

Past

Over the years, we have built and laid a strong foundation...

1968

Tianjin Second Stevedoring commenced operations

1980

Tianjin Container was incorporated, becoming the first container port in China

1996

Tianjin Container obtained ISO9002-1994 quality certification

1986

The grain handling facilities were constructed, becoming one of the principal channels for the import and export of grains in northern China

1997

Tianjin Development was listed on the Main Board of the Hong Kong Stock Exchange. The business engaged by the company was one of the principal businesses of the Tianjin Development

Present

...for ever-stronger growth in the future

2001

Renovation of container port was completed with designed capacity raised to 1.6 m TEUs, capable of docking and handling container vessels of 10,000 TEUs

2004

Installed a new operational system (3C2S) that linked computers, communications control system, global positioning system (GPS) and geographic information system (GIS)

The second phase of grain terminal construction project was completed, increasing the grain storage capacity to 110,000 tonnes

2002

Started using advanced container terminal production and management software licensed from COSMOS N.V.

Two berths originally designed for non-containerised cargoes of Tianjin Second Stevedoring were converted into one container berth, with a designed capacity of 320,000 TEUs

2006

Successfully listed in the Hong Kong Stock Exchange in May and raised a total of HK\$1.26 billion.

Signed agreement with COSCO and APMT in Tianjin Port Euroasia International Container Terminal Co. Ltd. (Beigangchi Phase B Project) in Tianjin
