## Chairman's Statement

2006 is our 20th Public Listing Anniversary Year, and we are proud to have presented a record of multiple growth and an expanded business horizon over the past two decades. A record which was made possible by the professional service of our 12,000 dedicated men and women, and one which we are honoured to share with all our shareholders.

While we are celebrating this commemorative event, we remain committed and attentive to our businesses for enhancing shareholders' value. As of today, I am glad to report another encouraging interim results with profit attributable to shareholders amounting to HK\$151 million for the six months ended 30th September, 2006, representing a 12% increase over the corresponding period of last year. At the same time, turnover for the six months' periods grew by 17% to HK\$1.87 billion.

The Board resolved to enhance return to our shareholders again by distributing an interim dividend of 12 HK cents per share.

### HONG KONG BUSINESS PLATFORM

In the months under review, we witnessed a gradual slow-down in rental pressure in the retail arena in Hong Kong, coupled with an improved spending sentiment in the restaurant sectors. Riding on this positive business environment and leveraging on our branding power, our **Café de Coral** accelerated its branch development program by opening 6 more stores during this 6 months period, which also included an outlet in the tourist attraction of the Hong Kong Wetland Park, making the total number of **Café de Coral** restaurants in Hong Kong reaching the historic high of 130 outlets as of today.

In addition to the turnover increase as brought on by the new outlets, much of the organic growth in our core restaurant business was derived from our various successful product launches and marketing campaigns, our brand popularity among the mainlanders' visits and the success of our "Club 100" customer loyalty program, which have by and large resulted in this year's encouraging volume increase and margin improvement.

Other than our core businesses in the quick service and the specialty restaurants, our **Luncheon Star** has also gradually evolved into an undisputed market leader in the school catering sector. During the period under review, **Luncheon Star** continued with its growth momentum in terms of additional number of school clienteles and the total number of meal boxes offered. To cope with its business expansion, we have relocated some of our existing central food processing facilities in Shatin to our 50,000 sq. ft. new production plant in Tai Po, thereby freeing the required production space for this growing business while adding on another 5 satellite reheating centers for its distribution logistics.

### PRC BUSINESS PLATFORM

Our expansion initiative in the China market is both multi-regional and multi-directional. As of today, the total number of operating units in the China market is well over 127. In Southern China, we continued with our proactive expansion initiative of **Café de Coral**, adding a total of 4 operating units in the Pearl River Delta region alone, bringing the total number of this branded restaurant in the region to 26.

To tap the fast growing market in Southern China, we also deployed a multi-location strategy to fuel our expansion initiative in the region under different household brands. Our **Café de Coral** stores are now geographically spreading over different first and second tier cities in the region and we expect to have another 5 new **Café de Coral** fast-food restaurants in China in the 2nd half of this year. We also envisage both **The Spaghetti House** and **Asia Pacific Catering** would further establish their presence by opening more units in the region.

In Eastern China, after implementing various value-added business improvement initiatives in the areas of operational control, purchasing and product development, marketing campaigns, staff training and store renovation, the performance of our 50% owned restaurant chain **New Asia Dabao** improved with a high single-digit top-line growth during the period. Other than the lower pricing model of our **New Asia Dabao**, we have also adopted a two-pronged market penetration strategy by also opening **Café de Coral** restaurants in the region in order to tap into the mass market segment. While we envisage it may take some time for our joint venture business to build up a meaningful profitability in this area, and may have incurred certain one-off preliminary opening expenses and development costs in building up its branding presence, we are positive and committed on this development platform as it presents us a sizeable potentials for our growth in Eastern China.

On another front, I am glad to report that a joint-venture business has recently been established in Xian, for purpose of diversifying our food manufacturing and distribution business from pork to also that of beef. This joint venture business not only improves our own material supply but it also opens up another avenue of product stream in the packaged food business, adding strength to our established ham and sausage manufacturing business.

## Chairman's Statement

### NORTH AMERICA BUSINESS PLATFORM

After acquiring the remaining interests in **Manchu Wok** last October, we have proactively implemented a series of measures to rationalize the cost structure and enhance the business performance of this sizeable business platform in North America. Other than the financial restructuring in terms of loan reduction and foreign exchange risk mitigation, we have also undertaken new development initiative in the form of master franchises. This new development drive enabled us to open new stores in non-traditional areas such as casinos, airports, university campuses and military bases, which has in turn broadened our franchise royalty income stream.

Since the completion of our takeover, we have witnessed encouraging business improvement in **Manchu Wok** as compared to the corresponding period of last year, albeit on an already enlarged equity base. Notwithstanding that **Manchu Wok** still recorded a loss for the period under review, we are positive that the substantial loss reduction as currently reported is an indication that we are clearly heading in the right direction towards a break-even situation for this major business in North America.

### LOOKING AHEAD

With today's improved economy and consumer sentiment, we are optimistic on the future development and margin performance of our core businesses in Hong Kong, be it in the fast food, specialty restaurant or the catering sector.

In respect of the other business platforms here in the Greater China region or overseas, it is our objectives to enhance shareholders' value by adopting different strategic imperatives, unlocking the vast growth potentials presented to us. In the second half of the year, we are confident that our shareholders would soon come to appreciate the efforts being made in all our business platforms for enhancing their value. I hope the forthcoming results would speak for themselves.

By order of the Board  
**Chan Yue Kwong, Michael**  
*Chairman*

Hong Kong, 5th December, 2006

These condensed consolidated interim financial information should be read in conjunction with the 2006 annual financial statements for the year ended 31st March, 2006.

### 3 ACCOUNTING POLICIES

The accounting policies adopted are consistent with those of and as described in the annual financial information for the year ended 31st March, 2006.

The following new standards, amendments to standards and interpretations are mandatory for financial year ending 31st March, 2007.

- Amendment to HKAS 19, 'Actuarial gains and losses, group plans and disclosures', effective for annual periods beginning on or after 1st January, 2006. The Group decided to retain its former accounting policy regarding the recognition of actuarial gains and losses.
- Amendment to HKAS 39, 'The fair value option', effective for annual periods beginning on or after 1st January, 2006. This amendment does not have any impact on the classification and valuation of the Group's financial instruments classified as at fair value through profit or loss prior to 1st January, 2006 as the Group is able to comply with the amended criteria for the designation of financial instruments at fair value through profit and loss.
- Amendment to HKAS 21, 'Net investment in a foreign operation', effective for annual periods beginning on or after 1st January, 2006. The amendment to this standard does not result in substantial changes to the Group's accounting policies.
- Amendment to HKAS 39 and HKFRS 4, 'Financial guarantee contracts', effective for annual periods beginning on or after 1st January, 2006. The amendment to this standard does not result in substantial changes to the Group's accounting policies.
- HK(IFRIC)-Int 4, 'Determining whether an agreement contains a lease', effective for annual periods beginning on or after 1st January, 2006. This interpretation does not result in substantial changes to the Group's accounting policies.

### 3 ACCOUNTING POLICIES *(Continued)*

The following new standards, amendments to standards and interpretations have been issued but are not effective for 2006 and have not been early adopted:

- HK(IFRIC)-Int 7, 'Applying the Restatement Approach under HKAS 29', effective for annual periods beginning on or after 1st March, 2006. Management does not expect the interpretation to be relevant for the Group;
- HK(IFRIC)-Int 8, 'Scope of HKFRS 2', effective for annual periods beginning on or after 1st May, 2006. Management is currently assessing the impact of HK(IFRIC)-Int 8 on the Group's operations;
- HK(IFRIC)-Int 9, 'Reassessment of Embedded Derivatives', effective for annual periods beginning on or after 1st June, 2006. Management believes that this interpretation should not have a significant impact on the reassessment of embedded derivatives as the Group already assess if embedded derivative should be separated using principles consistent with HK(IFRIC)-Int 9; and
- HKFRS 7, 'Financial instruments: Disclosures', effective for annual periods beginning on or after 1st January, 2007. HKAS 1, 'Amendments to capital disclosures', effective for annual periods beginning on or after 1st January, 2007. The Group assessed the impact of HKFRS 7 and the amendment to HKAS 1 and concluded that the main additional disclosures will be the sensitivity analysis to market risk and capital disclosures required by the amendment of HKAS 1. The Group will apply HKFRS 7 and the amendment to HKAS 1 from annual periods beginning 1st January, 2007.

The Previous Scheme was terminated upon the passing of a shareholders resolution for adoption of another share option scheme on 19th September 2000 (the “Scheme”). Accordingly, no options can be granted under the Previous Scheme as at the date of this report. For options granted under the Previous Scheme, the exercise price in relation to each option was determined by the board of directors of the Company, but in any event would be the higher of (i) the nominal value of the shares of the Company or (ii) an amount which is not less than 80% nor more than 100% of the average of the closing price of the shares as stated in The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) daily quotations sheets for the five business days immediately preceding the date of offer of the option. The exercise period and the vesting period of the options were also determined by the board of directors and the options shall expire at the end of a 5-year period after the options become exercisable.

## 20 SHARE OPTIONS (Continued)

The exercise period and the vesting period of the options were also determined by the board of directors and the option expire at the end of a 5-year period after the options become exercisable save that such period shall not expire later than 10 years from the date of grant.

This year marks the Group's 20<sup>th</sup> anniversary since its public listing on The Stock Exchange of Hong Kong in July, 1986. Over the past two decades, the Group advanced in strides in profit performance and in its business dimensions. As I recalled at the time of its listing in 1986, the Group operated only 32 restaurants with a net profit of approximately HK\$37.2 million. I am proud as of today, to report that the Group has a total of 562 operating units covering various geographical regions around the globe, with profits attributable to shareholders amounts to a historical high of HK\$320 million for the year ended 31<sup>st</sup> March 2006. The continuous business growth records over the years speak for itself, recording multiple growth in terms of market capitalization, turnover, profits, employees and net assets value. A record which we are proud to share with our shareholders and one which our men and women have dedicated so much to make it possible.
