

# Corporate Profile

V.S. International Group Limited (“Company”) and its subsidiaries (collectively referred to as the “Group”) and associated companies are operating seven manufacturing facilities in Zhuhai, Shenzhen and Qingdao respectively.

The Group continued to offer integrated manufacturing solutions that cover injection of plastic moulded products and parts, assembly of electronic products as well as design and fabrication of moulds. Though plastic injection and moulding business is currently its core business, the Group would focus on developing the assembly and mould design and fabrication businesses in view of their great potential for expansion, and they are expected to achieve escalating growth and contribute steady income to the Group in future.

By pooling strengths, sharing technology and skills with our business partners, the Group’s technical capabilities have been further sharpened. The Group is now better equipped to broaden its product range and geographical reach. The Group is therefore, confident in achieving its ultimate goal of becoming a leading integrated Electronics Manufacturing Service (“EMS”) provider in the Peoples’ Republic of China (“PRC”).
