

Investor Relations

The Company's main duty in investor relations is to provide information on the Company's latest development strategy, business management, financial information and business progress clearly to shareholders, investors, analysts, banks and media. The Company ensures the dissemination of important information to the market rapidly through different channels. These channels include: results announcements, announcements, press conferences and analyst briefing sessions, road shows and meetings organized by investment institutions. To enhance communication with the investment sector, the Company regularly and irregularly updated the information through website www.csci.com.hk, to ensure that important events during the course of business development of the Company can be transmitted rapidly to the capital market through the website of the Company.

The management of the Company values the feedback of the external investment parties and meets analysts and investors regularly and irregularly to present the latest development strategy and operating conditions to them and communicates with investors in a timely manner. In 2008, the Company actively organized meetings with analysts and investors over 600 persons-time, and arranged for investors and analysts to visit the worksites of the Company for several times. Besides, the management has also participated in investment conferences and forums organized by major investment banks in the US, Europe and Asia Pacific and overseas road-show. Through the above activities, the communication between the management of the Company and the players of the capital market has been enhanced. Besides, the transparency of different business activities such as the Company's operation and management has also been enhanced. In 2009, the Company will further strengthen its efforts in this respect and maintain good relationship with investors through multiple channels and at multiple levels.
