NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Group reorganisation and basis of consolidation

The Company was incorporated and registered in the Cayman Islands on 23rd January, 2001 as an exempted company with limited liability under the Companies Law, Cap. 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands. Honeylink Agents Limited, a company incorporated in the British Virgin Islands, has been the ultimate holding company of the Company since 16th May, 2002.

Pursuant to a group reorganisation (the "Reorganisation") to rationalise the structure of the Group in preparation for the listing of the shares of the Company on the main board of The Stock Exchange of Hong Kong Limited (the "Stock Exchange"), the Company became the holding company of the companies now comprising the Group formed after the completion of the Reorganisation on 16th May, 2002.

The Reorganisation principally involved the exchange of shares of the Company with all the issued share capital of Get Nice Incorporated and the details are set out in the prospectus dated 24th May, 2002 issued by the Company.

The Group, excluding Get Nice Finance Company Limited and its subsidiary, Allex International Limited (collectively referred to as the "GNFCL Group") resulting from the Reorganisation is regarded as a continuing entity. Accordingly, the unaudited condensed consolidated financial statements for the six months ended 30th September, 2002 have been prepared using the merger basis of accounting in accordance with Hong Kong Statement of Standard Accounting Practice ("SSAP") 27 "Accounting for Group Reconstructions". The GNFCL Group has been accounted for using the purchase method of accounting from the effective date of acquisition.

The unaudited condensed consolidated income statement and cash flow statement for the six months ended 30th September, 2001 and the audited condensed consolidated balance sheet as at 31st March, 2002 were prepared on a combined basis as if the current group structure excluding the GNFCL Group had been in existence throughout these periods. The results, cash flows, assets and liabilities of the GNFCL Group were not included in these financial statements because they were acquired by the Group after 31st March, 2002.

1. Group reorganisation and basis of consolidation (Continued)

All significant transactions and balances among the companies comprising the Group have been eliminated in the preparation of the respective unaudited condensed consolidated and condensed combined financial statements.

The Company is an investment holding company. The principal activities of the Group are the provision of financial services, including securities dealing and broking, futures and options broking, securities margin financing, corporate finance services, and brokerage of mutual funds and insurance-linked investment plans and products.

2. Principal accounting policies

The unaudited condensed consolidated interim financial statements of the Group have been prepared in accordance with applicable disclosure requirements of appendix 16 to the Listing Rules and SSAP 25 "Interim Financial Reporting". The accounting policies adopted are the same as those used in the Group's proforma combined financial statements for the year ended 31st March, 2002.

In the current period, the Group has for the first time adopted a number of new and revised SSAPs issued by the Hong Kong Society of Accountants. The adoption of these SSAPs has resulted in a change of format of presentation of the cash flow statement and the statement of changes in equity but has no material effect on the results for the current or prior accounting periods. Accordingly, no prior period adjustment has been required.

Cash flows statements

In the current period, the Group has adopted SSAP 15 (Revised) "Cash Flow Statements". Under SSAP 15, cash flows are classified under three headings – operating, investing and financing, rather than the previous five headings. Interest expenses, dividends received and dividends paid, which were previously presented under a separate heading, are classified as operating, investing and financing activities respectively. Cash flows arising from taxes on income are classified as operating activities, unless they can be separately identified with investing or financing activities.

MANAGEMENT DISCUSSION AND ANALYSIS

Business Review

The Group recorded a total turnover of approximately HK\$34.0 million for the six months ended 30th September, 2002, representing a decrease by approximately 12.3% as compared to the corresponding figure for 2001. Net profit dropped by 27.1% to approximately HK\$7.6 million this period.

For the period under review, the stock market in Hong Kong was generally affected by the prolonged poor global economic performance. During the six month period ended 30th September, 2002, the average daily stock market turnover dropped to approximately HK\$6.6 billion, representing a decrease of 13% compared with the same period in 2001.

As a result, the revenue from brokerage segment decreased by 21.5% from approximately HK\$25.6 million in 2001 to approximately HK\$20.1 million this period. Interest income from margin financing has however slightly increased by about 5.5% to approximately HK\$13.3 million this period, mainly due to increase in average size of margin loan this period.

Significant investment held

As at 30th September, 2002, the Group held an unlisted equity securities in DBS Diamond Holdings Limited, a company incorporated in Bermuda, with carrying amount of approximately HK\$43.3 million (at 31st March, 2002: HK\$43.1 million). During the period under review, a gain on holding this investment of approximately HK\$214,000 was recorded.

Liquidity, Financial Resources and Funding

As a result of successful listing of the Company's shares in June 2002, the capital structure of the Group has much improved. As at 30th September, 2002, the Group's net current assets was amounted to approximately HK\$247.1 million, as compared to approximately HK\$182.9 million at 31st March, 2002. The Group's outstanding borrowings has decreased from approximately HK\$186.7 million at 31st March, 2002 to approximately HK\$118.8 million, mainly attributable to the capitalization of a subordinated loan of HK\$60 million as a result of the Reorganisation prepared for the listing. The bank borrowings, being interest bearing on a floating rate basis, were principally procured to finance margin loan granted to securities margin client.

The gearing ratio of the Group, being total liabilities over total shareholders' funds, was also reduced to 0.6 times as at 30th September, 2002 (at 31st March, 2002 : 1.6 times).

As at 30th September, 2002, the Group's borrowings and facilities from banks and a licensed money lender were secured by margin client's pledged securities of approximately HK\$494.0 million and the Group's investments in securities with carrying value of HK\$43.3 million.

As at 30th September, 2002, the Group had available facilities from banks and a financial institution amounting to HK\$583.0 million of which approximately HK\$464.2 million was not utilized.

The business activities of the Group do not expose to material fluctuations in exchange rates as majority of the transactions are denominated in Hong Kong dollars.

As at 30th September, 2002, the Group had no material contingent liabilities and no material capital commitment.

Staff

As at 30th September, 2002, the Group had a total of 35 full times employees and 85 account executives, 19 of whom were also employed as full time employees of the Group. The staff are remunerated based on industry practice and performance of individual staff.

Use of proceeds of the share offer

Following the successful listing of the Company's shares on the main board of the Stock Exchange on 6th June, 2002, we have applied part of the listing proceeds according to the plans as mentioned in the prospectus:

	HK\$
	(million)
Expansion of margin financing activities	13.0
Working capital of placing activities	10.0
Reducing bank borrowings	10.0
General working capital	8.3
	41.3

The remaining balance of the net proceeds was placed into short term deposit and saving account. It is currently intended that they will be used in the coming years for the purposes as set out in the prospectus.

Future Plans and Prospect

The Directors concur with the market view that a more difficult and competitive operating environment will continue to phase out less efficient market participants. In this connection, the Board has been taking a conservative approach in business expansion, monitoring credit risk of margin loan and cost control on operation.

On a positive note, Hong Kong still has its own competitive edges including efficient legal system, freest trade environment in the world and close linkage with China. These elements are essential and attractive to different type of investors. The Group is optimistic about the development of financial sector in Hong Kong. We will continue to enhance the synergy of the Group's businesses and increase our market share in the industry.
