In preparing the financial statements, the Board has adopted generally accepted accounting standards in Hong Kong and suitable accounting policies and applied them consistently, made judgements and estimates that are prudent, fair and reasonable and prepared the financial statements on a going concern basis. The Board has the responsibility to ensure that the Company maintains sound and effective internal controls to safeguard the interest of the Company and its shareholders.

Based on a guidance (namely, Internal Control and Risk Management – A Basic Framework) issued by the Hong Kong Institute of Certified Public Accountants in June 2005, the Company has enhanced its internal control function by integrating thereto a comprehensive risk management framework which aims to provide reasonable assurance against material errors, losses or fraud. The concepts and practical procedures of the framework are spelled out in the Company's Guideline on Risk Management for the reference of all major business operations and departments to encourage a risk aware and control conscious environment throughout the Group.

Under the Group's internal control and risk management framework, twice a year each major operation unit or department identifies major risks, assesses and evaluates the risks according to their likely impact and the likelihood of occurrence and develops effective control activities to mitigate the risks. The results of such risks assessment, evaluation and mitigation of each operation unit or department are summarized in a standard and consistent manner for the Internal Audit Department's review. Depending on the nature and exposure of the risks of individual operation units or departments, the Internal Audit Department may perform further operational and financial reviews, make recurring and impromptu site investigations on selected risk areas to ensure the effectiveness of the control activities developed by the relevant operation units or departments. The findings by the Internal Audit Department on the weakness of control activities are communicated with the operation units or departments concerned. Relevant control activities will be enhanced and post-audit review may be conducted, where appropriate. The Internal Audit Department will summarize the results which will be reported to the Audit Committee, whom will then report to the Board.

During the year, the Board has reviewed the Company's systems of internal controls and risk management and was satisfied that the systems are effective and adequate for their purposes.
