

## THE ATTENTION TO DETAIL, THE CARE FOR EACH PRODUCT, THE MEANING OF SATISFACTION: RESPONSIBILITY

—

All lifestyle essentials are coming together: Timepieces. Jewelry. Shoes. Sunglasses. Bags & Belts. High-tech textiles and finest porcelain. Never before has the EganaGoldpfeil Group's portfolio contained a more diverse range of products and services covering such a variety of market segments in so many countries. But whatever we do and wherever we are, there is one awareness that all our efforts have in common: that of our responsibility. Because the one thing being expected from us – no matter which product and no matter where – is satisfaction. Consumers all around the world buy our goods and do not only expect to wear, use and enjoy them, but also to feel this certain satisfaction that can be instant or can accumulate over time, the well-being made possible through a perfect combination of quality, design and price. It is our responsibility to anticipate and fulfill this desire – that is why we care for each and every product, that is why we make the best use of our employees' talents, that is why we strive to become ever better.

Every success we achieve also means a promise to deliver more. Promises we vow to keep, no matter what.
