# Notes to Financial Statements

31 December 2001

#### 1. CORPORATE INFORMATION

During the year, the Group was involved in the following principal activities:

- travel and travel-related operations
- hotel operations
- tourist attraction operations
- passenger transportation services
- golf club operations
- freight forwarding and transportation services
- power generation (conducted through a jointly controlled entity)
- investment holding
- treasury operations

In the opinion of the directors, the ultimate holding company is China Travel Service (Holdings) Hong Kong Limited ("CTS (Holdings)"), which is incorporated in Hong Kong.

# 2. IMPACT OF NEW AND REVISED STATEMENTS OF STANDARD ACCOUNTING PRACTICE ("SSAPs")

The following recently issued and revised SSAPs and related Interpretations are effective for the first time for the current year's financial statements:

SSAP 9 (revised) : "Events after the balance sheet date"

SSAP 14 (revised) : "Leases"SSAP 18 (revised) : "Revenue"

SSAP 26 : "Segment reporting"

SSAP 28 : "Provisions, contingent liabilities and contingent assets"

SSAP 29 : "Intangible assets"SSAP 30 : "Business combinations"

• SSAP 31 : "Impairment of assets"

• SSAP 32 : "Consolidated financial statements and accounting for investments

in subsidiaries"

• Interpretation 12 : "Business combinations - subsequent adjustment of fair values and

goodwill initially reported"

• Interpretation 13 : "Goodwill - continuing requirements for goodwill and negative

goodwill previously eliminated against/credited to reserves"

These SSAPs prescribe new accounting measurement and disclosure practices. The major effects on the Group's accounting policies and on the amounts disclosed in these financial statements of adopting these SSAPs and Interpretations are summarised as follows:

# 2. IMPACT OF NEW AND REVISED STATEMENTS OF STANDARD ACCOUNTING PRACTICE ("SSAPs") (continued)

SSAP 9 (revised) prescribes which type of events occurring after the balance sheet date require adjustment to the financial statements, and which require disclosure, but not adjustment. Its principal impact on these financial statements is that the proposed final dividend which is not declared and approved until after the balance sheet date, is no longer recognised as a liability at the balance sheet date, but is disclosed as an allocation of retained profits on a separate line within the capital and reserves section of the balance sheets. The prior year adjustment arising from the adoption of this new SSAP is detailed in note 12 to the financial statements.

SSAP 14 (revised) prescribes the basis for lessor and lessee accounting for finance and operating leases, and the required disclosures in respect thereof. Certain amendments have been made to the previous accounting measurement treatments, which may be accounted for retrospectively or prospectively, in accordance with the requirements of the SSAP. The revised SSAP requirements have not had a material effect on the amounts previously recorded in the financial statements, therefore no prior year adjustment has been required. The disclosure changes under this SSAP have resulted in changes to the detailed information disclosed for finance leases and operating leases, which are further detailed in notes 31 and 38 to the financial statements.

SSAP 18 (revised) prescribes the recognition of revenue and was revised as a consequence of the revision to SSAP 9 described above. Proposed final dividends from subsidiaries that are declared and approved by the subsidiaries after the balance sheet date are no longer recognised in the Company's own financial statements for the year. The adoption of the SSAP has resulted in a prior year adjustment, further details of which are included in notes 11, 17 and 34 to the financial statements.

SSAP 26 prescribes the principles to be applied for reporting financial information by segment. It requires that management assesses whether the Group's predominant risks or returns are based on business segments or geographical segments and determines one of these bases to be the primary segment information reporting format, with the other as the secondary segment information reporting format. The impact of this SSAP is the inclusion of significant additional segment reporting disclosures which are set out in note 4 to the financial statements.

SSAP 28 prescribes the recognition criteria and measurement bases to apply to provisions, contingent liabilities and contingent assets, together with the required disclosures in respect thereof. The adoption of this SSAP has had no significant impact on the preparation of these financial statements.

SSAP 29 prescribes the recognition and measurement criteria of intangible assets, together with the disclosure requirements. The adoption of this SSAP has had no significant impact on the preparation of these financial statements.

# 2. IMPACT OF NEW AND REVISED STATEMENTS OF STANDARD ACCOUNTING PRACTICE ("SSAPs") (continued)

SSAP 30 prescribes the accounting treatment for business combinations, including the determination of the date of acquisition, the method for determining the fair values of the assets and liabilities acquired, and the treatment of goodwill or negative goodwill arising on acquisition. The SSAP requires the disclosure of goodwill and negative goodwill in the non-current assets section of the consolidated balance sheet. It requires that goodwill is amortised to the consolidated profit and loss account over its estimated useful life. Negative goodwill is recognised in the consolidated profit and loss account depending on the circumstances from which it arose, as further described in the accounting policy for negative goodwill disclosed in note 3 to the financial statements. Interpretation 13 prescribes the application of SSAP 30 to goodwill arising from acquisitions in previous years which remains eliminated against consolidated reserves. The adoption of the SSAP and Interpretation has not resulted in a prior year adjustment, for the reasons detailed in note 16 to the financial statements. The required new additional disclosures are included in notes 16, 18, 19 and 34 to the financial statements.

SSAP 31 prescribes the recognition and measurement criteria for the impairments of assets. The SSAP is required to be applied prospectively and therefore, has had no effect on amounts previously reported in prior year financial statements.

SSAP 32 prescribes the accounting treatment and disclosures for the preparation and presentation of consolidated financial statements, and has had no significant impact on the preparation of these financial statements.

#### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

# Basis of preparation

These financial statements have been prepared in accordance with SSAPs, accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for the periodic remeasurement of hotel properties, investment properties and certain equity investments, as further explained below.

## Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries for the year ended 31 December 2001. The results of subsidiaries acquired or disposed of during the year are consolidated from or to their effective dates of acquisition or disposal, respectively. All significant intercompany transactions and balances within the Group are eliminated on consolidation.

#### Subsidiaries

Subsidiaries are companies, other than jointly controlled entities or associates, in which the Company, directly or indirectly, controls more than half of their voting power or issued share capital or controls the composition of their boards of directors. The Company's interests in subsidiaries are stated at cost, less any impairment losses.

#### Joint venture companies

A joint venture company is a company set up by contractual arrangement, whereby the Group and other parties undertake an economic activity. The joint venture company operates as a separate entity in which the Group and the other parties have an interest.

The joint venture agreements between the venturers stipulate the capital contributions of the joint venture parties, the duration of the joint venture and the basis on which the assets are to be realised upon its dissolution. The profits and losses from the joint venture company's operations and any distributions of surplus assets are shared by the venturers, either in proportion to their respective capital contributions, or in accordance with the terms of the joint venture agreement.

A joint venture company is treated as:

- (i) a subsidiary, if the Group has unilateral control over the joint venture company;
- (ii) a jointly controlled entity, if the Group does not have unilateral control, but has joint control over the joint venture company;
- (iii) an associate, if the Group does not have unilateral or joint control, but holds generally not less than 20% of the joint venture company's registered capital and is in a position to exercise significant influence over the joint venture company; or
- (iv) a long term investment, if the Group holds less than 20% of the joint venture company's registered capital and has neither joint control of, nor is in a position to exercise significant influence over, the joint venture company.

## Jointly controlled entities

A jointly controlled entity is a joint venture company which is subject to joint control, resulting in none of the participating parties having unilateral control over the economic activity of the jointly controlled entity, operates in the same way as other enterprises, except that a contractual arrangement between the venturers establishes joint control over the economic activity of the entity.

#### Jointly controlled entities (continued)

The Group's share of the post-acquisition results and reserves of jointly controlled entities is included in the consolidated profit and loss account and consolidated reserves, respectively. The Group's interests in jointly controlled entities are stated in the consolidated balance sheet at the Group's share of net assets under the equity method of accounting, less any impairment losses.

#### Associates

An associate is a company, not being a subsidiary or a jointly controlled entity, in which the Group has a long term interest of generally not less than 20% of the equity voting rights and over which it is in a position to exercise significant influence.

The Group's share of the post-acquisition results and reserves of associates is included in the consolidated profit and loss account and consolidated reserves, respectively. The Group's interests in associates are stated in the consolidated balance sheet at the Group's share of net assets under the equity method of accounting, less any impairment losses.

The results of associates are included in the Company's profit and loss account to the extent of dividends received and receivable. The Company's investments in associates are treated as long term assets and are stated at cost less any impairment losses.

#### Goodwill

Goodwill arising on the acquisition of subsidiaries, associates, jointly controlled entities and business segments represents the excess of the cost of the acquisition over the Group's share of the fair values of the identifiable assets and liabilities acquired as at the date of acquisition.

Goodwill arising on acquisition is recognised in the consolidated balance sheet as an asset and amortised on the straight-line basis over its estimated useful life of 20 to 47 years. The useful life of 47 years is estimated on the basis that China Travel Service (Hong Kong) Limited, a wholly-owned subsidiary of the Group acquired in 2001, has been appointed by CTS Holdings as its exclusive agent up to the year 2047 to carry out the general administrative services provided in Hong Kong for the application of tourist visas and travel permits for entry into the mainland of the People's Republic of China (the "PRC"). CTS Holdings has been appointed by the PRC Government to provide general administration services in Hong Kong for application of tourist visas and travel permits into the PRC. The carrying amount of this goodwill is reviewed annually and written down for impairment when it is considered necessary. In the case of associates and jointly controlled entities, any unamortised goodwill is included in the carrying amount thereof, rather than as a separately identified asset on the consolidated balance sheet.

#### Goodwill (continued)

In prior years, goodwill arising on acquisitions was eliminated against consolidated reserves in the year of acquisition. The Group has adopted the transitional provision of SSAP 30 that permits goodwill on acquisitions which occurred prior to 1 January 2001, to remain eliminated against consolidated reserves. Goodwill on subsequent acquisitions is treated according to the new accounting policy above.

On disposal of subsidiaries, associates, jointly controlled entities and business segments, the gain or loss on disposal is calculated by reference to the net assets at the date of disposal, including the attributable amount of goodwill which remains unamortised and any relevant consolidated reserves, as appropriate. Any attributable goodwill previously eliminated against consolidated reserves at the time of acquisition is written back and included in the calculation of the gain or loss on disposal.

The carrying amount of goodwill, including goodwill remaining eliminated against consolidated reserves, is reviewed annually and written down for impairment when it is considered necessary. A previously recognised impairment loss for goodwill is not reversed unless the impairment loss was caused by a specific external event of an exceptional nature that was not expected to recur, and subsequent external events have occurred which have reversed the effect of that event.

### Negative goodwill

Negative goodwill arising on the acquisition of subsidiaries, associates, jointly controlled entities and business segments represents the excess of the Group's share of the fair values of the identifiable assets and liabilities acquired as at the date of acquisition, over the cost of the acquisition.

To the extent that negative goodwill relates to expectations of future losses and expenses that are identified in the acquisition plan and that can be measured reliably, but which do not represent identifiable liabilities as at the date of acquisition, that portion of negative goodwill is recognised as income in the consolidated profit and loss account when the future losses and expenses are recognised.

To the extent that negative goodwill does not relate to identifiable expected future losses and expenses as at the date of acquisition, negative goodwill is recognised in the consolidated profit and loss account on a systematic basis over the remaining average useful life of the acquired depreciable/amortisable assets of 49 years. The amount of any negative goodwill in excess of the fair values of the acquired non-monetary assets is recognised as income immediately.

In the case of associates and jointly controlled entities, any negative goodwill not yet recognised in the consolidated profit and loss account is included in the carrying amount thereof, rather than as a separately identified item on the consolidated balance sheet.

#### Negative goodwill (continued)

In prior years, negative goodwill arising on acquisitions was credited to the capital reserve in the year of acquisition. The Group has adopted the transitional provision of SSAP 30 that permits negative goodwill on acquisitions which occurred prior to 1 January 2001 to remain credited to the capital reserve. Negative goodwill on subsequent acquisitions is treated according to the new accounting policy above.

On disposal of subsidiaries, associates, jointly controlled entities and business segments, the gain or loss on disposal is calculated by reference to the net assets at the date of disposal, including the attributable amount of negative goodwill which has not been recognised in the consolidated profit and loss account and any relevant reserves as appropriate. Any attributable negative goodwill previously credited to the capital reserve at the time of acquisition is written back and included in the calculation of the gain or loss on disposal.

#### Impairment of assets

An assessment is made at each balance sheet date of whether there is any indication of impairment of any asset, or whether there is any indication that an impairment loss previously recognised for an asset in prior years may no longer exist or may have decreased. If any such indication exists, the asset's recoverable amount is estimated. An asset's recoverable amount is calculated as the higher of the asset's value in use or its net selling price.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. An impairment loss is charged to the profit and loss account in the period in which it arises, unless the asset is carried at a revalued amount, when the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the recoverable amount of an asset, however not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation), had no impairment loss been recognised for the asset in prior years.

A reversal of an impairment loss is credited to the profit and loss account for the period in which it arises, unless the asset is carried at a revalued amount, when the reversal of the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

# Fixed assets and depreciation

Fixed assets, other than investment properties and hotel properties, are stated at cost less accumulated depreciation and any impairment losses. The cost of an asset comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditure incurred after the fixed assets have been put into operation, such as repairs and maintenance, is normally charged to the profit and loss account in the period in which it is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of the fixed asset, the expenditure is capitalised as an additional cost of that asset.

Depreciation is calculated on the straight-line basis to write off the cost of each asset over its estimated useful life, after taking into account its estimated residual value, if any. The principal annual rates used for this purpose are as follows:

Leasehold land Over the lease terms

Buildings 2.5% to 4.5% Scenic spots establishment 3.6% to 19%

Other fixed assets:

Carpet, cutlery and crockery, linen and uniforms Replacement basis

Leasehold improvements20%Furniture, fixtures and equipment9% to 30%Motor vehicles18% to 20%

Land use rights are stated at cost less accumulated amortisation. The cost of land use rights is amortised on the straight-line basis over the term of the lease or the tenure of the relevant joint venture to which the land use rights were granted, whichever is shorter, save for the land use right on a piece of land in the PRC as further detailed in note 14 to the financial statements.

The gain or loss on disposal or retirement of a fixed asset recognised in the profit and loss account is the difference between the net proceeds on disposal and the carrying amount of the relevant asset.

#### Investment properties

Investment properties are interests in land and/or buildings in respect of which construction work and development have been completed and which are intended to be held on a long term basis for their investment potential, any rental income being negotiated at arm's length. Such properties are not depreciated, except where the unexpired term of the lease is 20 years or less, in which case depreciation is provided on the carrying amount over the remaining term of the lease, and are stated at their open market values on the basis of annual professional valuations performed at the end of each financial year. Changes in the values of investment properties are dealt with as movements in the investment property revaluation reserve. If the total of this reserve is insufficient to cover a deficit, on a portfolio basis, the excess of the deficit is charged to the profit and loss account. Any subsequent revaluation surplus is credited to the profit and loss account to the extent of the deficit previously charged.

On disposal of an investment property, the relevant portion of the investment property revaluation reserve realised in respect of previous valuations is released to the profit and loss account.

#### Hotel properties

Hotel properties are stated at their open market values, based on their existing use, on the basis of annual professional valuations. Movements in the values of the hotel properties are dealt with in the hotel property revaluation reserve, on an individual basis, unless the reserve is exhausted, in which case the decrease is charged to the profit and loss account as incurred. Any surplus arising on revaluation of hotel properties is credited to the hotel property revaluation reserve, except to the extent that it reverses a revaluation deficit of the same hotel property previously recognised as an expense, in which case this surplus is first credited to the profit and loss account to the extent of the deficit previously charged.

It is the Group's policy to maintain the hotel properties in such condition that their residual values are not currently diminished by the passage of time. The related repairs and maintenance expenditure is charged to the profit and loss account in the year in which it is incurred. The costs of significant improvements are capitalised. Accordingly, the directors consider that depreciation is not necessary for the hotel properties. Depreciation is, however, provided on other hotel assets at the rates stated in the accounting policy for fixed assets and depreciation above.

Upon the disposal of a hotel property, the relevant portion of the hotel property revaluation reserve realised in respect of previous valuations is transferred to retained profits as a movement in reserves.

#### Properties under development

Properties under development are carried at cost less any impairment losses, and is not depreciated. Cost includes all construction expenditure, capitalised borrowing costs on related borrowed funds during the period of construction and other direct costs attributable to the construction of such properties. Properties under development are reclassified to the appropriate category of fixed assets when completed and ready for use.

#### Property held for sale

Property held for sale is stated at the lower of cost and net realisable value. Cost comprises all costs of acquisition of land, construction costs, other direct costs and borrowing costs capitalised on such property until it reaches a marketable state. Net realisable value represents the estimated selling prices less any estimated costs to be incurred to completion and disposal.

#### Leased assets

Leases that transfer substantially all the rewards and risks of ownership of assets to the Group, other than legal title, are accounted for as finance leases. At the inception of a finance lease, the cost of the leased asset is capitalised at the present value of the minimum lease payments and recorded together with the obligation, excluding the interest element, to reflect the purchase and financing. Assets held under capitalised finance leases are included in fixed assets and depreciated over the shorter of the lease terms and the estimated useful lives of the assets. The finance costs of such leases are charged to the profit and loss account so as to provide a constant periodic rate of charge over the lease terms.

Assets acquired through hire purchase contracts of a financing nature are accounted for as finance leases, but are depreciated over their estimated useful lives.

Leases where substantially all the rewards and risks of ownership of assets remain with the lessor are accounted for as operating leases. Where the Group is the lessor, assets leased by the Group under operating leases are included in non-current assets and rentals receivable under the operating leases are credited to the profit and loss account on the straight-line basis over the lease terms. Where the Group is the lessee, rentals payable under the operating leases are charged to the profit and loss account on the straight-line basis over the lease terms.

#### Long term investments

Long term investments are non-trading investments in unlisted equity securities and debt investments intended to be held on a long term basis.

Unlisted securities are stated at their estimated fair values, on an individual basis. The estimated fair values of unlisted investments are determined by the directors with reference to the fair values of the underlying assets and liabilities of each investment.

#### Long term investments (continued)

The gains or losses arising from changes in the fair values of a security are dealt with as movements in the long term investment revaluation reserve, until the security is sold, collected, or otherwise disposed of, or until the security is determined to be impaired, when the cumulative gain or loss derived from the security recognised in the long term investment revaluation reserve, together with the amount of any further impairment, is charged to the profit and loss account for the period in which the impairment arises. Where the circumstances and events which led to an impairment ceases to exist and there is persuasive evidence that the new circumstance and events will persist for the foreseeable future, the amount of the impairment previously charged and any appreciation in fair value is credited to the profit and loss account to the extent of the amount previously charged.

#### Short term investments

Short term investments are investments in equity securities held for trading purposes and are stated at their fair values on the basis of their quoted market prices at the balance sheet date, on an individual investment basis. The gains or losses arising from changes in the fair value of a security are credited or charged to the profit and loss account in the period in which they arise.

#### Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the first-in, first-out or weighted average basis, where appropriate. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to disposal.

The cost of inventories are capitalised into plant and machinery when they are used for replacements or for the improvement of plant and machinery, or are charged to the profit and loss account when they are used for daily operations.

#### Deferred tax

Deferred tax is provided, using the liability method, on all significant timing differences to the extent it is probable that the liability will crystallise in the foreseeable future. A deferred tax asset is not recognised until its realisation is assured beyond reasonable doubt.

#### Foreign currencies

Foreign currency transactions are recorded at the applicable rates of exchange ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated at the applicable rates of exchange ruling at that date. Exchange differences are dealt with in the profit and loss account.

On consolidation, the financial statements of overseas subsidiaries, jointly controlled entities and associates are translated into Hong Kong dollars at the applicable rates of exchange ruling at the balance sheet date. The resulting translation differences are included in the exchange fluctuation reserve.

#### Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e. assets that necessarily take a substantial period of time to get ready for their intended use, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalised. The capitalisation rate for the year is based on the actual cost of the related borrowings.

Direct expenses incurred in respect of the arrangement of borrowing long term bank loans are deferred and amortised over the terms of the relevant bank loans on the straight-line basis.

All other borrowing costs are recognised as expenses in the period in which they are incurred.

#### Retirement benefits scheme

The Group operates a defined contribution Mandatory Provident Fund retirement benefits scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance, for those employees who are eligible to participate in the MPF Scheme. The MPF Scheme has operated since 1 December 2000. Contributions are made based on a percentage of the employees' basic salaries and are charged to the profit and loss account as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group's employer contributions vest fully with the employees when contributed into the MPF Scheme.

Prior to the MPF Scheme becoming effective, the Group operated a defined contribution retirement benefits scheme (the "Prior Scheme") for those employees who were eligible to participate in this scheme. The Prior Scheme operated in a similar way to the MPF Scheme, except that when an employee left the Prior Scheme before his/her interest in the Group's employer contributions vested fully, the ongoing contributions payable by the Group were reduced by the relevant amount of the forfeited employer's contributions. The Prior Scheme is still operating after 1 December 2000.

The employees of the Group's subsidiaries which operate in the PRC are required to participate in a central pension scheme operated by the local municipal government. These PRC subsidiaries are required to contribute a percentage of their payroll costs to the central pension scheme.

#### **Provisions**

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

#### **Provisions** (continued)

When the effect of discounting is material, the amount recognised for a provision is the present value at the balance sheet date of the future expenditure expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the profit and loss account.

#### Revenue recognition

Revenue is recognised when it is probable that the economic benefits will flow to the Group and when the revenue can be measured reliably, on the following bases:

- (a) from the sale of goods, when the significant risks and rewards of ownership have been transferred to the buyer, provided that the Group maintains neither managerial involvement to the degree usually associated with ownership, nor effective control over the goods sold;
- (b) from the rendering of freight forwarding, passenger transportation services, travel-related services and hotel services, when the services are rendered;
- (c) from the rendering of tour services, based on the date of tour departure;
- (d) income related to scenic spots, when the admission tickets are sold;
- (e) income from the sale of golf club memberships, on a time proportion basis over the membership period;
- (f) from the sale of listed investments, on a trade date basis;
- (g) rental income, on a time proportion basis over the lease terms;
- (h) interest income, on a time proportion basis taking into account the principal outstanding and the effective interest rate applicable; and
- (i) dividends, when the shareholders' right to receive payment has been established.

#### Deferred income

Deferred income represents the proceeds received and receivable on the sale of memberships in the Group's golf club. Such income is deferred and amortised into the profit and loss account over the tenure of the relevant membership periods on the straight-line basis.

#### Related parties

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence. Related parties may be individuals or corporate entities.

#### Cash equivalents

For the purpose of the consolidated cash flow statement, cash equivalents represent short term highly liquid investments which are readily convertible into known amounts of cash and which were within three months of maturity when acquired, less advances from banks repayable within three months from the date of the advance. For the purpose of balance sheet classification, cash equivalents represent assets similar in nature to cash which are not restricted as to use.

#### **Dividends**

Final dividends proposed by the directors are classified as a separate allocation of retained earnings within capital and reserves in the balance sheet, until they have been approved by the shareholders in a general meeting. When these dividends have been approved by the shareholders and declared, they are recognised as a liability.

Interim dividends are simultaneously proposed and declared, because the Company's articles of association grant the directors the authority to declare interim dividends. Consequently, interim dividends are recognised immediately as a liability when they are proposed and declared.

In previous years, the Company recognised its proposed final and other dividends to shareholders, which were declared and approved after the balance sheet date, as a liability in its balance sheet. The Company also recognised the proposed final dividends of subsidiaries, which were declared and approved after the balance sheet date, as income in its profit and loss account for the year. The revised accounting treatments for dividends resulting from the adoption of SSAP 9 (revised) and SSAP 18 (revised), have given rise to prior year adjustments in both the Group's and the Company's financial statements, further details of which are included in notes 11, 12 and 34 to the financial statements.

#### 4. SEGMENT INFORMATION

SSAP 26 was adopted during the year, as detailed in note 2 to the financial statements. Segment information is presented by way of two segment formats: (i) on a primary segment reporting basis, by business segment; and (ii) on a secondary segment reporting basis, by geographical segment.

The Group's operating businesses are structured and managed separately, according to the nature of their operations and the products and services they provide. Each of the Group's business segments represents a strategic business unit that offers products and services which are subject to risks and returns that are different from those of other business segments. Summary details of the business segments are as follows:

- (a) the passenger transportation segment engages in the provision of land transportation services to individuals between Hong Kong and the PRC;
- (b) the tourist attraction operations segment is the operation of theme parks in Shenzhen;
- (c) the freight forwarding segment engages in the provision of export, re-export freight and logistic services between Hong Kong and the PRC; and sea and freight forwarding to overseas;
- (d) the hotel operations segment engages in the provision of hotel accommodation services in Hong Kong and Macau;
- (e) the travel and travel-related operations segment engages in the provision of tour and travel-related services in Hong Kong, the PRC, South East Asia, the United States of America and other countries in the European Union;
- (f) the golf club operations segment is to provide comprehensive facilities to individual or corporate members of the golf club in Shenzhen; and
- (g) the corporate and other segment comprises the Group's management services business, which provides management services to Group companies together with corporate income and expense items.

In determining the Group's geographical segments, revenues and results are attributed to the segments based on the location of the Group's production and service facilities, and assets are attributed to the segments based on the location of the assets.

Intersegment sales and transfers are transacted with reference to the selling prices used for sales made to third parties at the then prevailing market prices.

Hong Kong profits tax has been provided at the rate of 16% (2000: 16%) on the estimated assessable profits arising in Hong Kong during the year. Taxes on profits assessable elsewhere have been calculated at the rates of tax prevailing in the countries in which the Group operates, based on existing legislation, interpretations and practices in respect thereof.

### 11. NET PROFIT FROM ORDINARY ACTIVITIES ATTRIBUTABLE TO SHAREHOLDERS

The net profit from ordinary activities for the year ended 31 December 2001 dealt with in the financial statements of the Company is HK\$541,047,000 (2000: loss (as restated) of HK\$322,897,000).

The Group's share of aggregate profits less losses retained by its jointly controlled entities and associates for the year amounted to a profit of HK\$232,928,000 (2000: loss of HK\$3,111,000) and a profit of HK\$28,212,000 (2000: loss of HK\$54,910,000), respectively.

The comparative amount for 2000 has been restated by a prior year adjustment resulting in a net debit of HK\$270,000,000 to the Company's net loss for that year, and a net credit of the same amount to the amounts due to subsidiaries in the Company's balance sheet. The prior year adjustment reversed dividends from subsidiaries which were declared and approved by the subsidiaries after the prior year's balance sheet date, but which were recognised by the Company as revenue in its financial statements for that year. The prior year adjustment resulted in a decrease in the amount of retained profits as at 1 January 2001 by HK\$270,000,000. This change in accounting policy has arisen from the adoption of revisions to SSAP 18, as further detailed in notes 2 and 34 to the financial statements.

# 11. NET PROFIT FROM ORDINARY ACTIVITIES ATTRIBUTABLE TO SHAREHOLDERS (continued)

The effect of this change in accounting policy on the Company's net profit for the current year was to increase the net profit by HK\$270,000,000 to HK\$541,047,000, as disclosed above.

#### 12. DIVIDENDS

|   | 2001<br>HK\$'000  | 2000<br>HK\$'000 |
|---|-------------------|------------------|
| Interim - 5 cents (2000: 1 cent) per ordinary share<br>Underaccrual of proposed 2000 final dividend           | 189,644<br>16,226 | 32,511           |

| Proposed final - 4 cents (2000: 1 cent) per ordinary share<br>Proposed special dividend - Nil (2000: 2 cents) | 168,809           | 32,511           |
| per ordinary share  |                   | 65,022           |
|   | 168,809           | 97,533           |
|   | 374,679           | 130,044          |

The proposed final dividends for the year are subject to the approval of the Company's shareholders at the forthcoming annual general meeting.

During the year, the Group adopted the revised SSAP 9 "Events after the balance sheet date", as detailed in note 2 to the financial statements. To comply with this revised SSAP, a prior year adjustment has been made to reclassify the aggregate proposed final and special dividends for the year ended 31 December 2000 of HK\$97,533,000, which was recognised as a current liability at the prior year end, to the proposed final dividend reserve account within the capital and reserves section of the balance sheets. The result of this has been to reduce both the Group's and the Company's current liabilities and increase the reserves previously reported as at 31 December 2000, by HK\$97,533,000.

The effect of this change in accounting policy as at 31 December 2001, is that the current year's proposed final dividends of HK\$168,809,000 has been included in the proposed final dividend reserve account within the capital and reserves section of the balance sheets at that date, whereas in previous years it would have been recognised as a current liability at the balance sheet date.

#### 13. EARNINGS PER SHARE

The calculation of basic earnings per share is based on the net profit attributable to shareholders for the year of HK\$650,966,000 (2000: HK\$150,919,000), and the weighted average of 3,647,613,303 (2000: 3,251,115,027) ordinary shares in issue during the year.

The calculation of diluted earnings per share is based on the net profit attributable to shareholders for the year of HK\$671,138,000, after adjustment for the interest saved upon deemed conversion of all convertible notes at beginning of the year and all convertible bonds on the date of issue. The weighted average number of ordinary shares used in the calculation is 3,647,613,303 (2000: 3,251,115,027) shares in issue during the year, as used in the basic earnings per share calculation; and the weighted average of 403,904,523 (2000: 427,272,727) shares assumed to have been issued at no consideration on the deemed exercise of the share options granted on 15 November 2000 and the bonus warrants allotted on 16 May 2001, and the deemed conversion of all of the convertible bonds and convertible notes at the beginning of the year, or the date of issue, whichever is later.

No diluted earnings per share for the year ended 31 December 2000 has been presented because the conversion of the convertible notes would have an anti-dilutive effect and the Company's share options did not have a dilutive effect on that year.

|  | 7,387,354   | 5,432,483   |  |

Except for certain balances due from subsidiaries with an aggregate amount of HK\$383,119,000 (2000: HK\$378,121,000) which bear interest at 4.25% to 6% per annum, the remaining balances due from/to subsidiaries are interest-free, unsecured and have no fixed terms of repayment.

The amounts due to subsidiaries in the prior year have been adjusted for the effect of the prior year adjustment of HK\$270,000,000 in respect of dividends proposed after the prior year's balance sheet date, as further explained in note 11 to the financial statements.

Except for certain loans to subsidiaries with an aggregate amount of HK\$72,000,000 which bear interest at 6% per annum, the remaining loans to subsidiaries are interest-free, unsecured and not repayable within one year.

A balance due from a subsidiary of HK\$4,711,000 is repayable in 2002 and, accordingly, such balance is included in current assets.

During the year, the Group acquired Alton Services Limited and its subsidiaries from its ultimate holding company. Further details of this acquisition are included in notes 35(c) and 40(b) to the financial statements.

Particulars of the Company's principal subsidiaries are set out in note 36 to the financial statements.

As detailed in note 3 to the financial statements, the Group has adopted the transitional provision of SSAP 30 which permits goodwill and negative goodwill in respect of acquisitions which occurred prior to 1 January 2001, to remain eliminated against consolidated reserves or credited to the capital reserve, respectively. The amount of goodwill remaining in consolidated reserves, arising from the acquisition of associates, is HK\$64,629,000 and HK\$49,089,000 as at 1 January and 31 December 2001, respectively. The amount of goodwill is stated at its cost.

The balances with the associates are unsecured, interest-free and have no fixed terms of repayment.

## 26. AMOUNTS DUE FROM/TO ULTIMATE HOLDING COMPANY/FELLOW SUBSIDIARIES

The amounts due from/to ultimate holding company and fellow subsidiaries mainly represent trade receivables/payables and reimbursement of PRC withholding tax on interest income receivable by the Group from a jointly controlled entity established in the PRC pursuant to an indemnity granted to the Group by the Company's ultimate holding company, as further set out in the Company's circular dated 14 November 1998.

Except for an amount of HK\$19,804,000, representing reimbursement of PRC withholding tax receivable from the ultimate holding company, which is repayable on the third business day after the Company has provided an auditor's certificate on the liability that has arisen under the indemnity, the remaining balances due from/to ultimate holding company/fellow subsidiaries are unsecured, interest-free and repayable on the third business day following the month of transactions.

The provision for deferred tax, as shown in the balance sheet, relates principally to timing differences arising from accelerated capital allowances.

The revaluation of the Group's investment properties and hotel properties does not constitute timing differences and, consequently, the amount of potential deferred tax thereon has not been quantified.

There are no significant potential deferred tax liabilities for which provision has not been made.

## 33. SHARE CAPITAL (continued)

#### Shares (continued)

During the year, the following movements in share capital were recorded.

- (a) Pursuant to a conditional sale and purchase agreement signed between CTS (Holdings), the Company's ultimate holding company, and the Company on 21 March 2001, the Company agreed to acquire the entire issued share capital of Alton Services Limited at a consideration of HK\$1,911 million. Part of the consideration was settled by the issuance of 2% convertible bonds by the Company for an amount of HK\$600 million which was convertible at an exercise price of HK\$1.1308 per share. Such convertible bonds were converted on 23 May 2001, together with accrued interest up to the date of conversion, for the issue of 530,859,472 ordinary shares of HK\$0.10 each in the Company issued at a premium of HK\$547,210,000.
- (b) On 6 November, 2001, CTS (Holdings) elected to convert its holding of the Company's outstanding convertible notes of HK\$470 million, at an exercise price of HK\$1.10 per share. The conversion resulted in the issuance of 427,272,727 ordinary shares of HK\$0.10 each in the Company.
- (c) The subscription rights attaching to 10,000,000 share options were exercised at the subscription price of HK\$0.709 per share, resulting in the issue of 10,000,000 shares of HK\$0.10 each for a total cash consideration, before expenses of HK\$7,090,000.
- (d) Pursuant to a circular dated 16 May 2001, the Company allotted 758,394,899 bonus warrants to the Company's shareholders on the basis of one warrant for every five shares then held. Each warrant entitles the holder thereof to subscribe for one ordinary share of HK\$0.10 at a subscription price of HK\$1.22 per share, payable in cash and subject to adjustment, from the date of issue to 30 June 2003. As at 31 December 2001, a total of 986,516 bonus warrants were subscribed in exchange for a total of 986,516 ordinary shares of the Company at HK\$0.10 each, for a gross consideration of approximately HK\$1,204,000.

A summary of the movements of the Company's share capital during the year is as follows:

## 33. SHARE CAPITAL (continued)

#### Share options

The Company operates a share option scheme (the "Scheme"), further details of which are set out under the heading "Information of share option scheme" in the Report of the Directors on page 26 of this Annual Report.

At the beginning of the year, there were 113,000,000 options outstanding under the Scheme, which entitled the holders to subscribe for shares of the Company at any time during periods ranging from 14 January 1998 to 20 October 2002. The subscription price payable upon the exercise of these options ranged from HK\$0.709 to HK\$3.580, subject to adjustment.

During the year, a total of 10,000,000 share options were exercised at an exercise price of HK\$0.709, and 101,900,000 and 1,100,000 share options with an exercise price of HK\$3.568 and HK\$3.580 were lapsed and cancelled, respectively.

At the balance sheet date, the Company had no share options outstanding under the Scheme.

#### **Warrants**

During the year, a bonus issue of warrants was made in the proportion of one warrant for every five shares held by members on the register of members on 1 June 2001, resulting in 758,394,899 warrants being issued. Each warrant entitles the holder thereof to subscribe for one ordinary share of HK\$0.10 at a subscription price of HK\$1.22 per share, payable in cash and subject to adjustment, from the date of issue to 30 June 2003.

During the year, 986,516 warrants were exercised for 986,516 shares of HK\$0.10 each at HK\$1.22 per share. At the balance sheet date, the Company had 757,408,383 warrants outstanding. The exercise in full of such warrants would, under the present capital structure of the Company, result in the issue of 757,408,383 additional shares of HK\$0.10 each in the Company, for a gross proceeds of approximately HK\$924,038,000.

On 21 March 2001, the Group acquired a 100% interest in Alton Services Limited ("Alton") and its subsidiaries ("Alton Group") from its ultimate holding company. Alton Group is engaged in the travel-related business. Further details of the transaction are included in note 40 to the financial statements. Part of the purchase consideration for the acquisition was in the form of cash, with HK\$1,180,749,000 being paid on 15 May 2001.

Since its acquisition, Alton Group contributed HK\$1,086,886,000 to the Group's turnover and HK\$192,920,000 to the consolidated profit after tax and before minority interests for the year ended 31 December 2001.

For the year ended 31 December 2001, Alton Group contributed HK\$81,543,000 to the Group's net operating cash flows, paid HK\$33,922,000 and HK\$13,759,000, respectively, in respect of the cash flows for the payment of tax and investing activities, gave rise to financing cash inflows of HK\$15,341,000, but had no significant impact in respect of the Group's cash flows for net returns on investments and servicing of finance.

The above table lists the subsidiaries of the Company which, in the opinion of the directors, principally affected the results for the year or formed a substantial portion of the net assets of the Group. To give details of other subsidiaries would, in the opinion of the directors, result in particulars of excessive length.

<sup>\*</sup> These subsidiaries are Sino-foreign equity joint ventures.

(b) At the balance sheet date, Weihe Power, a jointly controlled entity of the Group, had contingent liabilities in respect of a sulphur dioxide treatment fee.

According to a regulation issued by the Shaanxi Provincial Environmental Protection Bureau (the "PEPB"), Weihe Power is required to accrue a sulphur dioxide treatment fee since 1997. Of such treatment fee, 10% should be paid to PEPB and 90% should be kept by the company for future expenditure on sulphur dioxide treatment, which may include capital expenditure.

In 1998, pursuant to a verbal confirmation from the State Environmental Protection Bureau (the "SEPB"), Weihe Power ceased making further accruals on the grounds that it is not located in one of the designated areas specified in the State regulations prescribing such sulphur dioxide treatment fee.

Had Weihe Power continued to accrue such fees from 1998 to 2001, the accrued amount in respect thereof would have been increased by approximately HK\$5,842,000 (of which the Group's share therein would have been approximately HK\$2,979,000) as of 31 December 2001 and the net income for the year ended 31 December 2001 would have been reduced by approximately HK\$2,073,000 (of which the Group's share therein would have been approximately HK\$1,057,000). The final outcome of the need to make further accruals for and the use of the existing accruals in accordance with the sulphur dioxide regulations will depend on the final negotiations with and agreement by the PEPB and SEPB.

#### 38. OPERATING LEASE ARRANGEMENTS

## (a) As lessor

The Group leases its investment properties (note 14 to the financial statements) under operating lease arrangements, with leases negotiated for terms ranging from 1 to 5 years. The terms of the leases generally also require the tenants to pay security deposits.

At 31 December 2001, the Group had total future minimum lease receivables under non-cancellable operating leases with its tenants falling due as follows:

|   | Group    |          |  |
|---|----------|----------|--|
|   | 2001     | 2000     |  |
|   | HK\$'000 | HK\$'000 |  |
| Within one year                         | 7,330    | 4,689    |  |
| In the second to fifth years, inclusive | 3,131    | 2,423    |  |
|   | 10,461   | 7,112    |  |

### (b) As lessee

The Group leases certain of its office properties and plant and machinery under operating lease arrangements. Leases for properties are negotiated for terms ranging from 1 to 18 years, and those for office equipment for terms ranging from 1 to 5 years.

At 31 December 2001, the Group had total future minimum lease payments under non-cancellable operating leases falling due as follows:

|   | Group          |
|---|----------------|
|   | 2001           |
|   | HK\$'000       |

| Within one year                         | 32,807         |
| In the second to fifth years, inclusive | 79,102         |
| After five years                        | 159,880        |
|   |                |
|   | <u>271,789</u> |
|   |                |

## **38. OPERATING LEASE ARRANGEMENTS** (continued)

## (b) As lessee (continued)

|   | Group    |
|---|----------|
|   | 2001     |

| In the second to fifth years, inclusive | 2,580    |
|   | 3,691    |

At 31 December 2000, the Group had commitments under non-cancellable operating leases to make payments in the following year as follows:

|   | Group    |
|---|----------|
|   | 2000     |
|   | HK\$'000 |
| Land and buildings:                     |          |

|   |          |
|   | 11,097   |

SSAP 14 (revised), which was adopted during the year, requires lessors under operating leases to disclose the total future minimum operating lease receivable under non-cancellable operating leases, as detailed in note (a) above. This disclosure was not previously required. SSAP 14 (revised) also requires lessees under operating leases to disclose the total future minimum operating lease payments, rather than only the payments to be made during the next year as was previously required.

## 39. COMMITMENTS

In addition to the operating lease commitments as detailed in note 38(b) above, the Group and the Company had the following commitments at the balance sheet date:
