Come on in... but keep your head out of the water

Wai Yee Chan

The government should not be too quick to blame the public for the problem of water pollution. It is the government's responsibility to ensure that the water is clean and safe for drinking. The government should invest more in water treatment plants and ensure that the water is clean and safe for drinking. The government should also invest in water conservation programs to reduce the amount of water that is wasted. The government should also invest in water recycling programs to reduce the amount of water that is used. The government should also invest in water conservation programs to reduce the amount of water that is wasted. The government should also invest in water recycling programs to reduce the amount of water that is used.
