Notes:

1. Group reorganisation and basis of preparation of interim financial statements

The Company was incorporated as an exempted company with limited liability in the Cayman Islands under the Companies Law of the Cayman Islands on 26th October, 2001. Its ultimate holding company is Climax Park Limited ("Climax"), a company which is incorporated in the British Virgin Islands (the "BVI").

Pursuant to a group reorganisation (the "Group Reorganisation") to rationalise the group structure in preparation for the listing of the Company's shares on The Stock Exchange of Hong Kong Limited (the "Stock Exchange"), the Company became the holding company of the group (the "Group") formed after the completion of the Group Reorganisation on 25th April, 2002.

The Group Reorganisation principally involved the exchange of fully-paid shares of the Company with all the issued shares of Sino Prosper Group Limited.

The Group resulting from the Group Reorganisation is regarded as a continuing entity. Accordingly, these interim financial statements of the Group have been prepared on the basis as if the Company had always been the holding company of the Group. The directors consider that this basis provides meaningful information for shareholders as regards the historical performance of the companies now comprising the Group.

Details of the Group Reorganisation are set out in the prospectus (the "Prospectus") issued by the Company dated 30th April, 2002.

The shares of the Company were listed on the Stock Exchange on 15th May, 2002.

2. Significant accounting policies

The interim financial statements are unaudited by the Company's auditors, condensed and have been prepared in accordance with Hong Kong Statement of Standard Accounting Practice ("SSAP") 25 (revised) "Interim financial reporting" issued by the Hong Kong Society of Accountants ("HKSA") and have been reviewed by the Company's Audit Committee.

The accounting policies adopted are consistent with those followed in the preparation of the Group's annual proforma financial statements for the year ended 31st March, 2002, except as described below.

In the current period, the Group has adopted, for the first time, the following new and revised SSAPs issued by the HKSA:

SSAP 1 (revised)	Presentation of financial statements
SSAP 11 (revised)	Foreign currency translations
SSAP 15 (revised)	Cash flow statements
SSAP 34	Employee benefits

The adoption of these SSAPs has resulted in the introduction of the statement of changes in equity and a change in the format of presentation of the cash flow statement but has no significant effect on the results for the current or prior accounting periods.

MANAGEMENT DISCUSSION AND ANALYSIS

Successful Listing

The successful listing of the Company on 15th May, 2002 on the Main Board of the Stock Exchange was a major milestone for the Group. With the issue of 130,000,000 shares, raising about HK\$24.2 million (after deducting related expenses), the Board is very pleased with the overwhelming support received from shareholders. The Group is confident that its listing status will form a strong growth impetus to accelerate its business development.

FINANCIAL REVIEW

For the six months ended 30th September, 2002, the Group's turnover reached HK\$12.6 million, representing a decrease of approximately 56% as compared to the same period last year consequently, profit attributable to shareholders decrease by approximately 83% to HK\$1,713,000. The decrease in turnover was mainly attributable to the Group's strategy of concentrating on leasing rather than sales of properties in the current period under the prevailing market sentiment.

Gross margin has improved slightly due to the increase in rental and management fee income. Gross margin for sales of properties are consistent with last interim period. Profit before taxation and net profit has been dropped by 78% and 83% respectively as compared to last interim period mainly due to decrease in turnover. The increase in rental and management fee income has felt short of expectation during the interim period as most of the tenants have just move in and enjoying their rent-free period while the Group has take an proactive step to waive management fee for certain tenants and property owners to encourage the speedy occupation and smooth running of building facilities of Dalian Asia Finance Centre.

PROSPECTS

Looking to the future, the entry of the PRC into the WTO leads to a vigorous economic environment throughout the territory. Major cities like Dalian, which is one of the most important economic and trading city in the northeastern coastal region of the PRC, see even busier trade activities and a more systematically developed and market-oriented property market. With the full support from the PRC government towards business activities in China and people's growing demand to seek for higher living standard, the PRC property market has become more active. Demands for high-quality, high class and first-rate properties are even increasing. These factors are favorable for the Group's strategy of developing premier properties in Dalian. The Group will continue to capture other opportunities of developing quality properties in Dalian.

Apart from its property development business, the Group is also actively exploring new opportunities to further diversify its business in the PRC. In line with the Group's strategy, the Group has entered into a memorandum of understanding on 15th November, 2002 to acquire the entire business, assets and liabilities of Beijing Bluesky Technology Co., Ltd. ("Beijing Bluesky") at a consideration of RMB8,000,000 in the PRC. Established in 1998, Beijing Bluesky holds a number of PRC registered patents in relation to the technology for coal gas production and power generation by utilizing coal. Through making use of coal with low energy contents to yield both power and coal gas as well as reducing pollution originally resulted from the disposal of coal scraps, this new environmental friendly and energy saving technology was greatly encouraged by the PRC government. The Eighth People's Congress Committee Meeting even dedicated to state the use of the technology in the country's energy conservation regulations.

The market of coal gas production and power generation in the northern PRC is extremely board with huge potential and is bound to provide vast room for development opportunities for the Group. The Group will hold 29% of the interests and the acquisition facilitates the Group to enter into a lucrative market in the northern region of the PRC. The Directors firmly believes the acquisition is an invaluable opportunity for Group to expand its scope of business and broaden the income stream.

Through the relentless pursuit of excellence and continuous dedication of its staff as well as great support from the invaluable business partners, the Group has full confidence to reach new highs in the future, bringing positive returns to shareholders.

Its gearing ratio calculated as a ratio of net debt to equity was approximately 46.3%. Net current assets totaled approximately HK\$54.0 million and the current ratio was maintained at the healthy level of approximately 133.3%.

SEASONAL OR CYCLICAL FACTORS

The Group's business operations are not significantly affected by any seasonal and cyclical factors.

The Group generally raises and repays its bank loans according to the development requirements of specific property development projects. The borrowing facilities are fully utilized as at 30 September 2002.

FOREIGN EXCHANGE EXPOSURE

The Group mainly earns revenue and incurs costs in Renminbi, United States dollars and Hong Kong dollars. Foreign exchange exposure of the Group is minimal as long as the policy of the Government of Hong Kong Special Administrative Region to link the Hong Kong dollars to the United States dollars remains in effect.

TREASURY POLICIES
