

## CORPORATE PROFILE

Grandtop International Holdings Limited (the “Group”) provides professional corporate social responsibilities (CSR) marketing and compliance monitoring services, through the Group’s Code of Vendors’ Conduct, together with sales support services to facilitate client exports of textiles and garments products from Hong Kong to the United States. The Group’s Code of Vendors’ Conduct adds significant value to our customers’ activities, ensuring that their activities comply with international standards of CSR, a growing requirement in global marketplace. The Group was successfully listed on the main board of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) on 12 November 2002. (Stock Code: 2309)

### MARKETING AND COMPLIANCE MONITORING SERVICES

The Group provides comprehensive CSR compliance monitoring services standards for Hong Kong’s garment manufacturers through the Group Code of Vendors’ Conduct. Under this Code of Conduct, the Group helps to assess client’s manufacturing practices and standards to ensure that they fully meet certain US buyers’ requirements by complying with the relevant laws, regulations and international labour standards.

The Group’s Code of Vendors’ Conduct covers the following key issues:

- Environment
- Wages and working hours
- Child labour
- Forced labour
- Discrimination
- Working conditions

In assessing these issues, the Group looks into customer practices, structure and organisation, quality process and accreditation, plant and facilities, as well as its environmental processes. Upon completion of the assessment, the Group recommends any remedial action necessary to meet international industry standards.

### SALES SUPPORT SERVICES

Rounding out the Group’s CSR marketing and compliance monitoring services, the Group also leverage its expertise to provide one-stop sale support services, helping clients to export their products to the United States. Under this service, the Group advises its clients, many of whom have production facilities in the PRC, on Outward Processing Arrangement, the statutory requirements and restrictions that apply to “Hong Kong Origin” products and help with general export procedures. The Group also assists with order placements among its own established group of leading US buyers, provide documentation and logistics arrangements, and organise the collection and settlement of invoices where necessary.
