

# Corporate Profile

Zhongda International Holdings Limited (“Zhongda International” or the “Company” and its subsidiaries, collectively the “Group”) was listed on the Main Board of the Stock Exchange of Hong Kong Limited (“The Exchange”) on 1 November 2001. (Stock Code: 909)

The Company, mainly through its subsidiary Zhongda Automobile Machinery Manufacture Company Limited (“Zhongda Machinery”), is principally engaged in the development, manufacture and sales of equipment used in automobile repair, maintenance and inspection and the provision of industrial surface treatment engineering equipment to various industries including the automobile, aircraft engineering and military industries. While China is the Group’s major market, products are also sold in North America, North Africa, Europe and other Asian countries. Meanwhile, Zhongda Machinery as a automobile maintenance equipment manufacturer, has the highest market share in China.

The Group, being one of the largest automobile equipment manufacturers in China, has its main production base located in Yancheng City, Jiangsu Province. Major products of the Group include car washing machine, lacquer rooms, lifters and body repairing machine. In 2004, the Group has set up two new joint ventures with two major bus plants in Nanjing and Chengdu, and formally stepped into the vehicle manufacturing business. The Group has now approximately 1,200 employees.
