

## Creating Efficiency and Values for Sustainable Development

In 2004, COSCO International has overcome a number of difficulties with the collaborative efforts of all staff. The Company has got rid of historical burden and is heading towards a brighter future. It has successfully implemented its core positioning on ship trading and supplying services, thus creating the best ever results in its history. Looking forward, COSCO International will follow the "dragon-spirit" i.e. self-strengthening, flexibility, innovativeness, unity and endurance. It will endeavour with constant efforts for its sustainable development in the future and creation of efficiency as well as enhancement of values. The Company will also strive to establish a one-stop supply platform for ship trading and supplying services. It will endeavour to grow into a professional and unique worldwide ship trading and supplying services supplier with leading edges. In a bid to achieve the objectives of providing customers with the best services and shareholders with the greatest return.
