### **Chairman's Statement**

Dear Shareholders:

On behalf of the Board of Directors, I am pleased to present the annual report of Global Flex Holdings Limited (the "Company", together with its subsidiaries, the "Group") for the year ended 31 December 2007.

#### **BUSINESS REVIEW**

The Company's principal activity is investment holdings whilst its subsidiaries are mainly engaged in manufacturing and trading of printed circuit boards.

The financial year of 2007 has been difficult for us compared with year 2006. The Group recorded a total turnover of approximately US\$ 311.6 million, a decrease of 1.3% from 2006. Turnover of Flexible printed circuit boards ("FPC") and Rigid printed circuit boards assembly ("PCBA") grew by 64.10% and 50.3%, whereas Flexible printed circuit boards assembly ("FPCA") and Rigid printed circuit board ("PCB") reduced by 17.4% and 25.7%. The increase in operating income from FPC was mainly due to an increase in the demand for intelligent cell phone customers. In addition, increase in operating income from PCBA was due to the Group's continuous development of marketing to customers in the People's Republic of China ("PRC"). On the other hand, decrease in operating income from FCBA was mainly due to a major mobile phone customer's market share reduction since 2007. Finally, the decrease in turnover from PCB was mainly caused by the temporary decline in production capacity as a consequence of the PCB factory relocation, the upgrade of product level and the selection of better margin customers from the end of first half of 2007.

The Group has been facing a difficult situation this year of rising costs of material, Renminbi appreciation and credit facilities tightened up. It was under these situations that the Company is required to go through transformation of production restructuring, reduction of costs of materials, accounts receivable reassessment to clean up the idling resources.

### **FUTURE PROSPECTS**

Although PCB industry continuously develops in a fast pace in PRC, being one of the leading enterprises in the FPC industry, the Group will continuously attend to the development of the high end products of multi-layer flex, rigid flex and High Density Interface ("HDI") PCB products. In addition, the Group has also concentrated on the development new growth of customers which are famous global brand names in electronic device.

The Group will pay more attention to higher margin products and customers. It will be the management's focus this year to enhance our management standard, optimize our cost structure and actively minimize the overhead.

Going forward, we believe by upgrading our products quality to meet the requirements of higher end market segments, concentrating on better customers, reducing cost structure, strengthening of production efficiencies and improving information technology and implementing effective management of the Group, we will continue to grow to a upper segment of the market and to avoid the overcapacity of lower end PCB market.

# **Chairman's Statement**

### ACKNOWLEDGEMENT

I would like to take this opportunity to express my gratitude to business partners, customers, shareholders and employees of the Company for their support. On behalf of the Directors, I would like to express of my sincerity to the Company's staffs for their dedication and contribution to the Company during this difficult financial year.

For and on behalf of the Board

**Lin Cheng Hung** *Chairman* Hong Kong, 25 April 2008

### **INDUSTRY REVIEW**

Printed circuit boards, including FPC and PCB, are one of the fundamental components found in most electronic products such as mobile phones, digital cameras, computer products and consumer electronics products. To accommodate miniaturisation and increasing number of components of electronic devices, the FPC and PCB require finer circuitry and more layer count. The industry continued to grow in 2007 but competition has also intensified and competitors have expanded their production capacity.

More and more FPC and PCB facilities are being established in China and FPC and PCB solution providers in China are becoming more competitive in the world.

### **BUSINESS/OPERATION REVIEW**

The Company's principal activity is investment holdings whilst its subsidiaries are mainly engaged in manufacturing and trading of printed circuit boards.

During the financial year of 2007, the Group recorded a total turnover of approximately US\$311.6 million, an decrease of 1.3% from 2006. Turnover of FPC and PCBA grew by 64.10% and 50.3% respectively. On the other hand, turnover of FPCA and PCB reduce by 17.4% and 25.7% respectively. The increase in operating income from FPC was mainly attributable to an increase in the demand for the intelligent cell phone customers. In addition, increase in operating income from PCBA was due to the Group's continuous development of the market of customers in the PRC. On the other hand, decrease in operating income from FPCA was mainly due to a major mobile phone customer's market share reduction since 2007. Finally, the decrease in turnover from PCB was mainly due to the temporary decline in production capacity as a consequence of the PCB factory relocation, the upgrade of product level and the selection of better margin customers from the end of first half of 2007. Net loss for the year under review amounted to approximately US\$29.8 million.

#### FINANCIAL REVIEW

For the financial year ended 31 December 2007, the Group recorded a turnover of approximately US\$311.6 million and loss for the year of approximately US\$29.8 million as compared to turnover of approximately US\$315.5 million and profit of approximately US\$12.4 million for the year ended 31 December 2006, representing a decrease of approximately 1.3% and a decrease of approximately 340.4% respectively. Loss per share was approximately US2.4 cents (2006: Earning per share approximately US1.0 cents) and net assets per share of the Company was approximately US7.4 cents (2006: approximately US9.4 cents).

### Turnover

The turnover of the Group for the year ended 31 December 2007 and the comparative figures of 2006 classified by categories of the major products are set out below:

### Turnover by operations

|                     | 200      | 7     | 200      | 06    | Change |
|---------------------|----------|-------|----------|-------|--------|
|                     | US\$'000 | %     | US\$'000 | %     | %      |
| FPC solutions       |          |       |          |       |        |
| FPCA                | 136,695  | 43.9  | 165,564  | 52.5  | (17.4) |
| FPC                 | 31,428   | 10.1  | 19,146   | 6.0   | 64.1   |
| Total FPC solutions | 168,123  | 54.0  | 184,710  | 58.5  | (8.9)  |
| PCB solutions       |          |       |          |       |        |
| PCBA                | 91,512   | 29.4  | 60,856   | 19.3  | 50.3   |
| РСВ                 | 51,968   | 16.6  | 69,971   | 22.2  | (25.7) |
| Total PCB solutions | 143,480  | 46.0  | 130,827  | 41.5  | 9.6    |
| Total               | 311,603  | 100.0 | 315,537  | 100.0 | (1.3)  |

The Group's turnover was mainly derived from sales of FPC solutions and PCB solutions. With reference to the above table, turnover from sales of FPC solutions and sales of PCB solutions for the year ended 31 December 2007 were approximately US\$168.1 million and US\$143.5 million (2006: US\$184.7 million and US\$130.8 million) respectively, representing approximately 54.0% and approximately 46.0% of the total sales of the Group (2006: 58.5% and 41.5%) respectively.

The decrease of 17.4% in sales of FPCA in 2007 was mainly due to the drop of market share of a major customer of the Group which led to a reduction of demand from the customer. Although the major customer's order has reduced, the demand from other intelligent cell phone customers has increased. The increase of 64.1% in the sales of FPC in 2007 was mainly due to significantly increase in demand from those intelligent cell phone customers.

On the other hand, the sales of PCBA have increased by approximately 50.3% in 2007. The increase in the turnover from PCBA was primarily due to the significant increase in demand from those customers in the PRC. Such increase in turnover in PCBA may also bring additional liquidity and finance risk for the Group. The Group has decided to change the mode of the PCBA business so as not to bear any raw material cost of the customers. The Company only charges the subcontracting fee to the customers under PCBA business. In doing so, significant liquidity and finance risk of funding can be reduced.

The sales of PCB have decreased by approximately 25.7% in 2007. The decrease in the turnover from PCB was primarily due to the temporary decline in production capacity as a consequence of the PCB factory relocation, the upgrade of product level and the selection of better margin customers from the end of the first half of 2007. The Company expects the turnover from PCB will increase due to the demand for high density interface PCB, PCB for automobile, ceramic base PCB and aluminium base PCB, which are expected to have significant growth in the coming year.

### Gross profits margin by operations

|               | 2007  | 2006 |
|---------------|-------|------|
|               | %     | %    |
|               |       |      |
| FPC solutions |       |      |
| FPCA          | 10.3  | 17.4 |
| FPC           | (8.2) | 4.4  |
| PCB solutions |       |      |
| PCBA          | (3.3) | 4.9  |
| РСВ           | (3.9) | 5.6  |
| Total         | 2.0   | 11.6 |

The Group's gross profit decreased from approximately US\$36.5 million for the year ended 31 December 2006 to approximately US\$6.3 million for the year ended 31 December 2007. The overall gross profit margin declined from approximately 11.6% for the year ended 31 December 2006 to approximately 2.0% for the year ended 31 December 2007. The gross profit and gross profit margin decrease mainly due to the following:

- 1. The appreciation of Renminbi ("RMB") to US dollar and inflation in PRC are main factors affecting the labour cost and manufacturing overhead, which both significantly increase during the year.
- 2. Raw material costs increase because of the continous increase in petroleum and metal prices in 2007.
- 3. The gross profit margin of FPCA and PCB reduce also due to the reduction in demand from the major customer.
- 4. The gross loss margin for PCBA and PCB both decrease due to the significant increase in material and component cost because of RMB appreciation which cannot be reallocated in the selling price of the products. Due to deteriorating profit margin and intensified competition in PCBA, the Group had started to scale down such business since the fourth quarter of 2007. As a result, impairment loss on trade and other receivables and raw material increases for those PCBA and PCB customers.

### **Operating expenses**

Distribution costs for the year ended 31 December 2007 increased by 9.5% to approximately US\$8.4 million, as compared to that of approximately US\$7.7 million for the year ended 31 December 2006. The increase in distribution and selling expenses was primarily due to a significant increase in transportation costs during the year as a result of a continuous rise in oil prices. The other items comprising the distribution and selling expenses were in line with the level of turnover.

The administrative expenses for the year ended 31 December 2007 increased by approximately 71.5% to approximately US\$19.9 million as compared to that of approximately US\$11.6 million for the year ended 31 December 2006. The significant increase was mainly due to the impairment loss on trade and other receivables overly aged in accordance with the Group's accounting policy and an increase in salaries as a result of an increase in the rate of administrative and management staffs during the year. In addition, as a result of the appreciation of RMB against the US dollar during the year, the Group suffered a greater exchange loss in the year comparing with year 2006. On the other hand, share option benefits granted to directors and employees of the Group also increase during the year.

Finance costs of the Group for the year ended 31 December 2007 increased by 22.6% to approximately US\$7.6 million, as compared to that of approximately US\$6.2 million for the year ended 31 December 2006. The increase in finance costs was mainly due to an increase in rises in interest rates during the year.

#### Liquidity and financial resources

The Group had shareholders' funds of approximately US\$92.0 million as at 31 December 2007 and approximately US\$117.5 million as at 31 December 2006. Current assets amounted to approximately US\$146.2 million mainly comprising bank balances and cash of approximately US\$10.9 million, pledged bank deposits of approximately US\$8.6 million, inventories of approximately US\$40.0 million and trade and other receivables of approximately US\$86.3 million. Current liabilities amounted to approximately US\$153.5 million mainly comprising bank borrowings of approximately US\$69.1 million and trade and other payables of approximately US\$84.0 million.

As at 31 December 2007, the Group's current ratio was 1.0 (2006: 1.2) and the gearing ratio (a ratio of total loans to total assets) was 28.1% (2006: 34.9%).

### Foreign currency exchange risk

The Group's sales and purchases were denominated in US dollar and RMB. The sales in US dollar and RMB represented approximately 89% and 11% respectively for the year ended 31 December 2007 (2006: 82% and 18%). The purchases in US dollar and RMB represented approximately 76% and 24% respectively for the year ended 31 December 2007 (2006: 69% and 31%). The sales and purchases in US dollar substantially hedged the risks of transactions in foreign currency and the Group did not make any other hedging arrangement in the two years ended 31 December 2007.

#### **SEGMENTAL INFORMATION**

As at 31 December 2007, detail segmental information of the Group is set out in note 8 to the financial statements in this annual report.

### **EMPLOYEE BENEFITS**

For the year ended 31 December 2007, average number of employees of the Group was approximately 6,500 (2006: approximately 7,600). For the year ended 31 December 2007, the Group's staff costs (excluding Directors' fees and emoluments) amounted to approximately US\$28.9 million(2006: US\$25.2 million). The remuneration policy of the Company is reviewed annually and is in line with the prevailing market practice. During the year under review, the Company has granted 54,500,000 share options to its employees or Directors under the share option scheme of the Company adopted on 5 July 2005.

The employees of the Company's subsidiaries in the PRC are members of a state-managed social welfare scheme operated by the local government of the PRC. Under the scheme, the Group provides retirement, medical, employment injury, unemployment and maternity benefits to its employees in the PRC in accordance with the relevant PRC rules and regulations. The Group is required to contribute a specified percentage of their payroll costs to the social welfare scheme to fund the benefits. The only obligation of the Group with respect to the social welfare scheme is to make the specified contributions. During the year under review, the Group contributed approximately US\$1.2 million (2006: US\$1.2 million) to the scheme.

# MATERIAL ACQUISITIONS AND DISPOSALS AND FUTURE PLANS FOR MATERIAL INVESTMENT

For year ended 31 December 2007, the Group did not have any material acquisition or disposals of subsidiaries and associated companies.

### **CHARGE ON ASSETS**

As at 31 December 2007, pledges of the Group's properties, prepaid lease payment, trade receivable and bank deposits amounted to approximately US\$12.1 million, US\$0.7 million, US\$22.2 million and US\$8.6 million respectively (2006: US\$16.9 million, US\$0.2 million, US\$49.5 million and US\$13.5 million) to secure bank borrowings.

### **CONNECTED TRANSACTIONS**

During the year, the Group had the following connected and continuing connected transactions:

### Completion of the acquisition of equipment from Vertex Precision Electronics Inc.

Vertex Precision Electronics Inc. ("Vertex"), the indirect substantial shareholder of the Company, entered into an agreement with Global Technology International Limited ("GTI"), a direct wholly-owned subsidiary of the Company on 29 September 2006 pursuant to which Vertex agreed to sell machinery and equipment for production of 4 to 6 layers PCBs for cars, mobile phones, computer peripheral and telecommunication products to GTI for a consideration of US\$1.8 million. During the year, the machinery and equipment are received. The transaction was completed.

### Lease of apartments by Mr. Hsu Chung to the Group

Global Flex (Suzhou), an indirect wholly-owned subsidiary of the Company, entered into two tenancy agreements with Mr. Hsu Chung, an executive Director, on 13 September 2004 pursuant to which Mr. Hsu Chung leased to Global Flex (Suzhou) two apartments situated in Suzhou. These apartments are used as staff quarters of the Group in Suzhou. During the year, the total rental paid to Mr. Hsu Chung for these two apartments amounted to US\$23,738 (2006: US\$20,554).

### Rental of office and provision of consultancy services from Chi Capital Partners Limited by the Group

The Company entered into a tenancy agreement with Chi Capital Partners Limited, which is a company wholly owned by Mr. Wong Chau Chi, an executive Director on 1 November 2007 pursuant to which Chi Capital Partners Limited rents an office to the Company as its registered office in Hong Kong. During the year, the total rental paid to Chi Capital Partners Limited for the office amounted to USD9,806 (2006: Nil).

The Company also entered into a consultancy services agreement with Chi Capital Partners Limited on 1 November 2007 pursant to which Chi Capital Partners Limited will provide consultancy services for the Group for financial and public relation. During the year, the total consultancy fee paid to Chi Capital Partners Limited amounted to USD10,323 (2006: Nil).

Except for the above, there are no other connected transactions and / or continuing connected transactions during the year under review.

The independent non-executive Directors confirm that the transactions above have been entered into by the Group in the ordinary course of its business on normal commercial terms, and in accordance with the terms of the agreements governing such transactions that are fair and reasonable and in the interests of the shareholders of the Company as a whole.

### **CONTINGENT LIABILITIES**

As at 31 December 2007, neither the Group nor the Company has any significant contingent liabilities (2006: Nil).

### **PROSPECTS AND FUTURE PLANS**

Printed circuit board industry in PRC develops in a fast pace. Some data show that PRC will face the serious situation of overcapacity for the low end products of PCB. Being one of the leading enterprises in the FPC industry, the Group will continuously attend to the development of the high end products of FPCA and High Density Interface ("HDI") PCB. In addition, the Group has also concentrated on the development with new customers which are famous brand names in electronic device. The Directors consider that the Group should pay more attention to higher margin products and customers. In addition, in view of the fierce competition in the printed circuit boards industry, it will be the management's focus this year to enhance our management standard, optimize our cost structure and actively minimize the overhead, distribution and administration cost. The Directors of the Company have been taking various cost control measures to tighten the costs of operations and various general and administrative expenses.

In order to improve the Group's financial position, and to improve liquidity and cash flow to sustain the Group's further development, the Group is in negotiations with independent third parties on a possible placement of new shares in the Company. The planning of the placement must be within the limitation of the Group's mandate and in accordance with the relevant requirements under the Listing Rules. The Directors of the Company plan to process the placement as soon as practicable and will take steps and publish announcement thereon in compliance with the Listing Rules. The Directors may also consider other fund-raising exercise in the form of rights issue and/or such other form as may be considered appropriate. In addition, the Group has been negotiating with banks to restructure our bank loans. Finally, the Group is also considering the disposal of some plant and equipment which do not directly affect the operation of the Group. The purpose is mainly for strengthening the working capital of the Group and reducing the cost of excess production capacity.

### **EXECUTIVE DIRECTORS**

### **BOARD OF DIRECTORS**

#### Composition and role

The board of directors of the Company during the year and up to the date of this report comprises:

| Executive Directors:                | Lin Cheng Hung <i>(Chairman)</i><br>Wong Chau Chi<br>Hsu Chung<br>Huang Lien Tsung<br>Lin Yi Ting<br>Shao Yi (Resigned with effect from 1 February 2008) |
|-------------------------------------|--|
| Non-executive Directors             | Chou Tsan Hsiung<br>Nguyen Duc Van<br>Yang Yi<br>Li Jun<br>Lee Cheng Few (Resigned with effect from 1 February 2007)                                     |
| Independent non-executive Directors | Wang Wei Lin<br>Chow Chi Tong<br>Liao Kuang Sheng  |

As at 31 December 2007, the Board comprises of six executive Directors (one of whom is the Chairman) and seven non-executive Directors. Of the seven non-executive Directors, three of them are independent non-executive Directors which represent about a quarter of the Board. In addition, one of the independent non-executive Directors possesses appropriate professional accounting qualifications and financial management expertise.

The principal focus of the Board is on the overall strategic development of the Group. The Board also monitors the financial performance and the internal controls of the Group's business operations. With a wide range of expertise and a balance of skills, the non-executive Directors bring independent judgment on issues of strategic direction, development, performance and risk management through their contribution at Board meetings and committee work.

The independent non-executive Directors also serve the important function of ensuring and monitoring the basis for an effective corporate governance framework. The Board considers that each independent non-executive Director is independent in character and judgment and that they all meet the specific independence criteria as required by the Listing Rules. The Company has received from each independent non-executive Director an annual confirmation of his independence pursuant to Rule 3.13 of the Listing Rules and the Company considers such Directors to be independent. The independent non-executive Directors are explicitly identified in all corporate communications.

All Directors are regularly updated on governance and regulatory matters. There is an established procedure for the Directors to obtain independent professional advice at the expense of the Company in the furtherance of their duties. The Company has also arranged appropriate director and officer liability insurance cover in respect of legal actions against its Directors.

The Board meets regularly throughout the year and up to date of this annual report to review the overall strategy and to monitor the operation as well as the financial performance of the Group. The Chairman is primarily responsible for drawing up and approving the agenda for each Board meeting in consultation with all Directors. Notice of at least 14 days have been given to all Directors for all regular Board meetings and the Directors can include matters for discussion in the agenda if necessary. Agenda and accompanying Board papers in respect of regular Board meetings are sent out in full to all Directors within reasonable time before the meeting. Draft minutes of all Board meetings are circulated to Directors for comment within a reasonable time prior to confirmation.

Minutes of Board meetings and meetings of Board committees are kept by duly appointed secretaries of the respective meetings and all Directors have access to Board papers and related materials, and are provided with adequate information on a timely manner, which enable the Board to make an informed decision on matters placed before it.

Save and except disclosed in the section "Board of Directors and senior management" in this annual report, there is no relationship among members of the Board, and between the chairman and the chief executive officer.

Notes:

1. The letter "L" denotes the persons' long positions in the shares of the Company.

2. These 336,470,000 Shares were registered in the name of and beneficially owned by the Century Champion, the entire issued share capital of which is beneficially owned as to 100% by Vertex. Under the SFO, Vertex is deemed to have a long position in respect of the 336,470,000 Shares held by Century Champion.

Other than as disclosed above, the Company has not been notified of any other person (other than a director or a chief executive of the Company) who had an interest or a short position in the issued share capital and underlying shares of the Company as recorded in the register required to be kept by the Company pursuant to Section 336 of the SFO as at 31 December 2007.

### MAJOR CUSTOMERS AND SUPPLIERS

During the year, the largest and the five largest customers of the Group accounted for approximately 27% and 49% of the Group's turnover respectively. Aggregate purchases attributable to the Group's five largest suppliers were less than 30% of total purchases.

At no time during the year did a Director, an associate of a Director or any shareholders (which to the knowledge of the Directors owned more than 5% of the Company's share capital) have an interest in any of the Group's five largest customers or suppliers.

### PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES

During the year, neither the Company nor any of its subsidiaries purchased, sold or redeemed any of the Company's listed securities.

#### **CONTROLLING SHAREHOLDER'S AND DIRECTORS' INTEREST IN COMPETING BUSINESS**

Vertex Precision Electronics Inc. ("Vertex", together with its subsidiaries, the "Vertex Group") is the holding company of Century Champion Group Limited, the current substantial shareholder of the Company. The Vertex Group (other than the Group) is principally engaged in the manufacture and sale of PCB, being one of the major products of the Group. In order to delineate the business of the Vertex Group and those of the Group and to regulate the business activities with their respective customers and amongst themselves, Vertex and the Company have given to each other certain non-compete undertakings under a territorial agreement dated 5 July 2005 made between the Company and Vertex ("Territorial Agreement"). A summary of the principal terms of the Territorial Agreement is set out in the Prospectus. To demonstrate its adherence to the non-compete undertakings during the year under review.

As referred to in the section headed "Directors' interests in shares' above, each of Mr. Lin Cheng Hung, Mr. Hsu Chung, Ms. Lin Yi Ting and Mr. Liao Kuang Sheng, each being a Director, was a shareholder of Vertex as at 31 December 2007. Such Directors are indirectly interested in the business carried on by the Vertex Group.

Save as disclosed, during the year, none of the Directors had any interests in competing business of the Company which was required to be disclosed pursuant to Rule 8.10 of the Rules Governing the Listing of Securities on the Stock Exchange (the "Listing Rules").

### MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted a code of conduct regarding the Directors' securities transactions on terms not less exacting than the required standard set out in the Model Code for Securities Transactions by Directors of Listed Issues ("Model Code") as set out in Appendix 10 to the Listing Rules on 5 July 2005. The Company has made specific enquiry of all Directors regarding any non-compliance with the Model Code throughout the year ended 31 December 2007 and all the Directors confirmed that they have fully complied with the required standard set out in the Model Code.

### **CORPORATE GOVERNANCE**

During the year under review, the Company has fully complied with the requirements under the Code Provisions in the Code on Corporate Governance Practices ("CG Code") as set out in Appendix 14 to the Listing Rules.

### **INDEPENDENT NON-EXECUTIVE DIRECTORS**

The Company has received, from each of the independent non-executive Directors, namely Messrs. Wang Wei-Lin, Chow Chi Tong, and Liao Kuang Sheng, an annual confirmation of their independence pursuant to Rule 3.13 of the Listing Rules. Based on such confirmations, the Board considers all of the independent non-executive Directors are independent.

### **AUDIT COMMITTEE**

An Audit Committee was established by the Company on 5 July 2005 with written terms of reference to review and supervise the Company's financial reporting process and internal controls. The Audit Committee currently comprises Mr. Chow Chi Tong and Mr. Liao Kuang Sheng, being independent non-executive Directors and Mr. Chou Tsan Hsiung, a non-executive Director. Currently, Mr. Chow Chi Tong is the Chairman of the Audit Committee.

### **REMUNERATION COMMITTEE**

A Remuneration Committee was established by the Company on 5 July 2005 and re-constituted pursuant to a written resolution passed by the Board on 23 September 2005 to formulate and make recommendation to the Board on the Group's policy and structure for all remuneration of the Directors and senior management of the Group.

The Remuneration Committee, currently comprises the three independent non-executive Directors, namely Mr. Wang Wei-Lin, Mr. Chow Chi Tong and Mr. Liao Kuang Sheng and one non-executive Director, Mr. Chou Tsan Hsiung. Mr. Wang Wei-Lin is the Chairman of the Remuneration Committee.

### **PRE-EMPTIVE RIGHTS**

There are no provisions for pre-emptive rights under the Company's Articles of Association, or the laws of Cayman Islands, which would oblige the Company to offer new shares on a pro-rata basis to existing shareholders.

### **TAX RELIEF AND EXEMPTION**

The Company is not aware that holders of securities of the Company are entitled to any tax relief or exemption by reason of their holding of such securities.

### SUFFICIENCY OF PUBLIC FLOAT

Based on information that is publicly available to the Company and within the knowledge of the Directors as at the latest practicable date prior to the issue of this report, the Directors considered that the Company had maintained a sufficient public float during the year under review.

#### **AUDITOR**

Messrs. Deloitte Touche Tohmatsu have acted as auditor of the Company since its incorporation.

A resolution will be proposed in the forthcoming annual general meeting of the Company in 2008 to re-appoint Messrs. Deloitte Touche Tohmatsu as auditor of the Company.

On behalf of the Board

# **Independent** Auditor's Report

### TO THE SHAREHOLDERS OF GLOBAL FLEX HOLDINGS LIMITED

佳邦環球控股有限公司 (incorporated in the Cayman Islands with limited liability)

We have audited the consolidated financial statements of Global Flex Holdings Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 34 to 78, which comprise the consolidated balance sheet as at 31 December 2007, and the consolidated income statement, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory notes.

### DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation and the true and fair presentation of these consolidated financial statements in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance. This responsibility includes designing, implementing and maintaining internal control relevant to the preparation and the true and fair presentation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

### **AUDITOR'S RESPONSIBILITY**

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance as to whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and true and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

# **Independent** Auditor's Report

### **OPINION**

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Group as at 31 December 2007 and of the Group's loss and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

Without qualifying our opinion, we draw attention to note 2 to the consolidated financial statements which indicates that the Group incurred a loss of US\$29,778,061 during the year ended 31 December 2007 and, as at 31 December 2007, the Group's current liabilities exceeded its current assets by US\$7,323,476. These conditions indicate the existence of a material uncertainty which may cast significant doubt about the Group's ability to continue as a going concern.

#### 1. GENERAL

The Company was incorporated in the Cayman Islands as an exempted company with limited liability and its shares are listed on The Stock Exchange of Hong Kong Limited (the "Stock Exchange"). The address of the registered office and principal place of business of the Company are disclosed in the Corporate Information section of the annual report.

The Company acts as an investment holding company. Particulars of the principal activities of its subsidiaries are set out in note 35.

The consolidated financial statements are presented in United States dollar while the functional currency of the Company is Renminbi. The Directors selected United States dollars as the presentation currency because most of the shareholders of the Company are located outside the People's Republic of China ("PRC") and United States dollars was considered to be more useful to the shareholders.

### 2. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS

In preparing the consolidated financial statements, the directors of the Company have given careful consideration to the future liquidity of the Group in light of the Group's loss of US\$29,778,061 and net current liabilities of US\$7,323,476 at 31 December 2007. The directors of the Company have been taking steps to improve the liquidity of the Group. The Group is in negotiations with independent third parties on a possible placement of new shares in the Company. The planning of the placement must be within the limitation of the Group's mandate which has been approved in the last annual general meeting. The Company intends to place new shares of more than 20% of existing ordinary shares of the Group's final results announcement for the year ended 31 December 2007. On the basis that the planned placement will be successful, the directors of the Company are satisfied that the Group will have sufficient financial resources to meet its financial obligations as they fall due for the foreseeable future. Accordingly, the consolidated financial statements have been prepared on a going concern basis.

# 3. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs")

In the current year, the Group has applied, for the first time, the following new standard, amendment and interpretations ("new HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA"), which are effective for the Group's financial year beginning 1 January 2007.

| HKAS 1 (Amendment) | Capital Disclosures                                |

For the year ended 31 December 2007

# 3. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (Continued)

The adoption of the new HKFRSs had no material effect on how the results and financial position for the current or prior accounting periods have been prepared and presented. Accordingly, no prior period adjustment has been required.

The Group has applied the disclosure requirements under HKAS 1 (Amendment) and HKFRS 7 retrospectively. Certain information presented in prior year under the requirements of HKAS 32 has been removed and the relevant comparative information based on the requirements of HKAS 1 (Amendment) and HKFRS 7 has been presented for the first time in the current year.

The Group has not early applied the following new and revised standards, amendment or interpretations that have been issued but are not yet effective.

| HKAS 1 (Revised)    | Presentation of Financial Statements <sup>1</sup>               |

<sup>1</sup> Effective for annual periods beginning on or after 1 January 2009

<sup>2</sup> Effective for annual periods beginning on or after 1 July 2009

<sup>3</sup> Effective for annual periods beginning on or after 1 March 2007

<sup>4</sup> Effective for annual periods beginning on or after 1 January 2008

<sup>5</sup> Effective for annual periods beginning on or after 1 July 2008

The adoption of HKFRS 3 (Revised) may affect the accounting for business combination for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after 1 July 2009. HKAS 27 (Revised) will affect the accounting treatment for changes in a parent's ownership interest in a subsidiary that do not result in a loss of control, which will be accounted for as equity transactions. The directors of the Company anticipate that the application of the other standards, amendment or interpretations will have no material impact on the results and the financial position of the Group.

For the year ended 31 December 2007

### 4. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared under the historical cost basis as explained in the accounting policies set out below.

The consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange and by the Hong Kong Companies Ordinance.

#### **Basis of consolidation**

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries). Control is achieved where the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the Group.

All intra-group transactions, balances, income and expenses are eliminated on consolidation.

#### **Revenue recognition**

Revenue is measured at the fair value of the consideration received or receivable and represents amount receivable for goods sold in the normal course of business, net of discounts and sales related taxes.

Revenue from sales of goods are recognised when goods are delivered and title has passed.

Interest income from a financial asset excluding financial assets at fair value through profit or loss is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount.

Rental income, including rental invoiced in advance from properties let under operating leases, is recognised on a straight line basis over the period of the relevant leases.

For the year ended 31 December 2007

### 4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Property, plant and equipment

Property, plant and equipment including buildings held for use in the production or supply of goods or services, or for administrative purposes other than construction in progress, are stated at cost less subsequent accumulated depreciation and accumulated impairment losses.

Depreciation is provided to write off the cost of items of property, plant and equipment, other than construction in progress, over their estimated useful lives and after taking into account of their estimated residual value, using the straight line method.

Construction in progress includes property, plant and equipment in the course of construction for production or for its own use purpose. Construction in progress are carried at cost, less any recognised impairment loss. Construction in progress is classified to the appropriate category of property, plant and equipment when competed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commence when the assets are ready for their intended use.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the consolidated income statement in the year in which the item is derecognised.

#### Prepaid lease payments

Prepaid lease payments, which represent up-front payments to acquire leasehold land interest, are stated at cost and released to the consolidated income statement over the period of the lease on a straight line basis.

#### Impairment losses on assets

At each balance sheet date, the Group reviews the carrying amounts of its assets to determine whether there is any indication that those assets have suffered an impairment loss. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised as income immediately.

For the year ended 31 December 2007

## 4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is calculated using the weighted average cost method.

#### Taxation

Income tax expense represents the sum of the tax currently payable and deferred taxation.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the consolidated income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet dates.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

#### **Borrowing costs**

All borrowing costs are recognised as and included in finance costs in the consolidated income statement in the period in which they are incurred.

For the year ended 31 December 2007

## 4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

#### The Group as lessor

Rental income from operating leases is recognised in the consolidated income statement on a straight line basis over the terms of the relevant lease.

#### The Group as lessee

Rentals payables under operating leases are charged to profit or loss on a straight line basis over the terms of the relevant lease. Benefits received and receivable as an incentive to enter into an operating lease are recognised as a reduction of rental expense over the lease terms on a straight line basis.

#### Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in the respective functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchange prevailing on the dates of the transactions. At each balance sheet date, monetary items denominated in foreign currencies are retranslated at the rates prevailing on the balance sheet date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. United States dollar) at the rate of exchange prevailing at the balance sheet date, and their income and expenses are translated at the average exchange rates for the year, unless exchange rates fluctuate significantly during the period, in which case, the exchange rates prevailing at the dates of transactions are used. Exchange differences arising, if any, are recognised as a separate component of equity (the exchange reserve). Such exchange differences are recognised in profit or loss in the period in which the foreign operation is disposed of.

For the year ended 31 December 2007

### 4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Retirement benefit scheme contributions

Payments to defined contribution retirement benefit scheme are charged as expenses when employees have rendered service entitling them to the contributions.

#### Share-based payment transactions

Equity-settled share-based payment transactions

#### Shares granted by the controlling shareholder to employees of the Group

The fair value of services received determined by reference to the fair value of shares granted at the grant date is recognised as an expense in full at the grant date when the shares granted vested immediately, with a corresponding increase in equity (capital reserve).

#### Share options granted to employees

The fair value of services received determined by reference to the fair value of share options granted at the grant date is expensed on a straight line basis over the vesting period, with a corresponding increase in equity (share option reserve).

At each balance sheet date, the Group revises its estimates of the number of options that are expected to ultimately vest. The impact of the revision of the estimates during the vesting period, if any, is recognised in profit or loss, with a corresponding adjustment to share option reserve.

At the time when the share options are exercised, the amount previously recognised in share option reserve will be transferred to share premium. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share option reserve will be transferred to accumulated profits.

#### Share options granted to consultants

Share options issued in exchange for goods or services are measured at the fair values of the goods or services received, unless that fair value cannot be reliably measured, in which case the goods or services received are measured by reference to the fair value of the share options granted. The fair values of the goods or services received are recognised as expenses immediately, unless the goods or services qualify for recognition as assets. Corresponding adjustment has been made to equity (share option reserve).

For the year ended 31 December 2007

## 4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### **Financial instruments**

Financial assets and financial liabilities are recognised on the balance sheet when a group entity becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

#### Financial assets

The Group's financial assets are classified as loans and receivables and available-for-sale financial assets.

#### Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees on points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset, or, where appropriate, a shorter period.

Income is recognised on an effective interest basis for debt instruments.

#### Loans and receivables

Loans and receivables (including trade and other receivables, pledged bank deposits and bank balances and cash) are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. At each balance sheet date subsequent to initial recognition, loans and receivables are carried at amortised cost using the effective interest method, less any identified impairment losses (see accounting policy on impairment loss on financial assets below).

For the year ended 31 December 2007

### 4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

#### Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated or not classified as financial assets at fair value through profit or loss, loans and receivables or held-to-maturity investments.

At each balance sheet date subsequent to initial recognition, available-for-sale financial assets are measured at fair value. Changes in fair value are recognised in equity, until the financial asset is disposed of or is determined to be impaired, at which time, the cumulative gain or loss previously recognised in equity is removed from equity and recognised in profit or loss (see accounting policy on impairment loss on financial assets below).

### Impairment of financial assets

Financial assets are assessed for indicators of impairment at each balance sheet date. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the financial assets have been impacted.

For loans and receivables and the debt instrument, objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation

For certain categories of financial asset, such as trade receivables, assets that are assessed not to be impaired individually are subsequently assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the respective credit period, observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, an impairment loss is recognised in profit or loss when there is objective evidence that the asset is impaired, and is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the original effective interest rate.

For the year ended 31 December 2007

## 4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Impairment of financial assets (Continued)

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade and other receivables, where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss. When a trade and other receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss.

For financial assets measured at amortised cost, if, in a subsequent period, the amount of impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment losses was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

For available-for-sale debt investments, impairment losses are subsequently reversed if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss.

#### Financial liabilities and equity

Financial liabilities and equity instruments issued by a group entity are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities.

#### Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period.

Interest expense is recognised on an effective interest basis.

#### Financial liabilities

Financial liabilities including trade and other payables and bank borrowings are subsequently measured at amortised cost, using the effective interest method.

#### Equity instruments

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

For the year ended 31 December 2007

### 4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Derecognition

Financial assets are derecognised when the rights to receive cash flows from the assets expire or, the financial assets are transferred and the Group has transferred substantially all the risks and rewards of ownership of the financial assets. On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable the cumulative gain or loss that had been recognised directly in equity is recognised in profit or loss.

Financial liabilities are derecognised, when the obligation specified in the relevant contract is discharged, cancelled or expires. The difference between the carrying amount of the financial liability derecognised and the consideration paid or payable is recognised in profit or loss.

### 5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, the directors of the Company are required to make estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

#### Going concern and liquidity

The Group has consolidated net current liabilities of US\$7,323,476 at 31 December 2007 and loss of US\$29,778,061 for the year then ended indicating the existence of a material uncertainty which may cast significant doubt about the Group's ability to continue as a going concern. The directors are taking active steps to improve the liquidity position of the Group and details are set out in note 2. The consolidated financial statements have been prepared on a going concern basis. Should the placement of new shares and other measures fail to improve the liquidity position of the Group and the Group is unable to continue in business as a going concern, adjustments would have to be made to reduce the carrying amounts of the assets of the Group to their realisation amount and to provide for further liabilities which might arise.

For the year ended 31 December 2007

### 6. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to equity holders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of net debt, which includes the borrowings disclosed in note 23, net of cash and cash equivalents disclosed in note 21 and equity attributable to equity holders of the Company, comprising issued share capital, share premium and reserves.

The directors of the Company review the capital structure on a regular basis by considering the cost of capital and the risks associates with each class of capital. Based on recommendation of directors, the Group will balance its overall capital structure through the payment of dividends, new share issues and share buy-backs as well as the issue of new debt and the repayment of existing debt.

### 7b. Financial risk management objectives and policies

The Group's major financial instruments include trade and other receivables, pledged bank deposit, bank balances and cash, trade and other payables and bank borrowings. Details of the financial instruments are disclosed in respective notes. The risks associated with these financial instruments include market risk (represented by currency risk and interest rate risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

For the year ended 31 December 2007

### 7. FINANCIAL INSTRUMENTS (Continued)

#### 7b. Financial risk management objectives and policies (Continued)

#### Market risk

(i) Currency risk

The Group mainly operates in the PRC. Its foreign currency sales and purchases expose the Group to foreign currency risk, particularly in US dollar.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities, which are considered as significant by the management, at the reporting date are as follows:

|           | Lia        | abilities  |            | Assets      |  |  |
|-----------|------------|------------|------------|-------------|--|--|
|           | 2007       | 2006       | 2007       | 2006        |  |  |
|           | US\$       | US\$       | US\$       | US\$        |  |  |
| US dollar | 52,293,356 | 98,105,881 | 72,094,629 | 147,124,144 |  |  |

The Group does not have a foreign currency hedging policy. However, management monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

#### Sensitivity analysis

The Group is mainly exposed to the fluctuation in Renminbi against US dollar.

The following table details the Group's sensitivity to a 5% increase and decrease in Renminbi against the relevant foreign currencies. 5% is the sensitivity rate used which represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the year end for a 5% change in foreign currency rates. The sensitivity analysis includes trade and other receivables, bank balances and cash, trade and other payables and bank borrowings where the denomination of these balances are in currencies other than the functional currency of the relevant entities. If Renminbi against US dollar had been increase/decrease by 5%, the Group's loss for the year would increase/decrease by approximately US\$990,063 (2006: profit would decrease/increase US\$2,450,913).

For the year ended 31 December 2007

### 7. FINANCIAL INSTRUMENTS (Continued)

#### 7b. Financial risk management objectives and policies (Continued)

#### Market risk (Continued)

#### (ii) Interest rate risk

The Group's exposure to cash flow interest rate risk is mainly attributable to the bank balances and variable-rate bank borrowings (see note 23 for details of these borrowings) due to the fluctuation of the prevailing market interest rates. It is the Group's policy to keep its borrowings at variable-rate of interests so as to minimise the fair value interest rate risk.

The Group currently does not have any interest rate hedging policy in relation to fair value and cash flow interest rate risks. The Directors monitor the Group's exposure on ongoing basis and will consider hedging interest rate risk should the need arise.

The Group's exposures to interest rates on financial liabilities are detailed in the liquidity risk management section of this note. The Group's cash flow interest rate risk is mainly sensitive to the fluctuation of rate of the People's Bank of China arising from the Group's RMB borrowings.

#### Sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to interest rates for variablerate bank balances and borrowings. The analysis is prepared assuming the amount of liability outstanding at the balance sheet date was outstanding for the whole year. A 50 basis point increase or decrease is used which represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher/lower and all other variables were held constant, the Group's loss for the year ended 31 December 2007 would increase/decrease by US\$399,764 (2006: profit would decrease/increase by US\$845,649. This is mainly attributable to the Group's exposure to interest rates on its variable-rate bank balances and borrowings.

For the year ended 31 December 2007

### 7. FINANCIAL INSTRUMENTS (Continued)

#### 7b. Financial risk management objectives and policies (Continued)

#### Credit risk

As at 31 December 2007, the Group maximum exposure to credit risk which will cause a financial loss to the Group due to failure to perform an obligation by the counterparties is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated balance sheet.

In order to minimise the credit risk, management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual trade debt at each balance sheet date to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

The credit risk on liquid funds is limited because the counterparties are banks with high credit rating assigned by international credit-rating agencies.

The Group's concentration of credit risk by geographical locations is mainly in the PRC, which is approximately 61% (2006: 48%) of the total trade receivables as at 31 December 2007.

The Group also has concentration of credit risk as 38% (2006: 38%) and 69% (2006: 59%) of the total trade receivables was due from the Group's largest customer and the five largest customers respectively.

#### Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. The management monitors the utilisation of bank borrowings and ensures compliance with loan covenants.

The directors of the Company are taking active steps to improve the liquidity position of the Group. These steps include (i) negotiating with major customers to accelerate the pace of launching new products; (ii) implementing stringent cost control measures; (iii) requesting suppliers to extend their payment terms to strengthen its cash flow position.

The Group relies on bank borrowings as a significant source of liquidity. Details of which are set out in note 23.

### 7. FINANCIAL INSTRUMENTS (Continued)

### 7c. Fair value

The fair value of financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices or rates from observable current market transactions as input.

The Directors consider that the carrying amounts of financial assets and financial liabilities recorded at amortised costs in the consolidated financial statements approximate their fair values.

#### 8. SEGMENTAL INFORMATION

No provision for Hong Kong Profits Tax and Taiwan Income Tax has been made as the Group's profit neither arose in, nor derived from Hong Kong and Taiwan.

Pursuant to the relevant laws and regulations in the PRC, Global Flex (Suzhou) Company Limited ("Global Flex (Suzhou)"), Forever Jade Electronics (Suzhou) Company Limited ("Forever Jade (Suzhou)") and Global Flex (Suzhou) Plant II Co., Ltd. ("Global Flex (Suzhou) Plant II"), PRC subsidiaries of the Company, are entitled to the exemptions from FEIT for two years starting from its first profit-making year and to a 50% relief from the FEIT for the following three years ("Tax Holidays"). The first profit-making year of Global Flex (Suzhou) and Forever Jade (Suzhou) is the year ended 31 December 2002 and 31 December 2006, respectively. Global Flex (Suzhou) has its operations located in Suzhou, the PRC which is the coastal economic open zones and is subject to a preferential tax rate of 27%. In December 2005, Global Flex (Suzhou) re-invested and increased its capital by US\$16,000,000 to US\$48,000,000. Global Flex (Suzhou) is entitled to another Tax Holidays on a capital proportionate basis from the date of re-investment. Accordingly, one-third of the taxable profit of Global Flex (Suzhou) is subject to the Tax Holidays.

Pursuant to approvals by the relevant PRC tax authority, Global Flex (Suzhou) is granted advanced-technology exemption from 50% of FEIT for three years commenced from the year ended 31 December 2007.

Global Flex (Suzhou) Plant II was in the pre-operating stage and did not choose to enjoy the Tax Holidays since its establishment. Accordingly, the profit generated by Global Flex (Suzhou) Plant II during the year ended 31 December 2007 was subject to FEIT at a rate of 27%.

For the year ended 31 December 2007

### **11. INCOME TAX EXPENSE** (Continued)

On 16 March 2007, the PRC promulgated the Law of the PRC on Enterprise Income Tax (the "New Law") by Order No. 63 of the President of the PRC. On 6 December 2007, the State Council of the PRC issued Implementation Regulations of the New Law. The New Law and Implementation Regulations will change the tax rate to 25% for certain subsidiaries from 1 January 2008 onwards. According to the Circular of the State Council on the Implementation of Transitional Preferential Policies for Enterprise Income Tax (Guofa [2007] No. 39), the tax exemption and deduction for the FEIT is still applicable until the end of the five-year transitional period under the New Law.

The tax charge for the year can be reconciled to the (loss) profit before taxation as follows:

|   | 2007         | 2006        |
|---|--------------|-------------|
|   | US\$         | US\$        |

### 16. PROPERTY, PLANT AND EQUIPMENT (Continued)

The above items of property, plant and equipment are depreciated on a straight line basis at the following rates per annum:

| Plant and buildings        | 5%     |
|----------------------------|--------|
| Machinery and equipment    | 10%    |
| Motor vehicles             | 20%    |
| Office and other equipment | 10-20% |

The Group has pledged property, plant and equipment having a net book value of US\$12,100,264 (2006: US\$16,899,538) to secure general banking facilities granted to the Group.

During the year, the directors conducted a review of the Group's manufacturing assets and determined that a number of those assets were impaired, due to operating loss. Accordingly, an impairment loss of US\$5,366,859 (2006: Nil) has been recognised in respect of machinery and equipment, which are used in the Group's rigid printed circuit board assembly segment. The recoverable amounts of the relevant assets have been determined on the basis of their realisation amount. The discount rate in measuring the amounts of value in use was 7.3% (2006: Nil) in relation to machinery and equipment.

### 20. TRADE AND OTHER RECEIVABLES (Continued)

Before accepting any new customer, the Group has to assess the potential customer's credit quality and defines credit limits by customer. Limits attributed to customers are reviewed periodically. Majority of the trade receivables that are neither past due nor impaired have no default payment history.

Included in the Group's trade receivable balance are debtors with aggregate carrying amount of US\$10,071,568 (2006: US\$17,482,915) which are past due at the reporting date for which the Group has not provided for impairment loss. The Group does not hold any collateral over these balances.

### 20. TRADE AND OTHER RECEIVABLES (Continued)

#### Movement in the impairment loss on trade receivables

|   | 2007<br>US\$           | 2006<br>US\$           |
|---|------------------------|------------------------|
| Balance at beginning of the year<br>Impairment loss recognised on trade receivables | 3,407,964<br>6,248,276 | 2,037,494<br>1,370,470 |
| Balance at end of the year  | 9,656,240              | 3,407,964              |

In determining the recoverability of a trade receivable, the Group consider any change in the credit quality of the trade receivable from the date credit was initially granted up to the reporting date. Accordingly, the Directors believe that there is no further credit provision required in excess of the allowance for doubtful debts.

Included in the allowance for doubtful debts are individually impaired trade receivables with an aggregate balance of US\$9,656,240 (2006: US\$3,407,964). The Group does not hold any collateral over these balances.

The carrying amounts of the Group's foreign currency denominated trade and other receivables at the reporting date are as follows:

#### **25. SHARE OPTION SCHEME**

A share option scheme (the "Share Option Scheme") was adopted pursuant to a written resolution of the sole shareholder of the Company passed on 5 July 2005.

The purpose of the Share Option Scheme is to enable the Group to grant options to selected participants as incentives or rewards for their contributions to the Group. All directors, employees, suppliers of goods or services, customers, persons or entities that provide research, development or other technological support to the Group, shareholders of any member of the Group, advisers or consultants of the Group and any other group or classes of participants who have contributed or may contribute by way of joint venture, business alliance or other business arrangement and growth of the Group are eligible to participate in the Share Option Scheme.

The Share Option Scheme will remain in force for a period of 10 years after the date on which the Share Option Scheme is adopted.

The total number of shares which may be allotted and issued upon exercise of all options to be granted under the Share Option Scheme and any other share option scheme adopted by the Group must not in aggregate exceed 10% of the shares of the Company in issue on 10 October 2005 ("General Scheme Limit"). The Company may renew the General Scheme Limit with shareholders' approval provided that each such renewal may not exceed 10% of the shares in the Company in issue as at the date of the shareholders' approval.

As at 31 December 2007, the total number of shares available for issue in respect thereof is 125,000,000 shares, representing 10% of the total issued shares.

For the year ended 31 December 2007

#### 25. SHARE OPTION SCHEME (Continued)

The maximum number of shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the Share Option Scheme and any other share option scheme adopted by the Group must not in aggregate exceed 30% of the shares in issue from time to time.

Unless approved by shareholders of the Company, the total number of shares issued and to be issued upon exercise of the options granted under the Share Option Scheme and any other share option scheme of the Group (including both exercised or outstanding options) to each participant in any 12-months period shall not exceed 1% of the issued share capital of the Company for the time being.

An option may be accepted by a participant within 21 days from the date of the offer of grant of the option. A nominal consideration of HK\$1 is payable on acceptance of the grant of an option. An option may be exercised in accordance with the terms of the Share Option Scheme at any time during a period to be determined and notified by the directors to each grantee, which period may commence on a day after the date upon which the offer for the grant of options is made but shall end in any event not later than 10 years from the date of grant of the option, subject to the provisions for early termination thereof. Unless otherwise determined by the directors and stated in the offer of the grant of options to a grantee, there is no minimum period required under the Share Option Scheme for the holding of an option before it can be exercised.

The subscription price for the shares under the Share Option Scheme will be a price determined by the directors, but shall not be less than the highest of (i) the closing price of shares as stated in the Stock Exchange's daily quotations sheet on the date of the offer of grant, which must be a business day; (ii) the average closing price of the shares as stated in the Stock Exchange's daily quotations for the five trading days immediately preceding the date of the offer of grant; and (iii) the nominal value of the shares.

For the year ended 31 December 2007

The Black-Scholes option pricing model has been used to estimate the fair value of the option. The value of an option varies with different variables of certain subjective assumptions. Any change in the variables so adopted may materially affect the estimation of the fair value of an option.

For the year ended 31 December 2007

#### 25. SHARE OPTION SCHEME (Continued)

The estimated fair value of the options granted on the date was HK\$11,386,000. The fair value for share options granted during the year were calculated using the Black-Scholes pricing model. The inputs into the model were as follows:

2007

| Grant date share price     | НК\$0.28-НК\$0.49 |
|----------------------------|-------------------|
| Exercise price             | НК\$0.47-НК\$0.52 |
| Expected volatility (Note) | 50.73%-64.04%     |
| Expected life              | 2.5-3.5 years     |
| Risk-free rate of interest | 3.67%-4%          |
| Expected dividend yield    | 7.29%-8.62%       |
| Expected dividend yield    | 1.29%-8.02%       |

Note: Expected volatility was determined by calculating the historical volatility of the Company's share price over the previous 1 year. The expected life used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions and behavioural considerations.

The Group has recognised total expenses of approximately US\$1,176,000 (2006: Nil) related to equity-settled share-based payment transactions during the year.

### **26. CAPITAL RESERVE**

During the year ended 31 December 2006, a controlling shareholder of the Company bestowed 15,000,000 ordinary shares in the Company to several employees of the Company. This transaction falls within one of the three types of share-based payment transaction – equity-settled share-based payment transaction and the Company measured the services rendered, and the corresponding increase in equity, directly, at the fair value of the shares given.

#### **27. MERGER RESERVE**

The merger reserve represents the difference between the nominal value of the share capital issued by the Company and the nominal value of the share capital of Global Technology International Ltd., a subsidiary of the Company, acquired pursuant to a group reorganisation on 5 July 2005.

#### **28. STATUTORY RESERVE**

Pursuant to the relevant regulations applicable to foreign investment enterprises established in the People's Republic of China (the "PRC"), certain PRC subsidiaries of the Company are required to transfer certain percent of its profit after taxation to the statutory reserve. The balances of the statutory reserve cannot be reduced except where approval is obtained from the relevant PRC authority to offset accumulated losses or increase capital.

For the year ended 31 December 2007
