For the year ended 30 June 2005

#### 1. GENERAL

The Company was incorporated in the Cayman Islands as an exempted company with limited liability and its shares are listed on The Stock Exchange of Hong Kong Limited (the "Stock Exchange"). Its ultimate holding company is Talent Crown Investment Limited, incorporated in the British Virgin Islands ("BVI").

The Company is an investment holding company. Particulars of the activities of its principal subsidiaries are set out in note 14.

# 2. POTENTIAL IMPACT ARISING FROM THE RECENTLY ISSUED ACCOUNTING STANDARDS

In 2004, the Hong Kong Institute of Certified Public Accountants issued a number of new or revised Hong Kong Accounting Standards and Hong Kong Financial Reporting Standards ("HKFRSs") (herein collectively referred to as "new HKFRSs") which are effective for accounting periods beginning on or after 1 January 2005 except for HKFRS 3 "Business combinations". The Group has not early adopted these new HKFRSs in the financial statements for the year ended 30 June 2005.

HKFRS 3 is applicable to business combinations for which the agreement date is on or after 1 January 2005. The Group has not entered into any business combination for which the agreement date is on or after 1 January 2005. Therefore, HKFRS 3 did not have any impact on the Group for the year ended 30 June 2005.

The Group has commenced considering the potential impact of these new HKFRSs but is not yet in a position to determine whether these new HKFRSs would have a significant impact on how its results of operations and financial position are prepared and presented. These new HKFRSs may result in changes in the future as to how the results and financial position are prepared and presented.

## 3. SIGNIFICANT ACCOUNTING POLICIES

The financial statements have been prepared under the historical cost convention and in accordance with accounting principles generally accepted in Hong Kong. The principal accounting policies adopted are set out below:

#### **Basis of consolidation**

The consolidated financial statements incorporate the financial statements of the Company and its subsidiaries made up to 30 June each year.

All significant inter-company transactions and balances within the Group are eliminated on consolidation.

For the year ended 30 June 2005

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### **Investments in subsidiaries**

Investments in subsidiaries are included in the Company's balance sheet at cost less any identified impairment losses.

#### **Turnover**

Turnover represents the amounts received and receivable for goods sold, less returns and allowances during the year.

### Revenue recognition

Sales of goods are recognised when goods are delivered and title has been passed.

Interest income is accrued on a time basis, by reference to the principal outstanding and at the interest rate applicable.

## Property, plant and equipment

Property, plant and equipment, other than construction in progress, are stated at cost less depreciation and amortisation and accumulated impairment losses.

Depreciation and amortisation is provided to write off the cost of items of property, plant and equipment, other than construction in progress, over their estimated useful lives from the date on which they became fully operational, and after taking into account their estimated residual value, using the straight line method, at the following rates per annum:

Leasehold land Over the lease terms

Buildings10%Plant and machinery10%Leasehold improvements20%Furniture, fixtures, office equipment and motor vehicles20%

Construction in progress is stated at cost, which includes land cost and the related construction and borrowing costs, as appropriate, less any identified impairment loss. When the construction is completed and the asset is ready for its intended use, the related cost is transferred to an appropriate category of property, plant and equipment and depreciated in accordance with the above policy.

For the year ended 30 June 2005

# 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

## Property, plant and equipment (continued)

The gain or loss arising from disposal or retirement of an asset is determined as the difference between the sale proceeds and the carrying amount of the asset and is recognised in the income statement.

## Research expenditure

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

## Impairment

At each balance sheet date, the Group reviews the carrying amounts of its assets to determine whether there is any indication that those assets have suffered an impairment loss. If the recoverable amount of the asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, such that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised as income immediately.

## **Operating leases**

Rentals payable under operating leases are charged to the income statement on a straight line basis over the relevant lease terms.

# **Foreign currencies**

Transactions in foreign currencies are initially recorded at the rates of exchange prevailing on the dates of the transactions. Monetary assets and liabilities denominated in such currencies are re-translated at the rates prevailing on the balance sheet date. Profits and losses arising on exchange are dealt with in the income statement.

For the year ended 30 June 2005

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

## Foreign currencies (continued)

On consolidation, the assets and liabilities of the Group's overseas operations are translated at the rates prevailing on the balance sheet date. Income and expense items are translated at the average exchange rates for the year. Exchange differences arising, if any, are classified as equity and transferred to the Group's exchange reserve. Such translation differences are recognised as income or as expenses in the period in which the operation is disposed of.

#### Convertible notes

Convertible notes are separately disclosed and regarded as liabilities. The costs incurred in connection with the issue of convertible notes are deferred and are amortised over the period of the convertible notes so as to produce a constant periodic rate of charge on the remaining balances of the convertible notes for each accounting period. If any of the notes are purchased and cancelled, redeemed or converted prior to the final redemption date, an appropriate portion of any remaining unamortised costs will be charged immediately to the share premium account.

## **Taxation**

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the income statement because it excludes items of income and expense that are taxable or deductible in other years, and it further excludes income statement items that are never taxable or deductible.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences, and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

For the year ended 30 June 2005

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

## **Taxation (continued)**

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited in the income statement, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

#### Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is calculated using the weighted average method.

#### **Retirement benefit costs**

Payments to state-managed retirement benefit schemes and the Mandatory Provident Fund Scheme are charged as expenses as they fall due.

# 4. SEGMENT INFORMATION

No analysis on business segment is provided as substantially all the Group's turnover and contribution to profit from operations were derived from the manufacture and sale of finished woven fabrics. In addition, no geographical market analysis is provided as the Group's turnover and contribution to profit from operations were substantially derived from the People's Republic of China (the "PRC") and the assets are substantially located in the PRC.

The Company's share option scheme (the "Scheme") was adopted for the purpose of providing incentives and rewards to eligible participants for their contribution to the Group and/or to enable the Group to recruit and retain high-calibre employees and attract human resources that are valuable to the Group and any entity in which the Group holds any equity interest ("Invested Entity"). Eligible participants of the Scheme include the directors and employees of the Company, its subsidiaries or any Invested Entity, suppliers and customers, of the Group or any Invested Entity, any person or entity that provides research, development or other technological support to the Group or any Invested Entity, and any shareholder of any members of the Group or any Invested Entity or any holder of any securities issued by any members of the Group or any Invested Entity. The Scheme became effective on 10 September 2003 (the "Listing date") and, unless otherwise terminated or amended, will remain in force for 10 years.

At 30 June 2005, the number of shares in respect of which options had been granted and remained outstanding under the Scheme was 38,250,000, representing approximately 4% of the shares of the Company in issue at that date. The maximum number of shares which may be issued upon exercise of all outstanding share options granted and yet to be exercised under the Scheme and any other share option schemes adopted by the Group shall not exceed such number of Company's shares as equal to 30% of the issued share capital of the Company from time to time. The total number of shares which may be issued upon exercise of all share options to be granted under the Scheme and any other share option schemes of the Group must not in aggregate exceed 10% of the Company's shares in issue as at the Listing date. The number of shares in respect of which options may be granted to any individual in any one year is not permitted to exceed 1% of the shares of the Company in issue at any point in time, without prior approval from the Company's shareholders. Options granted to substantial shareholders or independent non-executive directors in excess of 0.1% of the Company's share capital or with a value in excess of HK\$5 million must be approved in advance by the Company's shareholders.

Options granted must be taken up within 28 days of the date of grant, upon payment of HK\$1 per option. Options may be exercised at any time from the date of grant of the share option to the 10th anniversary of the date of grant. The exercise price is determined by the directors of the Company, and will not be less than the higher of the closing price of the Company's shares on the date of grant, and the average closing price of the shares for the five business days immediately preceding the date of grant.

The financial impact of share options granted is not recorded in the Company's or the Group's balance sheet until such time as the options are exercised, and no charge is recognised in the income statement in respect of the value of options granted in the year. Upon the exercise of the share options, the resulting shares issued are recorded by the Company as additional share capital at the nominal value of the shares, and the excess of the exercise price per share over the nominal value of the shares is recorded by the Company in the share premium account. Options which lapse or are cancelled prior to their exercise date are deleted from the register of outstanding options.
