## INTERIM REPORT 2025

## CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

*GEM has been positioned as a market designed to accommodate small and mid- sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.*

*Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.*

*Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this interim report (the “**Report**”), make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of the Report.*

*The Report, for which the directors (the “**Directors**”) of Century Energy International Holdings Limited (the “**Company**”) collectively and individually accept full responsibility, includes particulars given in compliance with Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “**GEM Listing Rules**”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in the Report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or the Report misleading.*

# MANAGEMENT DISCUSSION AND ANALYSIS

## FINANCIAL REVIEW

The unaudited revenue of the Company and its subsidiaries (collectively the “Group”) for the six months ended 30 September 2025 (the “Interim Period”) was approximately HK\$126.1 million, representing a decrease of approximately 62.8% from approximately HK\$338.7 million for the corresponding period last year. Such decrease in the unaudited revenue was mainly due to the decrease in the sales of natural gas during the Interim Period. In addition, the gross loss for the period was approximately HK\$73,000, mainly due to a one-off inventory impairment of approximately HK\$2,555,000.

The Group’s unaudited loss attributable to the owners of the Company decreased to approximately HK\$7.8 million from approximately HK\$10.2 million for the corresponding period last year. The decrease was mainly due to the decrease in staff costs, professional fee and rental expenses.

The board of the Directors (the “**Board**”) does not recommend to pay dividend for the Interim Period.

## BUSINESS REVIEW

During the Interim Period, the Group was principally engaged in the following businesses: (i) trading of refined oil and chemicals business; and (ii) power and data cords business.

In terms of the geographical market performance, the United States and the PRC contributed to approximately 7.9% (2024: approximately 2.3%) and approximately 91.6% (2024: approximately 97.4%) of the Group’s total unaudited revenue respectively, while the remaining approximately 0.5% (2024: approximately 0.3%) came from its other markets.

## TRADING OF REFINED OIL AND CHEMICALS BUSINESS

The Group seizes the opportunity of the national carbon neutrality and carbon peak initiatives based on the clean energy industry chain. By proactively promoting the clean energy trading business, actively connecting upstream natural gas resources, developing downstream customer markets, the Group will match the supply and demand for clean energy and provide upstream units with downstream customers with stable business and continuous gas consumption; provide downstream customers with natural gas products with strong gas supply guarantee capability and cost competitiveness, so as to achieve the natural gas trading business and obtain trading profits. The Group’s natural gas trading business mainly includes pipeline natural gas and liquefied natural gas (“**LNG**”) with the focus on domestic trading, and will actively carry out international business as and when appropriate.

The pipeline natural gas trading business adopts a model of gas in and gas out, and arranges and implements the transmission plan by purchasing with large oil and gas central enterprises, local coalbed methane producers, shale gas producers and other gas suppliers in combination with market demand; It is transmitted through the national and local pipe networks, and received by downstream customers at the local pipe network distribution station. Pipeline natural gas is mainly supplied to urban gas distributors to meet the gas demand of urban gas users.

The LNG trading business adopts a model of liquid in and liquid out. It purchases from the LNG manufacturer. The purchase price is determined based on the change in market price on spot purchase. After the purchase, the LNG is transported by LNG cryogenic tank car from the storage station to the terminal supply stations including LNG gasification station, distributed LNG cylinder station and filling station to meet the gas demand of downstream customers. The users mainly include urban gas companies, industrial and commercial enterprises and other customers.

During the Interim Period, the Group's unaudited revenue from sales of natural gas decrease by approximately 66.4% to approximately HK\$107.8 million (2024: approximately HK\$321.0 million). Due to drastic fluctuations in international gas prices, import procurement prices have fallen below domestic sales prices, leading to a reduction in sales volume to avoid the risk of losses.

## POWER AND DATA CORDS BUSINESS

The three key product groups for power and data cords business were (i) power and data cords for mobile handsets and personal care products; (ii) medical control devices; and (iii) power cords and inlet sockets for household electric appliances. Each product group has its own types of products. During the Interim Period, the Group manufactured over 40 types of power and data cords for mobile handsets and personal care products, and over 450 types of power cords and inlet sockets for household electric appliances. The Group also involved in the assembly and sale of medical control devices, which are primarily used by patients in hospital wards and the related accessories.

During the Interim Period, the Group's unaudited revenue from power and data cords business increased by approximately 3.4% to approximately HK\$18.3 million (2024: approximately HK\$17.7 million). The business remained generally stable.

## OUTLOOK

In recent years, the Group's traditional core business—natural gas trading—has faced periodic challenges, with significant pressure from declining revenues. This is primarily due to dual pressures from both domestic and international market conditions: drastic fluctuations in international gas prices and persistently high transportation costs have led to a "price inversion" between import procurement and domestic sales, severely squeezing trade profit margins and making it difficult to achieve profitability in the short term. The company remains optimistic about the long-term value of natural gas as a clean energy source and will continue to monitor market conditions. If necessary, it will implement phased strategic adjustments to its business scale to mitigate the risk of sustained losses amid the current abnormal market environment, and will actively advance its operations when the market returns to rationality.

Faced with this profoundly shifting energy landscape, the Group is actively developing a second growth curve by strategically pivoting towards the new energy sector, represented by "wind power, photovoltaics, and energy storage". It is important to emphasize that this transition does not represent a complete exit from the natural gas sector. Instead, it aims to establish a strategic structure of "dual core businesses" moving forward—on one hand, preparing to restart and sustainably develop the natural gas business once the market normalizes, and on the other hand, rapidly expanding into the new energy market to build a new engine for corporate growth.

In developing our wind-power-photovoltaic-storage business, we focus not only on power generation and energy storage per se, but also actively extend the green energy industrial chain centered around these core activities. We are simultaneously exploring innovative ventures such as "using surplus electricity for hydrogen production" and manufacturing "green methanol," which convert excess renewable electricity into green hydrogen and its derivative fuels. This approach enables the cascading utilization and value maximization of energy, thereby building a more comprehensive and diversified clean energy system.

The Group firmly believes that its expansion in the wind-power-photovoltaic-storage sector is fully aligned with national strategies. China is promoting the development of renewable energy with unprecedented intensity, providing robust support for the entire industry through clear policy targets, large-scale base construction, incentives for energy storage deployment, green trading mechanisms, and other measures. Leveraging the country's strong policies, the company will fully explore the new energy track while consolidating the foundation of its traditional business, thereby laying a solid groundwork for sustainable future development.

As an emerging energy corporation, the Group's corporate mission is to "Benefit People's Livelihood with Clean Energy and Technology and Innovation". We focus on the development of clean energy industrial chain and sensitively utilise the R&D results of frontier technology in order to explore and advance industrialisation in energy technology and to connect and integrate with quality projects and resources in China and overseas, through which the Group could create massive synergy between capital, technology, business and operational management. Therefore, the Group will strive to establish its core competitiveness in the fields of new energy materials, energy saving and environmental protection and digital technologies for energy safety, and develop into a technological energy corporation with prominent influence and reputation within the industry.

The Group shall continue to seek further opportunities to further develop the energy business by way of investment in or acquisition of companies currently engaging in the energy business or submitting tenders or quotations for energy projects. The Directors believe that such strategy will enable to Group to capitalise on its experience, together with the future opportunities for the development of China's clean energy industry, to strengthen its position in its energy business and to achieve a sustainable growth and maximize returns to the shareholders of the Company (the "Shareholders").

## EMPLOYEES' REMUNERATION POLICY

As at 30 September 2025, the Group employed 105 (31 March 2025: 112) full time employees mainly in the PRC and Hong Kong. The employees' remuneration policy of the Group is regularly reviewed and determined by reference to market terms, the Group's financial performance as well as the individual's academic and professional qualifications and work performance. Staff benefits include Mandatory Provident Fund contributions for Hong Kong employees and contributions to central pension schemes operated by local municipal governments for mainland-based employees. The Group provides various training programmes to equip its staff with requisite skills and knowledge. In addition, a share option scheme is offered to recognise significant staff contributions. During the Interim Period, no share options (2024: Nil) were issued to eligible participants under the Company's share option scheme. Total staff costs, inclusive of Directors' remuneration, for the Interim Period amounted to approximately HK\$5.9 million (2024: approximately HK\$7.2 million).

## LIQUIDITY, FINANCIAL RESOURCES AND CAPITAL STRUCTURE

As at 30 September 2025, the aggregate carrying value of the Group's indebtedness was approximately HK\$80.3 million (31 March 2025: approximately HK\$72.9 million) which comprised bank borrowing and other loan. As at 30 September 2025, the Group maintained bank balances and cash of approximately HK\$24.3 million (31 March 2025: approximately HK\$20.9 million).

As at 30 September 2025, the Group's gearing ratio was approximately 63.7% (31 March 2025: approximately 66.0%). This ratio is calculated as net debts divided by total assets. Net debts are defined as total debts (includes borrowings) less bank balances and cash. Total assets comprises both current assets and non-current assets.

## EXPOSURE TO FOREIGN EXCHANGE RISK

As the Group operates principally in Hong Kong and the PRC, its exposure to foreign currency risk is minimal as most of its business transactions, assets and liabilities are principally denominated in the functional currency of the group entities. In this respect, the only risk it is faced arose from exposures mainly to the renminbi ("RMB") and the United States dollar ("US\$"). These risks were mitigated as the Group held HK\$, US\$ and RMB bank accounts to finance transactions denominated in these currencies respectively. The Group has no foreign currency hedging policy for foreign currency transactions, assets and liabilities. During the Interim Period, the Group did not use any financial instruments for hedging purposes. The Group will continue to monitor its exposure to foreign exchange risks and will consider hedging such exposure, should such a risk arise.

## PLEDGE OF ASSETS

As at 30 September 2025, an investment property with carrying amount of approximately HK\$5,551,000 was pledged to a bank to secure facilities granted to the Group (31 March 2025: approximately HK\$5,555,000).

In addition, the Group's 51% equity interests in Able One Investments Limited, a subsidiary of the Company, was pledged to an independent third party to secure an interest-bearing other loan.

## SIGNIFICANT INVESTMENTS AND DISPOSALS

The Group had no significant investments and disposals, nor has it made any material acquisition or disposal of the Group's subsidiaries or affiliated companies during the Interim Period.

## CONTINGENT LIABILITIES AND CAPITAL COMMITMENTS

As at 30 September 2025, the Group had no significant contingent liabilities and capital commitment (31 March 2025: Nil).

# NOTES TO THE CONDENSED FINANCIAL STATEMENTS

For the six months ended 30 September 2025

## 1. BASIS OF PREPARATION

The unaudited condensed consolidated interim financial statements of the Group for the six months ended 30 September 2025 (the **"Interim Financial Report"**) have been prepared in accordance with Hong Kong Accounting Standard 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants (**"HKICPA"**) and the applicable disclosure requirements of the GEM Listing Rules of the Stock Exchange.

The Interim Financial Report does not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements for the year ended 31 March 2025 (the **"2025 Annual Financial Statements"**).

The Interim Financial Report has been prepared in accordance with the same accounting policies adopted in the 2025 Annual Financial Statements, except for the adoption of the new, amended or revised Hong Kong Financial Reporting Standards (**"HKFRSs"**) (which collectively include all applicable individual Hong Kong Financial Reporting Standard (**"HKFRS"**), Hong Kong Accounting Standard (**"HKAS"**) and Interpretation issued by the HKICPA) as disclosed in Note 2 to the Interim Financial Report.

The unaudited condensed consolidated interim financial statements have not been audited by the Company's auditors, but have been reviewed by the audit committee of the Company.

### GOING CONCERN

The directors of the Company have given careful consideration to the going concern status of the Group in light of the fact that (i) the Group incurred a net loss attributable to the owners of the Company of approximately HK\$7,785,000 for the six months ended 30 September 2025; (ii) as of that date, the Group had total borrowings of approximately HK\$80,256,000, out of which approximately HK\$68,593,000 will be due for repayment within the next twelve months, while its available cash and bank balances amounted to approximately HK\$24,342,000; and (iii) and the Group recorded net liabilities of approximately HK\$55,715,000. These conditions indicate the existence of material uncertainty which may cast significant doubt on the Group's ability to continue as a going concern.

In order to improve the liquidity of the Group and ensure the Group's ability to operate as a going concern, the directors of the Company have implemented measures as follows:

The controlling shareholders have undertaken to provide adequate funds to enable the Group to meet its liabilities and to settle financial obligations to third parties as and when they fall due so that the Group can continue as a going concern and carry on its business without significant curtailment of operations for the twelve months from the date of approval of the Interim Financial Report. The controlling shareholders have also undertaken not to demand the Company for repayment of the amount due to him until all other liabilities of the Group have been satisfied.

## **1. BASIS OF PREPARATION (Continued)**

The directors of the Company will continue to implement measures aiming at improving the working capital and cash flows of the Group including closely monitoring general administrative expenses and operating costs.

The directors of the Company have carried out a detailed review of the cash flow forecast of the Group for the next twelve months from the date of this report taking into account the impact of the above measures, the directors of the Company believe that the Group will have sufficient cash resources to satisfy its future working capital and other financing requirements. Accordingly, the Interim Financial Report has been prepared on a going concern basis.

Should the going concern basis be determined to be not appropriate, adjustments would have to be made to write down the carrying amounts of the Group's assets to their net realisable values, to provide for any further liabilities which might arise and to reclassify non-current assets and non-current liabilities as current assets and current liabilities, respectively. The effects of these adjustments have not been reflected in the Interim Financial Report.

## **2. ADOPTION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS**

In the current period, the Group has adopted all the new and revised HKFRSs issued by the HKICPA that are relevant to its operations and effective for its accounting year beginning on 1 April 2025. HKFRSs comprise HKFRS, HKAS; and Interpretations. The adoption of these new and revised HKFRSs did not result in significant changes to the Group's accounting policies, presentation of the Group's financial statements and amounts reported for the current period and prior years.

The Group has not applied the new HKFRSs that have been issued but are not yet effective. The Group has already commenced an assessment of the impact of these new HKFRSs but is not yet in a position to state whether these new HKFRSs would have a material impact on its results of operations and financial position.

### 3. SEGMENT INFORMATION

The Group's reportable segments are determined as follows:

## 9. DIVIDEND

The Board does not recommend payment of any interim dividend for the six months ended 30 September 2025 (six months ended 30 September 2024: Nil).

## 10. LOSS PER SHARE

### (A) BASIC LOSS PER SHARE

Basic loss per share is calculated by dividing the unaudited loss attributable to owners of the Company of approximately HK\$7,785,000 (2024: approximately HK\$10,205,000) by the weighted average number of ordinary shares of 2,694,465,453 (2024: 2,694,465,453) in issue for the six months ended 30 September 2025.

### (B) DILUTED LOSS PER SHARE

Diluted loss per share is calculated by adjusting the weighted average number of ordinary shares outstanding to assume exercise/conversion of all dilutive potential ordinary shares. As at 30 September 2025 and 2024, there were no dilutive potential ordinary shares in issue.

## 11. PROPERTY, PLANT AND EQUIPMENT

During the six months ended 30 September 2025, the Group acquired property, plant and equipment of approximately HK\$35,000 (six months ended 30 September 2024: approximately HK\$94,000).

## 12. TRADE AND OTHER RECEIVABLES

Trade receivables from contract with customers	29,409	32,176
Less: Allowance for credit losses	(19,020)	(19,020)
	10,389	13,156
Other receivables	45,825	31,290
Less: provision for impairment	(3,604)	(3,604)
	42,221	27,686
	52,610	40,842

The majority of the Group's sales are on credit terms up to 30 to 60 days from the end of the month of invoice. The Group seeks to maintain strict control over its outstanding receivables. In determining the recoverability of trade receivables, the Group considers any changes in credit quality of trade receivables from the date credit was initially granted up to the end of the reporting period. The Group does not hold any collateral or other credit enhancements over its trade receivable balances.

The aging analysis of trade receivables (net of allowance for credit losses) based on the invoice dates is as follows:

	30 September 2025 HK\$'000 (Unaudited)	31 March 2025 HK\$'000 (Audited)
Within 30 days	8,211	8,032
31–60 days	410	4,044

## OTHER INFORMATION

### CORPORATE GOVERNANCE PRACTICES

The Company is committed to achieving high standards of corporate governance to safeguard the interests of its shareholders and enhance its corporate value. The Company's corporate governance practices are based on the principles of good governance, code provisions and certain recommended best practices as set out in the Corporate Governance Code (the "**CG Code**") in Appendix C1 of the GEM Listing Rules. During the Interim Period, the Company complied with the code provisions as set out in the CG Code with the exception of the following:

- (i) Pursuant to Rule 18.49 of the GEM Listing Rules, the Company is required to publish its annual results for the year ended 31 March 2025 not later than three months after the end of the financial year (i.e. on or before 30 June 2025). The Company had delayed the publication of its annual results for the year ended 31 March 2025. It was because additional time was required by the auditor for completing certain audit procedure including collecting the external confirmations and certain supporting documents on the impairment assessment of inventory and other receivables.
- (ii) Under the code provision F.2.2 of the CG Code, the chairman of the board should attend the annual general meeting. The chairman of the board should also invite the chairmen of the audit, remuneration, nomination and any other committees (as appropriate) to attend. Mr. Sun Jiusheng, Mr. Li Dewen and Mr. Yeung Shing Wai did not attend the annual general meeting of the Company held on 30 September 2025 due to their other business commitments.

The Board continues to monitor and review the Company's corporate governance practices to ensure compliance with the CG Code.

### DISCLOSURE OF INFORMATION ON DIRECTORS

Pursuant to rule 17.50A(1) of the GEM Listing Rules, the changes in the information of the Directors are as follows:

1. Mr. Cheong Siu Fai has been appointed as an independent non-executive Director and the Chairman of the audit committee, member of each of the nomination committee and remuneration committee of the Board with effect from 4 June 2025.

## SHARE OPTION SCHEME

### SHARE OPTION SCHEME 2021

The Company has adopted a share option scheme (the “**Scheme 2021**”) pursuant to a resolution of the Shareholders passed on 29 September 2021. The purpose of the Scheme 2021 is to attract and retain the best available personnel, to provide additional incentive to employees (full-time and part-time), directors, advisors and consultants of the Group and to promote the success of the business of the Group.

The Scheme 2021 became effective on 29 September 2021 and, unless otherwise cancelled or amended, will remain in force for 10 years from the date of the adoption of the Scheme 2021. The remaining life of the Scheme 2021 is approximately 7 years.

The Participants include any director, employee, advisor and consultant of the Company or any subsidiary of the Company, who, in the absolute discretion of the Board, has contributed or may contribute to the Group so as to promote the success of the business of the Group. During the Interim Period, no share option was granted under the Scheme 2021.

The maximum number of Shares which may be issued under the Scheme 2021 and any other share option scheme of the Group must not in aggregate exceed 10% of the Shares in issue of the Company on the day on which trading of the Shares commenced on the Stock Exchange, i.e. 253,346,545 representing 10% of the issued share capital of the Company as at the date of the approval on the refreshment of 10% limit of annual general meeting on 29 September 2021. As at the date of the Report, the total number of the shares of the Company available for issue under the Scheme 2021 is 253,346,545 Shares, representing 9.4% of the total number of issued Shares.

The maximum number of Shares issued and to be issued upon exercise of the Options granted and to be granted pursuant to the Scheme 2021 and any other share option schemes of the Group to each Participant (including both exercised and outstanding options) in any 12-month period up to and including the date of grant of the options must not exceed 1% of the total number of Shares in issue.

Any grant of share options to a substantial shareholder of the Company or an independent non-executive Director, or any of their respective associates and such Option which if exercised in full, would result in the shares of the Company issued and to be issued upon exercise of all Options already granted and to be granted pursuant to the Scheme 2021 and other share option schemes of the Company (including option exercised and outstanding) to such Participant in the 12-month period up to and including the date of grant being proposed by the Board (the “**Relevant Date**”) representing in aggregate more than 0.1% of the total number of shares of the Company in issue at the Relevant Date are subject to the shareholders’ approval in the general meeting.

Unless otherwise determined by the directors of the Company and stated in the offer of the grant of options to a grantee, the vesting period for Options shall not be less than 12 months.

The offer of a grant of share options may be accepted within 10 days from the date of offer upon payment of a nominal consideration of HK\$1 by the grantee. The exercise period for the share options granted is determined by the Board and shall end in any event not later than 10 years from the date of the conditional adoption of the Scheme 2021 by the sole Shareholder subject to the provisions for early termination under the Scheme 2021.

The subscription price for the Shares under the Scheme 2021 shall be a price determined by the Board at its absolute discretion and shall not be less than the highest of (i) the closing price of the Shares as stated in the Stock Exchange's daily quotations sheet on the date of the offer for the grant, which must be a business day, (ii) the average closing prices of the Shares as stated in the Stock Exchange's daily quotations sheet for the five business days immediately preceding the date of the offer for the grant; and (iii) the nominal value of the share of the Company on the date of the offer for the grant.

Apart from the aforesaid, at no time during the Interim Period was the Company or any of its subsidiaries a party to any arrangement to enable the Directors and substantial shareholders or any of their close associates to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate.

Since the date of adoption of the Scheme 2021, no share option has been granted.
