### FINANCIAL AND CAPITAL RESOURCES

During the year under review, the Group spent approximately HK\$15 million on fixed assets investments. These fixed assets investments were financed by retained profits and bank loans. The daily operating activities of the Group were funded by profit generated from operations and banking facilities.

The Directors believe that the financial position of the Group is sound and that the Group has adequate resources to meet its financial commitments in the foreseeable future. As at 31st March, 2005, the borrowings of the Group, which were either denominated in Hong Kong dollars or Chinese Renminbi amounted to approximately HK\$301 million (2004: HK\$284 million). Of this amount, approximately HK\$158 million (2004: HK\$164 million) was secured by mortgages over the Group's land, buildings and machinery and pledged bank deposits with an aggregate net book value of approximately HK\$195 million (2004: HK\$226 million). The gearing ratio (defined as total interest-bearing borrowings divided by total assets) of the Group as at 31st March, 2005 was approximately 47 % (2004: 45%).
