Applied Bonort 2001

1. GENERAL

The Company is a public limited company incorporated in Bermuda with its shares listed on The Stock Exchange of Hong Kong Limited.

The Company is principally engaged in investment holding. The principal activities of the Group are property investment, investment holding, investment in trading securities, provision of internet and internet related services and provision of brokerage and financial services.

The period covered by the financial statements for the period ended 31 December 2000 is less than twelve months because the Company's financial year end was changed from 31 March to 31 December so that the preparation of financial information is better co-ordinated with annual corporate and strategic planning of the Group. Accordingly, the comparative amounts shown for the income statement, cash flow statement, statement of recognised gains and losses and related notes cover a nine-month period from 1 April 2000 to 31 December 2000 and may not be comparable with the amounts shown for the current year.

2. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The consolidated financial statements are prepared under the historical cost convention except for investment properties and investments in securities which are measured at fair values. Fair value is the amount for which an asset could be exchanged between knowledgeable willing parties in an arm's length transaction, and is determined on the basis of existing use.

3. SIGNIFICANT ACCOUNTING POLICIES

The financial statements have been prepared in accordance with all applicable Statements of Standard Accounting Practice ("SSAPs") and Interpretations issued by the Hong Kong Society of Accountants, accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. The principal accounting policies adopted are set out below:

(a) Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and enterprises controlled by the Company (its subsidiaries) made up to 31 December each year. Control is achieved where the Company has the power to govern the financial and operating policies of an investee enterprise so as to obtain benefits from its activities.

On acquisition, the assets and liabilities of the relevant subsidiaries are measured at their fair values at the date of acquisition. The interest of minority shareholders is stated at the minority's proportion of the fair values of the assets and liabilities recognised.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate.

All significant intercompany transactions and balances within the Group are eliminated on consolidation.

aual Report 2001 31 December 2001

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(b) Goodwill

Goodwill arising on consolidation, which represents the excess of the purchase consideration over the fair value ascribed to the separable net assets at the date of acquisition of a subsidiary or an associate, is capitalised and amortised on a straight line basis over its estimated useful life or twenty years, whichever is shorter. Goodwill arising from acquisitions of interests in subsidiaries and associates engaging in internet and internet related business is amortised over five years.

Goodwill arising from acquisitions of subsidiaries and associates is included in intangible assets and within the carrying value of the associates respectively. Provision is made for all identified impairment loss.

Negative goodwill represents the excess of the fair value ascribed to the separable net assets at the date of acquisition of a subsidiary or an associate over the purchase consideration.

Negative goodwill arising on acquisitions of subsidiaries and associates prior to 1 January 2001 continues to be held in reserves and is included in the carrying value of the associates respectively and will be credited to income at the time of disposal of the relevant subsidiary or associate.

Negative goodwill arising on acquisitions of subsidiaries and associates after 1 January 2001 is presented as deduction from intangible assets and included in the carrying value of associates respectively and will be released to income based on an analysis of the circumstances from which the balance resulted.

To the extent that negative goodwill relates to an expectation of future losses and expenses that are identified in the plan of acquisition and can be measured reliably, but which have not yet been recognised, it is recognised in the income statement when the future losses and expenses are recognised. Any remaining negative goodwill not exceeding the fair values of the non-monetary assets acquired is recognised in the income statement over the weighted average life of those assets. The amount of negative goodwill in excess of the fair values of acquired identifiable non-monetary assets acquired is recognised as income immediately.

Upon disposal of subsidiaries or associates, the relevant portion of attributable negative goodwill or goodwill net of amortisation and any impairment losses, is included in the determination of the profit or loss on disposal.

SIGNIFICANT ACCOUNTING POLICIES (Continued)

(c) Investments in subsidiaries

A subsidiary is an enterprise controlled by the Group. An enterprise is considered to be controlled if the Group has the power, directly or indirectly, to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities.

Investments in subsidiaries are included in the Company's balance sheet at cost less any identified impairment loss. The results of subsidiaries are accounted for by the Company on the basis of dividends received and receivable.

(d) Investments in associates

An associate is an enterprise over which the Group is in a position to exercise significant influence through participation in the financial and operating policy decisions of the investee.

Investments in associates are accounted for in the consolidated financial statements using the equity method of accounting whereby the investments are initially recorded at cost and adjusted thereafter for the post-acquisition change in the Group's share of net assets of the associates plus premium paid less any discount on acquisition in so far it has not already been amortised/released to income, less any identified impairment loss.

Where a group enterprise transacts with an associate of the Group, unrealised profits and losses are eliminated to the extent of the Group's interest in the relevant associate, except where unrealised losses provide evidence of an impairment of the asset transferred, in which case they are immediately recognised in the income statement.

(e) Revenue recognition

Rental income, from properties let under operating leases including rentals invoiced in advance for fixed periods, is recognised on a straight line basis over the term of the relevant lease.

Revenue from the sale of trading securities is recognised on a trade-date basis.

Brokerage fees and commission income are recognised when relevant services are provided.

Interest income is accrued on time basis by reference to the principal outstanding and at the interest rate applicable.

Dividend income is recognised when the Group's right to receive payment has been established.

Revenue from provision of consultancy services is recognised when relevant service is provided.

Notes to the Financial Statements

Annual Report 2001 31 December 2001

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(f) Investment properties

Investment properties are completed properties which are held for their investment potential, any rental income being negotiated at arm's length.

Investment properties are stated at their open market value based on independent professional valuations at the balance sheet date. Any surplus or deficit arising on the revaluation of investment properties is credited or charged to the investment property revaluation reserve unless the balance on this reserve is insufficient to cover a deficit, in which case the excess of the deficit over the balance on the investment property revaluation reserve is charged to the income statement. Where a deficit has previously been charged to the income statement and a revaluation surplus arises subsequently, this surplus is credited to the income statement to the extent of the deficit previously charged.

On disposal of investment properties, the balance on the investment property revaluation reserve attributable to that property disposed of is credited to the income statement.

No depreciation is provided on investment properties which are held on leases with an unexpired term of more than 20 years.

(g) Property, plant and equipment

Property, plant and equipment are stated at cost less depreciation and impairment losses. The cost of an asset comprises its purchase price and any directly attributable costs of bringing the asset to its present working condition and location for its intended use. Expenditure incurred after the asset has been put into operation, such as repairs and maintenance and overhaul costs, is charged to income statement in the period in which it is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of the asset, the expenditure is capitalised as an additional cost of the asset.

The gain or loss arising on the disposal or retirement of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the income statement.

Depreciation is provided to write off the cost of property, plant and equipment, other than investment properties, over their estimated useful lives, using the straight line method, at the following rates per annum:

Leasehold land/land use rights

Over the terms of leases/land use rights

Buildings 4%
Leasehold improvements 10%
Furniture and fixtures 10-20%
Plant and machinery 10%
Motor vehicles 25%

Assets held under finance leases are depreciated on the same basis as owned assets.

SIGNIFICANT ACCOUNTING POLICIES (Continued)

(h) Investments in securities

Investments in securities are recognised on a trade-date basis and are initially measured at cost.

All securities other than held-to-maturity debt securities are measured at fair value at subsequent reporting dates. The Group has no held-to-maturity debt securities.

Where securities are held for trading purposes, unrealised gains and losses are included in the income statement for the year. For other securities, unrealised gains and losses are dealt with in equity, until the security is disposed of or is determined to be impaired, at which time the cumulative gain or loss is included in the income statement for the year.

(i) Leases

Leases are classified as finance leases when the terms of the leases transfer substantially all the risks and rewards of ownership of the assets to the Group. All other leases are classified as operating leases.

Assets held under finance leases are capitalised at their fair value at the date of acquisition. The corresponding liability to the lessor, net of interest charges, is included in the balance sheet as obligations under finance leases. Finance costs, which represent the difference between the total leasing commitments and the fair value of the assets acquired, are charged to the income statement over the term of the relevant lease so as to produce a constant periodic rate of charge on the remaining balance of the obligations for each accounting period.

Rentals payments/receipts under operating leases are charged to/recognised in the income statement on a straight line basis over the term of the relevant leases.

Intangible assets (i)

Intangible assets comprise goodwill which is accounted for in accordance with note 3(b) above and the Group's trading rights in The Stock Exchange of Hong Kong Limited and The Hong Kong Futures Exchange Limited. The trading rights are stated at cost less amortisation. Amortisation is calculated on the straight line basis to write off the cost of the trading rights over their estimated useful lives of ten years.

(k) Other long term assets

Other long term assets are stated at cost less provision for all identified impairment loss.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(I) Impairment

At each balance sheet date, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Expected future cash flows have been discounted in determining the recoverable amount.

If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately, unless the relevant asset is carried at a revalued amount under another SSAP, in which case the impairment loss is treated as a revaluation decrease under that SSAP.

A previously recognised impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount, but not to an amount higher than the carrying amount that would have been determined had no impairment loss been recognised in prior years.

(m) Provisions

Provisions are recognised when the Group has a present obligation as a result of a past event which will probably result in an outflow of economic benefits that can be reasonably estimated.

(n) Retirement benefits scheme

The Group operates a Mandatory Provident Fund Scheme ("MPF Scheme") for all qualifying employees. The assets of the scheme are held separately from those of the Group in funds under the control of trustees.

The retirement benefit costs charged to the income statement represent the contributions payable in respect of the current year to the Group's MPF Scheme.

(o) Taxation

The charge for taxation is based on the results for the year as adjusted for items which are non-assessable or disallowed. Timing differences arise from the recognition for tax purposes of certain items of income and expense in a different accounting period from that in which they are recognised in the financial statements. The tax effect of timing differences, computed under the liability method, is recognised as deferred taxation in the financial statements to the extent that it is probable that a liability or asset will crystallise in the foreseeable future.

Applied Poport 2001

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(p) Foreign currencies

Transactions in foreign currencies are translated at the rates ruling on the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rates ruling on the balance sheet date. Gains and losses arising on exchange are dealt with in the income statement.

On consolidation, the financial statements of subsidiaries and associates which are denominated in currencies other than Hong Kong dollars are translated at the rates ruling on the balance sheet date. All exchange differences arising on consolidation are dealt with in reserves.

(q) Cash equivalents

Cash equivalents represent short term, highly liquid investments which are readily convertible into known amounts of cash and which were within three months of maturity when acquired, less advances from banks repayable within three months from the date of the advance.

9. NET GAIN ON DISPOSALS OF INTERESTS IN ASSOCIATES

During the year, the Group no longer has control over Cupac Technology Limited ("Cupac") which is principally engaged in the provision of internet and internet related services and investment in trading securities. Accordingly, Cupac was reclassified as an associate. The results of Cupac were consolidated up to 30 June 2001, when Cupac became an associate of the Group, and were equity accounted for thereafter until the eventual disposal on 14 August 2001. This has resulted in a gain on disposal of HK\$103,000.

The Group's loss before taxation to the extent of HK\$21,591,000 (2000: HK\$398,671,000) is attributable to Cupac. Cupac did not have significant contribution to the Group's turnover for the year ended 31 December 2001. For the period ended 31 December 2000, Cupac has contributed HK\$42,637,000 to the Group's turnover in respect of proceeds from sale of trading securities.

10. NET GAIN ON DILUTION OF INTEREST IN A SUBSIDIARY

The net gain on dilution of interest in a subsidiary, Hennabun Management Inc. ("HMI"), totalling HK\$1,269,000 for the year ended 31 December 2001 is resulted from allotment of new shares of HMI to a third party pursuant to a subscription agreement dated 27 March 2001. Under the said agreement, the Company is required to make payment of HK\$50,000,000 to HMI to fulfil its warranties for HMI's financial performance in respect of the year ended 31 December 2001. Accordingly, the portion attributable to the minority shareholders on the said payment amounted to HK\$9,460,000 which has been deducted in arriving at the net gain aforementioned.

Provision for Hong Kong Profits Tax has been calculated at 16% (2000: 16%) of the estimated assessable profits for the year.

Details of unprovided deferred taxation are set out in note 40.

15. LOSS FOR THE YEAR/PERIOD

Of the Group's loss for the year of HK\$331,560,000 (2000: HK\$369,056,000), a loss of HK\$180,600,000 (2000: HK\$320,553,000) has been dealt with in the financial statements of the Company.

16. LOSS PER SHARE

The calculation of the loss per share is based on the loss for the year of HK\$331,560,000 (2000: HK\$369,056,000) and on the weighted average number of 19,713,631,608 shares (2000: 8,882,372,349 shares) in issue during the year. The weighted average number of shares in issue used in the basic loss per share calculation for the period ended 31 December 2000 has been adjusted to reflect the effect of the rights issue and share consolidation during that period.

No diluted loss per share is presented for the year ended 31 December 2001 and period ended 31 December 2000 as exercise of the Company's outstanding share options and conversion of the Company's outstanding convertible notes has an anti-dilutive effect.

21. INTERESTS IN ASSOCIATES (Continued)

Notes:

- (i) The audited financial statements of a major associate holding certain interest in a property project in the PRC are not available. Accordingly, its operating results, assets and liabilities have not been shown. The Group's interest in this associate amounted to approximately HK\$22 million (2000: HK\$46 million) at the balance sheet date.
- (ii) During the year, the Group has agreed with a lender whereby certain properties to be distributed by an associate to the Group for repayment of its shareholder's loan made to the associate will be assigned to the lender for settlement of part of the loan granted to the Group at a total agreed amount of approximately HK\$21 million ("Agreed Amount"). The Group will compensate the lender if the total net proceeds received from sales of the properties (after deduction of half of the excess of sale proceeds over respective agreed amounts of the properties payable to the Group) is less than the Agreed Amount. At the balance sheet date, the transfer of the titles of ownership of the properties to the Group is in progress.
- (iii) The goodwill and related amortisation and impairment losses have been eliminated upon disposal of the relevant associates.

27. TRADE AND OTHER PAYABLES

- (a) The trade and other payables include trade payables of HK\$6,394,000 (2000: HK\$8,363,000), all of which are current.
- (b) Included in trade and other payables as at 31 December 2000 was a sale deposit of HK\$33,000,000 received by the Group pursuant to an agreement dated 4 August 2000 for the disposal of its entire equity interest and shareholder's loan in a wholly-owned subsidiary principally engaging in property investment. The disposal had not been completed on the scheduled completion date of 5 February 2001. The directors consider that the noncompletion of the disposal was a breach of the agreement by the purchaser. Accordingly, the sale deposit has been forfeited and recognised as income during the year.

Notes:

(i) On 5 July 2001, the Company issued convertible notes (the "Notes") with a total principal amount of HK\$75,600,000 to certain third parties. The Notes, which will mature three years from the date of issue, bear interest at 7.5% per annum and can be converted into shares of the Company in the amounts or integral multiples of HK\$168,000 at any time from the date of issue of the Notes up to 14 days before (and excluding) the maturity date. The conversion price, subject to adjustment, is as follows:

Conversion price	Period
HK\$0.01	5 July 2001 to 4 July 2002
HK\$0.012	5 July 2002 to 4 July 2003
HK\$0.014	5 July 2003 to 21 June 2004

The Company may redeem in whole or in part the Notes in denominations of HK\$168,000 at 105% of the outstanding principal amount of the Notes from the date of issue of the Notes until a date 14 days prior to (and excluding) the maturity date together with all accrued interest thereon. No Notes were redeemed by the Company during the year.

During the year, Notes with an aggregate principal amount of HK\$11,760,000 were converted into 1,176,000,000 shares of HK\$0.01 each of the Company at a conversion price of HK\$0.01 each.

(ii) On 23 October 2000, the Group issued, through a non wholly-owned subsidiary, a convertible note (the "Note") with a principal sum of HK\$53,000,000. The Note is guaranteed by the Company and bears interest at 7.5% per annum. The noteholder has the right, at any time from the date of issue up to the first anniversary date of issue of the Note, to convert the whole or any part of the principal amount of the Note (in amounts not less than HK\$5,000,000) into equity shares of the subsidiary with a nominal value of HK\$0.01 each at an initial conversion price, subject to adjustment in certain events, of HK\$0.8 per share.

Unless previously purchased and cancelled, redeemed or converted, the principal sum of the Note is due for redemption on the first anniversary date of issue of the Note. No conversion right was exercised during the year.

The aforesaid subsidiary has been reclassified as an associate and disposed of during the year.

Other loans bear interest at prevailing market rates.

The repayment of a bank loan of HK\$78,892,000 has been rescheduled and agreed by a bank subsequent to the balance sheet date. Accordingly, the above repayment schedule as at 31 December 2001 is presented based on the revised repayment schedule of the bank loan.

* Included in HK\$356,795,000 as at 31 December 2001 were instalment amounts of HK\$16,415,000 which were originally not due for repayment within one year. As event of default had arisen under the loan agreement, the loan had become repayable on demand and the relevant loan had been classified as a current liability. The Group is negotiating with the bank for rescheduling the repayment schedule.

Notes:

- (i) In May 2000, the Company issued 31,190,215,408 rights shares of HK\$0.02 each at a subscription price of HK\$0.02 per rights share in the proportion of two rights shares for every one existing share then held by qualifying shareholders. The net proceeds were applied for repaying indebtedness, investing in internet and internet related business, making further investments and for working capital.
- (ii) In June 2000, the Company adjusted the nominal value of all the ordinary shares of HK\$0.02 each in the Company by reducing the nominal value of all of the issued shares from HK\$0.02 each to HK\$0.01 each by cancelling HK\$0.01 of the paid up capital of each issued share by way of a reduction of share capital amounting to HK\$467,853,000 in accordance with Section 46 of the Companies Act 1981 of Bermuda and by subdividing every unissued shares from HK\$0.02 each into two unissued shares of HK\$0.01 each. As a result, the authorised share capital of the Company was changed from 100,000,000,000,000 shares of HK\$0.02 each into 200,000,000,000,000 shares of HK\$0.01 each.
- (iii) In August 2000, the nominal value of all the issued shares was further reduced from HK\$0.01 each to HK\$0.002 each by cancelling HK\$0.008 of the paid up capital of each issued share by way of a reduction of share capital amounting to HK\$374,283,000 in accordance with Section 46 of the Companies Act 1981 of Bermuda and every five adjusted issued and unissued shares of HK\$0.002 each were consolidated into one consolidated share of HK\$0.01 each.

31. SHARE CAPITAL (Continued)

(iv) During the year ended 31 December 2001, the Company made the following share placements to private and institutional investors at the following subscription prices for ordinary shares of HK\$0.01 each in the Company.

The special reserve represents the difference between the nominal value of the shares of the acquired subsidiaries and the nominal value of the Company's share issued for the acquisition at the time of the group reorganisation prior to the listing of the Company's shares in 1989.

The contributed surplus to the extent of HK\$391,148,000 represents the difference between the consolidated net assets of the subsidiaries at the date on which they were acquired by the Company and the nominal amount of the Company's shares issued for the acquisition at the time of the group reorganisation prior to the listing of the Company's shares in 1989. The remaining balance of HK\$842,136,000 is transferred from share capital pursuant to the capital reduction made during the period ended 31 December 2000.

Under the Companies Act 1981 of Bermuda (as amended), the contributed surplus account of the Company is available for distribution. However, the Company cannot declare or pay a dividend, or make a distribution out of the contributed surplus if:

- (a) it is, or would after the payment be, unable to pay its liabilities as they become due; or
- (b) the realisable value of its assets would thereby be less than the aggregate of its liabilities and its issued share capital and share premium accounts.

At the balance sheet date, the Company has no reserves available for distribution to the shareholders.

40. UNPROVIDED DEFERRED TAXATION(Continued)

A deferred tax asset in respect of tax losses available to set off future taxable profits has not been recognised in the financial statements as it is uncertain whether the tax benefit will be crystallised in the foreseeable future.

Deferred tax has not been provided in respect of the revaluation deficit arising on the revaluation of investment properties and other securities as losses arising on the disposal of these assets would not be subject to taxation. Accordingly, the revaluation does not constitute a timing difference for tax purposes.

41. RELATED PARTY TRANSACTIONS

During the year, the Group entered into the following transactions with related parties:

- (a) A property of the Group with net book value of HK\$18,794,000 (31/12/2000: HK\$24,720,000) is occupied by the brother of a director of the Company rent free. The director's brother is a director of certain non-wholly owned subsidiaries of the Company.
- (b) The Group has granted unsecured loans to two executive directors of the Company as follows:

vinual Report 2001 31 December 2001

41. RELATED PARTY TRANSACTIONS (Continued)

- (d) The banking facilities of a non wholly-owned subsidiary to the extent of HK\$40,000,000 were guaranteed by a director of certain non wholly-owned subsidiaries.
- (e) The Group has obtained a short term loan of HK\$80,000,000 from a subsidiary of minority shareholder. The loan was unsecured and carried interest at 9% per annum. The interest paid on the loan amounted to HK\$2,037,000 in respect of the year.
- (f) The Group has granted securities margin loans to a substantial shareholder and certain directors of the Company. At the balance sheet date, the loans amounted to HK\$26,811,000 and HK\$2,077,000 respectively which carried interest at prime rate plus 3% per annum.

42. POST BALANCE SHEET EVENT

In February 2002, a non wholly-owned subsidiary, HMI, subscribed for 289,990,000 shares in Radford Capital Investment Limited at a total consideration of HK\$52,198,200 pursuant to a subscription agreement. After the subscription, HMI holds 29% interest in Radford Capital Investment Limited whose shares are listed on The Stock Exchange of Hong Kong Limited.

43. ADOPTION OF STATEMENTS OF STANDARD ACCOUNTING PRACTICE

In the current year, the Group has adopted, for the first time, the following SSAPs:

SSAP 9	(Revised in January 2001)	Events after the balance sheet date
SSAP 10	(Revised in May 2001)	Accounting for investments in associates
SSAP 14	(Revised in February 2000)	Leases
SSAP 17	(Revised in April 2001)	Property, plant and equipment
SSAP 26	(Issued in February 2000	Segment reporting
	and revised in August 2001)
SSAP 28	(Issued in January 2001)	Provisions, contingent liabilities and contingent assets
SSAP 29	(Issued in January 2001)	Intangible assets
SSAP 30	(Issued in June 2001)	Business combination
SSAP 31	(Issued in January 2001)	Impairment of assets
SSAP 32	(Issued in January 2001)	Consolidated financial statements and
		accounting for investments in subsidiaries

Adoption of these standards has resulted in a number of changes in the Group's accounting policies which has led to some changes in the detailed application of the Group's accounting policies and some modifications to financial statement presentation. Comparative amounts for prior period have been restated in order to achieve a consistent presentation.

In particular, the adoption of these standards has resulted in the following changes to the Group's accounting policies.

43. ADOPTION OF STATEMENTS OF STANDARD ACCOUNTING PRACTICE (Continued)

(a) Goodwill

In prior periods, negative goodwill arising on acquisition of subsidiaries and associates was credited to reserves and included in carrying value of associates respectively in the year in which it arose. Effective 1 January 2001, the Group adopted the transitional provisions prescribed in SSAP 30 "Business Combination". All negative goodwill arising from acquisitions prior to 1 January 2001 continues to be accounted for in the above manner and will be credited to income at the time of disposal of the relevant subsidiary or associate.

Negative goodwill arising on acquisition of subsidiaries and associates after 1 January 2001 is presented as deduction from intangible assets and included in the carrying value of associates respectively and will be released to income based on an analysis of the circumstances from which the balance resulted.

Goodwill on acquisitions of subsidiaries at 31 December 2000 has been reclassified to be included in intangible assets to conform with the current year's presentation.

(b) Intangible assets

In prior periods, the Group's trading rights in The Stock Exchange of Hong Kong Limited included in other long term assets were stated at cost less provision for permanent diminution in value. Effective 1 January 2001, the Group adopted SSAP 29 "Intangible Assets". The trading rights are stated at cost less amortisation. Amortisation is calculated on the straight line basis to write off the cost of the trading rights over a period of ten years. This change in accounting policy has not been applied retrospectively as the financial effect on prior periods is immaterial. Accordingly, the trading rights are amortised over the remaining useful life of 111 months commencing from 1 January 2001.

The trading rights at 31 December 2000 had been reclassified to be included in intangible assets to conform with the current year's presentation.

(c) Impairment of assets

Effective 1 January 2001, the Group adopted SSAP 31 "Impairment of assets" which has introduced a formal framework for the recognition of impairment losses in respect of the Group's assets other than financial assets and investment properties. Although in prior years the Group complied with the requirements of specific Accounting Standards in respect of impairment losses, the introduction of SSAP 31 has required a re-estimation of the recoverable amounts of certain intangible assets, property, plant and equipment and interests in associates, resulting in the identification of impairment losses of property, plant and equipment and goodwill amounting to HK\$115,000,000 and HK\$4,783,000 respectively as at 31 December 2001. These impairment losses have been recognised in full in the current year.

43. ADOPTION OF STATEMENTS OF STANDARD ACCOUNTING PRACTICE (Continued)

(d) Segment reporting

Effective 1 January 2001, the Group adopted SSAP 26 "Segment Reporting" which has established principles for reporting the segmental analysis of financial information. The adoption of this standard has resulted in the following changes in the basis for allocation of expenses to segments.

Operating expenses paid or payable to other segments resulting from the operating activities of a segment that are directly attributable to the segment are included as expenses of the segment. Corporate expenses previously included in the business segment of investment holding are reclassified as unallocated expenses. Finance cost, which is attributable to the business segment of provision of financial services, is included as expense of the segment.

The comparative figures of the income statement and segmental information for the nine months ended 31 December 2000 have been restated to conform with the current year's presentation.

44. APPROVAL OF FINANCIAL STATEMENTS

The financial statements were approved and authorised for issue by the Board of Directors on 11 April 2002.
