

# Investor Relations

The Group committed efforts in providing the latest updates on our development strategies, operation management, financial information and business progress for investors. The Group leveraged on various channels and platforms including its annual and interim results announcements, press conferences and analysts briefings, and different kinds of industry conferences to ensure timely release of important messages. The group releases important events regarding results announcements, operation and financing activities to investors through its website: [www.coli.com.hk](http://www.coli.com.hk) on a timely basis.

The management of the Group meets with analysts, investors and media regularly to provide updates on our latest development strategies and operations and responds to enquiries from investors. In 2006, the management of the Group received over 400 visits by investors, arranged more than 100 times for investors to visit our property projects, and participated in over 20 overseas and local promotion conferences organized by leading investment banks in US, Europe, Singapore, Hong Kong and PRC. Through the activities, transparency in our business operation was enhanced, corporate governance was improved, and our investors around the globe can have access to the latest updates on the Group in an accurate, complete and timely manner.
