BUSINESS REVIEW

With the global economy gradually steering out of the doldrums, the TFT-LCD industry staged a strong recovery in the second quarter and finished the first half of 2009 on a high note. Mainstream LCD panel prices in the month of June were on average 21 percent higher than that of the January lows on the back of production cutback at the fabs and active re-stocking by retailers and distributors, not to mention a robust China demand. Outside of China, TV demand in the US was surprisingly resilient in spite of the stagnant economy.

During the first six months of 2009, global PC monitor shipments declined 12.1 percent to 79.6 million units from 90.6 million units a year ago. However, there were some signs of recovery on a sequential quarterly basis as stock replenishment along the channels had pushed shipment up by 5.5 percent to 40.9 million units in the second quarter.

As for the flourishing LCD TV segment, shipment surged by 26.7 percent to 56.7 million units in the first half of 2009 compared to the corresponding period a year ago. Sequentially, the second quarter shipment of 30 million units was 12.3 percent higher than that of the first quarter. DisplaySearch, an independent research house, recently revised up its global TV shipment forecast for 2009 to 127 million units from 120 million units in view of the strong showing in the first half.

In tandem with the improving business environment, TPV recorded sequential double-digit unit growth for both monitor and TV segments in the second quarter. Despite this, the weak start to the year, coupled with a sluggish PC monitor market, had slowed down the Group's PC monitor shipment by 14.9 percent year-on-year to 20.8 million units in the first half of 2009. LCD TV unit shipment, on the other hand, grew 62.7 percent year-on-year to 3.4 million units in the first half, helped by the increasing outsourcing needs of the major TV brands.

BUSINESS REVIEW (Continued)

For the period under review, the Group recorded a consolidated revenue of US\$3.1 billion, down 37.0 percent from US\$4.9 billion in the first half of 2008. On a sequential quarterly basis, the Group's consolidated revenue grew 24.4 percent to US\$1.7 billion in the second quarter. Profit attributed to equity holders declined 43.6 percent to US\$54.7 million versus US\$96.8 million during the same period a year ago. Basic earnings per share was US2.59 cents (1H 2008: US4.88 cents).

The PC monitor business segment contributed 69.4 percent of the total revenue while contribution from the LCD TV business segment had grown to 28.0 percent. Average selling prices ("ASPs") of PC monitor and LCD TV for the first six months were US\$103.5 (1H 2008: US\$161.2) and US\$255.0 (1H 2008: US\$399.6) respectively. On a quarterly sequential basis, these ASPs went up to US\$104.6 and US\$267.0 from US\$102.2 and US\$239.2 correspondingly, reflecting the higher panel prices and the consumer migration towards bigger display products.

Gross profit margin in the first half of 2009 improved to 5.7 percent from 4.9 percent a year ago in a challenging macro-economic environment. As a result of the Group's continuous cost-cutting initiatives, selling, general and administration (SG&A) expenses in the first half year were pared by 31.5 percent from the second half of 2008. The net finance cost was also cut significantly due to lower interest rates and a much improved balance sheet. Research and development spendings, however, were kept at the same level to further expand the Group's TV design capabilities.

In terms of geographical contribution, sales to the PRC, North America and Europe contributed 33.2 percent (1H 2008: 25.6 percent), 28.3 percent (1H 2008: 26.8 percent) and 20.7 percent (1H 2008: 23.1 percent) respectively to the Group's consolidated revenue in the six-month period. The fluctuation in percentage contribution more or less reflected the economic strength in these regions over the periods.

BUSINESS REVIEW (Continued)

Under a five-year license agreement with Koninklijke Philips Electronics N.V., which took effect from 1st June 2009, TPV assumed the full responsibility to design, source, manufacture, distribute, market and sell PC monitors globally using the Philips trademark. The business transfer was concluded smoothly and the initial response from the sales channels has been heartening.

The Group has been generating strong operating cash flow since the second half of 2008, which was used to pay down bank debts and fund operational needs. Total borrowings were reduced by almost US\$250 million in the first half of 2009 to US\$355 million. With a cash balance of over US\$480 million, the Group was in a net cash position as at the end of June. In view of the strong financial position, the Group does not envisage either its leverage or bank borrowings to go up significantly in the coming quarters.

PROSPECTS

As the global economy stabilizes and demand strength continues, LCD panel has become a hot commodity with prices continuing to firm up well into the third quarter. In this situation, it is a challenge for system integrators to secure sufficient supply of panels to meet customer orders in the coming peak season. With our long-standing relationships with key panel suppliers and a strong balance sheet, TPV is in a vantage position to capitalize on this window of opportunity to win new orders and market share.

Despite the seemingly sanguine economic outlook, the management will stay vigilant in this rapidly changing environment and continue to exercise rigid cost control to lift profitability.

CORPORATE GOVERNANCE PRACTICES

TPV is committed to ensuring and maintaining high standards of corporate governance.

During the six months ended 30th June 2009, the Company has complied with all the code provisions in the "Code on Corporate Governance Practices" (the "CG Code") set out in Appendix 14 to the Listing Rules except for the deviation from code provisions A.2.1 and A.4.1 of the CG Code which are explained below.

The board will continue to review and improve the corporate governance practices and standards of the Company to ensure that business activities and decision making processes are regulated in a proper and prudent manner.

CORPORATE GOVERNANCE PRACTICES (Continued)

Chairman and Chief Executive Officer

Code provision A.2.1 stipulates that the roles of the chairman and chief executive officer should be separated and should not be performed by the same individual.

Dr Hsuan, Jason currently holds the offices of chairman and chief executive officer of the Company. The board believes that vesting the roles of both positions in Dr Hsuan provides the Group with strong and consistent leadership and allows for more effective planning and execution of long term business strategies. The board also believes that the Company already has a strong corporate governance structure in place to ensure effective supervision of management. Such a structure provides many of the benefits of having a separate chairman and chief executive officer. The structure includes:

- having non-executive directors and independent non-executive directors comprising a majority of the board;
- having the audit committee composed exclusively of independent non-executive directors;
- having independent non-executive directors comprising a majority of the remuneration committee; and
- ensuring that independent non-executive directors have free and direct access to both the Company's management, internal audit division, external auditor and independent professional adviser where considered necessary.

The board believes that these measures will ensure that independent non-executive directors continue to effectively monitor the Group's management and to review and provide recommendation on key issues relating to strategy, risk and integrity. The board continually reviews the effectiveness of the Group's corporate governance structure to assess whether any changes, including the separation of the roles of chairman and chief executive officer, are necessary.

CORPORATE GOVERNANCE PRACTICES (Continued)

Re-election of directors

Code provision A.4.1 stipulates that non-executive directors should be appointed for a specific term, subject to re-election.

The Company's non-executive directors are not appointed for a specific term. However, one-third of all the directors of the Company for the time being are subject to retirement by rotation at each annual general meeting pursuant to bye-law 99 of the Bye-laws of the Company. The board considers that sufficient measures have been made to ensure that the Company's corporate governance practices are no less exacting than those stipulated in the CG Code.

The board considers the determination of the appointment and removal of directors to be the board's collective decision and accordingly, it does not intend to adopt the recommended best practice of the CG Code to set up a nomination committee in the meantime.

MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted its own code of conduct regarding securities transactions by directors of the Company (the "Internal Rules") on terms no less exacting than the required standard set out in the Model Code in the Listing Rules.

Specific enquiries have been made with all directors who have confirmed that they have complied with the required standard set out in the Model Code and in the Internal Rules during the six months ended 30th June 2009.

Relevant employees who are likely to be in possession of unpublished price-sensitive information of the Group are subject to compliance with the Company's "Code for Securities Transactions by Relevant Employees" (the "RE Code") in respect of their dealings in the securities of the Company. Likewise, the RE Code is prepared on terms no less exacting than the required standard set out in the Model Code.

AUDIT COMMITTEE

The Company has established an audit committee with specific written terms of reference which are in line with the relevant code provisions of the CG Code. All the members of the audit committee are independent non-executive directors.

The audit committee meets the external auditor regularly to discuss any areas of concerns during the audits and review. The audit committee reviews the quarterly, interim and annual results before submission to the board. The audit committee focuses not only on the impact of the changes in accounting policies and practices but also on the compliance with accounting standards, the Listing Rules and the legal requirements in the review of the Company's financial results.

The audit committee is provided with sufficient resources by the Company, including the advice of the external auditor and internal auditor, to discharge its duties.

REMUNERATION COMMITTEE

The Company has established a remuneration committee with specific written terms of reference which are in line with the relevant code provisions of the CG Code.

Chaired by an independent non-executive director, the remuneration committee currently has a membership comprising three independent non-executive directors and the chairman and chief executive officer of the Company.

The remuneration committee is responsible for reviewing and evaluating the remuneration packages of executive directors and senior management and making recommendations to the board from time to time.

1 GENERAL INFORMATION

TPV Technology Limited (the “Company”) and its subsidiaries (together the “Group”) designs, manufactures and sells computer monitors and flat TV products. The Group manufactures mainly in the People’s Republic of China (the “PRC”) and sells to Europe, North and South America, the PRC and other Asian countries.

The Company is a limited liability company incorporated in Bermuda. The address of its registered office is Canon’s Court, 22 Victoria Street, Hamilton HM 12, Bermuda.

The shares of the Company are primarily listed on The Stock Exchange of Hong Kong Limited and secondarily listed on Singapore Exchange Limited.

This condensed consolidated interim financial information is presented in US dollars, unless otherwise stated. This condensed consolidated interim financial information was approved for issue on 1st September 2009.

This condensed consolidated interim financial information has not been audited.

2 BASIS OF PREPARATION

This condensed consolidated interim financial information for the six months ended 30th June 2009 has been prepared in accordance with Hong Kong Accounting Standard (“HKAS”) 34, ‘Interim Financial Reporting’. The condensed consolidated interim financial information should be read in conjunction with the annual financial statements for the year ended 31st December 2008, which have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRS”).

3 ACCOUNTING POLICIES

Except as described below, the accounting policies adopted are consistent with those of the annual financial statements for the year ended 31st December 2008, as described in the annual financial statements.

The following new/revised standards to existing standards are mandatory for the first time for the financial year beginning 1st January 2009.

HKAS 1 (Revised), 'Presentation of Financial Statements'. The revised standard prohibits the presentation of items of income and expenses (that is 'non-owner changes in equity') in the statement of changes in equity, requiring 'non-owner changes in equity' to be presented separately from owner changes in equity. All 'non-owner changes in equity' are required to be shown in a performance statement.

Entities can choose whether to present one performance statement (the statement of comprehensive income) or two statements (the income statement and statement of comprehensive income).

The Group has elected to present two statements: an income statement and a statement of comprehensive income. The interim financial information has been prepared under the revised disclosure requirements.

HKFRS 8, 'Operating Segments'. HKFRS 8 replaces HKAS 14, 'Segment Reporting'. It requires a 'management approach' under which segment information is presented on the same basis as that used for internal reporting purposes.

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker has been identified as the Group's Chief Executive Officer and Chief Financial Officer that make strategic decisions.

3 ACCOUNTING POLICIES (Continued)

HKFRS 7 (Amendment), “Financial Instruments: Disclosures”. The amendment increases the disclosure requirements about fair value measurement and amends the disclosure about liquidity risk. The amendment introduces a three-level hierarchy for fair value measurement disclosures about financial instruments and requires some specific quantitative disclosures for those instruments classified in the lowest level in the hierarchy. These disclosures will help to improve comparability between entities about the effects of fair value measurements. In addition, the amendment clarifies and enhances the existing requirements for the disclosure of liquidity risk primarily requiring a separate liquidity risk analysis for derivative and non-derivative financial liabilities. It also requires a maturity analysis for financial assets where the information is needed to understand the nature and context of liquidity risk. The Group will make additional relevant disclosures in its financial statements ending 31st December 2009.

HKFRS 2 (Amendment), “Share-based Payment: Vesting Conditions and Cancellations”. The amendment clarifies the definition of a vesting condition and prescribes the accounting treatment for an award that is effectively cancelled. The adoption of this amendment did not have any impact on the financial position or performance of the Group.

HKAS 23 (Revised), “Borrowing Costs”. The standard has been revised to require capitalization of borrowing costs when such costs are directly attributable to the acquisition, construction or production of a qualifying asset. As the Group’s current policy for borrowing costs aligns with the requirements of the revised standard, the revised standard did not have any impact on the financial position or performance of the Group.

3 ACCOUNTING POLICIES (Continued)

The following amendments and interpretations to existing standards are mandatory for the first time for the financial year beginning 1st January 2009, but are not currently relevant to the Group.

HKFRS 1 (Amendment)	First-time Adoption of HKFRS
HKAS 32 and HKAS 1 (Amendments)	Puttable Financial Instruments and Obligations Arising on Liquidation

HK(IFRIC) – Int 13	Customer Loyalty Programmes
HK(IFRIC) – Int 15	Agreements for the Construction of Real Estate

The following revised standards, amendments and interpretations to existing standards have been issued but are not effective for the financial year beginning 1st January 2009 and have not been early adopted:

HKFRS 3 (Revised)	Business Combinations (effective prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after 1st July 2009)
HKAS 27 (Revised)	Consolidated and Separate Financial Statements (effective for annual periods beginning on or after 1st July 2009)
HKAS 39 and HK(IFRIC) – Int 9 (Amendments)	Embedded Derivatives (effective for annual periods beginning on or after 30th June 2009)

3 ACCOUNTING POLICIES (Continued)

HKAS 7 (Amendment)	Statement of Cash Flows (effective for annual periods beginning on or after 1st January 2010)
HKAS 17 (Amendment)	Leases (effective for annual periods beginning on or after 1st January 2010)

HK(IFRIC) – Int 16 (Amendment)	Hedges of a Net Investment in a Foreign Operation (effective for annual periods beginning on or after 1st July 2009)

3 ACCOUNTING POLICIES (Continued)

All the above revised standards, amendments and interpretations to existing standards are currently relevant to the Group's operations except for HKAS 39 and HK(IFRIC) – Int 9 (Amendments), HK(IFRIC) – Int 16, HK(IFRIC) – Int 17 and HK(IFRIC) – Int 18.

The Group plans to adopt the above revised standards, amendments and interpretations to existing standards when they become effective.

Certain comparative figures have been reclassified in order to conform to the current period's presentation.

4 SEGMENT INFORMATION

The Group's businesses are managed according to the nature of their operations and the products and services they provide. Each of the Group's operating segments represents a strategic business unit that offers products and services which are subject to risks and returns that are different from those of other operating segments.

The Group is organized on a worldwide basis into two main operating segments. They are (i) Monitors; and (ii) TVs.

Others mainly comprise the sales of chassis, spare parts, CKD/SKD and other general corporate items.

The Group's chief operating decision-maker assesses the performance of the operating segments based on a measure of adjusted operating profit. Export incentives received, fiscal refund received, localization incentives received, other gains – net, finance income, finance costs and share of profits less losses of associated companies are not included in the result for each operating segment that is reviewed by the Group's chief operating decision-maker.

4 SEGMENT INFORMATION (Continued)

Sales are categorized according to the final destination of shipment. There are no inter-segment sales.

Segment assets consist primarily of intangible assets, property, plant and equipment, land use rights, inventories, trade receivables and deposits, prepayments and other receivables. They exclude investment properties, interests in associated companies, available-for-sale financial assets, deferred income tax assets, financial assets at fair value through profit or loss, current income tax recoverable, derivative financial instruments, pledged bank deposits and cash and cash equivalents, which are managed on a central basis. These are included in the reconciliation to total balance sheet assets.

Segment liabilities mainly comprise pension obligations, trade payables, other payables and accruals and warranty provisions. They exclude borrowings, current income tax liabilities and derivative financial instruments, which are managed on a central basis. These are included in the reconciliation to total balance sheet liabilities.

7 INCOME TAX (Continued)

According to the Corporate Income Tax Law of the People's Republic of China (the "CIT Law"), the income tax rates for both domestic and foreign investment enterprises were unified at 25% effective from 1st January 2008. However, for enterprises which were established before the publication of the CIT Law and were entitled to preferential treatments of reduced income tax rate granted by relevant tax authorities, the income tax rate is gradually increased to 25% within 5 years after the effective date of the CIT Law. For the region that enjoyed a reduced income tax rate at 15%, the income tax rate is gradually increased to 18% for 2008, 20% for 2009, 22% for 2010, 24% for 2011 and 25% for 2012 according to grandfathering rules stipulated in the Detail Implementation Regulations ("DIR") and related circular. Enterprises that were entitled to exemptions or reductions from the standard income tax rate for a fixed term before the publication of the CIT Law continue to enjoy such treatment until the fixed term expires.

For the six months ended 30th June 2008, Top Victory Electronics (Fujian) Company Limited and TPV Electronics (Fujian) Company Limited were subject to the PRC corporate income tax rate of 18% according to the aforementioned grandfathering rules stipulated in the DIR and related circular while TPV Technology (Beijing) Company Limited and TPV Technology (Suzhou) Company Limited were subject to the PRC corporate income tax rate of 25% upon the adoption of the CIT Law.

The convertible bonds are assumed to have been converted into ordinary shares and the net profit is adjusted to eliminate the interest expense. For the share options, a calculation is made in order to determine the number of shares that could have been acquired at fair value (determined as the average market share price of the Company's shares) based on the monetary value of the subscription rights attached to outstanding share options. The number of shares calculated as above is compared with the number of shares that would have been issued assuming the exercise of the share options.

17 CONTINGENT LIABILITIES

- (a) In February 2004, a third party company filed a complaint in the United States of America against the Group, one of its associated companies and certain other third party companies.

The complaint concerns claims of damages related to alleged infringement of certain patents in respect of technology of the design and manufacture of LCD ("Patent I").

As far as the Group and its associated company are concerned, it is alleged among other matters that:

- (i) they had infringed, actively induced and/or contributed to the infringement of Patent I by making, using, causing to be used, offering to sell, causing to be offered for sale, selling, causing to be sold, importing and/or causing to be imported LCDs and/or LCD products in the United States of America; and
- (ii) as a consequence of the infringement, the plaintiff has been damaged and would continue to sustain damages unless the court grants an award of damages to it covering reasonably attorneys' fees, costs and expenses that incurred by it for pursuing this action.

The directors are of the opinion that while proceedings were stayed according to the court's Memorandum Order on 13th May 2004, it is not probable to assess the future outcome of the litigation for the time being. Even if the outcome turns out to be unfavourable, the directors consider that its future settlement may not have any material financial impact on the Group as a whole.

17 CONTINGENT LIABILITIES (Continued)

- (b) In January 2007, a third party company filed a complaint in the United States of America against the Group, one of its associated companies and certain other third party companies. - (ii) as a consequence of their infringement complained of herein, the plaintiff had been damaged and will continue to sustain damages by such acts in an amount to be determined at trial and will continue to suffer irreparable loss and injury.

The directors are of the opinion that while the proceedings were stayed to the extent the Group is concerned according to the Court’s Stipulation and Order of 23rd October 2007, it is not probable to assess the outcome of the litigation for the time being. Even if the outcome of the litigation turns out to be unfavourable, the directors consider that its future settlement may not have any material financial impact on the Group as a whole.

17 CONTINGENT LIABILITIES (Continued)

- (c) In November 2007, the U.S. International Trade Commission instituted an investigation based on a complaint filed by a third party against the Group, one of its associated companies and certain other third party companies. The directors are of the opinion that while the case is currently pending decision by the Court of Appeals for the Federal Circuit, it is not probable to assess the outcome of the investigation for the time being. Even if the outcome turns out to be unfavourable, the directors consider that its future settlement may not have any material financial impact on the Group as a whole.

Even if the outcome turns out to be unfavourable, the directors consider that its future settlement may not have any material financial impact on the Group as a whole.

17 CONTINGENT LIABILITIES (Continued)

- (e) In January 2009, a third party company filed a complaint in Germany against the Group, one of its associated companies and certain other third party companies.

The complaint concerns claims of damages related to alleged infringement of certain patents in respect of technology of the manufacture of computer monitor ("Patent IV").

As far as the Group and its associated company are concerned, it is alleged among other matters that:

- (i) they had infringed, actively induced, contributed to the infringement of Patent IV by making, using, causing to be used, offering to sell, selling, causing to be sold, importing and/or causing to be imported monitors in Germany; and
- (ii) as a consequence of the infringement, the plaintiff has been damaged and would continue to sustain damages unless the court grants an award of damages to it covering reasonably attorneys' fees, costs and expenses that incurred by it for pursuing this action.

The directors are of the opinion that while the investigation is ongoing, it is not probable to assess the outcome of the investigation for the time being. Even if the outcome turns out to be unfavourable, the directors consider that its future settlement may not have any material financial impact on the Group as a whole.
