For the six months ended 30 September 2001

1. BASIS OF PRESENTATION AND ACCOUNTING POLICIES

The financial statements of the Group have been prepared on a going concern basis notwithstanding the net current liabilities as at 30 September 2001 as further explained below. The Company, on 22 June 2001, entered into a conditional subscription agreement (the "Subscription Agreement") and a conditional new placing agreement (the "New Placing Agreement") with Best Chance Holdings Limited ("Best Chance") and Hantec Capital Asia Limited (the "Placing Agent"), respectively, to provide financial support, immediate liquidity, cash flows, profitability to the Group.

The Subscription Agreement and the New Placing Agreement were completed on 5 November 2001 in accordance with their terms. The proceeds before expenses raised from the subscription and placing of shares were HK\$112.8 million and HK\$37.2 million, respectively, which are used as the Group's general working capital.

The condensed consolidated financial statements have been prepared in accordance with the Statement of Standard Accounting Practices 25 "Interim Financial Reporting" issued by the Hong Kong Society of Accountants. The accounting policies adopted are consistent with those adopted in the Group's financial statements for the year ended 31 March 2001.

3. DISCONTINUED OPERATIONS

Superjet International Limited ("Superjet"), a wholly owned subsidiary of the Group, was appointed by an airline company to act as its sole general sales agent in certain regions for the sales of international air cargo space. On 1 April 2001, the general sales agency agreement was terminated and not renewed thereafter. As a result, the Group ceased to engage in the business of general sales of international air cargo space from that date. Since no material assets or staff were employed in running this business segment, no material loss was incurred by the Group upon its discontinuance.

4. FINANCE COSTS

During the period, interest of HK\$319 (2000: HK\$419,000) was charged to the consolidated profit and loss account in respect of the Group's bank overdrafts.

Business Review

During the period under review, the total turnover of international air and sea freight forwarding business amounted to HK\$38.6 million, representing a decrease of 54.8% over last period. Total gross profit contribution was HK\$4.3 million, a decrease of 69.7% over last period. The Group had ceased its operation of general sales of international air cargo space since 1 April 2001, no turnover and contribution was therefore attributed to this segment.

While the Group was principally engaged in international air and sea freight forwarding, its business was adversely affected by the global economies slowdown. The September 11 terrorist attack in the US has further aggravated the weak export and import trading business in Hong Kong. Under such unfavourable situation, the Group has taken a number of cost reduction measures to maintain our competitiveness.

E-Life Gene, a 51% subsidiary of the Group, is still at its development stage. It will take some more time before the products and services developed by E-Life Gene based on genetic technology can be introduced to the market. The Directors will regularly monitor and evaluate the businesses of E-Life Gene to ensure they are in line with the overall development directions of the Group.

Liquidity and Cashflow Resources

The gearing ratio and the liquidity ratio decreased from 0.003 to 0 and 1.02 to 0.70 respectively. The calculation of liquidity ratio is based on the current assets of HK\$23,008,000 (31 March 2001: HK\$29,996,000) and the current liabilities of HK\$32,712,000 (31 March 2001: HK\$29,465,000) at the balance sheet date. During the six months ended 30 September 2001, 13,000,000 shares, amounting to approximately HK\$1,872,000, were issued pursuant to the exercise of the share options granted under the Shares Option Scheme.

Subsequent to the balance sheet, the Company has completed allotment of 2,256,000,000 new shares to Best Chance and placement of 744,000,000 new shares to independent investors and has raised net proceed of HK\$145 million in November 2001.

The financial position of the Group, after the capital restructuring exercise, is strong. The Board believes that the Group has sufficient financial resources to meet the working capital requirements for its existing operation, and any commitments for future new businesses should the opportunities arise.

Employee and Human Resource Policy

The Group had approximately 16 staff at the period end. Staff costs for the period amounted to HK\$7,290,000 (six months ended 30 September 2000: HK\$9,597,000). The Group is well acquainted with the importance of maintaining high calibre and competent employees by implementing a strict recruitment policy accordingly. It offers benefits like share options, professional tuition/training subsidies to staff in order to instill a sense of loyalty to the Company.

Prospects

The shareholding restructuring of the Group has been completed. A satisfactory amount of funds was raised for development of existing businesses and exploration of new opportunities for the Group.

The Group has also undergone management reform. The new management has brought to the Group new dynamics for growth. They have extensive experience in investing, managing and operating projects in the PRC. Leveraging on the expertise and connections of the new management, the Group will step up its efforts in strengthening various functions of its operation.

China accession to the World Trade Organisation ("WTO") will increase the export and import businesses and cross border logistic activities substantially. The Group in anticipation of the potential increase in business opportunities is actively seeking strategic PRC partnerships to develop its freight forwarding market in the PRC. Given its vast pool of talents and solid experience, the Group stands to benefit from the resultant synergy effect from any such cooperation.

Building on the Group's existing foundation, the new management intends to consolidate its business in a cautious manner. The Company has successfully raised additional funds through the capital restructuring. With its strong financial resources, the Group is well positioned to capture new business opportunities in future with a view to improving its long term profitability. The Group will therefore make every effort to capture new business opportunities on the horizon.

In 2002, under the leadership of the new management, the Group will reengineer its operation further to show a new look from head to toe.

ON BEHALF OF THE BOARD Wang Jian Hua Chairman

Hong Kong, 27 December 2001
