37. DEFERRED TAXATION

At 1st April	82	82
Charge for the year (note 12)	20	
At 31st March	102	82
At 31St Watch		

The deferred tax liability is mainly attributable to the excess of depreciation allowances claimed for tax purposes over depreciation charged in the financial statements of certain subsidiaries.

At 31st March, 2001, the Group and the Company had an unrecognised deferred tax asset of HK\$27,658,000 (2000: HK\$22,238,000) and HK\$4,641,000 (2000: HK\$879,000), respectively, which represents the tax effect of timing differences arising as a result of tax losses available to set off against future assessable profits. These deferred tax assets have not been recognised in the financial statements as it is uncertain that the benefit will be realised in the foreseeable future.
