Management's Discussion and Analysis

Highlights

- **Record sales and 10.1% growth last year**
- **EBIT increase 7.1% before restructuring**
- **Hoover® turnaround generates profits**
- **Strong gains from Outdoor Products**
- **Strategic Repositioning Plan savings ahead of target**

TTI achieved record sales in the first half driven by growth across all major business segments overcoming challenging macroeconomic conditions in key markets. Total Group sales in the first half were a record HK\$13.1 billion, an increase of 10.1% over the same period of 2007. The Power Equipment business had strong sales growth of 11.6% led primarily by penetration of new product categories from the Outdoor Products business and the expansion of cordless lithium ion technology across our power tool brands. The Floor Care business experienced sales growth of 6.8% aided by the profitable turnaround of Hoover and growth in Europe and Rest of World. The Company's commitment to new product development resulted in the launching of over 300 new products during the past 12 months. The geographic expansion efforts in Canada, Middle East, Eastern Europe, Latin America and Australia contributed to the sales growth in the first half.

The Hoover turnaround and the Milwaukee transfer program, both part of our Strategic Repositioning Plan, generated better than planned savings for the period. These savings, the ongoing Cost Improvement Programs, selective price increases and new product launches partially offset the inflationary pressures in China, a stronger China Yuan and increasing commodity prices. During the period, gross margins were 31.5% compared with 31.8% in the previous period. The Company's cost rationalization and volume leverage lowered. Operating Expenses were 25.5% of sales when compared to 28.2% during the first half last year. Profit Attributable to Equity Holders of the Parent (before other income, restructuring costs and other restructuring and transition costs) is HK\$481.7 million representing a year-on-year growth of 164.4%. Basic earnings per share (before other income, restructuring costs and other restructuring and transition costs) improved to HK\$32.09 cents, an increase of 160.0% as compared to the same period last year.

Strategic Repositioning Plan

The Strategic Repositioning Plan delivered sustainable savings from the Hoover turnaround and Milwaukee transfer program in the first half. As part of the Plan the first phase of the new China Manufacturing and Innovation Campus opened its doors at the end of the first half. The spending in the first half was on track at HK\$166 million (US\$21.3 million) and savings were ahead of plan at HK\$246 million (US\$31.5 million). The total planned spending for the Strategic Repositioning Plan remains at HK\$1.3 billion (US\$172 million) and projected annual savings remains at HK\$550 million (US\$70 million) in the year 2010 and beyond.

Business Review

Power Equipment

The Power Equipment business which includes Power Tools & Accessories and Outdoor Products, comprised of our leading brands Milwaukee®, AEG®, Ryobi® and Homelite® delivered 11.6% growth in the first half of 2008. The business accounted for 70.1% of sales. Sales of professional tools and accessories expanded at a mid-single digit rate, as did sales of consumer tools and accessories. Outdoor Products, with the expansion into new categories, had solid double-digit sales growth. Profit margins attributable to operations declined to 7.3% from 8.3% for the same period last year impacted by inflationary pressures not yet offset by planned new product introductions, price increases, Cost Improvement Programs, and the reduction of inventory in preparation for the second half new product introductions.

The Company's relentless focus on the development and marketing of cordless power tools continues as a key growth driver as sales recorded double digit growth and the Ryobi® branded One+™ program has sold over 37 million tools. The lightweight and high performance cordless lithium ion technology which the Company developed for heavy duty applications was expanded from Milwaukee® into the AEG® and hyper-green Ryobi® cordless tools in late 2007. Across all brands the new platforms of 12V and 18V lithium tools accounted for nearly the entire cordless product growth in the first half. The business is well positioned to build on this success with the European and Rest of World launches set for later in 2008 and early 2009, as well as the continuing development of innovations around these two cordless platforms.

Significant gains were made by the Outdoor Products business in North America with double-digit sales growth also coming from Europe and the Rest of World. In North America, incremental sales were generated from product category expansion with the full range of Homelite® handheld electric tools and the launch of five high performance, best-in-class gas pressure washers. Globally sales improvements were fueled by the introduction of about 108 new products. Late in the first half, the innovative first-of-its-kind Ryobi® gas trimmers with electric Touch Start were introduced in North America and will be launched in Europe and Rest of World during the second half of 2008.

Floor Care

The Floor Care business, including the Hoover contribution, reported a 6.8% increase in turnover to HK\$3.9 billion, accounting for 29.9% of total TTI sales. Profit from operations improved significantly with the Hoover turnaround. Profit margin attributable to operations is at 4.4% up from 3.3% for the same period last year.

In North America the core business grew during the first half as new Hoover® products were successfully launched including the Hoover® 100 Year Anniversary Series™ celebrating the brand's centenary year, including four differentiated uprights and one canister utilizing two technologies unique to Hoover®. In addition, the new Platinum Collection™ will be introduced offering new models across Bagged Upright, Bagless Upright, Shampooer, Canister Cordless Stick and Cordless Hand held. The LiNX™ Cordless Stick and Hand Vacs will be powered by lithium ion battery technology. The Platinum Collection™ will also feature Hoover®'s new Visual Brand Language.

Management's Discussion and Analysis

Dirt Devil® launched AccuCharge™ cordless hand and stick vacuums in the first half, the first Energy Star rated vacuum that reduce energy costs without sacrificing performance. The Dirt Devil® Designer Series continues to gain popularity for Dirt Devil®. The Designer Series' three new products will be added throughout 2008; KRUZ®, a cordless stick vac, BRUM™, a cordless broom vac and KWIK™, a detailer for fine electronic components and other delicate surfaces.

In Europe, the Vax® and Dirt Devil® businesses delivered strong double-digit growth. Growth in Vax came mainly from the UK and Russia, driven by sales of the Mach™ series Uprights that was successfully adapted and launched from the Hoover® USA product platform. Dirt Devil®'s double-digit sales growth in the period was driven by its principal German market and strong expansion in France and Spain.

Outlook

The growth of TTI is underpinned by our Strategic Roadmap that focuses on four elements of Powerful Brands, Innovative Products, Exceptional People, and Operational Excellence. Our powerful brand portfolio last year added the Hoover® and Stiletto® brands which are now primed for growth with new product line-ups. We believe in the power of the brands in our portfolio. Our focus on brand value and new innovative products by leveraging our leadership in cordless products and lithium ion battery technologies are creating higher vitality rates across the group and this will continue in the second half of 2008. Our goal is to add to the heritage of our brands by delivering products that excite end users and retail partners with improved convenience and greater performance.

The Power Equipment business has performed well during a challenging North American economic climate making market gains in the growing cordless power tool category with our innovative lithium ion tools. The second half will benefit from major new launches of 12V and 18V lithium ion cordless tools under the Milwaukee®, RIDGID®, AEG®, and Ryobi® brands. Milwaukee will continue to focus on serving the fast growing global infrastructure industry and the tools being developed are targeted at these demanding users. A clear new product winner is the cutting edge Milwaukee® M-Spector™ digital inspection camera that exploits the Milwaukee® M12™ lithium ion platform and introduces a breakthrough digital imaging inspection technology that enhances everyday productivity of the professional trades. Outdoor Products should continue the strong first half expansion driven by the Homelite® electric handheld tools and gas pressure washers as well as the launch of new Homelite® gas chainsaws. A growth program of gas generators will positively impact the second half and is targeted to be an ongoing growth category.

The outlook for Floor Care is exciting with the new product launch plans for Hoover® and growth plans for key geographic markets like Canada and Russia. The Hoover® Platinum Collection™ will be introduced in the second half of the year which includes the Hoover® LiNX™ Cordless Stick and Hand Vacs powered by 18V lithium ion battery technology. Through LiNX™ TTI will further extend lithium ion into the cordless vacuum cleaner market, delivering consumers cordless convenience with the power and run time that they desire. An exciting new partnership with the leading office supply retailer Staples to produce a complete range of paper shredders begins in the second half. The full product range consists of world class design and performance with several patents pending.

The management of the Group is committed to executing the Strategic Repositioning Plan and is confident this will deliver sustainable long term profitability as TTI emerges stronger, more efficient and market focused. As the integration and transitioning program is completed, resources are increasingly focusing on accelerated Cost Improvement Programs to offset cost pressures. This program will expand gross margins, improve working capital management and help to achieve the goal of growing free cash flow. The company has proven ability to grow sales and expand profitably during challenging economic conditions. The sales momentum generated in the first half is expected to continue throughout the second half.

Financial Review

Financial Results

Result Analysis

Turnover for the period under review amounted to HK\$13.1 billion, an increase of 10.1% as compared to the same period last year. Profit after other income, restructuring and transition costs attributable to equity holders of the parent amounted to HK\$354.6 million, as compared to HK\$509.3 million reported last year. Profit attributable to equity holders of the parent before other income, restructuring and transition costs amounted to HK\$481.7 million, an increase of 164.4% as compared to last year.

Basic earnings per share was at HK23.62 cents (2007: HK34.50 cents). Excluding other income, restructuring and transition costs, earnings per share amounted to HK32.09 cents, improved as compared to HK12.34 cents per share as reported same period of last year.

EBIT, before other income, restructuring and transition costs, amounted to HK\$769.6 million, an increase of 79.8% compared to the HK\$428.1 million reported last year.

Gross Margin

Gross profit margin remained stable at 31.5% as compared to 31.8% in the same period last year. New products launched during the period and cost containment programs and Group synergies partially offset the commodity, raw material costs increase, higher manufacturing costs and the China Yuan appreciation.

Operating Expenses

Total operating expenses remained the same as that of last period, amounting to HK\$3.4 billion, representing 25.5% (2007: 28.2%) of turnover. The Group managed to control the non-strategic SG&A expenses and reinvested into the strategic SG&A as planned.

Interest expenses for the period amounted to HK\$262.3 million, as compared to HK\$215.5 million reported last year. The increase was due to higher cost of funds during the period and the additional working capital required for the restructuring and factory expansion. Interest cover, expressed as a multiple of EBITDA to total interest was at 4.5 times (2007: 5.3 times).

Effective tax rate for the period was at 12.6% (2007: 13.3%). The restructuring of the Group's operations will offer additional opportunities for more efficient and effective tax planning.

Liquidity and Financial Resources

Shareholders' Funds

Total shareholders' funds amounted to HK\$7,295.8 million, as compared to HK\$6,920.1 million at December 31, 2007, an increase of 5.4%.

Financial Position

The Group's net gearing, expressed as a percentage of total net borrowing to equity attributable to equity holders, was at 95.3%, as compared to 104.3% as at December 31, 2007. The Group remains confident that gearing will further improve after the completion of the Strategic Repositioning Plan and initiatives to deliver very focused and stringent working capital management.

Bank Borrowings

Long term borrowing accounted for 42.6% of total debts (41.3% at December 31, 2007).

The Group's major borrowings continued to be in US Dollars and HK Dollars. Other than the fixed rate notes and the unredeemed portion of the Zero Coupon Convertible Bonds, all borrowings are either LIBOR or Hong Kong best lending rates based. There is a natural hedge mechanism in place as the Group's major revenues are in US Dollars. Currency, interest rate exposure together with cash management functions are all closely managed and monitored.

Working Capital

Total inventory was at HK\$6.0 billion, comparable to the HK\$6.0 billion as at December 31, 2007. The number of days inventory improved from 88 days as at December 31, 2007 to 84 days for period under review.

Trade receivable turnover days improved to 57 days as compared to 62 days as at December 31, 2007. The Group is comfortable with the quality of the receivables and will continue to exercise due care in managing credit exposure.

Trade payable days declined from 66 days reported as at December 31, 2007 to 63 days.

Working capital as a percentage of sales was at 21.4% as compared to 22.9% at December 31, 2007.

Capital Expenditure

Total capital expenditure for the period amounted to HK\$411.1 million (2007: HK\$309.3 million), of which HK\$180.7 million was for the new China Industrial Manufacturing and Innovation Campus. The Group's total capital expenditure was in line with the Group's capital appropriation guideline.

Capital Commitment and Contingent Liability

As at June 30, 2008, total capital commitments amount to HK\$288.9 million (2007: HK\$391.3 million) and there were no material contingent liabilities or off balance sheet obligations.

Charges

None of the Group's assets are charged or subject to encumbrance.

Human Resources

The Group employed a total of 21,619 employees, down 8.7% compared to 23,674 employees in 2007. Total staff cost for the period under review amounted to HK\$1,631.8 million as compared to HK\$1,532.0 million in the same period last year. This increase in staff cost reflects the Company's on-going investment in R&D, geographic expansion and other strategic areas.

The Group regards human capital as vital for the Group's continuous growth and profitability and remains committed to improve the quality, competence and skills of all employees. It provides job related training and leadership development programs throughout the organization. The Group continues to offer competitive remuneration packages, discretionary share options and bonuses to eligible staff, based on the performance of the Group and the individual employee.

Interim Dividend

The Directors have resolved to declare an interim dividend of HK3.00 cents (2007: HK6.50 cents) per share for the six months period ended June 30, 2008. The interim dividend will be paid to shareholders listed on the register of members of the Company on September 19, 2008. It is expected that the interim dividend will be paid on or about September 29, 2008.

Closure of Register of Members

The register of members of the Company will be closed from September 17, 2008 to September 19, 2008, both days inclusive. In order to qualify for the interim dividend, all transfers accompanied by the relevant share certificates must be lodged with the Company's share registrars, Tricor Secretaries Limited, at 26/F., Tesbury Centre, 28 Queen's Road East, Hong Kong not later than 4:00p.m. on September 16, 2008.

Report on Review of Interim Financial Information

Deloitte.

德勤

To the Board of Directors of
Techtronic Industries Company Limited

Introduction

We have reviewed the interim financial information set out on pages 10 to 20 which comprise the condensed consolidated balance sheet of Techtronic Industries Company Limited as of June 30, 2008 and the related condensed consolidated income statement, condensed statement of changes in equity and condensed consolidated cash flow statement for the six-month period then ended, and certain explanatory notes. The Main Board Listing Rules governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard (“HKAS”) 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”). The directors are responsible for the preparation and presentation of this interim financial information in accordance with HKAS 34. Our responsibility is to express a conclusion on this interim financial information based on our review, and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of Review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with HKAS 34.

Notes to the Condensed Consolidated Financial Statement (Unaudited)

1. Basis of preparation and accounting policies

The condensed consolidated financial statements have been prepared in accordance with Hong Kong Accounting Standard (“HKAS”) 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants and the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited.

The condensed consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair value.

The accounting policies used in the condensed consolidated financial statements are consistent with those followed in the preparation of the Group’s annual financial statements for the year ended December 31, 2007.

In the current interim period, the Group has applied, for the first time, the following new interpretations (“new interpretations”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”), which are effective for the Group’s financial year beginning on January 1, 2008.

HK(IFRIC)-Int 11	HKFRS 2: Group and Treasury Share Transactions
HK(IFRIC)-Int 12	Service Concession Arrangements
HK(IFRIC)-Int 14	HKAS 19 — The Limit on a Defined Benefit Asset, Minimum Funding requirements and their interaction

The adoption of the new interpretations had no material effect on how the results or financial position of the Group for the current or prior accounting periods have been prepared. Accordingly, no prior period adjustment has been required.

The Group has not early applied the following new and revised standards or interpretations that have been issued but are not yet effective.

HKAS 1 (Revised)	Presentation of Financial Statements ¹
HKAS 23 (Revised)	Borrowing Costs ¹
HKAS 27 (Revised)	Consolidated and Separate Financial Statements ²
HKAS 32&1 (Amendment)	Puttable Financial Instruments and Obligations Arising on Liquidations ¹
HKFRS 2 (Amendment)	Vesting Conditions and Cancellations ¹
HKFRS 3 (Revised)	Business Combinations ²
HKFRS 8	Operating Segments ¹
HK(IFRIC)-Int 13	Customer Loyalty Programmes ³

¹ Effective for annual periods beginning on or after January 1, 2009

² Effective for annual periods beginning on or after July 1, 2009

³ Effective for annual periods beginning on or after July 1, 2008

The adoption of HKFRS 3 (Revised) may affect the accounting for business combination for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after July 1, 2009. HKAS 27 (Revised) will affect the accounting treatment for changes in a parent’s ownership interest in a subsidiary that do not result in loss of control, which will be accounted for as equity transactions.

The directors of the Company anticipate that the application of the other new or revised standards and interpretations will have no material impact on the results and the financial position of the Group.

Notes:

- (1) Scheme C is the share option scheme adopted by the Company on March 28, 2002 and has expired on March 27, 2007. The Company adopted Scheme D on May 29, 2007.
- (2) The closing prices of the Company's shares immediately before various dates of grant ranged from HK\$7.46 to HK\$7.75.
- (3) The weighted average closing price of the Company's shares immediately before various dates on which the share options were exercised was HK\$7.52.
- (4) No option was cancelled during the period.
- (5) The following significant assumptions were used to derive the fair values using the Black-Scholes option pricing model:

Date of grant	Exercise price HK\$	Expected life of share options	Expected volatility based on historical volatility of share prices	Hong Kong Exchange Fund Notes rate	Expected annual dividend yield
14.1.2008	7.566	3 years	35%	2.082%	1.5%
17.4.2008	7.780	3 years	35%	1.731%	1.5%
24.4.2008	7.818	3 years	35%	1.888%	1.5%
14.5.2008	7.500	3 years	35%	2.248%	1.5%
30.5.2008	7.546	3 years	35%	2.447%	1.5%

All the share options are fully vested at grant date.

For the purposes of the calculation of fair value, no adjustment has been made in respect of share options expected to be forfeited due to lack of historical data.

The Black-Scholes option pricing model requires the input of highly subjective assumptions, including the volatility of share price. Because changes in subjective input assumptions can materially affect the fair value estimate, in the directors' opinion, the existing model does not necessarily provide a reliable single measure of the fair value of the share options.

The weighted average closing price of the Company's shares on various dates of grant was HK\$7.52 per option.

Expected volatility was determined by using the historical volatility of the Company's share price over the previous three years. The expected life used in the model has been adjusted, based on management's best estimated, for the effects of non transferability, exercise restrictions and behavioural considerations.

The Group recognised total expense of HK\$11,875,000 for the six months period ended June 30, 2008 in relation to share options granted by the Company.

The fair values of the share options granted in the period measured as at various dates of grant ranged from HK\$1.66 to HK\$1.79 per option. The weighted average fair value of the share options granted in the period was HK\$1.75 per option.

Arrangements to Purchase Shares or Debentures

Other than as disclosed above, at no time during the period was the Company, or any of its subsidiaries, a party to any arrangements to enable the directors of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate and neither the directors or the chief executive, nor any of their spouses or children under the age of 18, had any right to subscribe for the securities of the Company, or had exercised any such right.

Compliance with Code on Governance Practices of the Listing Rules

The Company confirms that it has complied with all the code provisions of the Code on Corporate Governance Practices (the “**CG Code**”) set out in Appendix 14 of the Listing Rules throughout the six months period ended June 30, 2008, save that:

- The roles of Chairman and the Chief Executive Officer of the Company were performed by Mr Horst Julius Pudwill until February 1, 2008. Mr Joseph Galli Jr. was appointed Chief Executive Officer and Executive Director of the Company effective February 1, 2008. Mr Pudwill continues in his role as Chairman and Executive Director. This is to allow Mr Pudwill to focus on the strategic planning and development of the Group. These changes are made in respond to the ongoing expansion and development of the Group and to comply with the requirement of the recommended code provision A.2.1 of the CG Code that the roles of Chairman and Chief Executive Officer should be separate and not be performed by the same individual.
- None of the directors are appointed for a specific term since they are subject to retirement by rotation and re-election in accordance with the Articles of Association of the Company. Under Article 103 of the Articles of Association of the Company, one third of the Board must retire by rotation at each annual general meeting of the Company and, if eligible, offer themselves for re-election.

Compliance with the Model Code of the Listing Rules

The Board has adopted the provisions of the Model Code for Securities Transactions by Directors of Listed Issuers set out in Appendix 10 of the Listing Rules (the “Model Code”). The Company has made specific enquiry of the Directors regarding any non-compliance with the Model Code during the six months period ended June 30, 2008 and all of them confirmed that they have fully complied with the required standards as set out in the Model Code. The Board has also adopted another code of conduct on terms no less onerous than the Model Code that applies to securities transactions of all relevant employees who may be in possession of unpublished price sensitive information in relation to the Company (the “Code for Securities Transactions by Relevant Employees”). Both the Model Code and the Code for Securities Transactions by Relevant Employees have been published on the Company’s website (www.ttigroup.com).

Committees of the Board
