#### Notes:

#### 1. Basis of preparation and principal accounting policies

The unaudited condensed consolidated financial statements have been prepared in accordance with Hong Kong Accounting Standard ("HKAS") 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") and on a basis consistent with those followed in the preparation of the annual financial statements of the Group for the year ended 31 December 2007.

In the current interim period, the Group has applied, for the first time, the following new interpretations ("new Interpretations") issued by the HKICPA which are effective for the Group's financial period beginning on 1 January 2008.

| HK(IFRIC) – INT 11 | HKFRS 2 – Group and Treasury Share Transactions    |
|--------------------|--|
| HK(IFRIC) – INT 12 | Service Concession Arrangements                    |
| HK(IFRIC) – INT 14 | HKAS 19 - The Limit on a Defined Benefit Asset,    |
|                    | Minimum Funding Requirements and their Interaction |

The adoption of these new Interpretations has had no material effect on how the results and financial position of the Group for the current or prior accounting periods have been prepared and presented. Accordingly, no prior period adjustment has been required.

Six months ended

The Group has not early applied the following new or revised standards, amendments or interpretations that have been issued but are not yet effective.

HKAS 1 (Revised) Presentation of Financial Statements 1 HKAS 23 (Revised) Borrowing Costs 1 HKAS 27 (Revised) Consolidated and Separate Financial Statements 2 HKAS 32 and Puttable Financial Instruments and Obligations Arising on Liquidation 1 HKAS 1 (Amendments) HKFRS 2 (Amendment) Vesting Conditions and Cancellations 1 HKFRS 3 (Revised) Business Combinations 2 HKFRS 8 Operating Segments 1 HK(IFRIC) - INT 13 Customer Loyalty Programmes 3

- <sup>1</sup> Effective for annual periods beginning on or after 1 January 2009.
- <sup>2</sup> Effective for annual periods beginning on or after 1 July 2009.
- Effective for annual periods beginning on or after 1 July 2008.

The adoption of HKFRS 3 (Revised) may affect the accounting for business combination for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after 1 July 2009. HKAS 27 (Revised) will affect the accounting treatment for changes in a parent's ownership interest in a subsidiary that do not result in a loss of control, which will be accounted for as equity transactions.

The directors of the Company ("Directors") anticipate that the application of other new or revised standards, amendments or interpretations will have no material impact on the results and the financial position of the Group.

(b) Employees' share option scheme of Elec & Eltek International Company Limited ("EEIC")

The 2002 Elec & Eltek Employees' Share Option Scheme (the "2002 Scheme") which was adopted from 12 November 2002 for a duration of 5 years, had terminated in November 2007 without affecting the rights of holders of any options granted and outstanding under the 2002 Scheme.

EEIC has since 1997, had in place share option schemes to acknowledge the contributions of and to motivate employees to contribute to EEIC and its subsidiaries (the "EEIC Group"). With the expiration of the 2002 Scheme, the directors of EEIC wished to have in place a new share option scheme to replace the expired 2002 Scheme for the purpose of providing an opportunity for employees who have contributed significantly to the growth and performance of the EEIC Group to participate in the equity of EEIC so as to motivate them to greater dedication, loyalty and higher standards of performance, and to give recognition to their past contributions and services as well as to align the interests of employees with the interests of shareholders.

The 2008 Elec & Eltek Employees' Share Option Scheme (the "2008 Scheme") was approved by the shareholders of EEIC at the Extraordinary General Meeting held on 21 April 2008 and was adopted and took effect from 9 May 2008 upon approval by the shareholders of the Company.

The 2008 Scheme shall be administered by the committee of directors of EEIC as authorised by EEIC's directors, is open to full-time employees and directors of any company within EEIC and its subsidiaries, the parent group and of an associated company of EEIC, subject to certain conditions being satisfied.

The 2008 Scheme entitles the option holders to exercise their options and subscribe for new ordinary shares in EEIC either at an "Exercise Price", which equals to the average of the last dealt prices for an EEIC Share for a period of 5 consecutive market days immediately prior to the relevant date of grant, or at a discount to the Exercise Price, whereby the discount shall not exceed 20% of the Exercise Price as defined earlier.

Options granted at the Exercise Price or discount to the Exercise Price is exercisable after the first or second anniversary respectively of the date of grant and expires on the fifth anniversary of the date of grant.

The duration of the 2008 Scheme is 10 years and the total number of shares in EEIC that may be issued shall not exceed 10% of the total number of EEIC Shares in issue as at the adoption date or subject to certain conditions being satisfied, 15% of the total issued shares of EEIC excluding treasury shares from time to time. The total number of EEIC Shares issued and to be issued upon the exercise of the options granted to each participant (including both exercised and outstanding options) in any 12-month period must not exceed 1% of the total number of EEIC Shares in issue from time to time.

Share options may be accepted within 30 days from the date of grant accompanied by payment of \$\$1.00 (or its equivalent) as consideration by the participants, but the grant of share options do not confer rights on the option holders to any dividend entitlement or to vote at any shareholders' meeting.

There was no share options granted under the 2008 Scheme since its adoption. However, there are still outstanding share options remaining unexercised under the 2002 Scheme and a summary of the movements of the outstanding share options under the 2002 Scheme for the period is as follows:

|   | Granted to<br>Directors | Granted to<br>employees  | Total                     |
|---|-------------------------|--------------------------|---------------------------|
| Balance at 31 December 2007 and<br>1 January 2008 ( <i>Note</i> )<br>Lapsed during the period | 3,892,800               | 6,794,200<br>(1,249,200) | 10,687,000<br>(1,249,200) |
| Balance at 30 June 2008   | 3,892,800               | 5,545,000                | 9,437,800                 |

#### Note:

The interests in share option arise by virtue of

- (i) 4,055,000 share options accepted by the Directors and 5,745,000 share options accepted by the employees of the Group on 24 June 2005, which would entitle the relevant Directors and employees to subscribe for shares in EEIC at an adjusted subscription price of US\$2.033 per share after the 1 for 5 bonus issue effected by EEIC on 13 October 2005 ("Bonus Issue"). The share options are exercisable in whole or in part at the staggered manner within 5 option periods, commencing on 26 November 2006, 26 November 2007, 26 November 2008, 26 November 2009 and 26 March 2010 respectively and all ending on 24 May 2010;
- (ii) 150,000 share options accepted by the independent non-executive directors of EEIC on 29 September 2005, which would entitle the relevant directors to subscribe for shares in EEIC at an adjusted subscription price of US\$2.375 per share after the Bonus Issue. The share options are exercisable in whole or in part at the staggered manner within 5 option periods, commencing on 5 September 2006, 5 September 2007, 5 September 2008, 5 September 2009 and 5 July 2010 respectively, and all ending on 4 September 2010; and
- (iii) 1,020,000 share options accepted by full-time employees of EEIC and its subsidiaries on 12 December 2006, which would entitle the relevant employees to subscribe for shares in EEIC at a subscription price of US\$2.400 per share. The share options are exercisable in whole or in part at the staggered manner within 4 option periods, commencing on 13 November 2008, 13 November 2009, 13 November 2010 and 13 September 2011, respectively, and all ending on 12 November 2011.

The share options were granted on 24 June 2005, 29 September 2005 and 12 December 2006. The estimated fair value of each share option granted on those dates were approximately HK\$1.58, HK\$1.55 and HK\$2.56 per share respectively.

These fair values were calculated using the Trinomial Lattice Model. The inputs into the model are as follows:

|                              | Share option grant date<br>12 December 29 September<br>2006 2005 |           | 24 June<br>2005 |
|------------------------------|--|-----------|-----------------|
| Share price at grant date    | US\$2.74   | US\$2.92  | US\$2.53        |
| Subscription price           | US\$2.40   | US\$2.85* | US\$2.44*       |
| Expected volatility          | 36.6%  | 21.2%     | 25.4%           |
| Expected life Risk-free rate | 5 years  | 5 years   | 5 years         |
|                              | 3.7%   | 4.2%      | 3.7%            |

\* The original subscription price of the share options granted on 29 September 2005 and 24 June 2005 were adjusted to US\$2.375 and US\$2.033 respectively as a result of the Bonus Issue.

Expected volatility was determined by using the historical volatility of EEIC's share price over the previous five years. The expected life used in the model has been adjusted, based on the best estimate of the management, for the effects of non transferability, exercise restrictions and behavioural considerations.

The Group recognised the total expense of approximately HK\$1,412,000 for the six months ended 30 June 2008 (1 January 2007 to 30 June 2007: HK\$1,540,000) in relation to the share options granted by EEIC.

The subscription price of KLHL's share in respect of any option granted under the KLHL Scheme must be at least the highest of (i) the closing price of the shares of KLHL as stated in the Stock Exchange's daily quotations sheet on the date of grant of the option, which must be a business day; (ii) the average closing price of the shares of KLHL as stated in the Stock Exchange's daily quotations sheets for the five business days immediately preceding the date of grant of the option; and (iii) the nominal value of the shares of KLHL.

The directors of KLHL may, at their absolute discretion, fix any minimum period for which an option must be held, any performance targets that must be achieved and any other conditions that must be fulfilled before the options can be exercised upon the grant of an option to a participant.

The total number of shares of KLHL which may be issued upon exercise of all options to be granted under the KLHL Scheme and any other share option scheme of KLHL (excluding, for this purpose, options lapsed in accordance with the terms of the KLHL Scheme and any other share option scheme of KLHL) must not in aggregate exceed 10% of the total number of shares of KLHL in issue as at the date of approval of the KLHL Scheme.

The maximum number of shares of KLHL which may be issued upon exercise of all outstanding options granted and yet to be exercised under the KLHL Scheme and any other share option scheme of KLHL must not exceed 30% of the issued share capital of KLHL from time to time.

The total number of shares of KLHL issued and to be issued upon exercise of the options granted (including both exercised and outstanding options) to each participant in any 12-month period must not exceed 1% of the share capital of KLHL then in issue unless approved by the shareholders of KLHL and the Company in general meetings.

No share option was granted pursuant to the KLHL Scheme since its adoption.

#### **BUSINESS REVIEW**

Underscoring the success of our strategic focus and management vision, Kingboard Chemical Holdings Limited (the "Group") delivered another set of impressive results with robust growth in both revenue and net profit for the six months ended 30 June 2008 (the "reporting period"). Group revenue increased 37% to reach HK\$12,377.8 million while net profit (excluding one-off exceptional item\*) rose 35% to HK\$1,758.3 million upon our strong operational performance. In addition, we were selected as one of the Top 2000 Global Companies by Forbes Magazine in April 2008. All these remarkable achievements attest to the concrete fundamentals of our core businesses and continuous efficiency improvements on the back of our vertically integrated business model.

Employing over 52,700 staff globally with more than 60 plants, the Group is well poised to seize growth opportunities ahead and diversify our earnings stream. Our laminate division, being the largest laminate producer in the world, maintained 11.8% of the global laminate market share in 2007 whilst our printed circuit board ("PCB") division remains the largest PCB manufacturer in China. Furthermore, chemical division has secured a firm foothold in the fast expanding market in China and has become the strong impetus for the Group's earnings growth.

## Financial highlights

- Revenue posted strong growth to HK\$12.4 billion up 37%
- Pre-tax profit surged 28% to HK\$2.3 billion\*
- Profit attributable to equity holders of the Company increased by 35% to HK\$1.76 billion\*
- Interim dividend per share up 33% to HK40 cents
- \* Excluding loss on disposal of convertible bond ("CB") of HK\$184 million (fair value gain for the same CB was HK\$182 million for the year ended 31 December 2007) and interest in an associate of HK\$5 million for the period ended 30 June 2008

#### **Performance**

In the first half year of 2008, laminates division achieved steady business growth driven by organic expansion laid down in 2007. Revenue (including inter-segment sales) recorded 13% growth to HK\$5,276.8 million while volume sales achieved 9% growth with average monthly shipment reaching 8.5 million square meters. Upstream material capacity was further enhanced to strengthen our vertically integrated business model, as the new glass yarn plant in Qingyuan, Guangdong province and new glass fabric plant in Lianzhou, Guangdong province started trial production in January and June 2008 respectively. Notwithstanding higher material costs and other cost increases including fuel and wages and the start-up costs for the two new plants, laminates division attained an earnings before interest and tax ("EBIT") increase by 2% to HK\$1,060 million against the same period last year.

Capitalizing on a diverse customer portfolio across broad based applications, our PCB division recorded healthy order intake growth for all our subsidiaries. The Group acquired 80% interests in a Taiwanese PCB shop – Express Electronics (Suzhou) Company Limited located in Suzhou, Jiangsu province in February 2008. With our dedicated management team, this company was turned around to profit shortly after the acquisition. In addition, Elec & Eltek accomplished continuous performance improvement in the first half of 2008. As a result, our PCB division's revenue chalked up 19% growth to HK\$4.093 million with EBIT increased 36% to HK\$332.4 million.

Investments in chemical division over the past years have paid off with encouraging results. Revenue achieved vigorous growth of 109% to HK\$4,843.8 million. EBIT soared 173% to HK\$721.8 million while EBIT margin widened from 11.4% to 14.9% for the current period. The commencement of operations in late 2007 in both methanol plant in Chongqing and phenol/acetone plant in Huizhou, Guangdong province started to bear fruit. Bolstered by additional coke production capacity from the phase two of coke/methanol plant in Hebei and thriving market conditions of coke and methanol in China, the plant's EBIT contribution doubled against the same period last year. In addition, our share of associate profit from CNOOC Kingboard Chemical Limited increased 54% to reach HK\$262.3 million.

## LIQUIDITY AND CAPITAL RESOURCES

The Group's consolidated financial and liquidity position continued to be robust. As at 30 June 2008, net current assets and current ratio of the Group were approximately HK\$8,374.9 million (31 December 2007 – HK\$6,377.6 million) and 1.96 (31 December 2007 – 1.89) respectively.

The net working capital cycle increased slightly from 84 days as at 31 December 2007 to 86 days as at 30 June 2008 on the following key metrics:

- Inventories, in terms of stock turnover days, increased to 68 days (31 December 2007 64 days)
- Trade receivables, in terms of debtors turnover days, improved to 77 days (31 December 2007 – 90 days)
- Trade and bills payable, in terms of creditors turnover days, decreased to 59 days (31 December 2007 – 70 days)

In the first half of 2008, the Group invested HK\$2.3 billion in new production capacities and prepayments for properties, plant and equipment. As a result, the Group's net gearing ratio (ratio of interest bearing borrowings net of cash and cash equivalents to total equity) marginally increased to 24% (31 December 2007 – 17%). The proportion of bank borrowings between short term and long term stood at 26%:74% (31 December 2007: 24%:76%). Only 2% of the bank borrowings was denominated in Renminbi and the rest in Hong Kong or US dollars.

The Group continued to adopt a prudent financial management policy. We entered into interest rate swap agreements of notional amount of HK\$5.5 billion with reputable financial institutions to secure lower interest rates for part of our bank borrowings with a weighted average duration and interest rate of 3.3 years and 3.02% respectively at the end of June 2008. There was no material foreign exchange exposure to the Group during the period under review. The Group's revenue, mostly denominated in Hong Kong dollars, Renminbi and US dollars, was fairly matched with the currency requirement of operating expenses.

#### **PROSPECTS**

In the second half of 2008, although global economy is still very much affected by the ongoing credit crunch and inflationary pressure, domestic consumption in emerging markets especially China is expected to maintain robust growth momentum. Leveraging on our sound financial strength, excellent business model and strong operational presence in China, we have unwavering confidence in the growth prospects of the Group.

Laminate division currently maintains a steady order book. Recent correction in commodity prices should help to facilitate cost control initiatives. Backed by our unrivaled economy of scale and competitive cost structure, we are fully convinced that there are still enormous growth opportunities in the global laminate market. The Group is planning to add new production capacity in our Lianzhou copper foil plant in the second half of 2008. In addition, the glass epoxy laminate plant in Jiangyin, Jiangsu province will increase monthly production capacity by 400,000 sheets in the third quarter of 2008 to enhance our market position in eastern China.

The Group's PCB division has experienced an uptrend in order booking level as we stepped into the third quarter of 2008 which is in line with normal seasonality as Christmas buying spree is coming up. Hence, most of our PCB manufacturing sites have been operating at full capacities. The Group is diligently building high density interconnect ("HDI") PCB capability so as to take advantage of the growing business opportunities of compact hand-held devices. New production lines at our dedicated HDI plants in Kaiping, Guangdong province and Kunshan, Jiangsu province are expected to commence pilot production by the fourth quarter of 2008. In addition, we will continue to focus on strengthening the alliance with different PCB shops in the PCB division so as to create better synergies for the Group.

Chemical division continues its expansion plan with several major chemical projects in the pipeline. The Hebei coke phase two expansion started trial production in the first half of 2008. The methanol production capacity associated with this expansion will commence production in the second half of 2008 with additional methanol output of 8,700 tonnes per month. The integrated project with coal mining and coke/methanol facilities in Lyliang, Shanxi province is on schedule for production in 2009. Construction of a new acetic acid plant adjacent to the existing coke/methanol plant in Hebei province is currently underway. Utilizing coke granules and methanol as feedstock, this acetic acid project with production targeted in late 2009 will further enhance our production capabilities of downstream chemical products and is expected to generate attractive returns.

Pursuant to a sales and purchase agreement dated 25 July 2008 with G-Prop (Holdings) Limited ("G-Prop"), a company listed on the main board of The Stock Exchange of Hong Kong Limited (the "Stock Exchange"), the Group has acquired from G-Prop the entire interests in a coal-based methanol project with 2 million metric tonnes annual capacity in Inner Mongolia for a consideration of HK\$183.6 million. This project is expected to develop in three to five years.

#### **HUMAN RESOURCES**

As at 30 June 2008, the Group had a global workforce of over 52,700 (31 December 2007: 47,200). The increase in headcount was in line with our ongoing expansion blueprint. Other than offering competitive salary package, the Group grants share options and discretionary bonuses to eligible employees based on our financial achievement and individual performance.

#### **APPRECIATION**

On behalf of the Board, I would like to take this opportunity to express my sincere gratitude to our shareholders, customers, banks, the management and employees for their unreserved support to the Group in the last six months.
