

## MANAGEMENT'S DISCUSSION AND ANALYSIS

### LIQUIDITY AND FINANCIAL RESOURCES

As at 31st December, 2003, the Group had total assets of US\$1,020.8 million, down 8.0% from US\$1,109.1 million at the year end of 2002. Total debt and debt to equity ratio (debt to equity ratio is calculated by dividing the total debt by the net asset value) were US\$623.0 million and 417% respectively, as compared to US\$659.9 million and 283% as at 31st December, 2002.

An analysis of our balance sheet is shown on page 12.

### CAPITAL STRUCTURE

The Group finances its working capital requirements through a combination of funds generated from operations, short term and long term loans, floating rate notes and from the disposal of certain assets. The Group had cash and cash equivalents of US\$56.8 million as at 31st December, 2003 (2002: US\$95.6 million), a decrease of US\$38.8 million.

### INTEREST STRUCTURE AND EXCHANGE RATES EXPOSURE

Most of the borrowings were in U.S. dollars and RMB, and the interest rates ranged from 1.3% to 7.1% per annum in 2003.

The majority of the borrowings by the Group's ventures in the PRC are in RMB obtained from the local banks, with a certain amount in U.S. dollars. Most of these ventures are paying interest rates ranging from 2.2% to 7.1% per annum in 2003.

All sales in the PRC are denominated in RMB, and export sales are denominated in foreign currencies. The ventures require foreign currencies for the purchase of imported raw materials, parts and components, and they are able to obtain the foreign currencies necessary to meet their operational needs. We expect that the exchange rate between RMB and U.S. dollar will remain stable, otherwise, the Group's cash inflow of dividends generated from the PRC ventures will be affected. Please refer to note 37 to the financial statements for details. As neither the Bank of China nor other financial institutions authorised to engage in foreign exchange transactions in the PRC offers forward exchange contracts, the Group is not able to hedge for the foreign exchange exposure of RMB.

The Group had not engaged in any derivative for hedging against both the interest and exchange rate risks at the balance sheet date (2002: Nil).

### CHARGES ON GROUP ASSETS

As at 31st December, 2003, out of the total borrowings of US\$623.0 million (2002: US\$659.9 million) obtained by the Group, only US\$192.7 million (2002: US\$123.5 million) were secured and accounted for 30.9% (2002: 18.7%) of the total. Certain of the Group's fixed assets located in the PRC with net book value of US\$242.2 million (2002: US\$195.4 million) have been pledged as security for various short and long term bank loans. The Company has entered into negative pledges over certain of its assets for available credit facilities, aggregating approximately US\$31.3 million (2002: US\$36.1 million) granted to the Group by several banks, which were drawn down to the extent of approximately US\$31.3 million (2002: US\$36.1 million) as at the balance sheet date. Details of the classification and charges on Group assets are set out in note 33 to the financial statements.
