

CORPORATE PROFILE

BALtrans Holdings Limited is a HKG-based multi-national IATA freight forwarding and logistics group, with a corporate mission to satisfy the needs of the shipping public by striving for excellence in the field of logistics.

Established in Hong Kong in 1982, BALtrans opened its overseas offices in Singapore and New York the following year. Since then, it has built a network of over 50 offices, which, together with joint ventures and agents, serve around 3,000 customers in more than 50 countries. Its range of services includes air freight forwarding; sea freight forwarding; sea-air combination services; exhibition forwarding; air chartering; international household removal; marine insurance brokerage; project shipping; and logistics provision. These services are backed up by heavy IT content enabling Electronic Data Interchange and a user-friendly BALtrack Cargo Tracing and Tracking System which clients can use through their internet browser. BALtrans obtained ISO 9002 accreditation in 1994, underlining our continuing effort to achieve efficient customer service. BALtrans is a member of Cargo 2000, an IATA interest group advocating common industry automation standards.

In 1992 BALtrans became the first ever freight forwarding company to list on the Hong Kong Stock Exchange.

The company has been developing the China market since the past 10 years and will continue to expand in this market to take advantage of the post-WTO China as the world's manufacturing powerhouse.
