

## PROSPECTS

The Board believes that both the turnover and profit of SWIL in the existing local market will have high growth rates in forthcoming years. The establishment of representative office in Guangzhou, PRC recently, also aims at marketing the new computer peripherals and home appliances products of SONIX brand to embark on the enormous market of Mainland China, the prospects of which is optimistic.

The Board will closely monitor the Group's operation under the professional service subcontract and will take further cost control measures to maintain the Group's competitiveness in the system integration business.

On the other hand, INNOMAXX will continue to act as the investment vehicle of the Group in biotechnology business.

As a whole, the Group will actively identify opportunities to invest in the property, mainly in Mainland China, and technology-related business so as to bring in significant improved returns and contribute enhanced value to our shareholders.
