

The Group's principal products include petroleum products, petrochemical and organic chemical products, synthetic rubber products, chemical fertilizers and inorganic chemical products. As a result of the Group's high degree of integration, some of its products are used primarily in producing its downstream products.

The following table sets out the turnover of the Group's major products in 2003 as a percentage of total turnover calculated in accordance with IFRS, together with their principal uses.

Major products	Percentage of 2003 turnover (%)	Principal uses
Petroleum products		
Diesel oil	23.50	transportation fuels
Gasoline	11.31	transportation fuels
Solvent oil	0.14	production of paint and dyestuff
Others (Note)	10.18	
	<hr/>	
Subtotal:	45.13	
	<hr/>	
Petrochemical and organic chemical products		
Ethylene	7.33	production of polyethylene, ethylene glycol and other chemical products
Propylene	4.26	production of polypropylene, acrylonitrile and other chemical products
Acetic acid	1.83	production of acetic anhydride and other chemical products
Ethanol	0.29	production of formaldehyde and other chemical products
Ortho-xylene	2.74	production of pharmaceuticals, pesticides, phthalic anhydride and other chemical products
Acetic anhydride	1.25	production of cellulose acetates, dyestuff and other chemical products
Octanol	1.27	production of plasticiser
Xylene	0.30	production of pharmaceuticals, pesticides, paint and chemical products
Styrene	3.78	production of ABS, PS and HIPS
Aniline	1.68	production of dyes and pharmaceuticals
Others (Note)	12.96	
	<hr/>	
Subtotal:	37.69	
	<hr/>	

Principal Products

Major products	Percentage of 2003 turnover (%)	Principal uses
Synthetic rubber products		
Styrene-butadiene rubber	4.27	production of rubber products, such as tyres
Others (Note)	<u>1.22</u>	
Subtotal:	<u>5.49</u>	
Chemical fertilizers and Inorganic chemical products		
Inorganic chemical products and others (Note)	<u>0.79</u>	
Subtotal:	<u>0.79</u>	
Other products and services		
(Note)	<u>10.90</u>	
Total:	<u><u>100.00</u></u>	

Note: No single chemical product in these categories comprised more than 1.0% of the Group's turnover in 2003.
