## INTERIM DIVIDEND

The Board had already declared an interim dividend of HK\$0.13 per share for the year ending 31 December 2009 (2008: Nil) to the shareholders on the register of members of the Company on Wednesday, 15 July 2009. The said interim dividend was paid on 24 July 2009.

## REVIEW AND OUTLOOK

During the Period under review, information in relation to those matters set out in paragraph 32 of Appendix 16 to the Listing Rules and the performance of the investment projects of the Group have not been changed materially since the most recent published annual report.

Pursuant to a special resolution passed at the SGM, the entire amount standing to the credit of the share premium account of the Company as at the day of the SGM was cancelled on the next business day immediately following the date of passing the special resolution and the amount cancelled was transferred in full to the contributed surplus account of the Company.

The Board believes that the Share Premium Reduction is beneficial to the Company and the shareholders as a whole as the credit arising from the Share Premium Reduction transferred to the contributed surplus account of the Company will enable the Company to make distribution to the shareholders at an earlier opportunity in the future.

Investments around the world dropped significantly following the outbreak of the global financial tsunami since the second half of 2008. Despite the financial uncertainty, the global economies seem to begin restoring steadily since the second quarter of 2009 after the governments of the global economies were urged to take extensive measures in both fiscal and monetary policies to combat the spread of the financial tsunami. We are however still cautious about the prospects in the years ahead and will adopt a more conservative and prudent approach in identifying and pursuing any investment

opportunities. The Board believes that the business environment will remain challenging and highly competitive and hopes both the global and Hong Kong economies will continue to recover steadily.

The Group will continue to manage the existing investments in accordance with the Company's investment objective and policy of achieving long term capital appreciation and growth in profits and to evaluate potential investments with a view of gaining high investment returns and yields for our shareholders.

## **LIQUIDITY AND FINANCIAL RESOURCES**

Operations of the Group are generally financed through internal cash resources. As at 30 June 2009, cash and bank balances of the Group were approximately HK\$130 million. With cash and other current assets of approximately HK\$161 million as at 30 June 2009, the Group has sufficient financial resources to satisfy its commitments and working capital requirements.

## **REMUNERATION POLICIES**

Remuneration policies for the employees and the directors are reviewed by the Group in accordance with the market situation and their performance from time to time. In addition to salary payments, the Company has participated in the Mandatory Provident Fund Scheme (the "MPF Scheme") in Hong Kong. The MPF Scheme is registered with the Mandatory Provident Scheme Authority under the Mandatory Provident Schemes Ordinance. The assets of the MPF Scheme are held separately from those of the Group in funds under the control of an independent trustee. Pursuant to the rules of the MPF Scheme, the Group and its employees are each required to make contributions to the scheme at 5% of their monthly relevant income.
