EMPLOYEES' RETIREMENT SCHEMES

During the year, the company operated two separate non-contributory defined benefit retirement schemes, namely, "China Motor Bus General Monthly Rated Staff Retirement Scheme" and "China Motor Bus Senior Executive Retirement Scheme" for its monthly rated and daily rated staff and senior executives respectively. Both schemes are formally established under trust and registered with the Registrar of Occupational Retirement Schemes. The assets of the schemes are held by an independent trustee, HSBC International Trustee Limited. The members' benefits are determined based on their final remuneration and length of service. The company's contributions to the schemes are made in accordance with the recommendations of independent actuaries who carry out actuarial valuations of the schemes at regular intervals, currently annually.

The actuarial valuation of the two defined benefit retirement schemes as at 30th June, 2005 showed that there were sufficient assets in each of the two schemes to cover the on-going liabilities of the schemes. The actuary of these schemes is Watson Wyatt Hong Kong Limited. In the actuarial valuations, the aggregate cost valuation method was used. The major assumptions used in these valuations were: Investment Return at 2.5% per annum; Salary Escalation at 2.5% per annum; and Normal Retirement Age 65. Other relevant information extracted from the valuations pertaining to these schemes is set out below:-

- (a) China Motor Bus General Monthly Rated Staff Retirement Scheme

 - (iii) The on-going basis funding surplus in the scheme was HK\$1,126,000.

Note: The obligations in respect of defined benefit retirement schemes in the financial statements are calculated using the projected unit credit method (see note 1(l)(iii) on the financial statements).

As from 1st December, 2000, the group also operates a Mandatory Provident Fund Scheme ("the MPF scheme") under the Hong Kong Mandatory Provident Fund Schemes Ordinance for employees employed under the jurisdiction of the Hong Kong Employment Ordinance and not previously covered by the defined benefit retirement schemes. The MPF scheme is a defined contribution retirement scheme administered by independent trustees. Under the MPF scheme, the employer and its employees are each required to make contributions to the scheme at 5% of the employees' relevant income, subject to a cap of monthly relevant income of HK\$20,000.

For the defined contribution retirement scheme, the contributions are expensed as incurred and may not be reduced by contributions forfeited by those employees who have left the scheme as all would be fully vested in the contributions.

COMMENTARY ON ANNUAL RESULTS

Revenue and Operating Profit

Turnover of the group for the year under review decreased to HK\$67 million from HK\$94 million in the previous year as a result of the reduction in rental income from the Chai Wan bus depot pending its future re-development. The profit after taxation attributable to shareholders decreased to HK\$196 million from HK\$241 million in the previous year. This mainly reflects the lower rental income, a reduction in write back of revaluation deficit of investment properties and a reduction of sales of properties of jointly controlled entities, partially offset by higher interest income.

The group has not undertaken the early adoption of the new accounting standard for investment property for the year. The group will adopt the new accounting standard for investment property in the year ending 30th June, 2006 as required. If the new standard had been applied, the group's profit attributable to shareholders for the year would have increased by approximately HK\$244 million, representing the revaluation surplus for the year net of deferred taxation.

Liquidity and Financial Resources

At 30th June, 2005, the group had no bank borrowing and had cash and cash equivalents of HK\$1,701 million which were held in the form of short term deposits or cash at bank and in hand.

For the year under review, net cash inflow from operating activities was HK\$28 million (2004: HK\$75 million). Payment for capital investment amounted to HK\$10 million (2004: HK\$30 million). Repayment of loans by and dividends from jointly controlled entities amounted to HK\$16 million and HK\$29 million respectively (2004: HK\$15 million and HK\$121 million respectively). The consolidated cash flow statement for the group for the year ended 30th June, 2005 is set out on pages 20 and 21 of this annual report.

Capital Expenditure and Commitments

Capital expenditure incurred during the year amounted to HK\$10 million.
