

CORPORATE SOCIAL RESPONSIBILITY

Sustainability, Employees and the Community

Lei Shing Hong is committed to fulfilling its environmental and social obligations as a socially responsible corporate citizen. In addition adhering to ethical business practices, the Group is also dedicated to fostering and nurturing a professional workforce.

Environment

The Group adheres to global environmental standards and adopts these initiatives through the major brands that it represents.

DaimlerChrysler has defined specific sustainability goals as part of its commitment to being a socially responsible corporate citizen. With regards to the environment and ecology, DaimlerChrysler is positively dedicated to improving its rating and ranking position in the Dow Jones Sustainability Index, with clear objectives to reduce fleet fuel consumption, lower CO₂ emissions in US production plants, further develop fuel cell vehicles, reduce particulate and nitrogen oxide emissions, as well as promote environmental management.

Caterpillar is focused on achieving sustainable development by minimising the impact of its products on the environment, making best use of the world's resources and providing strong global leadership in environmental sustainability.

Community Service

The Group firmly believes in maintaining its standing as a good corporate citizen and has promoted a number of worthy causes during the course of the year. Contributions have been made to a variety of charitable organisations, often in conjunction with fundraising events organised by Lei Shing Hong's various business groups.

Employment Policy

Lei Shing Hong is dedicated to fostering the development and growth of its own workforce. The Group recognises the importance of maintaining a professional and motivated staff. Competitive remuneration packages are offered by the Group to attract and retain the highest quality employees. The Group also works closely with vocational schools to provide summer interns work experience and exposure and career opportunities.
