

Corporate Mission and Milestones

CORPORATE MISSION

China Agrotech, being the first company listed on the Growth Enterprise Market (“GEM”) of the Stock Exchange of Hong Kong and the first company to complete its change of listing from GEM to Main Board, is an advanced agricultural resources group specialised in agricultural technology research and development, bio-engineering, agricultural resources chains, crop science and international trading.

The 21st Century is an era of success through cooperation. China Agrotech continues to commit itself to the mission of “strong tying up with strong, to achieve success through mutual complement”, and professionally focuses and concentrates on the integration and development of the agricultural resources circulation sector in the PRC. China Agrotech has established an advanced agricultural resources value chain with “circulation as its core, technology-oriented, production as its foundation, technical services-based, and expansion to international trading”, which offers ample room for ongoing development.

In view of the rapid development of the PRC economy and unification of global economy, the PRC agricultural resources industry is faced with unprecedented challenges and opportunities. In order to enhance the industrialisation standard and competitiveness of the PRC agricultural resources industry, China Agrotech is eager to walk hand in hand with knowledgeable parties from all industries, to work towards building up an agricultural resources chain brand with the strongest competitive edges and potentials for growth in the PRC.
