

We Make **Values** Visible

Staying ahead of the game just like our cutting-edge display technology, Varitronix has a refreshing corporate logo and business philosophy to hone our competitive edge and create a new era of our own.

The “V” not only stands for Varitronix, but also embodies our drive for Victory – both in the quality of our products and our service to customers.

The plus symbol represents our goal to add value to our customers through tailor-made comprehensive solutions. Red, green and blue – the elementary colours of light – reflect our commitment to pushing the frontier of colour display technology.
