The Company was located in Yizheng City, Jiangsu Province, and was established on 31 December 1993 following a reorganisation of Yizheng Joint Corporation of Chemical Fibre Industry (currently Yihua Group Corporation ("**Yihua**")) and an injection of the entire polyester production units and the ancillary production lines by Yihua. The Company issued 1 billion "H" shares in March 1994, 200 million "A" shares in January 1995 and a further 400 million new "H" shares in April 1995. The Company's "H" shares and new "H" shares were listed and commenced trading on the Stock Exchange of Hong Kong Limited (the "**HKSE**") on 29 March 1994 and 26 April 1995 respectively. The Company's "A" shares were listed and commenced trading on the Shanghai Stock Exchange (the "**SSE**") on 11 April 1995. China Petroleum & Chemical Corporation ("**Sinopec**") is the current controlling shareholder of the Company.

The Company is principally engaged in the production and sales of polyester chips and polyester fibre, and production of its raw materials purified terephthalic acid ("**PTA**") for its own use. Its principal activities include production and distribution of chemical fibre and petrochemical products, production of ancillary raw materials and textile machinery, research and development ("**R&D**") in textile technology, transportation and technological support for products manufactured by the Company.

The Company was a major construction project under the PRC's Sixth to Tenth Five-Year Plans. Its production facilities were imported from Germany, Japan, Italy and France etc. The Company's technology has reached an advanced international level of late 1990's through continuous technological improvements. The quality system of the Company's principal products received certification for an upgraded version of ISO9001 (2000) standards, and its product quality commands a leading position in the industry. At the end of 2002, the Group owned polymerization facilities with an annual capacity of 1,137,000 tonnes, solid-state-polymerization ("**SSP**") facilities with an annual capacity of 181,000 tonnes, spinning and drawing facilities for polyester fibre with an annual capacity of 669,000 tonnes, texturing facilities for polyester filament with an annual capacity of 104,000 tonnes and oxidation and purification facilities for PTA with an annual capacity of 325,000 tonnes, which took great advantage from the economies of scale.
