## Notes to Condensed Consolidated Financial Statements

#### 1. Basis of Preparation

The unaudited condensed consolidated interim financial statements have been prepared in accordance with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited (the "Listing Rules") and with Hong Kong Accounting Standard ("HKAS") No. 34 Interim Financial Reporting issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA").

#### 2. Principal Accounting Policies

(i) Except as described below, the accounting policies applied are consistent with those of the annual financial statements for the year ended 31 December 2009, as described in those annual financial statements.

#### Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for trading and financial assets designated upon initial recognition as at fair value through profit or loss. Financial assets are classified as held for trading if they are acquired for the purpose of sale in the near term. This category includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by HKAS 39. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with changes in fair value recognised in finance income or finance costs in the income statement. These net fair value changes do not include any dividends or interest earned on these financial assets, which are recognised in accordance with the policy set out for "Revenue recognition" below.

#### 2. Principal Accounting Policies (Continued)

The Group evaluates its financial assets at fair value through profit or loss to assess whether the intent to sell them in the near term is still appropriate. When the Group is unable to trade these financial assets due to inactive markets and management's intent to sell them in the foreseeable future significantly changes, the Group may elect to reclassify these financial assets in rare circumstances. The reclassification from financial assets at fair value through profit or loss to loans and receivables, available-for-sale financial assets or held-to-maturity investments depends on the nature of the assets. This evaluation does not affect any financial assets designated at fair value through profit or loss using the fair value option at designation.

Taxes on income in the interim periods are accrued using the tax rate that would be applicable to expected total annual earnings.

The following new standards, new interpretations and amendments to standards and interpretations are mandatory for the first time for the financial year beginning 1 January 2010, but are not currently relevant for the Group.

HK(IFRIC)-Int 17Distributions of non-cash assets to ownersHKFRS 1 (Amendment)Additional exemptions for first-time adoptersHKAS 39 (Amendment)Eligible hedged itemsHKFRS 2 (Amendment)Group cash-settled share-based payment transaction

First improvements to HKFRS (2008) were issued in May 2008 by the IASB and October 2008 by the HKICPA. The improvement related to HKFRS 5 "Non-current assets held for sale and discontinued operations".

Second improvements to HKFRS (2009) were issued in April 2009 by IASB and May 2009 by the HKICPA.

#### 2. Principal Accounting Policies (Continued)

The following new standards, new interpretations and amendments to standards and interpretations have been issued but are not effective for the financial year beginning 1 January 2010 and have not been early adopted:

Amendments to HK(IFRIC) Int-14 'Prepayments of a minimum funding requirement'<sup>2</sup>

- <sup>2</sup> Effective for annual periods beginning on or after 1 January 2011 <sup>3</sup> Effective for annual periods beginning on or after 1 July 2010
- <sup>3</sup> Effective for annual periods beginning on or after 1 July 2010
- <sup>4</sup> Effective for annual periods beginning on or after 1 February 2010

For the application of these standards or interpretations, management is either assessing the impact of or considers that there will have no material impact on the results and the financial position of the Group.

#### 2. Principal Accounting Policies (Continued)

For the plastics recycling business, the Group's trading terms with its customers are mainly in advance, except for the well acquainted customers, credit terms may be allowed. The credit period is generally one month. Each customer has a maximum credit limit as approved from the management from time to time. The Group seeks to maintain strict control over its outstanding receivables and has a credit control department to minimise credit risk. Overdue balances are reviewed regularly by senior management. # Management Discussion and Analysis

The Company has entered into a new era since 2010 and taken a series of positive steps to achieve for the best interest of the Shareholders.

# **Results and Review of Operations**

For the six months ended 30 June 2010 (the "Period"), the Group recorded a consolidated turnover of HK\$286,212,000 (2009: HK\$12,959,000), representing an increase of approximately 21 times over the corresponding period last year. The profit attributable to the Shareholders of the Company for the Period to HK\$616,950,000 (2009: Loss HK\$11,430,000). Basic earnings per share was 45 HK cents for the Period as compared to the loss per share of 3 HK cents per share for the six months ended 30 June 2009. For illustration purpose only, assuming that 847,810,000 Consideration Shares (see Note 10) were issued on 21 June 2010, the earnings per share would be 44 HK cents.

The increase in turnover was mainly due to the formation of the joint venture by the Group and Mr. Cheung Mo Kit, China Environmental Resources Limited in 2009. However, the gross profit was HK\$13,176,000 (2009: HK\$4,456,000) for the Period, which represented an increase of approximately 196% over the corresponding period last year and the gross profit margin has decreased from 34.4% to 4.6%.

The earnings attributable to the shareholders for the Period from loss HK\$11,430,000 to HK\$616,950,000 is mainly due to the difference of approximately HK\$741,098,000 between the fair value of 70% ownership interest in the Utah Gas and Oil Field and the relevant consideration of the acquisition has been recognised in the consolidated income statement during the Period.

The Group has restructured its core business last year, the Group has resolutely cut loss by disposing of logistics business and the bonded warehouse which had been suffering losses for years. After the disposal, the Group does not have any outstanding bank loans by then.

#### Financing

The Company's issue of new shares for a fund raising of HK\$319 million to various international funds and institutional investors including JP Morgan was completed on 3 May 2010. Together with the first round of share placement in mid December 2009, the Company has already successfully raised an aggregate amount of over HK\$500 million which financed the Group for its acquisition of 70% ownership interest of the Utah Gas and Oil Field project.

In addition, Mr. Wong Kwan, the controlling shareholder, who is also the Chairman and Chief Executive, has converted his Convertible Notes into new Shares of the Company in a principal amount of HK\$70,000,000, the conversion has further strengthened the financial capability of the Company. It demonstrated Mr. Wong Kwan's strong confidence in the Company's future development. The Company will become an international energy and resources investment and operating platform on which the Company can build up long-term mutual beneficial relationship with sizeable state-owned enterprises in China, and it will bring desirable return on investment to the Company and its shareholders.

#### **Oil and Gas Business**

The Special General Meeting of the Company held on 8 June 2010, got an unanimous 100% in favour from attending shareholders to approve the US\$225 million acquisition of 100% ownership interest of the Utah Gas and Oil Field project.

The acquisition has been approved by the Committee of Foreign Investment of the United States. At the same time, the Company is going to take this opportunity to build up a long-term mutual beneficial partnership with large-scale state-owned enterprises. On 21 July 2010, the Company signed Strategic Cooperation Agreement with Sinopec International Petroleum Exploration and Production Corporation (中國石化集團國際石油 勘探開發有限公司), a wholly owned subsidiary of China Petrochemical Corporation (中國 石油化工集團公司), for possible cooperation in exploration and exploitation of various overseas gas and oil fields.

The Company completed the Phase 1 Acquisition of the Utah Gas and Oil Field on 21 June 2010 and legally holds 70% Ownership Interest of the Utah Gas and Oil Field. The Operating Company of the Utah Gas and Oil Field and Halliburton have also signed an agreement for project management and consulting services for the design, exploitation, production and management of the 14 new and existing wells of Utah Gas and Oil Field.

Halliburton has excellent track record in worldwide oil and gas field services with a leading position. It has 38 sizeable oil field projects including in the United States, Latin America, Middle East, Europe and China.

In addition, a gas purchase agreement for five years with Anadarko Group has been extended to a period of 12 years beginning from February 2010. Anadarko Group has a gas pipeline running through the Utah Gas and Oil Field. It is intended that all gas production from the Utah Gas and Oil Field will be sold to Anadarko's midstream operations.

#### **Settlement of Litigation**

On 31 July 2010, the Company entered into a Settlement Agreement with Mr. Zhang Jingyuan ("Mr. Zhang"), the joint venture party, to withdraw all legal claims against any parties to those litigations in Hong Kong and Mainland China and to dispose of 55.11% equity interest of China Coal Energy Holdings Limited ("China Coal") to Mr. Zhang. Upon completion of the disposal, the Company will have an aggregate net proceeds of HK\$168.6 million to be received by instalments within 2 years. As a full provision of impairment loss in respect of China Coal has been made before, therefore, the disposal of equity interest of China Coal will bring a considerable amount of non-recurring gain to the Company. The first instalment of payment of HK\$32 million under the Settlement Agreement has been received by the Company, and it will contribute to the results of the Group in the 2nd half of year 2010.

The entering into the Settlement Agreement allows the Company to have a considerable proceeds which is not only beneficial to strengthen financial capability of the Group, but also for Management to focus its energy and resources on developing oil and gas core businesses at full speed.

#### **Recycling Plastic Business**

The Group and Mr. Cheung Mo Kit, our joint venture partner are intending to dispose of their 100% interests in China Environmental Resources Limited ("China Environmental"), a 60% owned subsidiary of the Group, at a premium to an overseas listed company (the "Listed Vehicle") to further develop and restructure its plastic recycling businesses, and they may also jointly acquire controlling stake shareholding of the single largest shareholder of the Listed Vehicle (collectively, the "Transaction"). China Environmental has

a plan of expanding into and acquiring related waste plastic processing facilities and factories in China by raising further fund through the Listed Vehicle. If the Transaction completes, the Company will still hold its interests in China Environmental through the Listed Vehicle in the form of listed securities.

Due to high labour cost (which is estimated to be over 10 times that in China), after due and careful consideration, China Environmental is intending to relocate the processing activities to China from France and also to dispose of the processing factory and machinery in France to independent third parties. Accordingly, a voluntary liquidation of a subsidiary (the "Subsidiary") of China Environmental engaged in waste plastic processing and manufacturing in France has been taken out in order to facilitate the restructuring of the plastic recycling businesses of China Environmental. The French Court has appointed a liquidator for the Subsidiary to handle the related matters in accordance with the relevant legal procedures.

The Board expects that the aforesaid restructuring can help the Group to achieve good return through possible capital appreciation in the plastic recycling sector.

#### Liquidity, Financial Resources and Capital Structure

The Group generally finances its operations with issue of new shares and convertible notes and internally generated resources.

At 30 June 2010, the Group had no bank borrowings (31 December 2009: Nil). As a result of the completion of the Utah Gas and Oil project in June 2010, the Group's cash and bank balances as at 30 June 2010 have decreased to HK\$103 million from approximately HK\$224 million as at 31 December 2009. The current ratio (calculated on the basis of the Group's current assets over current liabilities) has decreased to 4.6 as at 30 June 2010 (31 December 2009: 4.7).

During the Period, the Group conducted its business transactions principally in Renminbi, Hong Kong dollars, or in the local currencies of the operating subsidiaries. The Directors considered that the Group had no significant exposure to foreign exchange fluctuations and believed it was not necessary to hedge against any exchange risk. Nevertheless, Management will continue to monitor the foreign exchange exposure position and will take any future prudent measure it deems appropriate.

#### Litigations

- (a) The Group had three pending litigation claims with the ex-directors of a disposed subsidiary, Dransfield Holdings Limited ("DHL"), who claim against the Group for a total sum of not less than HK\$11.4 million. As disclosed in the Company's announcement dated 23 August 2005, the Company's interest in DHL was disposed of on 23 July 2005. It was alleged in these claims that by disposing of all its shares in DHL, the Company was evading liabilities and denying these claimants' benefits of the debts owned by DHL. A judgment was given in favour of Horace Yao Yee Cheong, Habile International Holdings Limited and Makdavy Holdings Limited against the Company on 22 May 2009 for the aggregate sum of approximately HK\$6.9 million together with interests thereon and legal costs. The Company has successfully appealed against the judgment during the Period.

On 31 July 2010, the Group entered into a Settlement Agreement with Mr. Zhang Jingyuan ("Mr. Zhang"). Pursuant to the Settlement Agreement, Mr. Zhang and the Group, inter alios, shall make relevant application (the "Applications") to withdraw or settle all their legal claims against any parties to those litigations in Hong Kong and Mainland China as soon as possible, and also the Group shall dispose of the Sale Shares which represents approximately 55.11% of the issued shares of China Coal to Mr. Zhang (the "Disposal"). The net total proceeds on the Disposal to be received by the Group by instalments will be HK\$168.6 million. The first instalment of payment of HK\$32 million under the Settlement Agreement has been received by the Company, and it will contribute to the results of the Group in the 2nd half of year 2010.

#### **Employees and Remuneration Policies**

As at 30 June 2010, the number of employees of the Group was around 60. The remuneration packages of employees are maintained at competitive levels and include monthly salaries, mandatory provident fund, medical insurance and share option schemes; other employee benefits include meal and traveling allowances and discretionary bonuses.

#### Outlook

The Company will become a pure oil and gas company. The Utah Gas and Oil Field which the Company holds 70% Ownership Interest, is under the assistance and management of Halliburton, a world-wide famous oil and gas engineering company. The drilling of wells is in full swing. If there is no unpredictable situation, it is expected that the Utah Gas and Oil Field will have oil and gas production by October 2010 which will bring stable income for the Company. Dr. Lew Mon Hung, our deputy Chairman, has led the professional technical team of the Company to go to Kazakhstan in early August to visit the government authorities as well as to pay a site visit to several Kazakhstan oil fields which are under the negotiation for a possible acquisition.

On 10 August 2010, the Company signed a Strategic Cooperation Agreement with Bank Center Credit ("BCC") in Kazakhstan, pursuant to which BCC will also introduce some other energy resources projects with potential development to the Company, and the Company will assist BCC to introduce oil and gas Kazakhstan enterprises to be listed on Stock Exchange of Hong Kong and/or to raise funds in the capital markets which will be of great benefit to broaden the business relationship and other opportunities between Hong Kong and Kazakhstan.

The Board believes that the professional engineering services and support to be provided by Halliburton and the gas purchase services provided by Anadarko which are the two leading giants in the oil and gas industry will be beneficial to the enhancement of the pace of production and quality of products of the Utah Gas and Oil Field, and it is expected that it will bring long-term stable income for the Company soon.
