Directors, namely Mr. Yuan Shumin, Mr. Liu Feng and Mr. Zhou Guolai.

The Company's consolidated financial statements for the year ended 31 December 2024 have been reviewed by the Audit Committee, who gave advice on such statements to the Board. The financial reporting system, risk management and internal control systems of the Company have also been reviewed by the Audit Committee, who were of the opinion that no further improvement was required for the time being. During the year, the Audit Committee has held four formal meetings.

#### Auditor

ShineWing Certified Public Accountants (Special General Partnership) will retire at the forthcoming annual general meeting of the Company and, being eligible, offer itself for re-appointment. A resolution for the re-appointment of ShineWing Certified Public Accountants (Special General Partnership) as auditor of the Company will be proposed at the forthcoming annual general meeting of the Company.

On behalf of the Board

**Mr. Zhang Xiaobo** *Chairman* 

Shanghai, the PRC, 21 March 2025

To shareholders of Shanghai Jiaoda Withub Information Industrial Company Limited:

### I. AUDITORS' OPINIONS

We have audited the financial statements of Shanghai Jiaoda Withub Information Industrial Co., Ltd. (hereinafter as the "Company"), which comprise the consolidated and the Company's balance sheets as at 31 December 2024, the consolidated and the Company's income statements, cash flow statements and statements of changes in shareholders' equity for 2024 and the related notes to these financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the consolidated and the Company's financial position as at 31 December 2024, the consolidated and the Company's results of operations and cash flows for the year then ended in accordance with Accounting Standards for Business Enterprises.

### II. BASIS OF OPINIONS

We conducted our audit in accordance with China Standards on Auditing for Chinese Certified Public Accountants. Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are independent of the Company's in accordance with the Code of Ethics for Chinese Certified Public Accountants, and we have fulfilled our other ethical responsibilities of the code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit.

### **III. KEY AUDIT MATTERS**

Key audit matters are the most significant issues identified by our professional judgment during the audit of the current period's financial statements. Our approach to addressing these matters is based on the audit of the financial statements in their entirety and the formation of our audit opinion. We do not express separate opinions on these matters.

The key audit matters identified during our audit are as follows:

#### Key audit matters

#### How this matter was addressed during the audit

#### 1 · Revenue Recognition

As of December 31, 2024, Jiaoda Withub Company achieved a revenue of RMB56,471,731.84, including RMB34,239,827.06 (accounting for 60.63%) from business solutions and application software services, and RMB20,253,165.28 (accounting for 35.86%) from the installation and maintenance of network and data security products. According to Jiaoda Withub Company's revenue recognition policy (detailed in Note 3.20 of the financial statements), the company recognizes revenue for such transactions based on the progress of performance.

We have identified the recognition of revenue based on the progress of performance as a key audit matter because this type of revenue is one of the company's key performance indicators. It involves management's accounting estimates and judgments, which carry inherent risks due to the potential for incorrect recording in the wrong accounting period or manipulation.

- We understood and evaluated the effectiveness of the internal controls related to this type of business in Jiaoda Huigu Company;
- (2) We understood the method and basis used by the management of Jiaoda Huigu Company to identify the performance obligations within a certain period of time and to determine the progress of performance;
- (3) Based on the judgment of the management of Jiaoda Huigu Company, we reviewed whether our judgment of the performance obligations conditions in the contract and the method of determining the progress of performance comply with the provisions of accounting standards;
- (4) For the revenue recognized based on the progress of performance, we conducted a review of the progress of performance, including: ① selecting projects accounting for more than 80% of the total completed projects in the current period, checking the budgeted income against the actual income, budgeted cost against the actual cost, verifying contracts and payment records, examining completion settlement documents, and confirming the transaction amounts and balances through correspondences. For projects involving multiple years, we also reviewed the reasons and rationality of the fluctuations in gross profit margin over two periods. ② selecting projects accounting for more than 89% of the total unfinished projects in the current period, checking the budgeted income against the actual income, budgeted cost against the actual cost, verifying contracts and payment records, examining the performance progress materials confirmed by both parties, and verifying the progress of performance through correspondences.

### **IV. OTHER INFORMATION**

The management of the Company (hereinafter referred to as "the Management") is responsible for the other information. The other information comprises the information covered in the Company's 2024 annual report, but it does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact. We have nothing to report in this regard.

### V. RESPONSIBILITIES OF THE MANAGEMENT AND GOVERNING BODIES FOR THE FINANCIAL STATEMENTS

The Management is responsible for the preparation of the financial statements in accordance with Accounting Standards for Business Enterprises to achieve fair presentation; and designing, implementing and maintaining internal control which is necessary to enable that the financial statements are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Company's or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible to overseeing the company's financial reporting process.

# VI. AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are generally considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

During the course of audit in accordance with auditing standards, we exercise professional judgment and maintain professional skepticism. We also carry out the following works the following works:

- (1) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (2) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of its internal control.
- (3) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- (4) Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- (5) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- (6) Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance audit of the group. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings etc., including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with those relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and related safeguards, where applicable.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation prohibited public disclosure about the matter or when, in rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

# Statement of Changes of Equity of the Parent Company 2024

### 1. GENERAL INFORMATION ABOUT THE COMPANY

Shanghai Jiaoda Withub Information Industrial Company Limited (hereinafter referred to as the Company) was established on May 4th, 1998, with its place of registration at 2nd Floor, Building 7, No. 471 Guiping Road, Shanghai and office at Building A, Shanghai Jiaoda Withub Information Park.

On July 31st, 2002, the Company was listed on the Growth Enterprise Market (GEM) of The Stock Exchange of Hong Kong Limited and issued 132 million foreign shares with a par value of RMB0.1 each, amounting to RMB13.2 million; at the same time, some of the shareholders of the Company offered to place 12 million shares, amounting to RMB1.2 million. After the issue, the registered capital of the Company increased to RMB48 million and the number of shares increased to 480 million.

As at December 31st, 2024, the total number of shares of the Company was 480 million shares, of which 348 million shares, or 72.50% of the total share capital, were unlisted, and 132 million shares, or 27.50% of the total share capital, were public shares of listed H-shares.

The Company belongs to the Software and Information Technology Services industry, and its business mainly consists of business application solutions and application software development business, installation and maintenance of network and data security products business, and sales of electrical products and accessories, etc.

The financial statements were approved for reporting on March 21st, 2025 by the Board of Directors of the Company. In accordance with the Company's Articles of Association, the financial statements will be submitted to the General Meeting of Shareholders for review.

### 2. BASIS FOR THE PREPARATION OF FINANCIAL STATEMENTS

### 2.1 Basis for the preparation

The Company's financial statements have been prepared on the basis of transactions and events that actually occurred, in accordance with the Accounting Standards for Business Enterprises, its Application Guidelines, Interpretations and other relevant regulations issued by the Ministry of Finance (hereinafter collectively referred to as the "Accounting Standards for Business Enterprises"), the Compilation Rules for Information Disclosure by Companies Offering Securities to the Public No. 15 - the General Provisions of Financial Reports issued by the China Securities and Regulatory Commission (2024 Revision) and the relevant regulations, as well as the disclosure requirements of the Hong Kong Companies Ordinance and the Rules Governing the Listing of Securities on the Growth Enterprise Market of the Stock Exchange of Hong Kong.

### 2.1 Going concern

The Company has evaluated its ability to continue as a going concern for the 12 months from December 31st, 2024 and has not identified any events or circumstances that may cast significant doubt over its ability to continue as a going concern. The financial statements are prepared on a going concern basis.

## 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES

Specific accounting policies and accounting estimates formulated by the Company in accordance with the actual production and operating characteristics include: recognition and measurement of bad debt provision for receivables, measurement of inventories dispatched, classification of fixed assets and method of depreciation, amortization of intangible assets, and recognition and measurement of revenue.

### 3.1 Statement of compliance with the Accounting Standards for Business Enterprises

The financial statements comply with the requirements of the Accounting Standards for Business Enterprises and give a true, accurate and complete presentation of the financial position of the Company as at December 31st, 2024 and of the results of its operations and cash flows for the year 2024 and other related information.

### 3.2 Accounting period

The accounting period of the Company is from January 1st to December 31st of the calendar year.

### 3.3 Operating cycle

The Company operates businesses with short operating cycles and uses 12 months as the liquidity classification standard for assets and liabilities.

### 3.4 Functional currency

The Company and its domestic subsidiaries use RMB as the standard currency for accounting.

Overseas subsidiaries of the Company determine their own accounting currency based on the principal economic environments in which they operate, and the Company translates them into RMB in the preparation of its financial statements in accordance with the method described in III.9.

## 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

### 3.5 Methodology for determining materiality criteria and basis for selection

The Company follows the principle of materiality in the preparation and disclosure of its financial statements. The disclosures in the notes to the financial statements that involve materiality judgments and the methodology for determining and selecting the materiality criteria are as follows:

Related materiality criteria Disclosures involving judgments	Disclosure position of this matter in the notes to the financial statements	Methodology for determining materiality criteria and basis for selection
Significant accounts receivable for which bad debt provision is made on an individual basis	V.2	Individual provision amounts accounting for 10% of the total bad debt provision for accounts receivable and exceeding 1 million
Important joint ventures and joint ventures	V.8	Individual associates and joint ventures book value accounting for more than 5% of consolidated net assets
Important other non current financial assets	V.9	The carrying amount of other non-current financial assets of a single investee accounts for more than 5% of the consolidated net assets
Accounts payable that are more than 1 year old	V15	The individual amount exceeds 1 million yuan

### 3.6 Accounting treatment for business combinations under common control and not under common control

### (1) Business combinations involving entities under common control

Business combinations in which the enterprises participating in the combination are under the ultimate control of the same party or parties, both before and after the combination, and such control is not temporary, are business combinations under common control.

Assets and liabilities acquired by the Company as a consolidator in a business combination under common control are measured at the book value of the consolidated party in the consolidated statements of the ultimate controlling party at the date of consolidation. The difference between the book value of the net assets acquired and the book value of the consideration paid for the merger is adjusted to capital reserves; if capital reserves are not sufficient to offset the difference, retained earnings are adjusted.

## 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

### 3.6 Accounting treatment for business combinations under common control and not under common control (Continued)

### (1) Business combinations involving entities under common control (Continued)

If a business combination under common control is achieved in stages through multiple transactions, the relevant assets and liabilities of the consolidated party are consolidated into the comparative statements of the Company's consolidated financial statements no earlier than the point at which the Company and the consolidated party are both under the control of the ultimate controlling party and the net assets increased as a result of the consolidation is adjusted to the relevant items under owner's equity in the comparative statements.

### (2) Business combinations involving entities not under common control

Business combinations are not under common control if the parties involved in the combination are not under the ultimate control of the same party or parties before and after the combination.

Identifiable assets, liabilities and contingent liabilities of the acquiree acquired by the Company as the purchaser in a business combination not under common control are measured at fair value at the acquisition date. If the cost of combination is greater than the share of the fair value of the identifiable net assets of the acquiree acquired in the combination, the difference is recognized as goodwill; if the cost of combination is less than the share of the fair value of the identifiable net assets of the acquiree acquired in the combination, the fair value of the identifiable net assets of the acquiree acquired in the combination, the fair value of each identifiable asset, liability and contingent liability acquired in the combination, and the costs are first reviewed, and if, after the review, the cost of combination is still less than the share of the fair value of the identifiable net assets of the acquiree acquired in the combination, the difference is recognized as non-operating income in the period of the combination.

If the business combination not under common control is realized step by step through multiple transactions, the equity interest in the acquiree held prior to the date of purchase is remeasured at the fair value of the equity interest in the acquiree at the date of purchase, and the difference between the fair value and its book value is recognized as investment income for the period; other comprehensive income under the equity method of accounting and changes in owners' equity other than net profit or loss, other comprehensive income and profit distribution in respect of equity interests in the acquiree held prior to the date of purchase shall be transferred to investment gains and losses in the period in which the purchase date falls, except for other comprehensive income arising from the remeasurement of changes in net liabilities or net assets of the defined benefit plan by the investee.

## 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

### 3.7 Control determination criteria and preparation of consolidated financial statements

The scope of consolidation of the Company's consolidated financial statements is determined on the basis of control and includes the Company and all subsidiaries controlled by the Company (including enterprises, divisible segments of investees, and structured entities controlled by enterprises, etc.). The Company determines control by the criteria that the Company has rights over the investee, enjoys variable returns through participation in the investee's relevant activities, and has the ability to use its rights over the investee to affect the amount of its returns.

In preparing the consolidated financial statements, where the accounting policies and the accounting periods of the Company and its subsidiaries are inconsistent, the financial statements of the subsidiaries are adjusted in accordance with the accounting policies and the accounting period of the Company.

The effects on the consolidated financial statements of internal transactions between the Company and its subsidiaries and between subsidiaries are offset by consolidation. The shares of ownership interests of subsidiaries that are not attributable to the parent company and the shares of net profit or loss, other comprehensive income and total comprehensive income for the period that is attributable to minority interests are presented in the consolidated financial statements under "Minority interests, minority gains and losses, other comprehensive income attributable to minority shareholders and total comprehensive income attributable to minority shareholders", respectively.

For subsidiaries acquired through business combinations under common control, their operating results and cash flows are included in the consolidated financial statements from the beginning of the period of consolidation. When preparing the comparative consolidated financial statements, the relevant items in the prior year's financial statements are adjusted as if the reporting entity formed by the combination had existed since the point at which control by the ultimate controlling party began.

For a subsidiary acquired through a business combination not under common control, the results of operations and cash flows are included in the consolidated financial statements from the date the Company obtains control. In preparing the consolidated financial statements, the financial statements of subsidiaries are adjusted on the basis of the fair value of each identifiable asset, liability and contingent liability determined at the date of purchase.

Where the Company partially disposes of its long-term equity investment in a subsidiary without loss of control, for the difference between the disposal price and the share of the subsidiary's net assets calculated on a continuing basis from the purchase date or the combination date corresponding to the disposal of the long-term equity investment, the capital reserves (share premium) shall be adjusted in the consolidated financial statements, or the retained earnings shall be adjusted if the capital reserves are insufficient to be written down.

## 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

## 3.7 Control determination criteria and preparation of consolidated financial statements (Continued)

If the Company loses control over an investee due to, for example, the disposal of a portion of an equity investment, the remaining equity interest shall be remeasured at its fair value at the date of the loss of control in the preparation of the consolidated financial statements. The difference between the sum of the consideration obtained from the disposal of equity interest and the fair value of the remaining equity interest and the share of the original subsidiary's net assets continuously calculated from the date of purchase or the date of consolidation based on the original shareholding ratio, is included in investment gains and losses in the period in which control is lost, and goodwill is also written down. Other comprehensive income, etc. related to original equity investments in the subsidiary is transferred to current investment gains and losses when control is lost.

When the disposal of the Company's equity investment in a subsidiary in stages through multiple transactions until it loses control is a package deal, each transaction shall be accounted for as a single transaction of disposing of the subsidiary and losing control of the subsidiary; provided, however, that the difference between the price of each disposal prior to the loss of control and the share of the subsidiary's net assets corresponding to the investment disposed of is recognized in the consolidated financial statements as other comprehensive income and transferred to investment gains and losses for the period of the loss of control when control is lost. If an equity investment in a subsidiary is disposed of in stages through multiple transactions until it loses control, and is not a package deal, each transaction is accounted for separately according to whether it results in a loss of control.

### 3.8 Cash and cash equivalents

Cash in the Company's statement of cash flows represents cash on hand and deposits that are readily available for payment. Cash equivalent in the cash flow statement refers to the investment with a term not more than 3 months and high liquidity, and is easily convertible to known amounts of cash and subject to an insignificant risk of changes in value.

## 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

### 3.9 Foreign currency operations and translation of foreign currency financial statements

#### (1) Foreign currency transactions

The foreign currency transactions of the Company are initially recognized by using the spot exchange rate on the date of the transaction to translate the foreign currency amount into a functional currency amount. At the balance sheet date, monetary items denominated in foreign currencies are translated into the functional currency using the spot exchange rate at the balance sheet date, and the resulting translation differences are charged directly to profit or loss for the current period, except for exchange differences arising from specialized borrowings denominated in foreign currencies for the purpose of acquiring, constructing or producing assets eligible for capitalization, which are capitalized; non-monetary item in foreign currency measured at historical cost continues to be translated using the spot exchange rate at the date of the transaction and does not change the functional currency in which it is recorded; nonmonetary item measured at fair value in a foreign currency is translated using the spot exchange rate at the date the fair value is determined, and the difference between the translated amount in the functional currency and the original amount in the local currency is treated as a change in fair value (including exchange rate changes) and recognized in profit or loss for the current period; capital contributions received from investors in foreign currencies are translated using the spot exchange rate on the date of the transaction, and no foreign currency capital translation differences arise between the capital contributions in foreign currencies and the carrying amounts of the corresponding monetary items in the local currency.

#### (2) Translation of foreign currency financial statements

The Company translates the financial statements of its foreign operations into RMB in the preparation of its consolidated financial statements, of which: the balance sheet items of assets and liabilities in foreign currencies are translated using the spot exchange rate at the balance sheet date; the items of owners' equity, except for "undistributed earnings", are translated at the spot exchange rate at the time of the transaction; the income and expense items in the income statement are translated using the current average exchange rate at the date of the transaction. The foreign currency statement translation differences arising from the above translated using the average exchange rate for the period of the cash flows in foreign currencies are translated using the effect of exchange rate changes on cash is presented separately in the cash flow statement.

## 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

### 3.10 Financial instruments

#### (1) Derecognition of financial liabilities

A financial asset or a financial liability is recognized when the Company becomes a party to a financial instrument contract.

A financial asset (or part of a financial asset, or part of a group of similar financial assets) is derecognised, namely, charged off from their accounts and balance sheet when the following conditions are met: ① the right to receive cash flows from the financial asset expires; ② the right to receive cash flows from the financial asset is transferred or, assumed the obligation to pay the received cash flows in full and on time to a third party under a pass-through agreement; and either the transfer of substantially all of the risks and rewards of ownership of the financial asset or the relinquishment of control over the financial asset, although substantially the transfer of substantially all of the risks and rewards of ownership of the financial asset is not made.

A financial liability is derecognized if the obligation under the financial liability is fulfilled, cancelled or expired. If an existing financial liability is replaced by another from the same creditor on substantially different terms, or if the terms of an existing liability are substantially modified in almost its entirety, such substitution or modification is treated as a derecognition of the original liability and the recognition of a new liability, with the difference charged to current profit or loss.

The purchase and sale of financial assets on a regular basis is recognized and derecognized on the basis of transaction date accounting.

#### (2) Classification and measurement of financial assets

Based on the business model for managing financial assets and the contractual cash flow characteristics of financial assets, the Company shall classify financial assets at initial recognition as financial assets measured at amortized cost, financial assets at fair value through other comprehensive income, and financial assets at fair value through profit or loss. All related financial assets that are affected may be reclassified only when the Company changes its business model for managing the financial assets.

In judging the business model, the Company shall consider the information including how it evaluates and reports the performance of financial assets to its key management personnel, the risks affecting the performance of financial assets and the relevant management method, and how managers of the relevant business are compensated, etc. The Company, when assessing whether the objective is to collect the contractual cash flows, is required to analyze the reasons for, the timing, frequency and value of sales of financial assets before maturity.

## 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

### 3.10 Financial instruments(Continued)

#### (2) Classification and measurement of financial assets (Continued)

To determine the contractual cash flow characteristics, the Company shall make judgments on whether the contractual cash flows are solely payments of principal and interest on the principal amount outstanding, including evaluating whether there is a significant difference in comparison with benchmarking cash flows when the revision of the time value of money is assessed, and evaluating whether the fair value of the prepayment feature is insignificant provided that the financial assets have the prepayment feature.

Financial assets shall be measured at fair value on initial recognition, except for accounts receivable or notes receivable arising from the sales of goods or rendering of services and without significant financing components or without considering the financing component that does not exceed one year, which are initially measured at the transaction price.

For financial assets at fair value through profit or loss, the related transaction costs are recognized directly in the current profit or loss; for other categories of financial assets, the related transaction costs are recognized in their initial recognition amounts.

The subsequent measurement of financial assets depends on their classification:

#### 1) Financial assets measured at amortized cost

Financial assets are classified as measured at amortized cost if both of the following conditions are met: ① the objective of the business model for managing the financial assets is to collect contractual cash flows; ② the contractual terms of the financial assets provide that the cash flows arising on specified dates are solely payments of principal and interest on the principal amount outstanding. The Company's financial assets in this category mainly consist of cash and cash equivalents, bill receivable, accounts receivable and other receivables.

## 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

### 3.10 Financial instruments(Continued)

#### (2) Classification and measurement of financial assets (Continued)

#### 2) Investments in debt instruments at fair value through other comprehensive income

Financial assets are classified as at fair value through other comprehensive income if both of the following conditions are met: ① the objective of the business model for managing the financial assets is both to collect contractual cash flows and sell the financial assets. ② the contractual terms of the financial assets provide that the cash flows arising on specified dates are solely payments of principal and interest on the principal amount outstanding. Interest income for such financial assets is recognized based on the effective interest method. Changes in fair value are recognized in other comprehensive income, other than interest income, impairment losses and exchange differences which are recognized in the current profit or loss. When the financial assets are derecognized, the cumulative gains or losses previously recognized in other comprehensive income shall be transferred from other comprehensive income to the current profit or loss. The Company's financial assets in this category are mainly receivables financing.

### 3) Investments in equity instruments at fair value through other comprehensive income

The Company irrevocably elects to designate certain investments in non-trading equity instruments as financial assets at fair value through other comprehensive income, and the designation is irrevocable once made. The Company recognizes only the related dividend income (except for dividend income that is explicitly recognized as a partial recovery of investment costs) in the current profit or loss, and subsequent changes in fair value are recognized in other comprehensive income. No provision for impairment is accrued. When the financial assets are derecognized, the cumulative gains or losses previously recognized in other comprehensive income shall be transferred from other comprehensive income to retained earnings. The Company's financial assets in this category are investments in other equity instruments.

### 4) Financial assets at fair value through profit or loss

Except for those classified as financial assets measured at amortized cost and those classified or designated as at fair value through other comprehensive income described above, the Company classifies other financial assets as at fair value through profit or loss. Such financial assets are subsequently measured at fair value, and all changes in fair value are recognized in the current profit or loss, except when they relate to hedge accounting. The Company's financial assets in this category mainly include financial assets held for trading and other non-current financial assets.

If the contingent consideration recognized by the Company in a business combination not under common control constitutes a financial asset, the financial asset shall be classified as at fair value through profit or loss.

### 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

### 3.10 Financial instruments(Continued)

#### (3) Classification, recognition and measurement of financial liabilities

The Company's financial liabilities are classified on initial recognition as follows: financial liabilities at fair value through profit or loss and financial liabilities measured at amortized cost, except for financial guarantee contracts issued, loan commitments at below-market interest rates, and financial liabilities arising from transfers of financial assets that do not qualify for derecognition or from the continuing involvement in the transferred financial assets. For financial liabilities at fair value through profit or loss, the related transaction costs are recognized directly in the current profit or loss; and for financial liabilities measured at amortized costs, the related transaction costs are recognized in their initial recognition amounts.

The subsequent measurement of financial liabilities depends on their classification:

#### 1) Financial liabilities measured at amortized cost

Financial liabilities measured at amortized cost are subsequently measured at amortized cost using the effective interest method.

#### 2) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss (including derivatives that are financial liabilities) comprise financial liabilities held for trading and financial liabilities designated as at fair value through profit or loss at initial recognition. Financial liabilities held for trading (including derivatives that are financial liabilities) are subsequently measured at fair value, and all changes in fair value are recognized in the current profit or loss, except when they relate to hedge accounting. Financial liabilities designated as at fair value through profit or loss, except or loss are subsequently measured at fair value, and changes in fair value are recognized in the current profit or loss, except for changes in fair value attributable to changes in the Company's own credit risks, which are recognized in other comprehensive income. If changes in fair value attributable to changes in the Company's own credit risks are recognized in the company's own credit risks are recognized in other comprehensive income and it would create or enlarge accounting mismatches in profit or loss, the Company shall recognize all changes in fair value (including the amount of the effect of changes in the Company's own credit risks) in the current profit or loss.

### 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

### 3.10 Financial instruments(Continued)

#### (4) Impairment of financial instruments

The Company shall account for impairment measured at amortized cost and recognize the loss allowances based on expected credit losses.

#### 1) Measurement of Expected Credit Loss

Expected credit loss is the weighted average of credit losses on a financial instrument with the risks of a default occurring as the weights. Credit loss is the difference between all contractual cash flows receivable under the contract and all the cash flows that the Company expects to receive, i.e., the present value of all cash shortfalls.

The expected credit loss throughout the expected lifespan refers to the expected credit loss caused by all possible default events that may occur during the expected lifespan of a financial instrument. Expected credit loss within the next 12 months refers to the expected credit loss that may occur due to a financial instrument default event within 12 months after the balance sheet date (if the expected duration of the financial instrument is less than 12 months, it is the expected duration), and is a part of the expected credit loss for the entire duration.

For accounts receivable, notes receivable, receivables financing, contract assets, other receivables, etc. that do not contain a significant financing component and are generated from ordinary operating activities, such as sales of goods and rendering of services, the Company applies a simplified measurement methodology to measure the provision for losses at an amount equal to the expected credit losses over the entire life of the asset.

For lease receivables, receivables and contract assets with significant financing components, the Company applies a simplified measurement methodology to measure the provision for losses at an amount equal to the expected credit losses over the entire life of the asset.

## 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

### 3.10 Financial instruments(Continued)

#### (4) Impairment of financial instruments (Continued)

### 1) Measurement of Expected Credit Loss (Continued)

For financial instruments with low credit risk as of the balance sheet date, the Company assumes that their credit risk has not significantly increased since initial recognition. For the disclosure of our company's criteria for significantly increasing credit risk and the definition of assets with credit impairment, please refer to Note 10.1.

When assessing the impairment of financial instruments and contract assets based on the expected credit loss model, the Company shall make significant judgments and estimates and take into account all reasonable and supportable information, including forward-looking information. These judgments and estimates require the Company to infer the expected changes in debtors' credit risks based on historical repayment data and in conjunction with economic policies, macroeconomic indicators, industry risks and other factors. Different estimates may affect the accrual of impairment provisions, and the impairment provisions that have been accrued may not equal the actual amount of future impairment losses.

## *2) Combination categories and determination criteria for impairment provision based on credit risk characteristics*

The Company evaluates expected credit losses on financial instruments on an individual and portfolio basis. For portfolio-based assessments, the Company shall categorize financial instruments into different groups based on common credit risk characteristics. The common credit risk characteristics adopted by the Company include the types of financial instruments, credit risk ratings, the industries in which the debtors operate, past due information, and aging of receivables.

## 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

### 3.10 Financial instruments(Continued)

- (4) Impairment of financial instruments (Continued)
  - 2) Combination categories and determination criteria for impairment provision based on credit risk characteristics (Continued)
    - a. Portfolio categories of accounts receivable (and contract assets) and basis of determination

The Company groups account receivable (and contract assets) by similarity and relevance of credit risk characteristics based on information such as aging, nature of payment, credit risk exposure, and history of repayment. For accounts receivable (and contract assets), the Company generally grants a six-month credit period. If it is more than six months past due, it indicates that the credit risk has increased significantly and, therefore, the Company evaluates expected credit losses on the basis of whether or not the portfolio is delinquent.

Item	Basis for determining portfolio (aging/overdue portfolio)	Methodology for measuring expected credit losses
Accounts receivable	Within 6 months (usually the credit period granted to the customer/not overdue) 6 months - 12 months (1 day to 6 months	0.00%
	overdue) More than 1 year (More than six months	0.00%
	overdue)	100.00%

## 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

### 3.10 Financial instruments(Continued)

- (4) Impairment of financial instruments (Continued)
  - 2) Combination categories and determination criteria for impairment provision based on credit risk characteristics (Continued)
    - b. The combination type of notes receivable and the basis for its determination

Based on the common risk characteristics of the acceptor credit risk of the notes receivable, the Company divides them into different combinations and determines the accounting estimation policy for expected credit losses: 1). The acceptor is a bank acceptance bill of a commercial bank, and the Company evaluates that such payment has a low credit risk and does not recognize the expected credit loss; 2). The acceptor is a commercial acceptance bill, and the loss provision is made with reference to the company's accounts receivable policy to confirm the expected loss rate, which is the same as the combination division of accounts receivable.

c. Portfolio categories of other receivables and basis of determination

The Company's other receivables mainly include deposits receivable, security deposits, reserves, etc. According to the nature of the receivables and the credit risk characteristics of different counterparties, the Company divides other receivables into three combinations, specifically: deposits, margins and reserves, and other receivables.

## *3)* Judgment criteria for single provision of bad debt impairment reserves based on individual provision

If the credit risk characteristics of a customer are significantly different from those of other customers in the portfolio, or if there is a significant change in the credit risk characteristics of the customer, for example, if the customer is in severe financial difficulty and the expected credit loss rate on receivables from this customer has significantly exceeded the expected credit loss rate for the aging and overdue ranges in which the customer is located, etc., the Company makes a provision for losses on an individual basis on the receivables from this customer.

4) Write off of impairment provision

When the company no longer reasonably expects to be able to recover all or part of the cash flows from financial asset contracts, the company directly reduces the carrying amount of the financial asset. If a financial asset that has been written down is later recovered, it shall be recognized as a reversal of impairment losses in the current period of recovery.

### 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

### 3.10 Financial instruments(Continued)

#### (5) Basis for recognition and measurement methods of transfers of financial assets

For transactions involving the transfer of financial assets, the Company shall derecognize a financial asset if substantially all the risks and rewards of ownership of the financial asset have been transferred to the transferee, and shall not derecognize the financial asset if substantially all the risks and rewards of ownership of the financial asset have been retained. If the Company has neither transferred nor retained substantially all the risks and rewards of ownership of the financial asset but has surrendered control over the financial asset, it shall derecognize the financial asset and recognize the resulting assets and liabilities. If it does not surrender control over the financial asset to the extent of its continuing involvement in the transferred financial asset and recognize an associated liability correspondingly.

If the transfer of a financial asset as a whole satisfies the conditions for derecognition, the difference between the book value of the transferred financial asset at the date of the derecognition and the sum of the consideration received for the transfer and the cumulative amount of changes in fair value previously recognized in other comprehensive income directly, corresponding to the derecognized portion (the financial asset involved in the transfer meets both of the following conditions: ① the objective of the Company's business model for managing the financial asset is both to collect contractual cash flows and sell the financial asset; ② the contractual terms of the financial assets provide that the cash flows arising on specified dates are solely payments of principal and interest on the principal amount outstanding), is recognized in the current profit or loss.

If the partial transfer of a financial asset satisfies the conditions for derecognition, the whole book value of the transferred financial asset is apportioned between the derecognized portion and the non-derecognized portion according to their respective relative fair values. The difference between the sum of the consideration received for the transfer and the cumulative amount of changes in fair value previously recognized in other comprehensive income corresponding to the derecognized portion that shall be apportioned to the derecognized portion (the financial asset involved in the transfer meets both of the following conditions: ① the objective of the Group's business model for managing the financial asset is both to collect contractual cash flows and sell the financial asset; ② the contractual terms of the financial assets provide that the cash flows arising on specified dates are solely payments of principal and interest on the principal amount outstanding), and the above-apportioned book value of the financial asset as a whole is recognized in the current profit or loss.

Where the continuing involvement is in the form of a financial guarantee for the transferred financial asset, the asset resulting from the continuing involvement is recognized at the lower of the book value of the financial asset and the amount of the financial guarantee. The financial guarantee amount is the maximum amount of the consideration received that the Company could be required to repay.

### 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

### 3.10 Financial instruments(Continued)

(6) Distinction between financial liabilities and equity instruments and related treatment

The Company distinguishes financial liabilities from equity instruments in accordance with the following principles: ① if the Company cannot unconditionally avoid the performance of a contractual obligation by delivering cash or other financial assets, that contractual obligation meets the definition of financial liabilities. Some financial instruments, although they do not explicitly contain terms and conditions for an obligation to deliver cash or other financial assets, may indirectly create a contractual obligation through other terms and conditions. 2 if a financial instrument must or may be settled with the Company's own equity instruments, it is necessary to consider whether the Company's own equity instruments used to settle the instrument are intended as a substitute for cash or other financial assets or are intended to give the holder of the instrument a residual interest in the assets of the issuer after deducting all liabilities. In the former case, the instrument is a financial liability of the issuer; in the latter case, the instrument is an equity instrument of the issuer. In certain circumstances, a financial instrument contract stipulates that the Company must or may settle the financial instrument with its own equity instruments, where the amount of the contractual right or contractual obligation is equal to the number of its own equity instruments available for acquisition or delivery multiplied by their fair values at the time of settlement, regardless of whether the amount of the contractual right or obligation is fixed or based in whole or in part on variables other than the market price of the Company's own equity instruments (such as interest rates, the price of a commodity or the price of a financial instrument), the contract is classified as a financial liability.

When classifying financial instruments (or their components) in the consolidated financial statements, the Company considers all terms and conditions agreed between the members of the Group and the holders of the financial instruments. An instrument shall be classified as a financial liability if the Group as an entirety has an obligation to deliver cash and other financial assets due to the instrument or settle in a manner that otherwise causes the instrument to become a financial liability.

If a financial instrument or its component is a financial liability, the related interest, dividends (or bonuses), gains or losses, and gains or losses arising from redemption or refinancing are recognized by the Company in the current profit or loss.

When a financial instrument or its component is an equity instrument and it is issued (including refinancing), repurchased, sold or cancelled, the Company treats it as changes in equity and does not recognize changes in the fair value of the equity instrument.

### 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

### 3.10 Financial instruments(Continued)

#### (7) Offsetting of financial assets and financial liabilities

The Company's financial assets and financial liabilities are presented separately on the balance sheet and are not offset against each other. However, when both of the following conditions are met, the net amount after offsetting is listed on the balance sheet: ① the Company has a legal right to offset the recognized amount, and such legal right is currently enforceable; ② the Company intends to settle on a net basis, or to realize the financial assets and liquidate the financial liabilities at the same time.

### 3.11 Inventories

The Company's inventories consist primarily of goods in stock, etc.

Inventories are maintained on a perpetual inventory basis and are valued at actual cost at the time of acquisition. The weighted-average method is used to determine the actual cost of inventories when they are claimed or issued. Low-value consumables are amortized using the one-time reversal method.

At the balance sheet date, inventories are measured at the lower of cost or net realizable value. If the cost of inventories is higher than their net realizable value, a provision for a decline in the value of inventories is made and recognized in profit or loss for the current period. Net realizable value is the estimated selling price of inventories in ordinary activities less the estimated costs to be incurred until completion, estimated selling expenses, and related taxes.

The Company's inventory commodities and performance costs are provided for inventory decline according to a single inventory item. The company considers the quality warranty period and unsalable risk of the stockist, combined with the actual experience of the enterprise, based on the principle of prudence, and makes full provision for the price decline of products with inventory for more than two years.

### (1) Contract assets

A contractual asset is a right to receive consideration for goods that the Company has transferred to a customer, which is dependent on factors other than the passage of time. For the details of the method of determining expected credit losses on contract assets, please refer to the relevant content in "III.10. Financial instruments (4) Impairment of financial instruments" above.

## 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

### 3.12 Contract assets and contract liabilities

### (2) Contract liabilities

Contract liabilities reflect the Company's obligation to transfer goods to customers for consideration received or receivable from customers.

Contract assets and contract liabilities under the same contract are shown in net.

### 3.13 Assets related to contract costs

#### (1) Method of determining the amount of assets related to contract costs

The Company's assets related to contract costs include contract performance costs and contract acquisition costs. Depending on liquidity, contract performance costs are presented separately in inventories and other non-current assets, and contract acquisition costs are presented separately in other current assets and other non-current assets.

Contract performance costs, i.e., costs incurred by the Company to perform a contract, are recognized as an asset as contract performance costs if they do not fall within the scope of the relevant accounting standards for inventories, fixed assets, or intangible assets and the following conditions are also met: the costs are directly related to a current contract or expected contract to be obtained, including direct labor, direct materials, manufacturing costs (or similar costs), costs explicitly borne by the customer and other costs incurred solely as a result of the contract; the costs increase the Company's future resources available to meet its performance obligations; and the costs are expected to be recovered.

Contract acquisition costs, i.e., incremental costs incurred by the Company to acquire a contract that is expected to be recovered, are recognized as an asset. If the amortization period of the asset does not exceed one year, the Company chooses the simplified treatment of recognizing the asset in profit or loss when incurred. Incremental costs are costs that would not have been incurred without obtaining the contract (e.g., sales commissions, etc.). Expenses incurred by the Company to obtain a contract other than incremental costs expected to be recovered (such as travel expenses that would have been incurred regardless of whether the contract was obtained) are charged to current profit or loss as incurred, except for those explicitly borne by the customer.

### (2) Amortization of assets related to contract costs

The Company's assets related to contract costs are amortized to current profit or loss using the same basis as that used to recognize revenue from the goods to which the assets relate.

## 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

### 3.13 Assets related to contract costs

#### (3) Impairment of assets related to contract costs

For the Company's assets related to contract costs, if the book value exceeds the difference between the following two items, the Company makes a provision for the excess and recognizes it as an asset impairment loss: ① the remaining consideration that the enterprise expects to receive for the transfer of goods related to the asset; and ② the estimated costs to be incurred for the transfer of the related goods. After the provision for impairment is made, if the factors that caused impairment in previous periods change, resulting in the difference between the two items being higher than the carrying amount of the asset, the original provision for impairment of the asset shall be reversed and included in the current period's profit and loss, but the carrying amount of the asset after reversal shall not exceed the carrying amount of the asset on the reversal date assuming no provision for impairment.

### 3.14 Long-term equity investments

The Company's long-term equity investments mainly consist of investments in subsidiaries, investments in associates and equity investments in joint ventures.

### (1) Judgment of significant influence and joint control

The Company's equity investments in investees in which it has significant influence are investments in associates. Significant influence means that the Company has the power to participate in the decision-making of the investee's financial and operating policies, but does not control, or jointly control with other parties, the formulation of those policies. The Company is generally considered to have significant influence over an investee when it owns, directly or indirectly through its subsidiaries, more than 20% but less than 50% of the investee's voting rights, unless there is clear evidence that the Company is unable to participate in the decision-making of the investee's production and operation or to develop control over the investee. If our company holds less than 20% of the voting rights of the investee, such as representatives in the board of directors or similar power structures of the investee, participation in the financial and operational policy formulation process of the investee, providing key technical information to the investee, etc., our company believes that it has a significant impact on the investee.

## 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

#### 3.14 Long-term equity investments(Continued)

#### (1) Judgment of significant influence and joint control (Continued)

An equity investment in an investee in which the Company, together with other joint venturers, exercises joint control over the investee and has rights to the net assets of the investee, is an investment in a joint venture. Joint control is the contractually agreed sharing of control of an arrangement whose relevant activities can only be decided after the unanimous consent of the parties sharing control. The Company bases its judgement of joint control on the fact that all participants or a combination of participants collectively control the arrangement and that the decisions of the activities related to the arrangement must be unanimously agreed by those participants who collectively control the arrangement.

### (2) Accounting treatment

The Company initially measures long-term equity investments acquired at initial investment cost.

For long-term equity investments acquired through a business combination under common control, as of the date of consolidation, the share of the book value of the net assets of the combined party in the consolidated statements of the ultimate controlling party is used as the initial investment cost of the long-term equity investment; if the book value of the net assets of the party being consolidated as of the date of consolidation is a negative amount, the initial cost of the investment is determined as zero.

For long-term equity investments acquired through a business combination not under common control, the cost of the combination is used as the initial investment cost; if the business combination not under common control is realized in steps through multiple transactions and is not a package deal, the sum of the book value of the equity investment originally held plus the cost of the additional investment is used as the initial investment cost.

Except for long-term equity investments resulting from a business combination, long-term equity investments acquired by paying cash using the actual purchase price paid, the expenses directly related to the acquisition of the long-term equity investment, taxes and other necessary expenditures as initial investment cost; long-term equity investments acquired through the issuance of equity securities use the fair value of the equity securities issued as investment cost; long-term equity investments acquired through debt restructuring by way of settlement of debts with assets use the fair value of the renounced claims and other costs directly attributable to the investment, such as taxes, as initial investment cost; long-term equity investments acquired by means of non-monetary asset exchanges use the fair value/book value of the exchanged assets and related taxes as initial investment cost.

# 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

#### 3.14 Long-term equity investments(Continued)

#### (2) Accounting treatment (Continued)

The Company's investments in subsidiaries are accounted for in the individual financial statements using the cost method. When the cost method is used, long-term equity investments are valued at the initial investment cost. When an additional investment is made, the book value of the cost of long-term equity investments is increased by the fair value of the cost amount paid for the additional investment and the related transaction costs incurred. Cash dividends or profits declared by the investee are recognized as investment income at the amount to which the Company is entitled.

The Company's investments in joint ventures and associates are accounted for using the equity method. When the equity method is adopted, if the initial investment cost of a long-term equity investment is greater than the share of the fair value of the identifiable net assets of the investee at the time of investment, no adjustment is made to the book value of the long-term equity investment; if the initial investment cost of a long-term equity investment; if the identifiable net assets of the investee at the time of the identifiable net assets of the investment is less than the share of the fair value of the identifiable net assets of the investee at the time of investment, the book value of the long-term equity investment shall be adjusted by the difference, and at the same time, the difference is recognized in profit or loss in the period in which the investment is acquired.

For long-term equity investments accounted for under the equity method of accounting for subsequent measurement, the book value of the long-term equity investment is increased or decreased by adjusting accordingly to changes in the owners' equity of the investee during the period in which the investment is held. In recognizing the share of net profit or loss of an investee, the net profit of the investee shall be adjusted and recognized based on the fair value of the identifiable assets of the investee at the time of acquisition, in accordance with the Company's accounting policies and accounting periods, and by eliminating the portion attributable to the Company in proportion to the Company's share of unrealized gains or losses on internal transactions with associates and joint ventures that do not constitute business (if the loss on internal transactions is an impairment loss on an asset, the full amount will be recognized). The Company recognizes a net loss incurred by an investee to the extent that the book value of the long-term equity investment and other long-term equity interests that in substance constitute a net investment in the investee are written down to zero, except that the Company has an obligation to assume additional losses.

# 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

#### 3.14 Long-term equity investments(Continued)

#### (2) Accounting treatment (Continued)

The difference between the book value and the actual acquisition price of long-term equity investments disposed of is recognized as investment income in the current period.

For long-term equity investments accounted for using the equity method, the related other comprehensive income previously accounted for by the equity method is accounted for on the same basis as that of direct disposal of the related assets or liabilities by the investee upon the termination of the equity method of accounting, and the owner's equity recognized as a result of changes in the owners' equity of the investee other than net profit or loss, other comprehensive income and profit distribution is transferred in full to current investment income upon the termination of the equity method of accounting.

If the remaining equity interest after the disposal of part of the equity interest is still accounted for by the equity method, the related other comprehensive income originally accounted for by the equity method is treated on the same basis as the direct disposal of the related assets or liabilities by the investee and carried forward proportionally, and the ownership interest recognized as a result of changes in the investee's ownership interest other than net profit or loss, other comprehensive income, and profit distribution is carried forward proportionally to the investment income for the current period.

If the common control or significant influence over the investee is lost due to the disposal of part of the equity interest, and the remaining equity interest after disposal confirm financial assetsis, the difference between the fair value and the book value of the remaining equity interest at the date of the loss of the common control or significant influence is recognized in current profit or loss.

If control over the investee is lost as a result of the disposal of part of the long-term equity investment, and the remaining equity interest after disposal is capable of exercising joint control or significant influence over the investee, it is accounted for under the equity method instead, and the difference between the book value of the equity interest disposed of and the consideration for disposal is recognized as investment income, and the remaining equity interest is adjusted as if it had been accounted for under the equity method from the time of acquisition; if the remaining equity interest after disposal is unable to exercise joint control or exert significant influence over the investee, confirmed financial assetsis. and the difference between the book value of the equity interest disposed of and the consideration for disposal is recognized as investment income, and the difference between the book value of the equity interest disposed of and the consideration for disposal is recognized as investment income, and the difference between the book value of the equity interest disposed of and the consideration for disposal is recognized as investment income, and the difference between the fair value and the book value of the remaining equity interest at the date of loss of control is recognized in current profit or loss.

# 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

### 3.14 Long-term equity investments(Continued)

#### (2) Accounting treatment (Continued)

If transactions of the step-by-step disposal of equity to loss of controlling interest are not a package deal, the Company accounts for each transaction separately. If they are a package deal, each transaction is accounted for as a transaction in which a subsidiary was disposed of and control was lost, but the difference between the disposal price and the book value of the long-term equity investment corresponding to the equity interest disposed of in each transaction before the loss of control is recognized as other comprehensive income and is transferred to profit or loss in the period when control is lost.

### 3.15 Fixed assets

The Company's fixed assets are tangible assets with a useful life of more than one year that are held for use in the production of goods, provision of services, rental or management of operations.

The fixed assets shall be recognized only when the related economic benefits are likely to flow into the Company and the costs can be measured reliably. The Company's fixed assets include transportation equipment, office and electronic equipment.

The Company depreciates all fixed assets, except those fully depreciated and continue to be used. The provision for depreciation is made using the straight-line method. The categorized depreciable lives, estimated net residual value rates, and depreciation rates of the Company's fixed assets are as follows:

		Estimated	Annual
	Depreciable	residual value	depreciation
Туре	life (years)	rate (%)	rate (%)
Transportation equipment	5	3	19.40
Office and electronic equipment	5, 3	3, 5	19.40, 31.67

The Company reviews the estimated useful lives, estimated net residual values and depreciation methods of fixed assets at the end of each year, and treats any changes as changes in accounting estimates.

## 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

SIIIVIAIES (Continued

### 3.16 Intangible assets

The Company's intangible assets, which include acquired transaction names and development costs, are measured at actual cost at the time of acquisition. For intangible assets acquired, the actual cost is determined by the actual price paid and related other expenses; for intangible assets invested by investors, the actual cost is determined by the value agreed in the investment contract or agreement, but if the agreed value in the contract or agreement is not fair, the actual cost is determined by the fair value.

# (1) Useful life and the bases for determination, estimation, amortization methods or the review procedures

Acquired transaction names are amortized equally over 20 years from the date of acquisition; other intangible assets are amortized in equal installments over the shortest of the estimated useful life, the beneficial life specified in the contract, and the effective life specified by law. The amortization amount is charged to the cost of the related assets and current profit or loss according to the beneficiaries. The estimated useful life and amortization method of intangible assets with finite useful lives are reviewed at the end of each year, and any changes are treated as changes in accounting estimates.

#### (2) The scope of research and development expenditures and related accounting treatment

The Company's research and development expenditures included remuneration of research and development employees, direct input costs, depreciation and amortization expenses, and other expenses.

The Company's expenditure on an internal research and development project is classified into expenditure on the research phase and expenditure on the development phase based on its nature and whether there is material uncertainty that the research and development activities can form an intangible asset at the end of the project.

Expenditure on the research phase is charged to profit or loss as incurred; expenditure on the development phase is capitalized when the following conditions are met: ① The Company assesses that it is technically feasible to complete the intangible asset so that it can be used or sold; ② The Company has the intention to complete the intangible asset and to use or sell it; ③ The intangible asset is expected to bring economic benefits to the Company; ④ The Company has sufficient technical, financial and other resources to support the completion of the development of the intangible asset, and has the ability to use or sell the intangible asset; ⑤ Expenditure on the development phase of the intangible asset can be measured reliably. For expenditure on the development phase that does not meet the conditions for capitalization, it is charged to the current profit or loss as incurred.

# 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

### 3.17 Impairment of long-term assets

The Company examines long-term equity investments, other non-current financial assets, fixed assets, right-of-use assets and intangible assets with finite useful lives at each balance sheet date, and performs impairment tests when indicators of impairment exist. Goodwill and intangible assets with uncertain useful lives and development expenditures that have not yet reached the intended state of use are tested for impairment at the end of each year, regardless of whether or not there are indications of impairment.

#### (1) Impairment of non-current assets other than financial assets (other than goodwill)

When performing an impairment test, the Company determines the recoverable amount of an asset based on the higher of the asset's fair value less costs of disposal and the present value of the asset's estimated future cash flows. After the impairment test, if the book value of the asset exceeds its recoverable amount, the difference is recognized as an impairment loss.

The Company estimates the recoverable amount of an asset on an individual basis. If it is difficult to estimate the recoverable amount of an individual asset, the recoverable amount of the asset group is determined based on the asset group to which the individual asset belongs. Asset groups are identified based on whether the major cash inflows arising from the asset group are independent of those from other assets or groups of assets.

The net fair value less costs of disposal is determined by reference to the agreed sale price or observable market price of a similar asset in ordered transactions occurring on measurement days, less incremental costs directly attributable to the disposal of the asset. When estimating the present value of future cash flows, management according to the assets generated during their continuous use and final disposalmust to estimate the expected future cash flows and select an appropriate discount rate to determine the present value of the future cash flows.

Once the impairment losses on the above assets are recognized, they are not reversed in subsequent accounting periods.

# 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

#### 3.18 Employee benefits

The Company's employee benefits include short-term remuneration, post-employment benefits and termination benefits.

Short-term remuneration mainly includes employees' salaries, bonuses, allowances and subsidies, medical insurance, work-related injury insurance, maternity insurance, housing provident fund, employees welfare fees, trade union funds and employees' education funds, etc. The actual short-term remuneration incurred is recognized as a liability in the accounting period in which the employees render services and is charged to current profit or loss or the cost of related assets according to the beneficiaries.

Post-employment benefits mainly include basic endowment insurance premiums and unemployment insurance premiums, and are classified as defined contribution plans according to the risks and obligations assumed by the Company. Contributions that are paid to a separate entity under a defined contribution plan to obtain services provided by the employees during the accounting period on the balance sheet date, shall be recognized as liabilities, and included in the current profit or loss or related asset cost according to the beneficiaries.

Termination benefits arise from a decision to terminate the employment relationship with an employee prior to the expiration of the employee's employment contract or from an offer of compensation to encourage the employee to accept redundancy voluntarily. If the Company has formulated a formal plan for the termination of labor relations or proposed voluntary redundancy, and is about to implement it, and the Company cannot unilaterally withdraw the plan for the termination of labor relations or redundancy proposal, confirmation of the employee compensation liabilities arising from the termination of labor relations shall be recognized in the current profit or loss. Compensations payable for over a year shall be discounted at a discount rate and recognized in the current profit or loss.

#### 3.19 Provisions

When the businesses related to contingencies including pending litigation or arbitration and product quality assurance conform to the following conditions simultaneously, the Company recognizes them as liabilities: the obligation is a present obligation of the Company; it is probable that an outflow of economic benefits from the Company will result from the settlement of the obligation; and the amount for such obligation can be measured reliably.

A provision is initially measured at the best estimate of the expenditure required to settle the related present obligation. Factors surrounding a contingency, such as the risks, uncertainties and the time value of money, are taken into account as a whole in reaching the best estimate of a provision. The Company reviews the current best estimate and adjusts the book value of the provision at the balance sheet date.

# 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

#### 3.20 Revenue recognition principles and measurement methods

#### (1) General principles

The Company recognizes revenue when it has fulfilled its performance obligations under contracts, that is, when customers obtain control of the relevant goods or services. Obtain control of the relevant goods or services refers to being able to dominate the use of the goods or the provision of the services and obtain almost all economic benefits from them.

Performance obligations refers to the commitment made by the company in the contract to transfer clearly distinguishable goods to the customer. A performance obligation is fulfilled within a certain period of time if the company's performance obligations met one of the following conditions; a performance obligation is fulfilled at a certain point in time if none of the following conditions are met: ① The customer obtains and consumes the economic benefits arising from the Company's performance at the time of the Company's performance; ② The customer is able to control the commodities under construction in the course of the Company's performance; ③ The goods produced in the course of the Company's performance are of irreplaceable use and the Company is entitled to receive payment for the cumulative portion of performance completed to date throughout the term of the contract.

For performance obligations to be performed within a certain period of time, revenue is recognized by the Company in accordance with the progress of performance over that period. When the progress of performance cannot be reasonably determined, revenue is recognized based on the amount of costs already incurred until the progress of performance can be reasonably determined, if the costs already incurred are expected to be reimbursed.

For performance obligations performed at a point in time, revenue is recognized at the point in time when the customer obtains control of the related goods or services. In determining whether the customer has acquired control of the commodity, the Company considers the following indications: ① The Company has a present right to receive payment for the commodity, the customer has a current payment obligation for the product; ② The Company has transferred legal title to the commodity to the customer, the customer already has legal ownership of the product; ③ The Company has physically transferred the commodity to the customer, the customer has already physically occupied the product; ④ The Company has transferred to the customer the principal risks and rewards of ownership of the product; ⑤ The customer has acquired the main risks and rewards of ownership of the product; ⑤ The customer has accepted the commodity;and⑥ Other signs indicating that the customer has gained control of the product.

# 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

#### 3.20 Revenue recognition principles and measurement methods(Continued)

#### (1) General principles (Continued)

If a contract contains two or more performance obligations, the Company apportions the transaction price to each individual performance obligation at the beginning of the contract in proportion to the individual selling price of the goods or services promised by each individual performance obligation and measures income based on the transaction price apportioned to each individual performance obligation.

The transaction price is the amount of consideration to which the Company is expected to be entitled as a result of the transfer of goods or services to the customer, excluding amounts collected on behalf of third parties. When determining the transaction price, the Company takes into account factors such as variable consideration and significant financing components in the contract.

If there is variable consideration in the contract, the Company determines the best estimate of the variable consideration based on the expected value or the most likely amount to occur. The transaction price that includes variable consideration shall not exceed the amount that is highly unlikely to result in a significant reversal of the cumulative recognized income at the time of the elimination of relevant uncertainties. On each balance sheet date, the Company re estimates the variable consideration amount that should be included in the transaction price.

For contracts with a significant financing component, the Company determines the transaction price based on the amount payable that is assumed to be paid in cash by the customer at the time the customer obtains control of the goods, and uses a discount rate that discounts the notional amount of the contract consideration to the current selling price of the goods, and amortizes the difference between the determined transaction price and the promised consideration amount in the contract using the effective interest rate method during the contract period. On the commencement date of the contract, if the company expects the customer to obtain control of the goods or services and the customer pays the price within one year, significant financing elements in the contract will not be considered.

The company determines whether it is primarily responsible or acting as an agent when engaging in transactions based on whether it has control over the goods before transferring them to customers. If the company is able to control the goods before transferring them to the customer, then the company is the main responsible person and recognizes revenue based on the total amount of consideration received or receivable; Otherwise, as an agent, revenue shall be recognized based on the expected amount of commission or handling fees that the agent is entitled to receive. This amount shall be determined by deducting the total amount of consideration receivable from the amount payable to other relevant parties, or by determining the established commission amount or proportion.

# 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

#### 3.20 Revenue recognition principles and measurement methods(Continued)

#### (1) General principles (Continued)

For sales with sales return clauses, the Company recognizes revenue at the amount of consideration that it expects to be entitled to receive as a result of the transfer of goods to the customer when the customer obtains control of the related goods, and recognizes a provision at the amount that it expects to be refunded as a result of the return of the goods. At the same time, the Company recognizes an asset, i.e., the cost of returned goods receivable, at the book value at the time of transfer of the goods) expected to be returned, less the costs (including the value reduction of the returned goods) expected to be incurred in recovering the goods, and carries forward the cost at the book value at the time of transfer of the goods. At each balance sheet date, the Company re-estimates future sales returns and re-measures the above assets and liabilities.

According to the contract agreement, legal regulations, etc., the Company provides quality assurance for goods sold, which constitutes a warranty-type quality assurance to assure customers that the goods sold meet the established standards, and are accounted for by the Company in accordance with "Note III. 19. Provisions".

#### (2) Specific principles

For the sales of electrical products and accessories business, as the customer has gained control of the relevant goods after they have signed for or inspected the goods. Therefore, the Company considers the above operations to be the fulfillment of performance obligations at a certain point in time, and should recognize the related revenue when the goods have been delivered to the customers and signed for by the customers.

For business application solutions, application software, and the installation and maintenance of network and data security products, the customer acquires and consumes the economic benefits of the Company's performance at the same time as the Company's performance, and the customer can control the goods under construction in the course of the Company's performance. Therefore, the Company considers that the above two operations are the fulfillment of performance obligations within a certain period of time, and should recognize the corresponding revenue based on the progress of the performance of the relevant projects throughout the performance period.

## 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

### 3.21 Government grants

Government grants are recognized when the conditions attached to them can be met and they are receivable. Government grants are measured at the amount actually received if they are monetary assets. For subsidies allocated according to a fixed flat rate, or when there is conclusive evidence at year-end that the relevant conditions specified in the financial support policy can be met and the financial support funds are expected to be received, the subsidies are measured at the amount receivable; Government grants are measured at fair value if they are non-monetary assets, or at a nominal amount (RMB1) if the fair value cannot be reliably obtained.

The Company's government grants include asset-related government grants and income-related government grants. Among them, asset-related government grants refer to government grants obtained by the Company for the acquisition and construction or other formation of long-term assets; incomerelated government grants refer to government grants other than asset-related government grants. If the subsidized subjects of the grants are not specified in government documents, the Company will make judgments in accordance with the above distinguishing principles, and if it is difficult to distinguish the grants, they will be classified as income-related government grants as a whole.

The Company recognizes asset-related government grants as deferred income. Asset-related government grants that are recognized as deferred income are allocated evenly over the useful lives of the related assets and recognized in profit or loss for the current period. If the related assets are sold, transferred, scrapped or destroyed before the end of their useful lives, the unallocated balance of the related deferred income is transferred to profit or loss for the period in which the assets are disposed of.

Income-related government grants used to compensate for the related costs and expenses or losses in subsequent periods are recognized as deferred income and charged to profit or loss for the period in which the related costs and expenses or losses are recognized. Government grants related to ordinary activities are charged to other income according to the substance of the economic operations. Government grants unrelated to ordinary activities are charged to non-operating income and expenses.

### 3.22 Deferred tax assets and deferred tax liabilities

The Company's deferred tax assets and deferred tax liabilities are recognized based on the difference between the tax bases of assets and liabilities and their book values, as well as the difference (temporary difference) between the tax bases of items that are not recognized as assets and liabilities but whose tax bases can be determined in accordance with the provisions of the tax law and their book values.

# 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

### 3.22 Deferred tax assets and deferred tax liabilities(Continued)

The Company recognizes deferred tax liabilities for all taxable temporary differences except for the following: ① Temporary differences arising from the initial recognition of goodwill or the initial recognition of assets or liabilities arising from transactions other than business combinations that affect neither the accounting profit nor taxable income (or deductible losses); ② Taxable temporary differences related to investments in subsidiaries, associates and joint ventures where the Company can control the timing of the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future.

The Company recognizes deferred tax assets for deductible temporary differences, deductible losses and tax credits to the extent that it is probable that future taxable income will be available to offset such deductible temporary differences, deductible losses and tax credits, except in the following circumstances: ① Temporary differences arising from the initial recognition of assets or liabilities arising from transactions other than business combinations that affect neither accounting profit nor taxable income (or deductible losses); ② Deductible temporary differences related to investments in subsidiaries, associates and joint ventures cannot simultaneously meet the following conditions: it is probable that the temporary differences will reverse in the foreseeable future, and it is probable that taxable income will be available to offset deductible temporary differences.

The Company recognizes deferred tax assets for all unutilized deductible losses to the extent that it is probable that sufficient taxable income will be available to offset the deductible losses. The management uses a substantial amount of judgment to estimate the timing and amount of future taxable income, in conjunction with tax planning strategies, to determine the amount of deferred tax assets to be recognized, hence there is uncertainty.

Deferred tax assets and deferred tax liabilities are measured at the balance sheet date at the tax rates that apply in the period in which the asset is expected to be recovered or the liability settled.

Deferred tax assets and deferred tax liabilities are presented in net amount after offsetting when the following conditions are simultaneously met: the Company has the legal right to settle current tax assets and current deferred tax liabilities on a net basis; deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the same taxable entity or different taxable entities, but in each future period in which deferred tax assets and deferred tax liabilities of significance are reversed, the taxable entities involved intend to either settle the current tax assets and current tax liabilities on a net basis or to acquire the assets and settle the liabilities simultaneously.

#### SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING 3. ESTIMATES (Continued)

### 3.23 Lease

#### (1) Identification of lease

At the contract start date, the Company assesses whether the contract is a lease or contains a lease. A contract is a lease or contains a lease if one party to the contract cedes the right to control the use of one or more identified assets for a specified period in exchange for consideration.

If a contract contains several separate leases at the same time, the Company splits the contract and accounts for each separate lease separately. If a contract contains both lease and nonlease components, the Company, as the lessor, splits the lease and non-lease components and accounts for each separately, with each lease component being accounted for separately in accordance with the lease standards, and the non-lease component being accounted for in accordance with other applicable accounting standards for businesses. If the Company is the lessee, it chooses not to split the lease and non-lease components, and consolidates each lease component and the non-lease component associated with it into a separate lease, which is accounted for in accordance with the lease standard; however, if the contract includes an embedded derivative that is subject to splitting, the Company does not consolidate it with the lease component for accounting purposes.

#### (2) The Company as the lessee

#### 1) Lease recognition

Except for short-term leases and low-value asset leases, the Company recognizes rightof-use assets and lease liabilities for leases on the commencement date of the lease term.

A right-of-use asset, which represents the right of the Company as lessee to use a leased asset over the lease term, is initially measured at cost. The costs include: 1) the amount of the initial measurement of the lease liability; 2 the amount of lease payments made on or before the commencement date of the lease term, net of the amount related to the lease incentive already enjoyed; 3 the initial direct costs incurred; and 4 the costs expected to be incurred for dismantling and removing the leased asset, restoring the site where the leased asset is located, or restoring the leased asset to the condition agreed upon in the terms of the lease (except for those incurred for the production of inventories). If the Company remeasures the lease liability in accordance with the relevant provisions of the lease standard, the book value of the right-of-use asset is adjusted accordingly.

### 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

#### 3.23 Lease (Continued)

#### (2) The Company as the lessee (Continued)

#### 1) Lease recognition (Continued)

The Company depreciates right-of-use assets on a straight-line basis based on the way the economic benefits associated with the right-of-use asset are expected to be consumed. If ownership of the leased asset can be reasonably determined at the end of the lease term, depreciation is provided over the remaining useful life of the leased asset; if ownership of the leased asset cannot be reasonably determined at the end of the lease term, depreciation is provided over the shorter of the lease term or the remaining useful life of the leased asset. The amount of provision for depreciation is charged to the cost of the related assets or current profit or loss, depending on the use of the right-of-use assets.

The Company initially measures the lease liability at the present value of the lease payments outstanding at the commencement date of the lease term. Lease payments include: ① fixed payments and substantially fixed payments, net of amounts related to lease incentives; ② variable lease payments depending on index or ratio; ③ the exercise price of the purchase option if the Company reasonably determines that the purchase option will be exercised; ④ the amount to be paid to exercise the option to terminate the lease if the lease term reflects that the Company will exercise the option to terminate the lease; and ⑤ the amount expected to be paid based on the residual value of the guarantee provided by the Company.

In calculating the present value of the lease payments, the Company uses the incremental borrowing rate as the discount rate. The Company calculates interest expense on lease liabilities at a fixed periodic rate for each period of the lease term and recognizes it in profit or loss for the current period, except when it should be capitalized.

After the commencement date of the lease term, the Company increases the book balance of the lease liability when it recognizes interest on the lease liability and decreases the book balance of the lease liability when it makes lease payments. When there is a change in the substantive fixed payments, a change in the amount expected to be payable for the residual value of the guarantee, a change in the index or rate used to determine the lease payments, a change in the appraisal of, or the actual exercise of, an option to purchase, an option to renew or an option to terminate the lease, the Company remeasures the lease liability based on the present value of the lease payments as a result of the change.

## 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

#### 3.23 Lease (Continued)

- (2) The Company as the lessee (Continued)
  - 2) Short-term leases and low-value asset leases

The Company chooses not to recognize right-of-use assets and lease liabilities for shortterm leases with lease terms of less than 12 months and leases of low-value assets where the individual leased assets are brand-new assets. The Company recognizes lease payments for short-term leases and leases of low-value assets in the cost of the related assets or current profit or loss on a straight-line basis in each period of the lease term.

#### (3) The Company as the lessor

The Company, as a lessor, has only operating leases.

The Company recognizes lease receipts from operating leases as rental income using the straight-line method over the respective periods of the lease term.

The initial direct costs incurred by the Company in connection with operating leases should be capitalized to the cost of the underlying leased assets and amortized to current profit or loss over the lease terms on the same recognition basis as rental income. Variable lease payments acquired by the Company in connection with operating leases that are not included in the lease receipts are recognized in profit or loss when they are incurred.

If a change in an operating lease occurs, the Company accounts for it as a new lease from the effective date of the change, and the amount of lease receipts received in advance or receivable in connection with the lease before the change is the amount of lease receipts for the new lease.

# 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

### 3.24 Discontinued operations

A discontinued operation means that a component of the Company that can be separately distinguished from others and meets one of the following conditions is disposed of or classified as held-for-sale: (1) the component represents a separate major business or a separate major operating area; (2) the component is part of an associated plan to dispose of a separate major business or a separate major operating area; and (3) the component is a subsidiary acquired specifically for resale.

In the income statement, the Group has added "net profit from continuing operations" and "net profit from discontinued operations" to the income statement under "net profit" to net of tax to reflect the profit or loss related to continuing operations and the profit or loss related to discontinued operations respectively. The profit or loss related to discontinued operations should be presented as discontinued operations profit or loss, and the discontinued operation's profit or loss should be presented for the whole of the reporting period and not only for the reporting period after it is recognized as discontinued operations.

### 3.25 Fair value measurement

The Company measures derivative financial instruments at fair value at each balance sheet date. Fair value is the price that a market participant would receive for selling an asset or pay for transferring a liability in an orderly transaction occurring on the measurement date.

Assets and liabilities that are measured or disclosed at fair value in the financial statements are identified within the fair value hierarchy based on the lowest level input that is significant to the fair value measurement as a whole: Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities that are available at the measurement date; level 2 inputs are inputs other than level 1 inputs that are directly or indirectly observable for the related assets or liabilities; and level 3 inputs are unobservable inputs for the underlying assets or liabilities.

At each balance sheet date, the Company reassesses the assets and liabilities recognized in the financial statements that are continuously measured at fair value to determine whether a transition between the fair value measurement hierarchy has occurred.

# 3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (Continued)

### 3.26 Other significant accounting policies and accounting estimates

#### (1) Segment information

The Company's operating segments are defined in accordance with its internal organizational structure, management regulations and internal reporting system. An operating segment is a component of the Company that fulfills all the following conditions:

- (a) The component is capable of generating revenue and incurring expenses in the ordinary course of its activities;
- (b) The management of the Company reviews the operating results of the segment on a regular basis to determine the allocation of resources to it and to assess its performance;
- (c) The Company has access to information about the segment's financial position, results of operations and cash flows.

The Company defines its reportable segments based on operating segments. Inter-segment revenue is measured based on the actual transaction price of such transactions.

#### 3.27 Changes in significant accounting policies and accounting estimates

### (1) Significant changes in accounting policies

On 25 October 2023, the Ministry of Finance (MOF) issued the Interpretation No. 17 of Accounting Standards for Business Enterprises (Cai Kuai [2023] No. 21): "(1) on the classification of current liabilities and non-current liabilities, (2) on the disclosure of supplier financing arrangements, and (3) on the accounting treatment of sale-leaseback transactions".

On December 6, 2024, the Ministry of Finance issued the Interpretation No. 18 of Accounting Standards for Business Enterprises (Cai Kuai [2024] No. 24): "(1) on the subsequent measurement of investment real estate held as an underlying project under the floating fee method, and (2) on the accounting treatment of quality assurance that does not belong to the guarantee category of individual performance obligations".

The Company implemented the above provisions on January 1, 2024, and the above changes in accounting policies have no impact on the Company's financial statements during the reporting period.

#### (2) Significant changes in accounting estimates

None.

# 4. TAXES

### 4.1 Main tax types and rates

Tax category	Tax base	Tax rate
Value-added tax (VAT)	Income from sale of goods, income from technical services	13%/6%/9%
City maintenance and construction tax	Amount of VAT payable	7%
Education surcharge	Amount of VAT payable	5%
Corporate income tax	Taxable income	15%
Enterprise income tax rates for taxpayer	S:	

Name of taxpayer	Income tax rate
The Company	15.00%
JIAODA WITHUB (HONG KONG) LIMITED	16.50%

Note: The Company's major operations are in the mainland; therefore, the tax expense is mainly in the mainland.

### 4.2 Tax incentives and approvals

### (1) Corporate income tax

The Company obtained the ''High and New Technology Enterprise Certificate (Certificate No. GR202231007910)" issued by the Shanghai Municipal Science and Technology Commission, Shanghai Municipal Bureau of Finance, and Shanghai Municipal Taxation Bureau of the State Administration of Taxation on December 14th, 2022, with a validity period of 3 years. According to the Law of the People's Republic of China on Enterprise Income Tax, the applicable enterprise income tax rate of the Company for FY2024 is 15%.

#### 4. **TAXES** (Continued)

#### 4.2 Tax incentives and approvals (Continued)

#### (2) Value-added tax (VAT)

According to the Notice of the Ministry of Finance and the State Administration of Taxation on Comprehensively Implementing the Pilot Program of Changing Business Tax to Value-added Tax (Caishui [2016] No. 36), taxpayers entrusted with the provision of technological development and related technical consulting and technical services are exempted from value-added tax (VAT).

The Company applied the above VAT incentives for FY2024.

#### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS 5.

For the financial statement data disclosed below, unless specifically indicated, "Beginning balance" refers to January 1st, 2024; "Ending Balance" refers to December 31st, 2024. "Current Year" refers to the period from January 1st, 2024 to December 31st, 2024; "Last Year" refers to the period from January 1st, 2023 to December 31st, 2023.

5.1	Cash and	cash	equivalents

Item	Ending Balance	Beginning Balance
Cash	3,997.93	37,497.92
Cash at bank	22,056,835.77	17,599,693.12
Other cash and cash equivalents	52,681.08	232,284.58
Total	22,113,514.78	17,869,475.62
Including: total amount deposited overseas	37,879.43	292,779.88

Note: Among the cash at bank of the Company, RMB52,681.08 were deposits for letter of guarantee (2023: RMB232,284.58).

The interest rate of deposits is according to the market rate, which was from 0.10% to 1.5% (2023: from 0.30% to 2.10%).

# 5. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

### 5.2 Account receivables

### (1) Accounts receivable disclosed according to age of receivable

The average credit period granted by the Company to its customers ranges from 90 to 180 days. For customers with well-performed credit histories and government agencies with reliable financial condition, credit periods of more than 180 days can be granted. Based on the date of products delivered or the date of services were afforded (which is an approximate estimate of the confirmed date of recognition), an aging analysis of accounts receivable (with the deduction of provision for bad debts) will be presented as follows:

	Ending	Beginning
Age of Accounts receivables	Balance	Balance
Less than one year	10,768,481.84	4,029,619.39
including: 0-3 months	8,008,486.63	1,959,776.37
4-6 months	1,978,334.90	1,078,389.53
7-12 months	781,660.31	991,453.49
1-2 years	1,156,332.00	941,547.00
2-3 years		218,130.22
Over 3 years	4,750,708.77	4,551,878.55
Total	16,675,522.61	9,741,175.16
Less: provision for bad debts	5,560,250.57	4,413,558.57

### (1) Classification of other non-current financial assets

	Ending	Beginning
Investee	Balance	Balance
Shanghai Jiaoda Withub Techonological		
Street Limited	4,378,279.02	4,377,803.44
Total	4,378,279.02	4,377,803.44

#### (2) Investment in other non-current financial assets

	C	Changes in fair value during the current	lue during		
	Beginning	reporting	Ending	dividend	
Item	Balance	period	Balance	income	
Shanghai Jiaoda Withub Technological Street Limited	4,377,803.44	475.58	4,378,279.02	33,900.00	
Total	4,377,803.44	475.58	4,378,279.02	33,900.00	

Note: Other non-current financial assets are mainly equity investments in non-listed companies. If there is no recent equity transaction price of unlisted company, the Company will identify it as at Level 3 fair value measurement. Since there is no significant change in the business environment, operating conditions and financial status of the invested enterprise, the Company uses investment cost and its share in the net assets of the invested enterprise as reference and measure it as a reasonable estimate of the fair value.

## 5. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

#### 5.17 Payroll Payable (Continued)

#### (3) Defined contribution plan

The Company participates in local social insurance and pays related fees according to local government policy. Except fees paid as mentioned, the Company don't undertake further payment. Related expenditures accounted in current profit or loss.

The amount the company pays to endowment insurance and unemployment insurance is as follow:

Item	Beginning Balance	Increasing during current year	Decreasing during current year	Ending Balance
Basic pension insurance	173,759.57	2,016,980.63	2,040,928.68	149,811.52
Unemployment insurance	5,454.35	63,327.01	64,099.69	4,681.67
Total	179,213.92	2,080,307.64	2,105,028.37	154,493.19

Note: The Company has RMB2,080,307.64 of defined contribution plan need to be paid this year. There is an decrease of this amount comparing with last year, since the number of employees in this period has decreased.(2023: RMB2,299,143.53) At closing date 2024-12-31, the company still has RMB154,493.19 (2023: RMB179,213.92) need to be paid which has been paid after the report date.

For the two financial years ending on 31 December 2023 and 31 December 2024 respectively, there remain no forfeited contributions under the Group's undefined contribution plan (employers on behalf of employees who leave the scheme before full attribution to the contribution) that are available to the Group to reduce the existing level of contributions.

Within a certain period of time At a certain point of time	1,366,340.30	21,637,580.91	18,095,587.17	39,733,168.08 1,366,340.30
Item	the sales of electrical products	Commercial application program and software	Installation and maintenance of network and data security products	Last year

#### (3) Relevant Information about performing obligation

Income from the sales of electrical products is confirmed when the customer obtains control of the products, in which case the products are transferred and accepted by the customer.

Income from commercial application program and software, installation and maintenance of network and data security products is confirmed by relevant performance schedule, because the customer obtains and consumes the economic benefits brought by the company's performance at the same time as the company performs the contract, and the customer is able to control the goods under construction in the process of the company's performance.

# (4) Information relating to the transaction price apportioned to the remaining performance obligation

The income corresponding to the performance obligations that have been signed but have not been performed or fully performed at the end of the year is RMB56.22 million yuan, in which RMB56.22 million yuan is expected to be recognized in 2025.

# **10. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT**

The company faces various financial instrument risks in its daily activities, mainly including market risks (such as exchange rate risk, interest rate risk, and commodity price risk), credit risk, and liquidity risk. The risks associated with these financial instruments and the risk management policies adopted by our company to mitigate these risks are as follows. The management of our company manages and monitors these risk exposures to ensure that they are controlled within a limited range.

#### 10.1 Financial risk management objectives and policies

The objectives of the company's risk management are to balance the risk and income, reduce the negative risk impact of operating performance to the lowest level, maximize the interests of shareholders and other equity investors. Based on these objectives, the basic strategy of risk management is to ensure and analyse various risks faced by the Company, establish appropriate risk tolerance level and manage risks, as well as monitor all risks in a timely and reliable manner, and control risks in a limited range.

## 10 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

#### 10.1 Financial risk management objectives and policies (Continued)

#### (1) Market risks

#### 1) Exchange risks

The Company's foreign exchange exposure is mainly related to HKD. Except for the operation conducted by the Company's subsidiaries settled in HKD and USD, other main business operations are settled in RMB. As of 31 December 2024 except for assets and liabilities with balances in HKD and USD balances depicted as below, all other assets and liabilities of the Company are denominated in RMB. The exchange rate risk arisen from those foreign currency assets and liabilities may affect the results of operation of the Company.

Monetary funds – HKD	40,431.74	322,605.14
Monetary funds – JPY	1.00	1.00

The Company has paid close attention to the influence generated from exchange rate changes.

#### 2) Interest rate risks

The Company is exposed to cash flow interest rate risk in relation to its variable-rate deposits with bank and is also exposed to fair value interest rate risk in relation to fixed-rate bank deposits. To mitigate the impact of interest rate fluctuations, the Company continually assesses and monitors the exposure to interest rate risk.

The Company's cash flow interest rate is mainly concentrated on the fluctuation of prevailing market rates arising from the Company's bank balances denominated in RMB base deposit rate stipulated by the People's Bank of China arising from the Company's bank balances denominated in RMB. At 31 December 2024, the balance of non-term deposit is RMB22,056,835.77 (2023: RMB17,599,693.12), and the balance of term deposit is RMB0.00 (2023: RMB0.00), and the balance of deposit for letter of guarantee is RMB52,681.08

## 10 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

#### 10.1 Financial risk management objectives and policies (Continued)

#### (2) Credit risk

Our company manages credit risks on a portfolio basis. Credit risks mainly arise from monetary funds, accounts receivable, other receivables, etc.

To mitigate credit risks, our company strictly selects counterparties to limit the credit risks faced. We conduct transactions with selected government agencies that have stable financial conditions, thereby reducing the risks associated with accounts receivable. Additionally, certain new customers are required to deposit cash with our company as a security deposit to mitigate the maximum credit risk exposure. Furthermore, our company reviews the recovery status of each individual receivable on each balance sheet date to ensure that sufficient bad debt provisions are made for unrecoverable amounts. Therefore, our management believes that the credit risks borne by our company have been significantly reduced.

Our company deposits its liquid funds in banks with high credit ratings, thus the credit risk associated with liquid funds is relatively low.

Our company has adopted necessary policies to ensure that all sales customers have good credit histories. Apart from the top five customers in terms of accounts receivable amounts, the company does not have any other significant credit concentration risks. The total amount of the top five customers in our company's accounts receivable is: RMB8,703,996.65, This accounts for 52.20% of the total amount of the Company's accounts receivable.

#### 1) Significant Increase in Credit Risk

On each balance sheet date, our company determines whether the credit risk of financial instruments has increased significantly since their initial recognition by comparing the estimated default probability within the expected remaining term determined at the time of initial recognition with that determined on the balance sheet date. However, if our company determines that the financial instrument only has a low credit risk on the balance sheet date, it can be assumed that the credit risk of the financial instrument has not increased significantly since the initial recognition.

The main criteria for our company to judge a significant increase in credit risk include significant unfavorable changes in the debtor's operating environment, internal and external credit ratings, actual or expected business results, etc.

## 10 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

#### 10.1 Financial risk management objectives and policies (Continued)

#### (2) Credit risk (Continued)

2) Definition of Credit-impaired Assets

When one or more events that have a negative impact on the expected future cash flows of financial assets occur, such financial assets become credit-impaired assets. The main criteria for our company to determine the occurrence of credit impairment are that the overdue days exceed the credit period granted by six months. However, in some cases, if internal or external information indicates that the full contract amount may not be recoverable before considering any credit enhancements held, the company will also consider it as credit impairment. Credit impairment of financial assets may be caused by the combined effect of multiple events, rather than a single identifiable event.

Evidence of credit impairment in financial assets includes observable information such as significant financial difficulties of the debtor, breach of contract by the debtor, concessions made by the company to the debtor due to economic or contractual considerations related to the debtor's financial difficulties that would not be made in any other circumstances, the likelihood of the debtor's bankruptcy or other financial restructuring, and the disappearance of an active market for the financial asset due to the debtor's financial difficulties.

#### 3) Credit Risk Exposure

As of December 31, 2024, the maximum credit risk exposure that may cause financial losses to our company mainly arises from the losses of financial assets generated by the failure of the other party to fulfill its obligations under the contract.

The carrying amount of financial assets recognized in the consolidated balance sheet represents the risk exposure for financial assets measured at fair value, but it is not the maximum risk exposure. The maximum risk exposure will change as the fair value changes in the future.

## 10 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

### 10.1 Financial risk management objectives and policies (Continued)

### (3) Liquidity risk

Liquidity risk refers to the risk that the Company could not engage the financial obligations at the maturity date. The method of the Company to manage liquidity risk is to ensure adequate cash flows to perform obligations at maturity, so that not to cause any unacceptable losses or damages of the Company reputation. The analysis of liabilities structure and durations would be made periodically to ensure the cash is adequate.

The analysis of financial assets and financial liabilities held by the Company is analysed as below, in terms of the maturity of undiscounted remaining contractual obligations:

				3 years	
Item	Within 1 year	1-2 years	2-3 years	or above	Total
Financial assets	-	-	-	-	-
Monetary funds	22,113,514.78				22,113,514.78
Accounts receivable	11,115,272.04				11,115,272.04
Accounts receivable financing	487,821.00				487,821.00
Other receivable	1,622,403.19				1,622,403.19
Financial liabilities					
Accounts payable	22,723,922.15				22,723,922.15
Other payable	5,011,214.74				5,011,214.74

31 December 2024:

## 10 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

#### 10.2 Sensitivity analysis

The Company adopted sensitivity analysis of reasonableness and the probable change effect of risk variables on equity or profit or loss. Since risk variables rarely change in isolation, the correlation between the variables can bring significant influence to the financial statement. The following sensitivity analysis is assumed the risk variable is independently carried out.

#### (1) Sensitivity analysis of exchange rate risks

The reasonable movements of exchange rate with all other variables unchanged may have the following impact on the profit or loss and equities for the current period (after tax):

		Year 2024		Year	2023
		Effect on	Effect on	Effect on	Effect on
Item	Exchange rate change	net profit	owner's equity	net profit	owner's equity
All the Foreign currency	5% appreciation of RMB	-254.77	-254.77	-75.22	-391,435.62
	5% depreciation of RMB	254.77	254.77	75.22	391,435.62

#### (2) Sensitivity analysis of interest rate risks

The reasonable movements of interest rate with all other variables unchanged may have the following impact on the profit or loss and equities for the current period (after tax):

		Year 2024		Year	2023
		Effect on	Effect on	Effect on	Effect on
Item	Interest rate change	net profit	owner's equity	net profit	owner's equity
Deposit	Increase 1%	221,135.15	221,135.15	178,694.76	178,694.76
	Decrease 1%	-221,135.15	-221,135.15	-178,694.76	-178,694.76

### 11. DISCLOSURE OF FAIR VALUE (Continued)

### 11.2 Basis for Determining the Market Price of Continuously and Non-continuously Measured First-tier Fair Value Items

The first-tier input value is the unadjusted quoted price of the same asset or liability that the company can obtain in an active market on the measurement date.

## 11.3 Qualitative and Quantitative Information on Valuation Techniques and Key Parameters Used for Continuously and Non-continuously Measured Second-tier Fair Value Items

For continuously and non-continuously measured second-tier fair value items, in addition to the first-tier input value, observable input values directly or indirectly related to the asset or liability are used.

## 11.4 Qualitative and Quantitative Information on Valuation Techniques and Key Parameters Used for Continuously and Non-continuously Measured Third-tier Fair Value Items

The third-tier input value is the unobservable input value of the relevant asset or liability. The thirdtier input value includes future cash flows that cannot be directly observed and cannot be verified by observable market data, as well as financial forecasts made by the enterprise using its own data.

The main items that our company adopts the third-tier fair value measurement are equity investments in non-listed companies and financial wealth management products. Among them, if there is no recent equity transaction price for non-listed companies, and there are no significant changes in the business environment, operating conditions, and financial status of the companies, our company will measure the fair value by referring to the investment cost and the share of the net assets of the invested entity as a reasonable estimate of the fair value. Trading financial assets are mainly wealth management products held by our company. Our company estimates the fair value by discounting the future cash flows calculated based on the agreed expected rate of return.

#### 11.5 Changes in valuation techniques and their reasons during the reporting period

None.

# 12. RELATED PARTIES AND RELATED PARTY TRANSACTIONS

#### 12.1 Related party relationship

### (1) Persons who have significant control over the Company

The significant controller of the company is the State-owned Assets Supervision and Administration Commission of Shanghai Municipality.

#### (2) The status of the Company's subsidiaries

For details of subsidiaries, please refer to this notes 8.1. (1) Structure of the Group.

#### (3) The status of the Company's joint ventures and associated companies

Detailed information on the Company's significant joint ventures and associated companies can be found in the relevant section of "8. 2. I Interests in joint ventures or associates "in this notes.

## 12. RELATED PARTIES AND RELATED PARTY TRANSACTIONS (Continued)

#### 12.3 Directors, Supervisors and Employees' Compensation (Continued)

#### 12.3.2 Top 5 paid employees

One of the top five individuals with the highest remuneration this year is a director (last year: one), and one is a supervisor (last year: one). The remuneration of the director and supervisor is stated in Note "12 4. (1)", and has been reflected in the remuneration of directors and supervisors. The remuneration of the other three individuals (last year: three) is as follows:

Item	Current Year	Last Year
Salaries and allowances	947,210.00	1,079,236.12
Social Insurance, Housing fund and		
Retirement benefit plan contributions	306,807.79	317,095.48
Annual Bonus	36,000.00	60,000.00
Equity-based compensation		
Total	1,290,017.79	1,456,331.60

Highest emoluments within the following groups (per capita)

Item	Current Year	Last Year
Nil to RMB1,000,000	5	5
RMB1,000,001 to 2,000,000	0	0
RMB2,000,001 to 2,500,000	0	0

**12.3.3** There's no motivated monetary funds provided for any 5 staff with highest emoluments joining or upon-joining the Company, and there's no compensation provided for them resigning for giving up the positions.

#### 12.3.4 Key management compensation

The key management compensation (including the amount paid and payable to directors, supervisors and senior management) is as follows:

Item	Current Year	Last Year
Wages and subsidies	1,672,811.16	1,856,095.00
Social Insurance, Housing fund and		
Retirement benefit plan contributions	265,064.70	323,299.25
Equity-based compensation		
Total	1,937,875.86	2,179,394.25

### **13. QUOTATIONS ON COMMITMENTS AND CONTINGENT ITEMS**

As of the balance sheet date, the Company has no significant commitments or contingencies that require disclosure.

### 14. EVENTS AFTER THE BALANCE SHEET DATE

#### 14.1 Profit distribution

Item	Content
Proposed profit or dividend distribution	The board of directors of the Company resolved on March 21, 2025 to propose not paying any dividends for the year ended December 31, 2024.
Profits or dividends declared after review and approval	None

#### 14.2 Sales return

There were no significant sales returns after the balance sheet date.

**14.3** Apart from the aforementioned events after the balance sheet date that have been disclosed, the Company has no other significant events after the balance sheet date.

### **15. OTHER SIGNIFICANT MATTERS**

#### 15.1 Segment information

#### (1) Basis for determining reportable segments and accounting policies

According to the internal organizational structure, management requirement and internal reporting system of the Company, the business operation is classified into 2 reporting segments, business application project (development and provision of business application project service, including business solution, application software, installation and maintenance and data security products) and sales products (sales and distribution computers and electronic products and accessories). These reporting segments have been laid down in the internal organization structure, management requirements and internal reporting system. The management of the Company will evaluate the operating results of these report segments to determine the distribution of resources and evaluation on its results.

By segment information is exposed in accordance with the accounting policy and standards for measurement. Such basis of measurement remains the same as the accounting policy and standards for measurement when preparing the financial statements.

# 16. NOTES TO MAJOR ITEMS IN THE FINANCIAL STATEMENTS OF THE PARENT COMPANY

### 16.1 Account receivables

#### (1) Presentation of accounts receivable by age

The average credit period granted by the Company to customers is between 90 and 180 days. For customers with good credit records and selected government agencies with strong financial support, the credit period can be extended beyond 180 days. The aging analysis of accounts receivable (net of bad debt provisions) reported based on the date of delivery of goods or the date of service rendered (approximately estimated to be the respective recognition dates) is as follows:

	Ending	Beginning
Aging	Balance	Balance
Within 1 year	10,768,481.84	4,029,619.39
Of which: 0-3 months	8,008,486.63	1,959,776.37
4 months to 6 months	1,978,334.90	1,078,389.53
7 months to 12 months	781,660.31	991,453.49
1-2 years	1,156,332.00	941,547.00
2-3 years		218,130.22
Over 3 year	4,750,708.77	4,551,878.55
Total	16,675,522.61	9,741,175.16
Less: Bad debt provisions	5,560,250.57	4,413,558.57
Total	11,115,272.04	5,327,616.59

	Book	Bad debt	Provision
Aging	balance	provision	ratio
Guarantee deposit and project payment within			
credit period	346,790.20		
Related party with regular transactions			
Total	346,790.20		

## 16. NOTES TO MAJOR ITEMS IN THE FINANCIAL STATEMENTS OF THE PARENT COMPANY (Continued)

#### **16.1 Account receivables** (Continued)

(4) Accounts receivable for which bad debt provisions are calculated based on other credit risk features within the portfolio

	Be	Beginning Balance				
Aging	Book balance	Bad debt provision	Expected credit loss rate for the whole duration			
Guarantee deposit and project payment within			20/			
credit period	1,283,787.20		0%			
Related party with regular transactions	14,210.00		0%			
Total	1,297,997.20					

#### (5) The movement of bad debt provision

	Ending	Beginning
Aging	Balance	Balance
At 1st January	4,413,558.57	5,148,614.77
Cancellation of bad debts		
Additional bad debt provision	1,170,542.00	103,480.22
Reversal of bad debt provision	23,850.00	838,536.42
At 31st December	5,560,250.57	4,413,558.57

#### (6) Analysis of overdue receivables but not be impaired at balance date

Aging	Ending Balance	Beginning Balance
Not overdue and no impairment Overdue but no impairment	10,333,611.73	4,336,163.10
7 months to 12 months (inclusive) Over 1 year	781,660.31	991,453.49
Total	11,115,272.04	5,327,616.59

Note 1: The account receivables, which are not overdue and not be impaired, are mainly the customers currently without defaulted records.

Note 2: The account receivables, which are overdue but not be impaired, are mainly the customers with good payment records. According to previous experiences, management believes provision for bad debts are not needed, because there is no change in credit quality and the balance of total accounts receivables are recoverable.
