CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

The Company is an investment holding company and the Group is principally engaged in the provision of catering and related business and sales and distribution of food and wine business in Hong Kong and the PRC.

The unaudited condensed consolidated financial statements (the “**Interim Financial Statements**”) are presented in Hong Kong dollars (“**HK\$**”), which is also the functional currency of the Company and all values are rounded to the nearest thousand (HK\$’000), unless otherwise stated.

2. BASIS OF PREPARATION AND PRINCIPAL ACCOUNTING POLICIES

The Interim Financial Statements for the six months ended 30 September 2025 have been prepared in accordance with Hong Kong Accounting Standard 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants (the “**HKICPA**”) and the applicable disclosures required by the GEM Listing Rules. The Interim Financial Statements for the six months ended 30 September 2025 should be read in conjunction with the audited consolidated financial statements of the Company for the year ended 31 March 2025 which have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards (“**HKFRSs**”). Except for the application of new and revised HKFRSs issued by the HKICPA, which are effective for the annual periods beginning on or after 1 April 2025, the principal accounting policies used in the Interim Financial Statements for the six months ended 30 September 2025 are consistent with those adopted in the preparation of the Company’s audited consolidated financial statements for the year ended 31 March 2025.

In the current period, the Group has applied all new and revised HKFRSs issued by the HKICPA that are effective for the Group’s financial year beginning on or after 1 April 2025. The application of the new and revised HKFRSs in the current period has had no material effect on the amounts reported and/or the disclosures set out in the Interim Financial Statements.

The Interim Financial Statements for the six months ended 30 September 2025 have not been audited by the Company’s auditors but have been reviewed by the audit committee of the Board.

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

2. BASIS OF PREPARATION AND PRINCIPAL ACCOUNTING POLICIES

(Continued)

Going concern *(Continued)*

For the purpose of assessing the appropriateness of the use of the going concern basis for the preparation of the consolidated financial statements, the management has prepared a cash flow forecast up to 30 September 2026 (the “**Forecast**”). When preparing the Forecast, management has given careful consideration to the future liquidity and performance of the Group and its available sources of financing in assessing whether the Group will have sufficient financial resources to continue as a going concern, and implements active cost-saving measures to control administrative costs through various ways to improve operating cash flows at a level sufficient to finance the working capital requirements of the Group.

In addition to the above, the Group will continue to seek for alternative financing, to the extent that the Company has negotiated with a financial institution to grant the facility for financing the Group’s working capital.

The Directors have reviewed the Forecast prepared by management and are of the opinion that, taking into account the above-mentioned plans and measures, the Group will have sufficient working capital to finance its operations and to meet its financial obligations when they fall due within the forecast period. Accordingly, the Directors are satisfied that it is appropriate to prepare the consolidated financial statements on a going concern basis.

However, there are uncertainties associated with the future outcomes of the above measures and these indicate the existence of material uncertainty that may cast significant doubt on the Group’s ability to continue as a going concern. Whether the Group will be able to continue as a going concern will depend upon the following:

- executive directors of the Company provided and had undertaken to provide continuous financial support to the Group to enable it to have sufficient liquidity to finance its operations and will not demand the amounts due to directors of approximately HK\$10,846,000 as at 30 September 2025 in the next 12 months from financial year end date.
- on 26 June 2025, a related party of the Company has provided a loan of RMB8,000,000 (equivalent to approximately HK\$8,576,000) to the Company and the related party will not demand repayment in the next 12 months from the grant date of the loan.

Should the Group fail to achieve the above-mentioned plans and measures, it might not be able to continue to operate as a going concern, and adjustments would have to be made to write down the carrying value of the Group’s assets to their recoverable amounts, to provide for any further liabilities which might arise, and to reclassify non-current assets and non-current liabilities as current assets and current liabilities. The effect of these adjustments has not been reflected in the Interim Financial Statements.

MANAGEMENT DISCUSSION AND ANALYSIS

INDUSTRY OVERVIEW

Economic growth in the PRC and Hong Kong

The PRC's GDP grew 5.3% year-on-year in the first half of 2025, as compared to the 5.0% growth recorded in the first half of 2024, which exceeds market expectations. The growth was primarily driven by an increase in fixed asset investment, exports, and the expansion of the innovation sector. This effect was partially offset by rising trade tensions with the U.S.. In overall, the Group is optimistic about the provision of catering and related business and sales and distribution of food and wine business in the PRC.

Hong Kong's economy experienced a cyclical upturn in last two years and recorded a moderate growth in the first half of 2025. However, external headwinds, policy uncertainty, and the lingering effects of COVID-19 resulted in uneven economic performance. This led to instability in the catering and related industry in Hong Kong.

The business scope includes, but is not limited to, brand management, customisation, marketing, and distribution of premium wines, with a focus on business-to-business sales of Chinese liquor. Reference is made to the announcement of the Company dated 1 November 2024. In addition, leveraging on the industry knowledge and experience in the catering and related business, the Group has allocated resources to develop catering services in the PRC.

Benefiting from the PRC's economic growth in the first half of 2025, the revenue of the Group increased by approximately HK\$7.7 million or 66.4% from approximately HK\$11.6 million for the six months ended 30 September 2024 to approximately HK\$19.3 million for the six months ended 30 September 2025.

The Platform Services allow suppliers or distributors, through the Platform, to directly sell their products (ranging from fresh and live food products, prepackaged food and beverages (including liquor) to daily necessities and lifestyle products). The acquisition aligns with the Group’s strategic initiatives to vertically integrate its sales and distribution capabilities for food and wine products. For further details, please refer to the announcements of the Company dated 1 November 2024, 26 July 2025, 22 August 2025 and 30 September 2025.

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL REVIEW

Revenue

The revenue of the Group increased by approximately HK\$7.7 million or 66.4% from approximately HK\$11.6 million for the six months ended 30 September 2024 to approximately HK\$19.3 million for the six months ended 30 September 2025. The increase in revenue was attributable to the increase in revenue from sales and distribution of food and wine business. The effect was partially offset by the decrease in revenue from the catering and related business for the six months ended 30 September 2025.

Cost of inventories sold

Cost of inventories sold primarily consists of (i) the cost of Chinese liquor, packaging materials and bottles and (ii) the cost of food, wine and beverages used in the sales and distribution of food and wine business. The decrease in overall gross profit margin for the six months ended 30 September 2025 was mainly due to the fact that the sales and distribution of food and wine business had a relatively low profit margin in operation in the PRC during the six months ended 30 September 2025, as compared to a relatively high gross profit margin from catering and related business in Hong Kong for the six months ended 30 September 2024. All of the Group's revenue was derived from the sales and distribution of food and wine business in the PRC during the six months ended 30 September 2025.

Income tax expenses

The Group's income tax expenses were approximately HK\$1.3 million for the six months ended 30 September 2025 (for the six months ended 30 September 2024: nil), which was mainly due to increase in taxable profit from the sales and distribution of food and wine business in the PRC for the six months ended 30 September 2025.

The effect was partially offset by the repayment of bank borrowings during the six months ended 30 September 2025.

FOREIGN EXCHANGE EXPOSURE

The Group’s sales and purchases for the six months ended 30 September 2025 were mostly denominated in Hong Kong dollars (“**HK\$**”), Renminbi (“**RMB**”) and the United States dollars. RMB is not a freely convertible currency. In view of the above, future exchange rates of the above currencies may vary significantly from the current or historical exchange rates as a result of foreign exchange controls that could be imposed by respective governments and the depth and breadth of respective markets of currency exchange. The respective exchange rates may also be affected by economic developments and geopolitical changes domestically and internationally, and the demand and supply of the respective currencies. The appreciation or devaluation of the respective currencies against HK\$ may also have an impact on the Group’s results of operation.

The Group manages its foreign currency risk by closely monitoring the movements of foreign currency exchange rates. The Group did not enter into any foreign currency forward contracts to hedge against foreign currency risk as at 30 September 2025, but will consider the same when the need arises in the future.

TREASURY POLICIES AND RISK MANAGEMENT

The main objective of the Group’s treasury policies is to seek capital appreciation with the surplus fund in short term and non-speculative in nature. As at 30 September 2025, the Group's credit risk was primarily attributable to trade receivables, deposits, other receivables and cash and cash equivalents.

As at 30 September 2025, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties was arising from the carrying amount of the respective recognised financial assets as stated in the unaudited condensed consolidated statement of financial position.

THE REMUNERATION POLICY OF EMPLOYEES

In order to attract and retain high quality staff and to enable smooth operations within the Group, the remuneration policy and package of the Group's employees are periodically reviewed. The salary and benefit levels of the employees of the Group are competitive (with reference to market conditions and individual qualifications and experience). The Group provides adequate job training to the employees to equip them with practical knowledge and skills, including (i) conducting in-house continuous professional development seminars; and (ii) provision of safety training programme to staff to enhance their safety awareness. As incentives or rewards for their contribution to the Group, the Group has adopted the Share Option Scheme (as defined below) and may grant options under the Share Option Scheme to reward its employees, the Directors and other selected participants for their contributions to the Group.

PRINCIPAL RISKS AND UNCERTAINTIES

The following are the principal risks and uncertainties faced by the Group, which may materially and adversely affect its business, financial condition or results of operations:

1. All of the Group's revenue was derived from the sales and distribution of food and wine business in the PRC during the six months ended 30 September 2025, which may experience fluctuations from period to period due to seasonality and other factors. Also, the Group's operation in the PRC may be affected by any future development in the PRC. If the PRC experiences any adverse economic condition due to events beyond the Group's control, such as natural disasters, contagious disease outbreaks, terrorist attacks, local economic downturn, mass civil disobedience movements or if the local authorities place additional restrictions or burdens on the Group or on the industry in general, the Group's business and results of operations may be materially and adversely affected.

MANAGEMENT DISCUSSION AND ANALYSIS

Cost of inventories sold, administrative and operating expenses, staff costs and property rentals and related expenses contribute the majority of the Group's operating cost. The following factors are uncertain and may affect the cost control measures of the Group:

1. The Group's business depends on reliable sources of food ingredients and wine such as Chinese liquor, packaging materials and bottles. The price of food ingredients and wine may continue to rise or fluctuate.
2. The Group relies on human resources in the operation of its sales and distribution of food and wine business in the PRC. Fluctuations in wage level may further increase and affect staff costs in the future.
3. As at 30 September 2025, all the properties utilised by the Group for the sales and distribution of food and wine business in the PRC were leased or licensed by the Group. Therefore, the Group is exposed to risks relating to the commercial real estate rental market, including unpredictable and potentially high occupancy costs.

FUTURE PLANS FOR MATERIAL INVESTMENTS AND CAPITAL ASSETS

Saved as disclosed in this report, the Group did not have other plans for material investments or capital assets at 30 September 2025.
