### Chairman's Statement

#### **BUSINESS REVIEW**

Continuing the impressive performance in previous years, Xinyi Glass Holdings Limited (the "Company") and its subsidiaries (the "Group") recorded a remarkable business growth for the period ended 30 June 2006. Turnover and net profit reached HK\$701.6 million and HK\$140.0 million, respectively, representing a year-on-year increase of 16.6% and 24.6% as compared to HK\$601.5 million and HK\$112.4 million in the six months ended 30 June 2005.

#### **BUSINESS OUTLOOK**

2006 is another milestone year for the Group. In addition to achieving significant turnover growth in the first half of the year, we continue to be the largest automobile glass and windshield exporter in PRC, a position we have been maintaining since 2004.

We achieved impressive growth in the first half of 2006. Our turnover grew by approximately 16.6% to approximately HK\$701.6 million. This was primarily due to the substantial increase of sales of the Group's automobile glass products to overseas markets, such as North America, Europe, Australia and New Zealand. Our worldwide marketing strategy has successfully strengthened our long-term partnership with selected automobile manufacturers and wholesalers in different regions that contributed to the significant growth during the period.

Our construction glass business also experienced healthy improvement with operating result increased by 65.4% to approximately HK\$30.1 million. This was a result of our continued efforts to strengthen our distribution network, improve our product quality and production efficiency. The market trend of using environmental friendly and energy saving low emission coated glass, as advocated in the "Eleventh Five Years Plan" of PRC, also contributed to the positive segmental result.

The 700 tonnes high quality float glass line started its commercial production in June 2006 while the 500 tonnes automobile glass grade float glass line will start its commercial production in third quarter of the year. Running a vertical integrated of float glass production, the Group has better control on cost and logistics on its quality float glass supply and is able to widen its product mix.

With oil price standing persistently high, people are looking for more economical and environmental energy resources and solar energy appears to be the most abundant and clean. We believe the new investment in ultra-clear photovoltaic glass production which supplies transparent glass cover on the solar panels in solar energy systems would generate promising return in coming years. The project cost is estimated to be approximately HK\$450.0 million and is expected to commence production in the fourth quarter of 2007.

### Chairman's Statement

To safeguard our leadership in the global glass market, we have set up a new Research and Development Centre to enhance our product quality and product mix, and to explore new product trends. The centre is headed by Mr. J. J. YANG who is one of the leading national experts in the glass industry. Solar X, the latest self developed automobile glass, will set a new benchmark for the industry.

Looking ahead, the Group foresees a healthy growth for both aftermarket automobile glass and construction glass in PRC and overseas. In particular, our Directors believe that the overseas automobile glass market will continue to grow as more major international glass manufacturers keep outsourcing their production to manufacturers in the PRC. We have established closed partnerships with our major overseas customers in order to implement our worldwide market strategy. We will also focus on exploring new overseas customers in Europe, Middle East, Japan and Asia where we have lot of room to expand.

At the same time, we are positive about our business prospects in PRC. New OEM customers in automobile and bus windshield sector will be the major contributors to the healthy growth in the PRC. They will continue to be our revenue drivers in the future. We also expect the sales of low-emission glass, our prime construction glass product, to increase as it continues to gain popularity.

#### LEE Yin Yee

Chairman

Hong Kong, 31 August 2006

#### **Financial Review**

#### **OPERATIONAL REVIEW**

#### **TURNOVER**

The turnover growth was mainly attributable to the significant surge in automobile glass sales to North America at a considerable increase in orders from several major customers in the automobile glass aftermarket in the region. Our sales to North America increased by approximately HK\$80.9 million, or 39.4% in compare with the six months ended 30 June 2005. The North America continued to be our largest overseas market.

In addition, the approximately HK\$22.8 million increase in domestic sales in Mainland China (the "PRC") also contributed significantly to our overall turnover growth. The growth in PRC was mainly attributable to the growth of our automobile glass business, thanks in particular to orders from our major OEM customers.

#### **GROSS PROFIT**

Our cost of sales for the six months ended 30 June 2006 increased by approximately 13.2%, alongside the increase in turnover. Our gross profit was approximately HK\$254.7 million for the period ended 30 June 2006, representing an increase of approximately 23.3% compared with the same period in 2005. Our overall gross profit margin increased slightly from approximately 34.3% in 2005 to approximately 36.3% in 2006. The increase in overall gross margin was mainly due to our better cost control, improving production efficiency and better product mix (i.e. more profitable low-emission construction glass sold) in the first half of the year.

#### OTHER GAIN

Our other gain was approximately HK\$19.0 million for the six months ended 30 June 2006, compared to approximately HK\$8.7 million in the same period in 2005. The increase was mainly attributable to the increase in government grants received in PRC under the "tax refund on reinvestment" scheme. For the six months ended 30 June 2006, we received approximately HK\$7.2 million government grants, representing an increase of approximately HK\$3.0 million over the amount for the six months ended 30 June 2005. We expect more government grants to be approved and received in second half of the year.

## EARNINGS BEFORE INTERESTS AND TAXES ("EBIT") AND OPERATING PROFIT

Our EBIT increased by approximately 15.7% for the six months ended 30 June 2006 as compared to the same period in 2005, which was in line with our increase in turnover and operating profit.

#### **TAXATION**

Our taxation was HK\$7.2 million for the six months ended 30 June 2006. Our effective tax rate decreased significantly by approximately 33.9% to approximately 4.9% as more of our new subsidiaries in PRC are eligible for the tax exemption scheme this year.

#### **NET PROFIT FOR THE PERIOD**

Our net profit for the six months ended 30 June 2006 was approximately HK\$140.0 million, representing an increase of approximately 24.6%, compared with the same period in 2005. Our net profit margin for the period increased from approximately 18.7% from 2005 to approximately 20.0%. The improvement was the result of our better cost control and improving production efficiency.

#### THE PLACING

We raised a net proceed of approximately HK\$186.3 million through the issue and allotment of 61,718,000 new Shares, representing approximately 4.0% and 3.8% of our issued share capital immediately before and after the placing and subscription, in June 2006. Such net proceeds would be used to provide part of the funding for the investment in the production facilities of Xinyi Ultra-clear Photovoltaic Glass (Dongguan) Company Limited. Such placing broadened the Group's shareholder base and capital base, and increased the liquidity of our Shares.

#### **CAPITAL EXPENDITURE**

For the six months ended 30 June 2006, a total of HK\$214.5 million had been used to purchase machinery and equipment, construct factories and establish float glass production lines in our Dongguan production complex, and also to renovate in our Shenzhen production complex.

#### FINANCIAL RESOURCES AND LIQUIDITY

In 2006, our primary source of funding included cash generated from operating activities, share placement and credit facilities provided by our principal banks in Hong Kong and PRC. As at 30 June 2006, our net cash inflow from operating activities amounted to approximately HK\$128.1 million (2005: HK\$46.7 million). During the same period, we had balances of cash and bank overdrafts of approximately HK\$131.5 million (2005: approximately HK\$182.1 million).

### **Financial Review**

Our total bank borrowings as at 30 June 2006 were approximately HK\$333.2 million. Our gearing ratio, as calculated by dividing total bank borrowings by total shareholders' equity, increased to approximately 16.7% as compared to the same period in 2005 which was mainly due to increase in bank borrowings for the capital expenditure during the period.

## TREASURY POLICIES AND EXPOSURE TO FLUCTUATIONS IN EXCHANGE RATES

Our transactions are mainly denominated in Renminbi, United States dollars and Hong Kong dollars with operations mainly in the PRC. As at 30 June 2006, our bank borrowings were denominated in Renminbi and Hong Kong dollars with interest bearing at rates ranging from 4.7% to 5.4% per annum. Our exposure to foreign exchange fluctuations was minimal. We have not experienced any material difficulties and there was not any impact on our operations or liquidity as a result of fluctuations in currency exchange rate. We may use financial instrument for hedging purpose when considered appropriate.

#### **EMPLOYEES AND RENUMERATION POLICY**

As at 30 June 2006, we had 4,542 full-time employees of which 4,508 were based in the Greater China and 34 were based in overseas. We have always maintained a good relationship with our employees and have provided training to our staff on business knowledge including application of the Group's products and skill to maintain client's relationship. Remuneration packages offered to staff are in line with prevailing market terms and are reviewed on a regular basis. Discretionary bonuses may be rewarded to employees after assessment of the Group's and the individual's performance.

We have participated in state-sponsored defined contribution retirement schemes which are administrated by the relevant government authorities in the PRC for our PRC based employees. For our Hong Kong based employees, we have also set up retirement schemes in accordance with the mandatory provident fund requirements prescribed by the Mandatory Provident Fund Schemes Ordinance.

We also adopted a share option scheme on 18 January 2005 for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. The Directors may at their discretion, invite any employees or Directors and other selected participants as set out in the scheme, to subscribe for Shares in the Company. For the period up to the date of this report, 8,520,000 share options have been granted under the share option scheme and 7,950,000 share options were outstanding as at 30 lune 2006

#### 1 GENERAL INFORMATION

The Company and the Group is principally engaged in the production and sales of automobile, construction and float glass products, which are carried out internationally, through production complexes located in the PRC.

The Company was incorporated in the Cayman Islands on 25 June 2004 as an exempted company with limited liability under the Company Law, Chapter 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Island (the "Cayman Companies Law"). The ordinary shares of the Company were listed on the Main Board of the Stock Exchange of Hong Kong Limited (the "Stock Exchange") since 3 February 2005.

The unaudited condensed consolidated interim financial information for the six months ended 30 June 2006 is presented in Hong Kong dollars, which is the same as the functional currency of the Company.

The address of the principal place of business in Hong Kong is 95-99 Fuk Hi Street, Yuen Long Industrial Estate, Yuen Long, New Territories, Hong Kong.

This unaudited condensed consolidated interim financial information is presented in thousands of units of Hong Kong dollars (HK\$'000), unless otherwise stated and has been approved for publication by the Board of Directors on 31 August 2006.

#### 2 BASIS OF PREPARATION

This unaudited condensed consolidated interim financial information for the six months ended 30 June 2006 has been prepared in accordance with Hong Kong Accounting Standard ("HKAS") 34, 'Interim financial reporting' and should be read in conjunction with the annual financial statements for the year ended 31 December 2005.

(All amounts in Hong Kong dollar thousands unless otherwise stated)

#### 3 ACCOUNTING POLICIES

The accounting policies adopted are consistent with those of the annual financial statements for the year ended 31 December 2005.

The following new standards, amendments to standards and interpretations are mandatory for financial year ending 31 December 2006.

- Amendment to HKAS 39, Amendment to "The fair value option", effective for annual periods beginning on or after 1 January 2006. This amendment does not have any impact on the classification and valuation of the Group's financial instruments classified as at fair value through profit or loss prior to 1 January 2006 as the Group is able to comply with the amended criteria for the designation of financial instruments at fair value through profit and loss;
- Amendment to HKAS 21, Amendment "Net investment in a foreign operation", effective for annual periods beginning on or after 1 January 2006. This amendment is not relevant for the Group;
- Amendment to HKAS 39 and Hong Kong Financial Reporting Standards ("HKFRS") 4, Amendment "Financial guarantee contracts", effective for annual periods beginning on or after 1 January 2006. This amendment is not relevant for the Group;
- Hong Kong (International Financial Reporting Interpretations Committee)Interpretations ("HK(IFRIC)-Int") 4, "Determining whether an arrangement
  contains a lease", effective for annual periods beginning on or after 1 January
  2006. The Group has reviewed its contracts. Some of them are required to be
  accounted for as leases in accordance with HKAS 17, "Leases". However, these
  leases are operating leases, and their reclassification has had no impact on the
  expense recognised in respect of them;

(All amounts in Hong Kong dollar thousands unless otherwise stated)

#### **3 ACCOUNTING POLICIES** (Continued)

The following new standards, amendments to standards and interpretations have been issued but are not effective for 2006 and have not been early adopted:

- HK (IFRIC)-Int 7, "Applying the Restatement Approach under HKFRS 29", effective for annual periods beginning on or after 1 March 2006. Management do not expect the interpretation to be relevant for the Group;
- HK (IFRIC)-Int 8, "Scope of HKFRS 2", effective for annual periods beginning on or after 1 May 2006. Management is currently assessing the impact of HK (IFRIC)-Int 8 on the Group's operations;
- HK (IFRIC)-Int 9, "Reassessment of Embedded Derivatives", effective for annual
  periods beginning on or after 1 June 2006. Management believes that this
  interpretation should not have a significant impact on the reassessment of
  embedded derivatives as the Group already assess if embedded derivative should
  be separated using principles consistent with HK (IFRIC)-Int 9; and
- HKFRS 7, "Financial instruments: Disclosures", effective for annual periods beginning on or after 1 January 2007. HKAS 1, "Amendments to capital disclosures", effective for annual periods beginning on or after 1 January 2007. The Group assessed the impact of HKFRS 7 and the amendment to HKAS 1 and concluded that the main additional disclosures will be the sensitivity analysis to market risk and capital disclosures required by the amendment of HKAS 1. The Group will apply HKFRS 7 and the amendment to HKAS 1 from annual periods beginning 1 January 2007.
