1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The Company was incorporated in the Cayman Islands as an exempted company with limited liability on 9 October 2003 under the Companies Law, Cap. 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands. Pursuant to a reorganisation scheme (the "Group Reorganisation") to rationalise the structure of the Group in preparation for the listing of the Company's shares on the Main Board of The Stock Exchange of Hong Kong Limited (the "Stock Exchange"), the Company became the holding company of the companies now comprising the Group since 12 December 2003. This was accomplished by the Company acquiring the entire issued share capital of Bamian Investments Pte Ltd. ("Bamian"), the then holding company of the other subsidiaries of the Group, in consideration for the allotment and issue of the Company's share, credited as fully paid, to the former shareholder of Bamian. Further details of the Group Reorganisation are set out in the Company's prospectus dated 10 June 2004. The shares of the Company were listed on the Stock Exchange on 21 June 2004.

These unaudited condensed combined interim financial statements have been prepared using the merger basis of accounting in accordance with Hong Kong Statement of Standard Accounting Practice ("SSAP") No. 27 "Accounting for Group Reconstructions" as a result of the Group Reorganisation. Under this basis, the Company has been treated as the holding company of its subsidiaries for the financial periods presented, rather than from the date of its acquisition of subsidiaries. Accordingly, the unaudited condensed combined results of the Group for the Period together with the comparative figures of the corresponding period last year includes the results of the Company and its subsidiaries with effect from 1 January 2003 or since their respective dates of incorporation, where this is a shorter period. All material intra-Group transactions and balances have been eliminated on combination.

The unaudited condensed combined interim financial statements of the Group have been prepared in accordance with SSAP 25 "Interim Financial Reporting", issued by the Hong Kong Society of Accountants, and Appendix 16 of the Listing Rules of the Stock Exchange.

The basis of presentation and accounting policies adopted in these unaudited condensed combined interim financial statements are consistent with those as set out in the prospectus of the Company dated 10 June 2004.

The unaudited condensed combined interim financial statements are presented in Renminbi ("RMB"), the currency in which majority of the Group's transactions are denominated.

MANAGEMENT DISCUSSION AND ANALYSIS

Review of Results

The unaudited turnover of the Group for the Period was approximately RMB426,052,000, representing an increase of approximately 46.7% compared with approximately RMB290,382,000 for the corresponding period last year while the net profit was approximately RMB34,032,000, representing an increase of approximately 81.5% compared with approximately RMB18,746,000 for the corresponding period last year.

Business Review

The significant growth in operating results is primarily due to the fact that the Group is still in the stage of development and its market share is increasing. Sales volume increased from 58,805 tonnes for the corresponding period last year to 66,150 tonnes, representing an increase of approximately 12.5% while at the same time, the selling price of the Group's products increased by approximately 30.4% compared with that for the corresponding period last year mainly because of the continuous surge of the price of international and domestic steel products during the Period, resulting in an increase in profit for the Group.

Production and Sales

The revenue from domestic sales of products in the PRC during the Period was approximately RMB65,180,000, representing an increase of approximately 147.0% compared with approximately RMB26,390,000 last year. Meanwhile, the Group is still developing the domestic market in the PRC.

The revenue from indirect export sales of products in the PRC during the Period was approximately RMB357,640,000, representing an increase of approximately 35.6% compared with approximately RMB263,840,000 for the corresponding period last year. The market for indirect export sales in the PRC continued to be the core market for the Group.

The revenue from direct export sales of products outside the PRC during the Period was approximately RMB3,230,000 while it was only approximately RMB150,000 for the corresponding period last year. The Group has successfully entered the international market, in particular, its recently launched new product (stainless steel pipes) has been exported to countries such as the U.S. and Vietnam.

Gross Profit

The Group recorded a gross profit of approximately RMB59,415,000 for the Period, with a gross profit margin of approximately 13.9%, compared with the gross profit of approximately RMB36,430,000 and a gross profit margin of approximately 12.5% for the corresponding period last year. The increase of approximately 30.4% in the unit selling price had a direct contribution to the increase in gross profit margin.

Operating Expenses

The total operating expenses of the Group for the Period were approximately RMB15,029,000, of which approximately RMB4,408,000 in selling and distribution costs, RMB8,295,000 in administrative expenses, RMB242,000 in other operating expenses and RMB2,084,000 in finance costs, accounting for approximately 1.0%, 1.9%, 0.1% and 0.5% of turnover respectively while the amounts for the corresponding period last year were approximately RMB4,077,000, RMB7,386,000, RMB14,000 and RMB1,247,000 respectively, accounting for approximately 1.4%, 2.5%, 0.01% and 0.4% respectively. The increase in the operating expenses was mainly due to the increase in turnover, which resulted in the rise of variable expenses. However, these expenses had comparably lower percentages of turnover in the Period.

Financial Resources and Treasury Policies

The Group continues to adhere to prudent treasury policies. The gearing ratio (borrowings divided by shareholders' funds) as of 30 June 2004 was approximately 95.7% (31 December 2003: 132.8%). The total bank borrowings of the Group amounted to approximately RMB212,275,000 (31 December 2003: RMB187,483,000), mainly denominated in US dollars, HK dollars and Renminbi with floating interest rates. The Group's short term loans from banks accounted for approximately 41.1% of the total assets (31 December 2003: 49.3%).

The current ratio (current assets divided by current liabilities) as of 30 June 2004 was approximately 1.76 (31 December 2003: 1.53). In 2002, the Group started to insure against receivables in order to lower the risks of credit sales and to ensure that funds would be recovered on a timely basis, hence fulfilling the requirements for debt repayments and working capital commitments.

Cash Flow

Net cash inflow of approximately RMB3,099,000 was generated from operating activities for the Period, reflecting growth in core business of the Group. Despite approximately RMB12,811,000 used for plant expansion and purchase of machinery and equipment, the net increase in cash and cash equivalents amounted to approximately RMB59,727,000, as a result of net cash inflow of approximately RMB46,649,000 raised from the listing, approximately RMB24,792,000 from bank borrowings and strong operating cash inflow. Bank balances and cash as at 30 June 2004 totalled approximately RMB94,761,000, mainly denominated in US dollars, HK dollars and Renminbi.

Exchange Rate Exposures

As most of the Group's monetary assets and liabilities are denominated in US dollars, HK dollars and Renminbi and those currencies remained relatively stable during the Period, the Group was not exposed to any significant exchange risk.

Pledge of Assets

As at 30 June 2004, property, plant and equipment and land use rights of the Group with net book value of approximately RMB51,313,000 and RMB9,193,000 respectively were pledged to secure bank borrowings.

Contingent Liabilities

The Group did not have any significant contingent liabilities at the balance sheet date (31 December 2003: Nil). At 30 June 2004, the Company had provided corporate guarantees in favour of a bank for banking facilities granted to a subsidiary. These banking facilities had been utilised to the extent of approximately RMB8,277,000 at the balance sheet date (31 December 2003: Nil).

Phase III Development Project

The expansion work of Phase III of our plant commenced in November 2003 was completed in July 2004. The expansion work of Phase III of our plant would enhance the Group's production capacity as well as market competitiveness.

Outlook

Following the completion of Phase III of our plant in July 2004, the Group's future production capacity and market competitiveness would be further enhanced. Moreover, the Group's new product (stainless pipes) has already been launched to the domestic market in the PRC as well as the international market, and has duly obtained the Hygiene Permit for Stainless Steel Pipes from the Guangdong Province Health Bureau, which would significantly help to promote the Group's new products in the market.

Although the business of the Group is likely to be affected to a certain extent by the macroeconomic control in the PRC and the drop in price of steel products in domestic market in the PRC and international market, the Group is confident that our business will continue to grow in future and generate reasonable returns to our investors.
