Corporate Profile

Solomon Systech (International) Limited and its subsidiaries as a Group, is a leading semiconductor company providing display IC products on an international basis under its own global brand. Adopting a "fabless" business model, the Group specializes in the design, development and sales of proprietary IC products that enable a wide range of display applications in mobile phones, computer monitors, LCD TVs and other innovative consumer products.

The Group has a high caliber and experienced design team in Mixed Mode High Voltage System-On-Chip (HV-SoC) IC design. It produces highly integrated IC products in 2 main areas, namely Display Panel and Display System, for mobile display, large display and new display applications.

Being a global market leader in mobile display ICs, the Group produces a broad portfolio of driver ICs that supports all mainstreams display technologies such as LCD and OLED. The Group also champions leading ICs in new display markets including bistable display drivers for electronic paper, controllers for microdisplay and interface solutions for high speed video display connectivity. Thanks to its ability to quickly and successfully commercialize new product ideas, the Group has a competitive edge over its rivals in the fast-moving flat panel display area.

The Group serves many blue-chip clients and has received numerous awards from its customers, suppliers, industrial organizations as well as the investment community. The Company's shares were listed on the Main Board of the Stock Exchange of Hong Kong Limited on 8 April 2004 (HKSE: 2878). As at the end of 2006, it had a workforce of approximately 400 employees.
