

BALtrans Holdings Limited (“BALtrans” or “the Group”) is one of Asia’s leading freight forwarding and logistics groups, with a corporate mission to satisfy the needs of the shipping public by striving for excellence in the field of logistics.

On 30th January 2003, BALtrans successfully acquired Jardine Logistics Group (“Jardine Logistics”), a freight forwarding business with a broad geographic base. The acquisition is a key milestone in the Group’s commitment to growth through acquisitions. It has also created a global freight forwarding and logistics platform with a comprehensive global network and a full range of logistics services to serve customers better around the world.

Established in Hong Kong in 1982, BALtrans offers a wide range of services including airfreight forwarding, seafreight forwarding, sea-air combination services, exhibition forwarding, air chartering, international household removal, marine insurance brokerage, project shipping and logistics provision. The Group has been actively developing the Mainland China market in the past ten years and will continue to expand its presence to take advantage of the post-WTO China as the world’s manufacturing powerhouse.

BALtrans’ services are supported by a sophisticated IT system enabling Electronic Data Interchange, and a user-friendly BALtrack Cargo Tracing and Tracking System which clients can use conveniently through their Internet browser. The Group obtained ISO 9002 accreditation in 1994, underlining its unrelenting effort in achieving high standards of customer service. It is a member of IATA and its interest group Cargo 2000, which advocates common industry automation standards.

In 1992, BALtrans (HKEx: 562) was the first freight forwarding company to list on the Hong Kong Stock Exchange.
