

Future Plans for the second half of 2001

1. Grasping the opportunities of western development and transmission of electricity from west to east and actively exploring and taking part in development projects outside Shandong Province.
2. Ensuring the power plants to be operated safely and endeavouring to achieve the targeted amount of electricity generation for the year.
3. Continuing to expedite the preliminary work relating to the development projects in Shandong Province in an attempt to submit the project proposal of the two 600MW units of Zouxian Phase IV to the State Development Planning Commission as soon as possible, and expedite the progress of such project and the preliminary work of Weifang Plant Phase II.
4. Continuing to strengthen the exchange of ideas as well as co-operation with Mirant Asia Pacific Limited of the United States, the foreign strategic investor of the Company.
