4 Income

(a) Transaction fee

With effect from 1st June 2006, the transaction fee with respect to the creation and redemption application has been reduced from HK\$30,000 per application to HK\$15,000 per total aggregate creation and redemption application per day per Participating Dealer. Prior to 1st June 2006, the Fund was entitled to receive a transaction fee of HK\$30,000 per application for the creation or redemption of units.

(b) Other income

Other income represents registrar charges levied on unitholders (other than HKSCC Nominees) who hold units registered in their own names as at each Record Date for the relevant distribution. Currently, these charges amount to HK\$80 per year per unitholder. Such charges are deducted on a half-yearly basis from the half-yearly distributions payable to the relevant unitholders.

5 Number of units in issue and net assets attributable to holders of redeemable units

In accordance with the provisions of the Fund's Trust Deed, listed investments and investments with prices quoted in over the counter markets or by market makers are stated at the last traded price on the valuation day for the purpose of determining net asset value per unit for creations and redemptions and for various fee calculations. However, the accounting policy of the Fund for the purpose of compliance with HKAS 39 and for reporting purpose is to value its investments at the relevant bid market prices on the Statement of Net Assets date. The difference between the valuation of these investments as stated in the condensed financial statements and the valuation methodology indicated in the Fund's Trust Deed, results in a decrease in value of investments by HK\$11,544,505 as at 30th June 2007 (as at 31st December 2006: HK\$8,630,309). The amount of the adjustment recognized in the Condensed Statement of Operations is HK\$2,914,196 (for the period ended 30th June 2006: HK\$44,452,288).

Net assets attributable to holders of redeemable units at last traded market prices represent a liability in the Condensed Statement of Net Assets, carried at the redemption amount that would be payable at the period end date if the unitholders exercised the right to redeem the units in the Fund.

9 Major non-cash transactions

In accordance with the Fund's Trust Deed and since the termination of the Tap agreement, units can only be issued through an in-kind creation of an Index Basket and not through a cash subscription. For each Creation Unit (of 1,000,000 units), the Fund receives an Index Basket consisting of constituent shares as determined by the Manager on a daily basis. During the period, the Fund did not issue any units (for the period ended 30th June 2006: nil) in exchange for Index Baskets by the Manager.

In accordance with the Fund's Trust Deed, units are redeemed in-kind with the remaining balances in cash and are not redeemable for cash only. During the period, the Fund redeemed 95,000,000 units (for the period ended 30th June 2006: 248,000,000 units) in exchange for Index Baskets consisting of investments valued at HK\$1,938,701,943 (for the period ended 30th June 2006: HK\$4,037,035,421) by the Manager with remaining balances in cash, totaling HK\$1,948,178,713 (for the period ended 30th June 2006: HK\$4,061,203,155).

For the avoidance of doubt, such goods and services may not include travel, accommodation, entertainment, general administrative goods or services, general office equipment or premises, membership fees, employees' salaries or direct money payments.

12 Financial risk management

The objective of the Fund is to provide investment results that closely correspond to the performance of the index. The risk exposures inherent in the Fund as at 30th June 2007 are summarized below.

(a) Market price risk

The Fund's investments are subject to the securities price risk inherent in all securities i.e. the value of holdings may fall as well as rise. The Fund's market price risk is managed through diversification of investment portfolio.

(b) Credit risk

Credit risk is the risk that an issuer or counterparty will be unable or unwilling to pay amounts in full when due.

The Fund's financial assets which are potentially subject to concentrations of credit risk consist principally of securities and bank balances.

The Fund limits its exposure to credit risk by transacting the majority of its securities and contractual commitment activity with well established broker-dealers, banks with high credit ratings and regulated exchanges that the Fund considers to be well established.

All transactions in securities are settled / paid for upon delivery using approved and reputable brokers. The risk of default is considered minimal since delivery of securities sold is only made once the broker has received payment. On a purchase, payment is made once the securities have been received by the broker. If either party fails to meet its obligation, the trade will fail.

Accordingly, the Fund has no signification concentration of credit risk.

Interim Report 2007

Notes to the Unaudited Condensed Financial Statements (Continued)

12 Financial risk management (Continued)

(c) Interest rate risk

The Fund is exposed to a minimal interest rate risk as the Fund invests mainly in equity securities and only the bank balances are exposed to interest rate risk which is considered to be minimal.

(d) Currency risk

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates.

The Fund has no significant currency risk because substantially all assets and liabilities are denominated in Hong Kong Dollars, the Fund's functional and presentation currency.

(e) Fair values of financial instruments

The Fund's carrying amounts of securities, other assets and liabilities approximate to their fair values. Other assets and liabilities include bank balances, other receivables and payables which are realized or settled within a short period of time.
