Management Discussion and Analysis

BUSINESS REVIEW

The Group has the following acquisitions and disposal of subsidiaries during the six months ended 30 June 2009:

1. On 18 February 2009, the Group has entered into an agreement to sell its 70% equity interest in a subsidiary, Qingdao Spiritzone Asiawin Food Co., Ltd. ("Spiritzone Asiawin Food") to a related party at a consideration of RMB8.8 million. Spiritzone Asiawin Food is a sino-foreign equity joint venture established in the PRC and its principal business activity is production of processed food. After taken into account the operating loss made by Spiritzone Asiawin Food for the year 2008, the directors considered that it is in the interests of the Company to exit from Spiritzone Asiawin Food as Spiritzone Asiawin Food will probably not contribute positively to the profitability of the Group.
2. On 25 May 2009, the Group acquired 55% of the equity interest with consideration of RMB15.6 million in Qingdao Pu De Food Company Limited ("Qingdao Pu De"), a sino-foreign joint venture company incorporated in the People's Republic of China from several third parties. Qingdao Pu De is principally engaged in the manufacture and sale of processed food products such as frozen vegetables, seafood products and meat products such as meatballs, Dong Po meat (東坡肉) and Gu Lao meat (古老肉), primarily for export to the Japanese market. Its business is similar to the Group's business that can provide an opportunity for the Group to further expand its presence in the Japan market.
3. On 26 June 2009, the Group acquired 100% equity interest in each of Qingdao Kangda Modern Agricultural Technology Development Company Limited ("Modern Agricultural") and Qingdao Baishun Food Company Limited ("Baishun") from several related parties with a total consideration of RMB8.7 million.

The principal activity of Modern Agricultural is the planting and sale of vegetables. The acquisition of Modern Agricultural would provide the Group with its own source of supply of vegetables for the production of its processed food products. It will also strengthen the Group's existing production capacity of processed food products.

The principal activity of Baishun is the manufacture and sale of food products. Baishun has obtained the export license for chicken meat to be exported to the European Union ("EU"). The acquisition of Baishun will allow the Group to obtain such export license in addition to the export licence it has already obtained and increase its export quota to the European Union and thus expand its market in the EU.

The Group had experienced a dynamic and challenging environment for the six months ended 30 June 2009 resulting from the financial tsunami that created the worst trading conditions in living memory. For the first half year of 2009, the Group had experienced a decrease in its profit after tax by 70.6% to RMB17.6 million, mainly resulting from the significant decrease in the Group's products exported to EU and Japan markets.

Management had responded swiftly and decisively to the above decreasing demand by restructuring the products' cost of the Group.

The Group has also implemented an extensive market strategy with emphasis on good relationships with customers and suppliers and focus on widening its international client base and continual introduction of various products to the PRC market.

OUTLOOK AND FUTURE PLANS

Global economy hit by financial crisis in late 2008 is expected to recover in an orderly manner in the second half of 2009. With the support of RMB4 trillion economic stimulus plan and moderately loose monetary policy adopted by the PRC government, it is believed that the PRC economy will recover at a faster pace than other countries, and its growth momentum will be stronger. The Group may benefit from the PRC government's new policy to enhance the intrinsic demand in the PRC by selling of our brand name processed food products to the domestic market. The Group will continue to expand its sales network, implement stringent cost control measures, improve production efficiency and quality control system for ensuring quality of our products. The management and staff of the Group are confident in the business development prospects and performance to be improved in the second half of the year.

To ensure its long term development, the Group will explore appropriate acquisition opportunities that offer good returns to the Group and its shareholders.

OPERATING AND FINANCIAL REVIEW

	Six months ended 30 June		% Change +/-
	2009 RMB'000 Unaudited	2008 RMB'000 Unaudited	
Manufacturing and sale of processed food products	145,796	151,411	(3.7)

Manufacturing and sale of other products	36,991	21,025	75.9
Total	344,796	456,057	(24.4)

Chilled and Frozen Meat Products

The rabbit and chicken meat segments contributed 47.0% to the Group's total revenue for the six months ended 30 June 2009 ("HY2009") compared to 62.2% of the previous corresponding period end 30 June 2008 ("HY2008"). The revenue of the rabbit and chicken meat segments registered a 42.9% decrease to RMB162.0 million in HY2009.

As a result of global economic downturn, export sales of rabbit meat products decreased following a decrease in demand from EU. Revenue from the sale of rabbit meat decreased by 34.4% to RMB54.7 million in HY2009 compared with HY2008. Export accounted for around 70% of total rabbit meat sales.

Revenue of the chicken meat segment contributed 31.1% to the Group's total revenue for HY2009. Revenue decreased by 46.4% to RMB107.3 million in HY2009 from RMB200.2 million in HY2008. The decrease was due mainly to keen competition in the PRC market. The significant increase in pork prices in the PRC had resulted an increase in demand for chicken meat product as a substitute in the past few years. The average prices of pork has

decreased continuously from the second half year of 2008 and this has resulted in a significant decrease in demand for chicken meat in HY2009.

Processed Food Products

Revenue from processed food showed a slightly decrease of 3.7% to RMB145.8 million in HY2009. The decrease was due mainly to a slow down of export of products to Japan resulted from the economic downturn.

Other products

Revenue from the manufacturing and sales of other products increased by 75.9% to RMB37.0 million in HY2009 from RMB21.0 million in HY2008, mainly due to strong demand from the domestic market and Korea market.

The increase in revenue of the products was largely driven by an increase in demand for the Group's pet food products. Pet food sales contributed over 60% to this segment with growth generated from Beijing and Shanghai markets in the PRC, and exports to Japan and Korea.

Revenue by Geographical Marekts

	Six months ended 30 June		% Change +/-
	2009 RMB'000 Unaudited	2008 RMB'000 Unaudited

PRC	198,913	290,122	(31.4)
Total	344,796	456,057	(24.4)

On a geographical basis, revenue from the export sales decreased by 12.1% to RMB145.9 million in HY2009 compared to RMB165.9 million in HY2008. The lower export sales were attributable mainly to a decrease in export sales of rabbit meat products.

PRC sales decreased by 31.4% to RMB198.9 million in HY2009 compared to RMB290.1 million in HY2008, mainly attributable to a decrease in sale of chicken meat products to domestic market.

Total	43,516	12.6	72,866	16.0	(29,350)	(40.3)

Gross profit margin declined from 16.0% to 12.6% due mainly to rising raw material price of processed food and reduced price of rabbit meat to EU.

Processed Food

Processed food business remained as the main profit contributor in HY2009. Gross profit decreased by 24.3% to RMB21.6 million in HY2009 compared to RMB28.5 million in HY2008. Gross profit margin declined to 14.8% from 18.8% for HY2009, due mainly to rising raw material costs.

Rabbit Meat

Decrease in gross profit of rabbit meat segment was due mainly to a decrease in demand for rabbit meat in EU resulting from global economic downturn. Gross profit margin decreased to 18.8% in HY2009 and gross profit dropped by 53.4% to RMB10.3 million.

Chicken Meat

Gross profit margin for chicken meat segment remained relatively stable at 9.1% in HY2009 with a slight decline of 1.1% as the Group can control the cost of raw materials through its self-supply of chicken meat resulted from its vertically-integrated operation. Gross profit decreased by RMB10.7 million or 52.2% to RMB9.8 million from RMB20.4 million for HY2009.

Other Products

Gross profit remained constant at RMB1.9 million for HY2009.

Others are mainly chicken and rabbit meat by-products and pet food products, which are not the core profit drivers of the Group.

Other Income

Other income comprised mainly interest income from bank deposits amounting to RMB8.4 million. The rest were government grants, rental income, recovery of gas, electricity from customers.

Selling and Distribution Expenses

Selling and distribution expenses comprised mainly transportation costs of RMB3.9 million and salary of RMB1.4 million. Advertising and promotion activities remained constant in HY2009.

Administrative Expenses

Administrative expenses comprised mainly salaries and allowance expenses, professional fees, travelling expenses and etc. The significant increase in amount of RMB8.5 million or 54.6% for HY2009 was due mainly to the acquisition of two subsidiaries and the establishment of three subsidiaries in 2008. This had incurred more administrative expenses and employment of more employees by the Group.

Finance Costs

Finance costs increased by nearly 300.0% to RMB4.6 million for HY2009 from RMB1.2 million in HY2008 due to a 3-year syndication loan of HK\$105 million which was guaranteed and secured against the Company's interests in its two subsidiaries,

Perfect Good Group Limited and Spiritzone Group Limited and a bank loan of USD7 million obtained at the end of 2008 for the Group's project investment.

Taxation

Income tax expense decreased in line with decrease in profit before taxation for HY2009.

REVIEW OF THE GROUP'S FINANCIAL POSITION AS AT 30 JUNE 2009

The main increase in property, plant and equipment represented the Group's addition of facility and construction in progress mainly for Jilin project of approximately RMB44.6 million, depreciation for HY2009 amounted to RMB8.8 million.

Significant increase in prepaid premium for land leases in HY2009 was due mainly to the renting of two pieces of land located at Jiaonan, Shandong Province with area of totally 2,372 mu for the purposes of breeding and rearing of chickens and rabbits. The tenancy agreements were signed between the Group and local government on 26 April 2009 for a lease period of 30 years. Prepayment for these lands amounted to RMB47.8 million had been paid in May 2009.

Biological assets were included following the completion of acquisition of two subsidiaries namely, Qingdao Kangda Animal Rearing Co., Ltd. and Qingdao Kangda Rabbit Co., Ltd. on 31 May 2008 and establishment of three subsidiaries named, Jilin Kangda Rabbit Co., Ltd., Qingdao Kangda-Eurolap Rabbit Selection Co., Ltd. and Qingdao Kangda Shengwu Keji Co., Ltd. at the end of 2008.

Biological assets of the above subsidiaries were progeny rabbits and progeny chickens for sale and breeder rabbits and chickens held for breeding purpose. These biological assets were valued by the directors of the Group at 30 June 2009 with reference to the market-determined prices of items with similar size, species and age. The valuation methodology is in compliance with IAS 41 to determine the fair values of biological assets in their present location and condition.

Inventories increased by RMB12.2 million to RMB72.8 million to cater for the anticipated revival demand in the third quarter of 2009. The inventory turnover days for HY2009 represented 40 days as compared to 29 days for the year ended 31 December 2008 ("FY2008"); the increase was mainly due to a decrease in sale volume resulted from global economic downturn.

Trade receivables decreased by approximately RMB31.8 million

or 38.9% to approximately RMB50.1 million in HY2009 in tandem with the decrease in business volume. The trade receivable turnover days increased to 34 days in HY2009 compared with 27 days in FY2008.

Prepayments, other receivables and deposits increased by approximately RMB6.9 million from approximately RMB26.5 million as at FY2008 to approximately RMB33.4 million as at HY2009 due mainly to higher deposits placed with the Group's suppliers for construction in progress in Jilin project and prepayments for acquisition of three subsidiaries which will be consolidated into the Group once approvals are obtained from the PRC government.

Trade and bills payables decreased by approximately RMB30.7 million from approximately RMB82.5 million as at FY2008 to approximately RMB51.8 million as at HY2009 due to shorter payment terms granted by some of suppliers.

Accrued liabilities, other payables and deposits received decreased by approximately RMB7.7 million from approximately RMB43.3 million as at FY2008 to approximately RMB35.6 million as at HY2009. The decrease was due to lesser amount of deposits placed by customers compared with FY2008.

Tax payables decreased from RMB6.9 million in FY2008 to RMB3.2 million in HY2009. This was due to the settlement of income tax during the HY2009.

PRC corporate income tax is provided at the rates applicable to the subsidiaries in the PRC on the income for statutory reporting purpose, adjusted for income and expense items which are not assessable or deductible for income tax purposes based on existing PRC income tax regulations, practices and interpretations thereof.

During the 5th session of the 10th National People's Congress of the PRC, which was concluded on 31 March 2007, the New PRC Corporate Income Tax Law was approved and became effective on 1 January 2008. The New Corporate Income Tax Law introduces a wide range of changes, which include, but not limited to, the unification of the income tax rates for domestic-invested and foreign-invested enterprises at 25% and the revoke of withholding tax exemption provision that applied to dividends paid by foreign-invested enterprises to its foreign investors. According to the implementation rules, a reduced withholding rate of 10% will be imposed on dividends distributed to foreign investors, unless a lower rate applies for tax-treaty countries.

On 22 February 2008, the State Tax Bureau further announced that all undistributed profits accumulated as at 31 December 2007 are exempted from the PRC withholding tax no matter when these profits are subsequently distributed.
