MANAGEMENT DISCUSSION AND ANALYSIS

I. PRINCIPAL BUSINESS

For the six months ended 30 June 2008 (the "Period"), Zhaojin Mining Industry Company Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") is mainly engaged in the exploration, mining, ore processing, smelting and sale of gold products and other metallic products in the People's Republic of China ("PRC"). Our principal products include Au9999 and Au9995 standard gold bullions and other gold products under the brand name of "Zhaojin".

II. INTERIM RESULTS

Revenue

During the Period, the Group generated revenue of RMB751,394,000, representing an increase of 41.79% as compared to RMB529,943,000 in the corresponding period of last year.

Net profit

During the Period, net profit was RMB201,646,000, representing an increase of 28.83% as compared to RMB156,520,000 in the corresponding period of last year.

As at 30 June 2008, the Group held 784 kg (approximately 25,206 ozs) of gold bullion in stock which was not sold. If all the gold bullion held in stock was sold out, based on the average sale price of Shanghai Gold Exchange of the first half of 2008, which was RMB206.98 per gram, the revenue and net profit would increase by RMB162,272,000 and RMB68,300,000 respectively.

Gold production

During the Period, the Group had self-produced gold of 3,444 kg (approximately 110,727 ozs), representing an increase of 7.29% as compared to 3,210 kg (approximately 103,204 ozs) in the corresponding period of last year, and processing and purchased gold of 4,979 kg (approximately 160,078 ozs), representing a decrease of 19.04% as compared to 6,150 kg (approximately 197,727 ozs) in the corresponding period of last year. The Group had attained an aggregate gold production of 8,423 kg (approximately 270,805 ozs), representing a decrease of 10.01% as compared to 9,360 kg (approximately 300,931 ozs) in the corresponding period of last year.

Profits attributable to shareholders of the Company

For the six months ended 30 June 2008, the Group's profits attributable to shareholders was RMB214,404,000, representing an increase of 34.56% from RMB159,334,000 in the corresponding period of last year.

Earnings per share

During the Period, earnings per share of the Group amounted to RMB0.15, representing an increase of 36.36% as compared to RMB0.11 in the corresponding period of last year.

Net assets per share

As at 30 June 2008, the net assets per share attributable to equity holders of the Company was RMB2.55 (based on the adjusted total of 1,457,430,000 issued shares after passing the resolution relating to the distribution of 728,715,000 new bonus shares on the annual general meeting held on 16 May 2008), the yield to net asset was 5.77%.

III. INTERIM DIVIDEND

The board (the "Board") of directors (the "Directors") of the Company does not recommend the payment of interim dividend for the six months ended 30 June 2008.

IV. ACQUISITIONS

1. On 2 January 2008, the Company entered into an equity transfer agreement with two vendors, being independent third parties to the Company. Pursuant to the equity transfer agreement, the Company acquired 52% equity interest of Fengningjinlong Mining Limited ("FNJL") at a total cash consideration of RMB310,000,000, plus bearing the responsibilities for the settlement of certain debts of approximately RMB23,000,000 for the vendors, resource certification fees of approximately RMB5,000,000, exploration expense due to the acquisition of approximately RMB6,616,000 and audit and valuation fees of approximately RMB3,000,000 incurred by the vendors in respect to the acquisition. The consideration for the acquisition was satisfied in cash.

FNJL is based in Fengning Manchu Autonomous County in Hebei Province of the PRC. It possesses three mining areas. The total area with mining rights and exploration rights amount to approximately 1.1693 km² and approximately 19.41 km² respectively. The gold resources amount to approximately 21 tons (approximately 675,165 ozs). FNJL is principally engaged in mining, processing and/or smelting of gold.

FNJL possesses one processing mill, with daily processing capacity of approximately 800 tons of ores and one smelting plant, with daily processing capacity of approximately 200 tons of gold concentrates. The ores are processed to the end product of gold concentrates and finished gold.

The acquisition does not constitute a connected transaction for the Company under Chapter 14A of the Rules Governing the Listing ("Listing Rules") of Securities on the Stock Exchange of Hong Kong Limited ("Stock Exchange"), nor any notifiable transaction for the Company under Chapter 14 of the Listing Rules.

2. On 1 January 2008, the Company entered into an equity transfer agreement with an independent third party to acquire 51% equity interest in Xinjiang Tonghui Copper Mining Limited ("TCM"), 51% equity interest in Kashi Xinxin Copper Mining Limited ("XXM") and 51% equity interest in Xinjiang Xinhui Copper Limited ("XCM"). TCM, XXM and XCM are all limited liability companies established in the PRC. Under the equity agreement and based on the valuation reports prepared by the independent PRC valuer and negotiations between the parties, the consideration for the acquisition of the above three companies was agreed as RMB265,200,000, which would be satisfied in cash from the proceeds raised by the listing.

TCM is located in the southwestern region of Xinjiang Uygur Autonomous of the PRC, it possesses three mining rights of Xinjiang Payzawat Xikeer Copper, Xinjiang Artux Dashankou Copper and Xinjiang Payzawat Tianyuanteng Copper, with mining areas of 6.26 km². Exploration method used is underground mining.

XXM is located in the western region of Xinjiang Payzawat County Xikeer Township of the PRC, possessing the mining rights of Xinjiang Payzawat Baishitamu Copper, with a mining area of 3 km². Exploration method used is underground mining.

XCM is located in the Industry Park of Xinjiang Payzawat County, the PRC. XCM is the only non-ferrous metal metallurgical enterprise in the southern Xinjiang area focusing on copper smelting. It can also recycle valuable non-ferrous metal such as gold and silver. The annual production volume is expected to be 10,000 tons for electrolyzed copper and 15,000 tons for sulfuric acid.

During the Period, the Company completed the acquisition of 51% equity interest in TCM and XXM, at the considerations of RMB110,000,000 and RMB14,200,000 respectively. The Company had also paid RMB91,000,000, as a deposit for acquiring 51% equity interest in XCM, for which consideration was agreed to be RMB141,000,000.

After the completion of all acquisitions, the mining rights possessed by TCM and XXM will be consolidated; XXM will be deregistered and its assets will be consolidated to TCM.

The acquisition does not constitute a connected transaction for the Company under Chapter 14A of the Listing Rules, nor any notifiable transaction for the Company under Chapter 14 of the Listing Rules.

3. On 9 May 2008, the Company entered into an exploration rights transfer agreement with Shandong Zhaojin Group Company Limited ("Zhaojin Group"), a promoter and substantial shareholder (as defined in the Listing Rules) of the Company which beneficially interested in approximately 37.3% of the issued share capital of the Company. Pursuant to the transfer agreement, the Company agreed to conditionally acquire four exploration rights from Zhaojin Group at a total consideration of RMB158,940,700. After considering the previous exploration results, the Company expects its gold resources to be increased by approximately over 10,000 kg (approximately 321,507 ozs) as a result of the acquisition.

The aforesaid transaction constitutes a connected transaction of the Company under the Listing Rules. An announcement and a circular dated 9 May 2008 and 30 June 2008 respectively in relation to the connected transaction were published on the website of the Stock Exchange at www.hkex.com.hk and the website of the Company at www.zhaojin.com.cn. The acquisition of the four exploration rights was approved by independent shareholders by poll at the extraordinary general meeting held on 15 August 2008 and the transfer of the four exploration rights from Zhaojin Group to the Company has to be approved by Shandong Provincial Department of Land and Resources, in order to complete the acquisition.

The four exploration rights will belong to the Company upon the completion of the acquisitions.

4. On 10 January 2008, the Company entered into an equity transfer agreement with Zhaoyuan City Gold Geological Team, being an independent third party to the Company, to acquire the gold mine exploration right of Loulitou at Zhaoyuan City ("Loulitou Exploration Right"), with a cash consideration of approximately RMB8,326,000. The consideration has been determined based on the arm's length negotiation between the parties after taking into account the potential of Loulitou Exploration Right and the valuation of such exploration right made by the PRC valuers. The consideration was paid in cash.

Loulitou Exploration Right is located in the southern area of Zhaoyuan City, Shandong Province, the PRC, with an exploration area of approximately 31.77 km². The area possesses good oreforming conditions and development prospects as well as good infrastructure and facilities. Loulitou Exploration Right is currently at the prospecting stage and no revenue has been generated so far.

Loulitou Exploration Right was first granted by Shandong Provincial Department of Land and Resources on 12 February 2007 and will expire on 11 February 2009. In March 2008, Shandong Provincial Department of Land and Resources granted the transfer of Loulitou Exploration Right and exploration licence of Loulitou from Zhaoyuan City Gold Geological Team to the Company.

The acquisition does not constitute a connected transaction for the Company under Chapter 14A of the Listing Rules, nor any notifiable transaction for the Company under Chapter 14 of the Listing Rules.

V. BUSINESS REVIEW

Geographical expansion

From the Period till the date of this interim report, the Group has completed investments amounting to approximately RMB480,142,000, whereby it has newly acquired 11 exploration rights thereby increasing its area of exploration right by approximately 439.38 km², newly acquired 6 mining rights, thereby increasing its total area of mining right by approximately 10.42 km². Through these investments, the Group has acquired gold resources of approximately 31 tons (approximately 996,672 ozs), and acquired 5,031,128 tons of copper resources.

During the Period, the Group had also completed the registration of the four exploration areas including the Toudaogoujinduo metal mine in Dongning County of Heilongjiang province, with a total area of 324.33 km². This represented a breakthrough in newly registered exploration rights in the outside Zhaoyuan, and made Heilongjiang province an important exploration and reserve back-up base of the Group.

Geological exploration and mining rights management

During the Period, the Group invested a total of approximately RMB36,990,000 in geological exploration, completed aditing projects of 18,340 meters and drilling projects of 67,194 meters. The newly added gold resources amounted to 18.97 tons (approximately 609,899 ozs), which was the highest level among the corresponding periods in history.

On 30 June 2008, the Group possessed 23 mining rights, with mining areas of 54.02 km².

As at the date of this interim report, the Group possessed 59 exploration rights, with exploration areas of 1,443.73 km².

Infrastructure and technology upgrade

During the Period, the Group had invested approximately RMB281,363,000 in infrastructure and technology upgrade to accelerate the construction of the key construction projects, including completion of the main shaft of Xiadian Gold Mine with a daily capacity of 2,000 tons, milling plant and fine ore warehouse. The capacity expansion projects for low-grade are utilization and milling facilities at Dayingezhuang had completed an aggregated digging volume of 22,500 m³ and a construction area of 2,868 m².

R&D and technology innovation projects

During the Period, the Group had invested a total of approximately RMB25,070,000, implemented 27 R&D and technology innovation projects, applied for 5 patents and obtained approval for 7 patents.

During the Period, the comprehensive minor innovation and technology reform carried out by the Group was a great success and delivered remarkable results in energy and expense savings which in turn increased the Company's profit by approximately RMB9,800,000.

Safety and environmental protection

During the Period, the Group had further enhanced the management of safety and environmental protection, signed a safety and environmental protection responsibilities statement, reinforced the construction of the safety system, policy system and responsibility system. An intensive and multi-stage production safety check had been thoroughly performed within the Company. The Group has further devoted itself to environmental protection. During the Period, the Group had generally prevented the happening of any work injury, and achieved the goal of zero accidental death, fire, explosion, significant crisis and environmental pollution.

Social responsibilities

The Company acknowledges our position as a corporate citizenship and bears social responsibility, which donates money and materials to the disaster areas and support their reconstruction. During the Period, the Group and our staff raised RMB60,000 for southern region suffering from blizzard and RMB2,600,000 for the relief for the victims of earthquake in Wenchuan, Sichuan.

VI. FINANCIAL AND RESULTS ANALYSIS

Revenue

For the period ended 30 June 2008, the Group's revenue amounted to RMB751,394,000, representing an increase of 41.79% as compared to the corresponding period of last year. During the Period, increase in revenue was primarily due to: (1) higher sale price of gold and other by-products and hence profit maximization was attained; (2) the price of sulphur ore increased by RMB343.50 per ton as compared to the corresponding period of last year, resulting in an increase in operational income; (3) sales generated by the newly acquired copper mines contributed approximately RMB73 million to the revenue during the Period.

Net profit

During the Period, net profit of the Group amounted to RMB201,646,000 as compared to RMB156,520,000 of the corresponding period of the previous year, representing an increase of 28.83%. Increase in net profit was due to: (1) the increase of gold price even though sales volume decreased; (2) lower income tax rate of 25% while it was 33% in 2007.

Gold production

During the Period, the Group produced a total of 8,423 kg (approximately 270,805 ozs) of gold as compared to 9,360 kg (approximately 300,931 ozs) of the corresponding period of the previous year, representing a decrease of 10.01%. Decrease in gold production was due to: (1) the production in the non-coal mine of Yantai has been suspended for 13 days resulting from local mine safety issue, which in turn affects the Group's domestic gold production; (2) the consolidation of mineral resources in the PRC and temporary restrictions imposed by the local government on explosives and chemicals to strengthen the safety management and other factors causing an abnormal production of the Group's several gold mines and a decrease in concentrates production. As a result, the Group purchased and processed less gold concentrates during the Period.

Aggregate cost

During the Period, the Group's aggregate self-produced cost of gold was RMB95.1 per gram as compared to RMB87.7 per gram of the corresponding period of the previous year, representing an increase of 8.4%. Increase in aggregate cost was due to: (1) increase in production cost due to increase in cost of raw materials used in production, rise in employees' remuneration and fees from third party contractor; (2) relatively high cost for newly acquired mining enterprises due to poor general management before acquisition. However, during the Period, the Group had reduced the cost of those mining enterprises through effective cost control.

Sale price of gold

During the Period, average sale price of gold of the Group traded at Shanghai Gold Exchange was RMB209.35 per gram, representing an increase of RMB47.70 per gram and 29.51% as compared to RMB161.65 per gram in the corresponding period of last year. Our average sale price was RMB2.37 per gram higher than average price of RMB206.98 per gram traded at Shanghai Gold Exchange.

Cost of sales

For the period ended 30 June 2008, the Group's cost of sales amounted to RMB345,970,000, representing an increase of 77.53% as compared with RMB194,882,000 in the corresponding period of last year. The increase was primarily attributable to: (1) during the Period, sales of purchased gold increased significantly as compared to the corresponding period of last year; (2) coverage of the Group's consolidated statements had extended to include higher cost for newly acquired enterprises; (3) increase in the aggregate self-produced unit cost from RMB87.7 per gram to RMB95.1 per gram.

Gross profit and gross profit margin

For the period ended 30 June 2008, the Group's gross profit and gross profit margin were RMB405,424,000 and 53.96% respectively, representing an increase of 21.00% and a decrease of 9.27%, respectively as compared to RMB335,061,000 and 63.23% of the corresponding period of last year. Decrease in gross profit margin was primarily due to (1) higher sales volume of purchased gold during the Period; (2) lower gross profit margin of mining enterprises newly acquired in the last quarter of 2007 and the first half of 2008.

Other revenues

For the period ended 30 June 2008, the Group's other revenues were RMB16,459,000, representing a decrease of 75.50% as compared to RMB67,187,000 of the corresponding period of last year. The decrease was mainly due to the USD fixed deposits and forward foreign exchange contracts were either withdrawn or matured in February 2008 and resulted in lower interest income and no fair value gain during the Period.

Selling and distribution costs

For the period ended 30 June 2008, the Group's selling and distribution costs were RMB8,610,000, representing an increase of 172.30% as compared to RMB3,162,000 of the corresponding period of last year. The increase is mainly due to expansion of the Group's operations through the acquisition of new mines.

Administrative and other operating expenses

For the period ended 30 June 2008, the Group's administrative expenses and other operating expenses were RMB137,934,000, representing a decrease of 5.03% as compared with RMB145,241,000 in the corresponding period of last year. Such decrease was due to the significant loss in foreign exchange resulted from the USD fixed deposits in 2007. The loss was minimised due to withdrawal of such deposits during the Period.

Liquidity and financial resources

The Group has sufficient cash surplus to fund its operation through internal generated cash flows. The Group achieved stable business growth with its financial position remaining at a satisfactory level. As at 30 June 2008, the Group held cash and cash equivalents of RMB589,554,000, representing a decrease of 63.74% as compared with RMB1,625,689,000 as at the end of last year as funds were utilized for acquisition of mining enterprises, exploration rights and mine expansion projects.

As at 30 June 2008, the Group's borrowings and cash and cash equivalents were denominated in RMB. The total borrowings of the Group were RMB190,730,000, among which short-term borrowings were RMB122,940,000 and long-term borrowings were RMB67,790,000. All borrowings of the Group are under fixed interest rates.

Income tax

At the 5th Session of the 10th National People's Congress held on 16 March 2007, the PRC Corporate Income Tax Law (hereinafter referred to as the "New Corporate Income Tax Law") was approved and came into effect on 1 January 2008. The New Corporate Income Tax Law introduces a wide range of changes, including but not limited to the unification of income tax rate for the PRC and foreign-invested enterprises at 25%.

The effective income tax rate (i.e. the total tax divided by its profit before tax) of the Group for the Period was about 25.11% (corresponding period of 2007: 35.18%).

Total assets

As at 30 June 2008, the total assets of the Group were RMB5,224,301,000, representing an increase of 4.20% as compared with RMB5,013,877,000 as at the end of last year, among which total non-current assets was RMB3,911,238,000, accounting for 74.87% of the total assets and representing an increase of 38.35% as compared with RMB2,827,132,000 as at the end of last year. As at 30 June 2008, total current assets were RMB1,313,063,000, accounting for 25.13% of the total assets and representing a decrease of 39.95% as compared with RMB2,186,745,000 as at the end of last year.

Net assets

As at 30 June 2008, the net assets of the Group was RMB4,072,573,000, representing an increase of 8.51% as compared with RMB3,753,214,000 as at the end of last year.

Total liabilities

As at 30 June 2008, the total liabilities of the Group was RMB1,151,728,000, representing a decrease of 8.64% as compared with RMB1,260,663,000 as at the end of last year. As at 30 June 2008, the gearing ratio (i.e. the total liabilities divided by the total assets) was 22.05%, representing a decrease of 3.09% as compared with 25.14% as at the end of last year, among which bank loans due within one year was RMB122,940,000, representing a decrease of 65.15% as compared with RMB352,800,000 as at the end of last year.

Contingent liabilities

As at 30 June 2008, except as disclosed in note 14 to the interim condensed consolidated financial information on page 31 of this report, the Group and the Company did not have any other contingent liabilities.

Market risks

The Group is exposed to various types of market risks, including fluctuation in gold prices and changes in interest rates, foreign exchange rates and influences from inflation.

Foreign exchange risk

All of the Group's transactions are carried out in RMB. The fluctuation of the RMB/USD exchange rate may affect the international and local gold price, which may therefore affect the Group's operating results.

The Group has been monitoring the exchange rate between RMB and Hong Kong dollar closely as the proceeds raised by the Group from the initial public offering are denominated in Hong Kong dollars. Meanwhile, appropriate measures aiming at reducing the risk of fluctuation in exchange rates have been taken to minimize such risks. During the Period, the Group has settled the exchange of all of the proceeds raised and had no foreign currency hedging contract.

Gold price and other commodities price risks

The Group's revenues and profit in the first half of the year are influenced by the fluctuations in the prices of gold and other commodities. This is due to the fact that the Group generates substantially all of its revenues and profit from the PRC. The Company does not enter into commodity derivative instruments or futures to hedge any potential price fluctuations of gold and other commodities or for trading purposes. Therefore, fluctuations in the prices of gold and other commodities may have a material effect on the Group's revenues and profit.

Pledge

The Group did not have any pledge during the six months ended 30 June 2008.

VII. BUSINESS OUTLOOK

The increase of raw material prices and prevailing high price of gold bring us both challenges and opportunities, regarding our production operation in the second half of the year. We will focus on achieving the following aspects:

Persist in geographical expansion and advance "No. 1 Project"

In the second half of the year, the Company has established a leading organization for geographical expansion in order to ensure smooth expansion and acquisition projects. The organization comprises of members of senior management, district companies (offices) and the investment and development department. The organization will enforce a "person-in-charge" system for every undergoing geographical expansion and investment project. In terms of the projects, the organization is mainly responsible for procedures such as observation, proof with evidence, negotiation and acquisition. For key projects where a common view has been reached or purpose has been identified, the organization will put extra effort on negotiation and aim for advance observation, negotiation and acquisition, in order to ensure the materialization of the Group's plan of geographical expansion.

Stringent and organized production to ensure successful achievement of production volume target

In the second half of the year, the expansion projects of ore processing plants of Dayingezhuang Gold Mine and Xiadian Gold Mine will soon commence production. The Company will further accelerate the exploration of middle section of the deep-underground of the two mines, increase ore volume and ensure the supply of ore after the expansion of the ore processing plants are completed.

Jinchiling Gold Mine and Xinjiang Xingta Mining Company Limited (the "Xingta Mining") will further strengthen the research on customer relations. They will, by every possible means, utilize the Company's influence and capital strength to acquire more gold concentrates with high quality to increase cyaniding volume.

Powering up the geological exploration and expanding the ore resource

Geological exploration at mines will continue to be the focus of the Company in the second half of the year. Mine exploration in old Zhaoyuan districts will be focused on Xiadian Gold Mine, deep-underground of Hedong Gold Mine and the deep-underground of Northern Dayingezhuang Gold Mine, which are all located on the key ore mineralisation area, with emphasis on drilling and ditch exploration and increase in gold resource. For the new districts, focus will be on exploration of the Northern area of Zhaoyuan, Li Zhuang and the areas from Guojiabu to Banbidian, speed up scientific research and testing and aim for a breakthrough within the year. For areas outside of Zhaoyuan or newly registered exploration rights, development is the key project, we expect to have a breakthrough to ensure a boost of 35 tons (approximately 1,125,275 ozs) new resources per year.

Strengthen technology management and promote "infrastructure construction and technology reform" activities

Technology management has to be further strengthened within Zhaoyuan to ensure the quality and schedule of the projects. Infrastructure construction and technology reform projects such as "2,000 tons per day expansion project" of Xiadian Gold Mine, "low grade ore deep exploration and processing project" at Dayingezhuang Gold Mine and multifactor integrated expansion project are expected to be completed and put into trial production within this year.

Construction projects regarding production outside Zhaoyuan have also to speed up, in order to complete the construction as planned. We have to transfer the technology outcome of "Recycle sulphur bed project" to productivity as soon as possible. Xingta Mining's "Recycle sulphur bed project" had been categorized as one of the National 863 Projects, it is also one of the significant technology research and industrial development projects of the State.

Striving for a safe and environmental friendly working environment and ensure safe production

Launching different kinds of "create a safe mine" activities to extend safety management measures to the families of the mine workers besides normal 8-hour working hours. Continuous strengthening of the on site management to enhance the management level and standardized safety level will be passed on to different groups and individuals. We are to promote safe construction, digitalize mines and establish a practical, advance, reliable and open "integrated monitor and control center for safe production information". During the Period, underground water at Zhaoyuan Jintingling Mining Industry Company Limited (the "Jintingling Mine") is still unfavourable for exploitation and normal production. In the second half of the year, the Group will continue to expand research on corresponding measures in relation to Jintingling Mine to strive for early resume of normal production.

Strengthen internal management to enhance the Group's profitability

We aim at establishing a competition between cost indications, technology indications and profitability indications. In order to reduce energy consumption, continuous effort will be focused on tasks such as electricity consumption at a time-sharing basis, harmonic wave treatment, adaptor utilization and adaptation of new technologies and equipments. In addition, we will closely monitor the management of goods purchase, consumption, and recycling, to lower the cost and enhance efficiency.

Save as disclosed above, for the period ended 30 June 2008, there is no material changes in the information disclosed in section titled "Management Discussion and Analysis" of the 2007 Annual Report of the Company.

VII. IMPORTANT EVENTS

- 1. As approved by the 2007 annual general meeting, the Company amended part of the terms of its articles of association on 16 May 2008 as a result of the issue of bonus shares and the alteration of the Company's address. The scope of amendment includes the alteration of the Company's registered capital, share capital structure and the Company's registered address, whereby:
 - (1) The registered capital of the Company changed from RMB728,715,000 to RMB1,457,430,000.
 - (2) Share capital structure was changed as follows: Zhaojin Group holds 543,257,000 shares, accounting for 37.3% of the total issued ordinary shares of the Company; Fosun Investment holds 212,000,000 shares, accounting for 14.5% of the total issued ordinary shares of the Company; Yuyuan Tourist Mart holds 212,000,000 shares, accounting for 14.5% of the total issued ordinary shares of the Company; Shenzheng Guangxin Investments Company Limited holds 42,400,000 shares, accounting for 2.9% of the total issued ordinary shares of the Company; Shanghai Laomiao Gold Company Limited holds 10,600,000 shares, accounting for 0.7% of the total issued ordinary shares of the Company; holders of the overseas listed foreign shares holds 437,173,000 shares, accounting for 30% of the total issued ordinary shares of the Company.
 - (3) The PRC registered address of the Company has changed to 299 Jinhui Road, Zhaoyuan City, Shandong, PRC.

Due to the above amendments to the articles of association, the Company has obtained the approval from the relevant government authorities, as well as a new certificate of business registration after changing the Company's registered capital and registered address.

- 2. On 16 May 2008, the annual general meeting of the Company passed the profit allocation resolution of 2007 and decided to distribute a cash dividend of RMB0.25 (not yet deducted for tax) per share to all shareholders. On 30 May 2008, the Company had already distributed the 2007 cash dividend of RMB0.25 (not yet deducted for tax) per share to all shareholders.
- 3. The 2007 annual general meeting approved the continuous appointment of Beijing Tin Wha Certified Public Accountants ("Tin Wha") as domestic auditor of the Company. Recently, the Company received from Beijing Certified Public Accountants Association a notice in which part of the staff and assets of Tin Wha merged with Shulun Pan Certified Public Accountants Co., Ltd. ("Shulun Pan"). Some of the clients from the original Tin Wha were transferred to Shulun Pan.

In view of the above reasons and according to Article 16.4 of the articles of association, "If there is a vacancy of the office of the accounting firm, the Board of Directors may fill up the vacancy by appointing an accounting firm before convening the shareholders' meeting", the Board therefore agrees to appoint Shulun Pan as the domestic auditor of the Company with the appointment term starting from now until the end of the 2008 annual general meeting.

Tin Wha confirmed that there are no circumstances relating to the change of auditors that need to be brought to the attention of the shareholders of the Company. The Board confirms that there are no circumstances in respect of the change of auditors which they consider should be brought to the attention of the shareholders of the Company.

REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the board of directors of

Zhaojin Mining Industry Company Limited

(A joint stock company established in the People's Republic of China with limited liability)

Introduction

We have reviewed the interim financial information set out on pages 21 to 34 which comprises the condensed consolidated balance sheet of Zhaojin Mining Industry Company Limited as at 30 June 2008 and the related condensed consolidated statements of income, changes in equity and cash flows for the six-month period then ended, and explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34 "Interim Financial Reporting" ("HKAS 34") issued by the Hong Kong Institute of Certified Public Accountants.

The directors are responsible for the preparation and presentation of this interim financial information in accordance with HKAS 34. Our responsibility is to express a conclusion on this interim financial information based on our review. Our report is made solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of Review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with HKAS 34.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. CORPORATE REORGANISATION AND INFORMATION

The Company was established as a joint stock limited liability company under the Company Law of the People's Republic of China (the "PRC") on 16 April 2004 to take over and operate certain businesses of mining, processing, smelting and selling gold and silver products.

In December 2006, the Company issued 198.7 million new H shares to the public and the H shares were listed on the Main Board of the Stock Exchange of Hong Kong Limited (the "IPO"). In addition, the 19.8 million H shares converted from certain domestic shares were transferred to the National Council for the Social Security Fund.

The principal activities of the Group are mainly gold exploration and prospecting, mining, refining and processing and the sale of gold related products. In addition, the Group processes and sells silver. During the six-month period ended 30 June 2008, the Group invested in entities which have copper mines and processing facilities. The registered office of the Company is located at 299 Jinhui Road, Zhaoyuan, Shandong, China.

Prior to the IPO, the parent and ultimate controlling party of the Company was Shandong Zhaojin Group Company Limited ("Zhaojin Group"), a state-owned enterprise established in the PRC. Subsequent to the IPO, the Company does not have a parent or ultimate controlling party. However, Zhaojin Group is in a position to exercise significant influence over the Company.

2. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The interim condensed consolidated financial statements are prepared in accordance with Hong Kong Accounting Standard ("HKAS") 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements for the year ended 31 December 2007.

Significant accounting policies

The accounting policies and basis of preparation adopted in the preparation of the interim condensed consolidated financial statements are the same as those used in the annual financial statements for the year ended 31 December 2007, except for the adoption of new standards and interpretations as noted below.

HK(IFRIC)-Int 11 HKFRS 2 – Group and Treasury Share Transactions

This interpretation requires arrangements whereby an employee is granted rights to the Group's equity instruments, to be accounted for as an equity-settled scheme, even if the Group buys the instruments from another party, or the shareholders provide the equity instruments needed. HK(IFRIC)-Int 11 also addresses the accounting for share-based payment transactions involving two or more entities within the Group. The adoption of this interpretation did not have any effect on the financial position or performance of the Group.

HK(IFRIC)-Int 12 Service Concession Arrangements

This interpretation requires an operator under public-to-private service concession arrangements to recognise the consideration received or receivable in exchange for the construction services as a financial asset and/or an intangible asset, based on the terms of the contractual arrangements. HK(IFRIC)-Int 12 also addresses how an operator shall apply existing HKFRSs to account for the obligations and the rights arising from service concession arrangements by which a government or a public sector entity grants a contract for the construction of infrastructure used to provide public services and/or for the supply of public services. As the Group currently has no such transactions, the interpretation is unlikely to have any financial impact on the Group.

HK(IFRIC)-Int 14

HKAS 19 – The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction

This interpretation provides guidance on how to assess the limit under HKAS 19 *Employee Benefits*, on the amount of a refund or reduction in future contributions in relation to a defined benefit scheme that can be recognised as an asset, in particular, when minimum funding requirements exist. The adoption of this interpretation did not have any effect on the financial position or performance of the Group.

3. SEASONALITY OF OPERATIONS

The Group's operations are not subject to seasonality and cyclicality.

4. SEGMENT INFORMATION

Prepayment for long term assets	377,354	409,864

The Company has entered into Preliminary Equity Transfer Agreements (the "Agreements") with third parties to acquire a 65% equity interest of Qinghe Mining Limited ("Qinghe") and a 50% equity interest of Changji Mining Limited ("Changji"), both companies incorporated in the PRC. Pursuant to the Agreements, the Company paid a deposit of RMB140 million and has the first right to acquire Qinghe and Changji at considerations that will be determined by independent valuations.

During the period, the Company entered into agreements whereby it subscribed for a 51% interest in an investment holding company ("IC") (the "Deposit Stake") for RMB91 million and at the same time agreed to swap the Deposit Stake for a 51% interest in Xinjiang Xinhui Copper Limited ("Xinhui") (the "Swap Stake"). The remaining 49% interest in IC is held by the same third parties which hold the Swap Stake. As at 30 June 2008 the swap transaction had not been completed. Furthermore, the Company has not had control over the operating and financing policies of IC since subscription and, accordingly, the financial statements of IC have not been consolidated. Consequently the Deposit Stake has been classified as a deposit.

The total consideration for the subscription of 51% equity interest in IC is RMB141 million determined by an independent valuation and negotiation between the parties, based on the fair value of Xinhui.

The transaction has not been completed at 30 June 2008 pending the fulfilment of the conditions precedent stated in the agreement and approval from the independent shareholders at an Extraordinary General Meeting to be held on 15 August 2008.

17. BUSINESS COMBINATIONS

Acquisitions of subsidiaries during the period are as follows:

(a) On 31 January 2008, the Company completed its acquisition of a 52% equity interest in Fengningjinlong Mining Limited ("FNJL"), a company incorporated in the PRC, for a consideration of RMB347 million. FNJL is engaged in gold exploration and prospecting, mining, refining and processing and the sale of gold related products. The purchase consideration was fully settled in the form of cash at the date of acquisition.

- (b) On 31 January 2008, the Company completed its acquisition of a 51% equity interest in Xinjiang Tonghui Copper Mining Limited ("TCM"), a company incorporated in the PRC, for a consideration of RMB110 million. TCM is engaged in copper mining, and the sale of copper related products. The purchase consideration was fully settled in the form of cash at the date of acquisition.
- (c) On 31 January 2008, the Company completed its acquisition of a 51% equity interest in Kashi Xinxin Copper Mining Limited ("Xinxin"), a company incorporated in the PRC, at a consideration of RMB14 million satisfied with cash. Xinxin is engaged in copper mining, processing and the sale of copper related products.

The above acquisitions have been accounted for using the purchase method of accounting and contributed five months' results to the condensed consolidated financial statements from the acquisition date.

The fair values of the identifiable assets and liabilities of the above acquisitions as at the date of acquisition and the corresponding carrying amounts immediately before the acquisitions were as follows:
