In the first half of 2010, due to the extreme complexity of both the domestic and international economic environment, there were macro-economic control dilemmas on an increasing number of issues, which led to greater challenges to the development of the insurance industry. With the full implementation of the “No. 2 Interpretation of Accounting Standards for Business Enterprises”, a new structure for the life insurance market in China is emerging. In order to actively respond to market competition, the Company accelerated its structural adjustments, strived to maintain the stable and healthy development of its business and strengthened its leading market position. By greatly improving its infrastructure, the Company made steady progress in the reform of its operation and management system. The Company also kept improving its back-office support capabilities, controlled its operating risks effectively, and transformed its model of development continuously.

During the Reporting Period, the Company's total revenues reached RMB215,391 million, up 10.0% year-on-year. Net profit attributable to shareholders of the Company was RMB18,034 million, up 7.4% year-on-year and earnings per share (basic and diluted) were RMB0.64. As at the end of the Reporting Period, the Company's total assets reached RMB1,320,354 million, up 7.7% from the end of 2009. The Company's embedded value was RMB278,440 million.

## REVIEW OF THE FIRST HALF OF 2010

The Company closely monitored the development trend of the life insurance market, intensified its efforts in business development and speeded up the growth of its regular premiums business. On the basis of maintaining a steady and healthy business development, the Company has achieved remarkable success in its business restructuring. During the Reporting Period, the Company's net premiums earned reached RMB183,589 million, up 13.3% year-on-year. First year premiums and first-year regular premiums increased by 9.4% and 24.2% compared to the corresponding period in 2009 respectively, and renewal premiums increased by 18.9% compared to the corresponding period in 2009. The percentage of first-year regular premiums in first year premiums increased to 27.82% in the first half of 2010 from 24.50% in the corresponding period in 2009. The percentage of accident insurance premiums in short-term insurance premiums increased to 53.28% in the first half of 2010 from 50.75% in the corresponding period in 2009. The percentage of renewal premiums in gross written premiums increased to 39.23% in the first half of 2010 from 37.28% in the corresponding period in 2009. New business value increased steadily, with new business value for the 6 months to 30 June 2010 reaching RMB11,548 million, an increase of 10.9% compared with that for the 6 months to 30 June 2009. Underwriting quality of the Company was further enhanced. As at 30 June 2010, the number of in-force policies increased by 7.8% from the end of 2009, and the Policy Persistency Rate (14 months and 26 months)<sup>2</sup> reached 93.83% and 89.76%, respectively. Surrender Rate was 1.3%, a 0.34 percentage point decrease from the corresponding period in 2009.

<sup>2</sup> The Persistency Rate for long-term individual policy is an important operating performance indicator for life insurance companies. It measures the ratio of in-force policies in a pool of policies after a certain period of time. It refers to the proportion of policies that are still effective during the designated month in the pool of policies whose issue date was 14 or 26 months ago.

## Chairman's Statement

The Company effectively responded to changes in the capital markets and consistently optimized its investment portfolio. By capturing market opportunities, the Company has increased investment in negotiated deposits, adjusted the structure of its investment in bonds, reduced the proportion of its equity investments, and successfully implemented its debt plan investment, achieving satisfactory investment results. As at the end of the Reporting Period, the Company's investment assets reached RMB1,242,944 million, up 6.0% from the end of 2009. The proportion of debt securities decreased from 49.68% as at the end of 2009 to 48.46%, while the proportion of equity securities decreased from 15.31% to 11.15%. The proportion of term deposits increased from 29.43% as at the end of 2009 to 33.89%. During the Reporting Period, the Company's gross investment yield<sup>3</sup> was 2.51% (the simple annualized gross investment yield<sup>4</sup> was 5.06%).

The Company kept on strengthening the infrastructure of its exclusive individual agent channel and enhancing the professionalism and meticulousness of its operation and management, as a result of which the quality of its sales team has improved continually. The group insurance channel intensified its efforts to expand the business from major projects, resulting in further increase of the Company's market share in short-term insurance business, and the model of development on its policy-oriented business has been widely praised. The bancassurance channel has accomplished significant progress in increasing regular premiums business, which resulted in a significant lead over its competitors in regular premiums business and continuous improvement in its team's competitiveness. As at the end of the Reporting Period, the Company had approximately 736,000 exclusive individual agents, and 12,900 direct sales representatives. The number of intermediary bancassurance outlets reached 97,000, with approximately 28,500 client service managers and 14,200 financial advisors.

The Company introduced standards for all customer service personnel and developed the inquiry functions of self-service terminals, in the aim of improving customer services continuously. By optimizing its business management practices and workflows, the Company effectively enhanced the efficiency of its business processing operations. The Company also consistently improved the professional research and development of, and operation supporting systems for information technologies, so as to provide strong back-up support and services guarantee to all sales channels. The Company also actively promoted its telephone and online sales business.

The Company strictly implemented the "Standards for the Operation of Personal Accident and Casualty Insurance Business" issued by the CIRC. The Company also strengthened the insurance agent risk warning system and follow-up visits of clients, and developed the credit assessment system for insurance agents. The Company revised and improved its Manual for the Implementation of Internal Control, focusing on certain key points, and further implemented the internal control standards, establishing a mechanism whereby all employees undertake to carry out internal control measures. The Company accomplished centralized management of internal audit functions and created an off-site audit control benchmark system for the commencement of off-site control.

<sup>3</sup> Gross investment yield = (Investment income + Net realised gains/(losses) on financial assets + Net fair value gains/(losses) on assets at fair value through income – Business tax and extra charges for investment)/((Investment assets at the beginning of the period + Investment assets at the end of the period)/2)

<sup>4</sup> Simple annualized gross investment yield = (the gross investment yield for the first half year/181)\*365

## CORPORATE GOVERNANCE

In the first half of 2010, the Company has strictly complied with all the relevant regulatory requirements and listing rules. In the 2009 AGM, Mr. Anthony Francis Neoh was elected as an independent director of the Company to join the third session of the Board of Directors, thus further facilitating the development of the Board of Directors. Meanwhile, independent non-executive director Mr. Sun Shuyi left his position on 30 June 2010 after completing 6 consecutive years of service. The Company expresses its heartfelt gratitude to Mr. Sun Shuyi for his diligence towards his duties and his significant contribution to the Company's development.

## CORPORATE SOCIAL RESPONSIBILITY

The Company donated RMB10 million to the Ministry of Civil Affairs through the China Life Foundation and RMB1 million to the Qinghai Charity Federation for the disaster rescue and post-disaster construction of Yushu. At the same time, the Company announced that it would support Yushu earthquake orphans by undertaking their basic living expenses until they reach the age of 18. The Company donated RMB1 million to Gansu Red Cross Society for the mudslide rescue and post-disaster construction of Zhouqu. The Company donated RMB1 million to "China Women's Development Foundation – Special Fund for the Health of Chinese Women" to provide for "Screening for Two Gynaecological Cancers" and protection against serious diseases to women living in poor areas. The Company also donated RMB2 million to the China Foundation for Poverty Alleviation for addressing the drinking water and other livelihood problems encountered by the poor families in Yunnan Province and Guizhou Province severely hit by drought. The Company donated over RMB1 million to Jiangxi Province, Fujian Province, Jilin Province and Shanxi Province which suffered from serious flood disasters. The Company continued to promote the "China Life Earthquake-stricken Orphan Support Plan". Through the scheme under which one-on-one assistance is provided to orphans by China Life volunteers, photography exhibitions on Wenchuan earthquake orphans, and the second "China Life Summer Camp-earthquake orphans visiting the Shanghai EXPO", etc., the Company provided orphans from the Wenchuan earthquake with long-term, continuous physical and spiritual support. Through the China Life Foundation, the Company continued to work on the "Healthy New Villages" project jointly initiated with the Red Cross Foundation of China.

## Chairman's Statement

### OUTLOOK

In the second half of 2010, the Company will face various challenges as well as opportunities in its development. China's macro-economic environment will maintain a positive outlook. The coordination in respect of economic growth driven by consumption, investment and exports is hopefully to be strengthened, as a result of which the basis of the development for the insurance industry will be more stable. With the thorough implementation of the "No. 2 Interpretation of Accounting Standard for Business Enterprises", the insurance industry will enjoy a healthier market environment for development. With investment channels for insurance companies further expanded, asset allocation will be more diversified. Meanwhile, the perspective for capital markets is unclear, resulting in greater challenges in asset – liability matching and achieving higher investment return.

On the basis of maintaining steady business development, the Company will proactively capture opportunities and strengthen its advantages, so as to achieve a robust and superior development. It will accelerate the development of its regular premium business and expand the scale of its renewal premiums, so as to enhance its sustainable development capabilities. The Company will strive to strengthen its sales force to further consolidate its core competitive edge. It will also establish a professional sales organization and management system to lay down a solid foundation for continuous development. In order to expand the scope for sustainable development, the Company will increase its capabilities for expanding customer resources. It will also strike a good balance between business scale and structure, short term and long term goals, objectives and foundations, as well as business development and risk control. The Company will also strive to enhance its core competitiveness, and create a new outlook for its sustainable development.

### TO SHAREHOLDERS

With continuous economic and social development, the life insurance industry in China will continue to grow at a rapid pace and there will be tremendous room for market development, although a lot of uncertainties exist. China Life will focus on serving economic development, social improvement and security of people's livelihood as a whole. Based on solid business development, internal management and team construction, we will make great efforts to achieve sustainable business development by utilizing our own competition advantages. We hereby express our heartfelt gratitude to the continuing support provided by all the Company's shareholders. Taking a long-term perspective, we will maintain our commitment to offer long-term, stable return to the society and investors, and continue to display the Company's image as a reliable and responsible corporate citizen for shareholders.

#### *Term Deposits*

As at the end of the Reporting Period, term deposits increased by 22.1% from the end of 2009. This was primarily due to our increased efforts for investment in negotiated deposits with floating interest rates.

#### *Held-to-Maturity Securities*

As at the end of the Reporting Period, held-to-maturity securities increased by 3.9% from the end of 2009. This was primarily due to an increase in our total investment assets.

#### *Available-for-Sale Securities*

As at the end of the Reporting Period, available-for-sale securities decreased by 6.2% from the end of 2009. This was primarily due to a decrease in fair value on financial assets.

#### *Securities at Fair Value through Income*

As at the end of the Reporting Period, securities at fair value through income increased by 20.9% from the end of 2009. This was primarily due to an increase on the volume of held-for-trading debt securities.

## Management Discussion and Analysis

### *Cash and Cash Equivalents*

As at the end of the Reporting Period, cash and cash equivalents increased by 23.5% from the end of 2009. This was primarily due to the needs of investment assets allocation.

### *Loans*

As at the end of the Reporting Period, loans increased by 29.0% from the end of 2009. This was primarily due to an increase in the demand of policy loans.

As at the end of the Reporting Period, our investment assets are categorized as below in terms of asset classes:

	RMB million			
	As at 30 June 2010		As at 31 December 2009	
	Amount	Percentage	Amount	Percentage
Cash and cash equivalents	44,718	3.60%	36,197	3.09%

Other liabilities	18,520	17,769
<b>Total</b>	<b>1,126,955</b>	<b>1,013,481</b>

*Insurance Contracts*

As at the end of the Reporting Period, liabilities of insurance contracts increased by 15.0% from the end of 2009. This was primarily due to an increase in business volume and the accumulation of insurance liabilities.

*Financial Liabilities*

As at the end of the Reporting Period, financial liabilities increased by 0.2% from the end of 2009. This was primarily due to an increase in business volume of investment contracts.

*Policyholder Dividends Payable*

As at the end of the Reporting Period, policyholder dividends payable decreased by 13.6% from the end of 2009. This was primarily due to a decrease in investment yield for participating products and a decrease in unrealised profit of financial assets (available-for-sale).

*Annuity and Other Insurance Balances Payable*

As at the end of the Reporting Period, annuity and other insurance balances payable increased by 38.5% from the end of 2009. This was primarily due to the accumulation of insurance liabilities.

*Deferred Tax Liabilities*

As at the end of the Reporting Period, deferred tax liabilities decreased by 29.3% from the end of 2009. This was primarily due to a decrease in unrealised profit of financial assets (available-for-sale).

### 3. Shareholders' Equity

As at the end of the Reporting Period, shareholders' equity was RMB191,739 million, a 9.2% decrease from the end of 2009. This decrease was primarily due to a decrease in fair value on financial assets (available-for-sale) and the distribution of cash dividends.

## III ANALYSIS OF CASH FLOW

### 1. Liquidity Sources

Our principal cash inflows come from insurance premiums, deposits from investment contracts, proceeds from sales and maturity of financial assets, and net investment income. The primary liquidity concerns with respect to these cash inflows are the risk of early withdrawals by contract holders and policyholders, as well as the risks of default by debtors, interest rate changes and other market volatilities. We closely monitor and manage these risks.

Additional sources of liquidity to meet unexpected cash outflows are available from our investment portfolio. As at the end of the Reporting Period, the amount of cash and cash equivalents was RMB44,718 million. In addition, substantially all of our term deposits with banks allow us to withdraw funds on deposit, subject to a penalty interest charge. As at the end of the Reporting Period, the amount of term deposits was RMB421,194 million.

## Management Discussion and Analysis

Our investment portfolio also provides us with a source of liquidity to meet unexpected cash outflows. As at the end of the Reporting Period, investments in debt securities had a fair value of RMB609,187 million, while investments in equity securities had a fair value of RMB138,593 million. The Company is also subject to market liquidity risk due to the large size of our investments in some of the markets in which we invest. From time to time some of our positions in our investment securities may be large enough to have an influence on the market value. These factors may limit our ability to sell these investments at an adequate price, or at all.

### 2. Liquidity Uses

Our principal cash outflows primarily relate to the liabilities associated with our various life insurance, annuity and accident and health insurance products, dividend and interest payments on our insurance policies and annuity contracts, operating expenses, income taxes and dividends that may be declared and payable to our shareholders. Liabilities arising from our insurance activities primarily relate to benefit payments under these insurance products, as well as payments for policy surrenders, withdrawals and loans.

We believe that our sources of liquidity are sufficient to meet our current cash requirements.

### 3. Consolidated Cash Flows

	RMB million	
	January to June 2010	January to June 2009
Net cash inflow from operating activities	104,365	80,710
Net cash outflow from investment activities	(78,376)	(38,778)
Net cash outflow from financing activities	(17,405)	(14,727)
Foreign currency losses on cash and cash equivalents	(63)	(11)
<b>Net increase in cash and cash equivalents</b>	<b>8,521</b>	<b>27,194</b>

During the Reporting Period, net cash inflow from operating activities increased by 29.3% year-on-year. This was primarily due to an increase in written premiums and a decrease in claims payments. Net cash outflow from investment activities increased by 102.1% year-on-year. This was primarily due to an increase in total investment assets and investment arrangements. Net cash outflow from financing activities increased by 18.2%. This was primarily due to an increase in cash dividends.

## IV SOLVENCY RATIO

The solvency ratio of an insurance company is a measure of capital adequacy, which is calculated by dividing the actual capital of the company (which is its admissible assets less admissible liabilities, determined in accordance with relevant rules) by the minimum capital it is required to meet. The following table shows our solvency ratio as at 30 June 2010:

	RMB million	
	As at 30 June 2010	As at 31 December 2009
Actual capital	118,184	147,119
Minimum capital	54,408	48,459
Solvency ratio	217.22%	303.59%

The decrease of our solvency ratio was primarily due to the fluctuation in the capital markets, the development of our business and the distribution of cash dividends.

### Details of shareholders

*Note 1:* On 19 June 2009, the Ministry of Finance, the State-owned Assets Supervision and Administration Commission of the State Council, the CSRC and the National Council for Social Security Fund jointly issued the “Measures for the Implementation of Transferring Part of the State-owned Shares to Enrich Social Security Fund in Domestic Securities Market” and the Circular No. 63. The promulgations stipulated that shares that have to be transferred by obligated state-owned shareholders are frozen as of the issuing date of the notification. As at the end of the Reporting Period, 150 million shares held by CLIC had been frozen legally. The Company received a written notification from CLIC informing the Company that CLIC will fulfill its obligation to transfer the state-owned shares through payment of cash, and thereby continue to hold the shares. CLIC will commence procedures for un-freezing those shares after payment of cash.

*Note 2:* HKSCC Nominees Limited is a company that holds shares on behalf of the clients of the Hong Kong stock brokers and other participants of the CCASS system. The relevant regulations of the HKSE do not required such persons to declare whether their shareholdings are pledged or frozen. Hence, HKSCC Nominees Limited is unable to calculate or provide the number of shares that are pledged or frozen.

*Note 3:* The State Development & Investment Corporation and China National Investment & Guarantee Co., Ltd. have become the top 10 shareholders of the company through the strategic placement during the initial public offering of A shares in December 2006. The trading restriction period of the shares from the strategic placement is from 9 January 2007 to 9 January 2008.

*Note 4:* The Company was not aware of any connected relationship and concerted parties as defined by the “Measures for the Administration of the Takeover of Listed Companies” among the top ten shareholders of the Company.

2. **During the Reporting Period, there was no change to the controlling shareholder and the effective controller of the Company.**

The agreement is valid for three years from the date on which the entrusted funds are transferred into a special entrustment account. As a trustee and account manager, the Pension Company provides trusteeship and account management services for the enterprise annuity funds of the Company, CLIC and AMC and charges trustee management fees and account management fees in accordance with the agreement.

## 3. Statement on Claims, Debt Transactions and Guarantee Transactions etc. with Connected Parties outside the Course of its Business

During the Reporting Period, the Company was not involved in claims, debt transactions and guarantees with connected parties outside the course of its business.

## VII. MATERIAL CONTRACTS AND THE PERFORMANCE OF MATERIAL CONTRACTS

1. During the Reporting Period, the Company neither acted as trustee, contractor or lessee of other companies’ assets, nor entrusted, contracted or leased other companies’ assets, the income from which accounts for 10% or above of the Company’s profits for the Reporting Period.
2. The Company neither gave external guarantees nor provided guarantees to its subsidiaries during the Reporting Period.
3. Apart from entrusting funds with AMC and its subsidiaries for asset management purposes, the Company did not entrust other companies with the management of cash assets during the Reporting Period.
4. Except otherwise disclosed in this report, the Company had no other material contracts during the Reporting Period.

### VIII. UNDERTAKINGS OF THE COMPANY OR SHAREHOLDERS HOLDING MORE THAN 5% OF THE SHARE CAPITAL OF THE COMPANY WHICH ARE EITHER GIVEN OR EFFECTIVE DURING THE REPORTING PERIOD

- (1) As the controlling shareholders of the Company, CLIC undertook not to transfer or entrust others to manage their direct and indirect holdings in the Company, nor allow the Company to repurchase such shares for a period of thirty-six months from the date of listing of the Company's A Shares. CLIC strictly followed these commitments during the Reporting Period. The lock-up of the 19,323,530,000 shares held by CLIC has expired on 11 January 2010. The undertakings made by CLIC to the Company had been performed.
- (2) Prior to the listing of the Company's A Shares (30 November 2006), land use rights were injected by CLIC into the Company during its reorganization. Out of these, four pieces of land (with a total area of 10,421.12 square meters) had not had its formalities in relation to the change of ownership completed. Further, out of the properties injected into the Company, there were six properties (with a gross floor area of 8,639.76 square meters) in respect of which the formalities in relation to the change of ownership had not been completed. CLIC undertook to complete the abovementioned formalities within 1 year of the date of listing of the Company's A Shares, and in the event such formalities could not be completed within such period, CLIC would bear any potential losses to the Company in relation thereto. CLIC strictly followed these commitments. As at the end of the Reporting Period, save for the two properties and related land of the Company's Shenzhen Branch, all other formalities in relation to the change of land and property ownership have been completed. The Shenzhen Branch of the Company continues to use such properties and land, and no other parties have questioned or hindered the use of such properties and land by the Company.

### IX. AUDITORS

Resolutions were passed at the 2009 AGM held on 4 June 2010 to engage PricewaterhouseCoopers Zhong Tian Certified Public Accountants Limited Company and PricewaterhouseCoopers as the PRC and international auditors to the Company in 2010, respectively. This interim report was unaudited.

### X. STOCK APPRECIATION RIGHTS PLAN AND ITS IMPLEMENTATION

No Share Stock Appreciation Rights of the Company were granted or exercised in the first half of 2010. The Company will deal with such rights and related matters in accordance with relevant PRC governmental policy.

### XI. OTHER AFFAIRS

Pursuant to the Audit Law of the PRC and the 2010 Auditing Plan of the National Audit Office of the PRC (the "NAO"), from the beginning of May 2010 the NAO has started its routine audit of the Company. As at the end of the Reporting Period, the routine audit is still in process.

**REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION  
TO THE BOARD OF DIRECTORS OF CHINA LIFE INSURANCE COMPANY LIMITED**  
*(incorporated in People's Republic of China with limited liability)*

## INTRODUCTION

We have reviewed the interim financial information set out on pages 32 to 65, which comprises the condensed consolidated statement of financial position of China Life Insurance Company Limited (the "Company") and its subsidiaries (together, the "Group") as at 30 June 2010 and the related condensed consolidated statements of comprehensive income, statement of changes in equity and cash flows statement for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes (the "Interim Financial Information"). The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and International Accounting Standard 34 "Interim Financial Reporting". The directors of the Company are responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard 34 "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

## SCOPE OF REVIEW

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34 "Interim Financial Reporting".

## 6 INSURANCE CONTRACTS

### (a) Process used to decide on assumptions

- (i) For the insurance contracts of which future returns are affected by the investment yields of corresponding investment portfolios, investment return assumptions are applied as discount rates to assess the time value impacts on reserve computation.

In developing discount rate assumptions, the Group considers investment experience, current and future investment portfolio and trend of the yield curve. The discount rate reflects the future economic outlook as well as the company's investment strategy. The assumed discount rate with risk margin are as follows:

	<b>Discount rate assumptions</b>
As at 30 June 2010	4.40%-5.00%
As at 30 June 2009	3.50%-5.00%

For the insurance contracts of which the future returns are not affected by the investment yields of the corresponding investment portfolios, the Group use discount rate assumption to assess the time value impacts based on the "yield curve of reserve computation benchmark for insurance contracts", published on "China Bond" website, with the consideration includes the liquidity spreads, taxation impacts and other relevant factors. The assumed discount rate with risk margin are as follows:

	<b>Discount rate assumptions</b>
As at 30 June 2010	2.62%-5.49%
As at 30 June 2009	2.64%-5.07%

The discount rate assumption is affected by certain factors, such as future macro-economy, fiscal policies, capital market and availability of investment channel of insurance funds. The Group determines discount rate assumption based on the information obtained at the end of each reporting period including consideration of risk margin.

## 6 INSURANCE CONTRACTS (CONTINUED)

### (a) Process used to decide on assumptions (continued)

- (ii) The mortality and morbidity assumptions are based on the Group's historical mortality and morbidity experience. The assumed mortality rates and morbidity rates are varying by age of the insured and contract type.

The Group bases its mortality assumptions on China Life Insurance Mortality Table (2000-2003), adjusted where appropriate to reflect the Group's recent historical mortality experience. The main source of uncertainty with life insurance contracts is that epidemics and wide-ranging lifestyle changes could result in deterioration in future mortality experience, thus leading to an inadequate liability. Similarly, continuing advancements in medical care and social conditions could result in improvements in longevity that exceed those allowed for in the estimates used to determine the liability for contracts where the Group is exposed to longevity risk.

The Group bases its morbidity assumptions for critical illness products on analysis of historical experience and expectations of future developments. There are two main sources of uncertainty. First, wide-ranging lifestyle changes could result in future deterioration in morbidity experience. Second, future development of medical technologies and improved coverage of medical facilities available to policyholders may bring forward the timing of diagnosing critical illness, which demands earlier payment of the critical illness benefits. Both could ultimately result in an inadequate liability if current morbidity assumptions do not properly reflect such secular trends.

Risk margin is considered in the Group's mortality and morbidity assumptions.

- (iii) The expense assumption has been based on expected unit costs with the consideration of risk margin. Unit costs have been based on an analysis of actual experience and expressed on both a per-policy and a percent-of-premium basis. The Group's expense assumption is affected by certain factors, such as inflation and market competition. The Group determines expense assumption based on the information obtained at the end of each reporting period with the consideration of risk margin.

	Individual Life		Group Life	
	RMB Per Policy	% of Premium	RMB Per Policy	% of Premium
As at 30 June 2010	26.25-38.5	1.05%-1.17%	11.32	1.01%
As at 30 June 2009	22.5-33.0	1.59%-1.74%	9.7	1.54%

- (iv) The lapse rates and other assumptions are affected by certain factors, such as future macro-economy, availability of financial substitutions and market competition, which brings uncertainty to lapse rate and other assumptions. The lapse rates and other assumptions are determined with reference to past experience where creditable, current conditions, future expectations and other information obtained at the end of each reporting period.

The Group did not change its process used to decide on assumptions for the insurance contracts disclosed in this note.

### 15 SIGNIFICANT RELATED PARTY TRANSACTIONS (CONTINUED)

#### (b) Transactions with significant related parties (continued)

*Note:*

- (i) As part of the restructuring, CLIC transferred its entire branch services network to the Company. CLIC and the Company entered into an agreement on 24 December 2005 to engage the Company to provide policy administration services to CLIC relating to the non-transferred policies. The Company, as a service provider, does not acquire any rights or assume any obligations as an insurer under the non-transferred policies. In consideration of the services provided under the agreement, CLIC will pay the Company a policy management fee based on the estimated cost of providing the services, to which a profit margin is added. The policy management fee is equal to, for each semi-annual payment period, the sum of (1) the number of non-transferred policies in force that were within their policy term as at the last day of the period, multiplied by RMB8.00 per policy and (2) 2.50% of the actual premiums and deposits in respect of such policies collected during the period. The agreement would be automatically renewed for a three year term subject to compliance with the Stock Exchange regulations unless a written notice of non renewal is issued by the Company or the Group 180 days prior to the expiration of the contract or the renewed term. The Company and the Group could modify the terms of policy management fee based on the prevailing market terms when renewing the contract. Otherwise, the original fee terms would apply. On 30 December 2008, the Company and CLIC signed a renewal agreement to extend the contract signed on 24 December 2005 to 31 December 2011, with all other terms unchanged. The policy management fee income is included in other income in condensed the Consolidated Statement of Comprehensive Income.
- (ii) On 27 December 2005, CLIC and AMC entered into an agreement, whereby CLIC agreed to pay AMC a service fee at the rate of 0.05% per annum. The service fee was calculated and payable on a monthly basis, by multiplying the average of balance of book value of the assets under management (after deducting the funds obtained and interests accrued from repurchase transactions) at the beginning and at the end of any given month by the rate of 0.05%, divided by 12. Such rate was determined with reference to the applicable management fee rate pre-determined for each specified category of assets managed by AMC to arrive at a comprehensive service fee rate. On 30 December 2008, CLIC and AMC signed a renewal agreement, which extended the effective period of the original agreement to 31 December 2011. The service fee calculation method remains unchanged and would be adjusted according to the performance.

On 29 December 2005, the Company and AMC entered into a separate agreement, whereby the Company agreed to pay the AMC a fixed service fee and a variable service fee. The fixed service fee is payable monthly and is calculated with reference to the net asset value of the assets in each specified category managed by AMC and the applicable management fee rates pre-determined by the parties on an arm's length basis. The variable service fee equals to 10% of the fixed service fee per annum payable annually. The service fees were determined by the Company and AMC based on an analysis of the cost of service, market practice and the size and composition of the asset pool to be managed. On 30 December 2008, the Company and AMC signed a renewal agreement, which expanded the effective period of the original agreement to 31 December 2010. The variable service fee changes to 20% of the fixed service fee per annum payable annually and is adjusted according to the performance.

In March 2007, CLP&C and the AMC entered into an agreement, whereby CLP&C agreed to pay AMC a fixed service fee and a variable service fee. The agreement expired in December 2008. In 2009, CLP&C and AMC signed a new agreement, with effective period to 31 December 2010. The agreement is subject to an automatic renewal for one year if there was no objection by both parties upon expiring. According to the agreement, the fixed service fee is calculated and payable on a monthly basis, by multiplying the average of balance of book value of the assets under management at the beginning and at the end of any given month by the rate of 0.05%, divided by 12. The variable service fee is calculated based on investment performance.

In September 2007, China Life Overseas and AMC HK have entered into an agreement, whereby China Life Overseas agreed to pay AMC HK a management service fee at a basis rate and calculated based on actual net investment return yield. On 29 December 2009, China Life Overseas and AMC HK signed a renewal agreement, effective from 1 January 2010 to 31 December 2010.

## 15 SIGNIFICANT RELATED PARTY TRANSACTIONS (CONTINUED)

## (b) Transactions with significant related parties (continued)

*Note: (continued)*

(ii) (continued)

In 2009, Pension Company and AMC signed an agreement with effective period to 31 December 2009. The agreement was subject to an automatic renewal for one year if there was no objection by both parties upon expiring. According to the agreement, the fixed service fee is calculated and payable on a monthly basis, by multiplying the average of balance of book value of the assets under management at the beginning and at the end of any given month by the rate of 0.05%, divided by 12. The bonus equals to 10% of the excess return per annum payable annually.

In May 2008, the Company and AMC HK entered into an "Offshore Investment Management Service Agreement for Entrusted Fund", whereby the Company agreed to pay AMC HK primary and secondary market asset management fee. The fixed asset management fee is calculated on a monthly basis, and paid quarterly. Asset management fee for the primary market is calculated at a rate of 2% of the total investment realised gains. Asset management fee for the secondary market is calculated by a fixed rate of 0.45%. The Company and AMC HK signed a renewal agreement on September 2009 and a supplemental agreement on December 2009 with the effective period to 31 December 2011, whereby the company agreed to pay the AMC HK a service fee at the fixed rate of 0.05% per annum.

The asset management fee charged to the Company and Pension Company by AMC and AMC HK is eliminated in the Condensed Consolidated Statement of Comprehensive Income.

- (iii) In November 2008, the Company and CLP&C entered into an agreement, whereby CLP&C entrusted the Company to act as an agent to sell appointed insurance products in authorized areas. The service fee is determined according to cost (tax included) added marginal profit.
- (iv) The Group made certain project payments to third parties through CLRE and paid other miscellaneous expenditures mainly comprised rentals and deposits to CLRE.
- (v) In 22 February 2010, the Company entered into a property leasing agreement with IHC, pursuant to which IHC agreed to lease to the Company certain of its owned and leased buildings. The annual rent payable by the Company to IHC in relation to the IHC owned properties is determined by reference to market rent or, the costs incurred by IHC in holding and maintaining the properties, plus a margin of approximately 5%. The rental was paid on a semi annual basis and the rent of the buildings subleased by IHC was paid directly to the owner. The agreement will expire on 31 December 2012.
- (vi) On 29 April 2007, the Company and GDB entered into an individual bank insurance agency agreement. All insurance products suitable for delivery through bank channels are included in the agreement. GDB will provide services, including selling insurance products, receiving premiums, paying benefits. The company has agreed to pay commission fees as follows: 1) A monthly service fee, calculated on a monthly basis, by multiplying total premium received and a fixed commission rate; or 2) A monthly commission fee, calculated on a monthly basis, by multiplying the number of policy being handled and fixed commission rate which is not more than RMB1 per policy, where GDB handles premiums receipts and benefits payments. The agreement will expire in five years.
- (vii) On 8 April 2010, 1st Extraordinary Shareholders Meeting of GDB approved 2010 Additional Stock Offering Proposal for the existing shareholders. The Company participated in the offering with addition of RMB 2,000 million capital injection. The Company's share of interest in GDB will not change after the additional offering. As of 30 June 2010, this additional offering has yet to be approved by relevant regulatory authorities.

## 15 SIGNIFICANT RELATED PARTY TRANSACTIONS (CONTINUED)

## (e) Transactions with state-owned enterprises

Under IAS 24 (amendment), business transactions between state-owned enterprises controlled by the PRC government are within the scope of related party transactions. CLIC, the ultimate holding company of the Group, is a state-owned enterprise. The Group's key business is insurance relevant and therefore the business transactions with other state-owned enterprises are primarily related to insurance and investment activities. The related party transactions with other state-owned enterprises were conducted in the ordinary course of business. Due to the complex ownership structure, the PRC government may hold indirect interests in many companies. Some of these interests may, in themselves or when combined with other indirect interests, be controlling interests which may not be known to the Group. Nevertheless, the Group believes that the following captures the material related parties and applied IAS 24 (amendment) exemption and disclose only qualitative information.

As at 30 June 2010 and 31 December 2009, most of bank deposits were with state-owned banks; the issuers of corporate bonds and subordinated bonds held by the Group were mainly state-owned enterprises. For the six months ended 30 June 2010 and 2009, a large portion of its group insurance business of the Group were with state-owned enterprises; the majority of bank assurance brokerage charges were paid to state-owned banks and post office; almost all of the reinsurance agreements of the Group were entered into with a state-owned reinsurance company; most of bank deposit interest income were from state-owned banks.

## Embedded Value

### BACKGROUND

China Life Insurance Company Limited prepares financial statements to public investors in accordance with the relevant accounting standards. An alternative measure of the value and profitability of a life insurance company can be provided by the embedded value method. Embedded value is an actuarially determined estimate of the economic value of the life insurance business of an insurance company based on a particular set of assumptions about future experience, excluding the economic value of future new business. In addition, the value of one year's sales represents an actuarially determined estimate of the economic value arising from new life insurance business issued in one year.

China Life Insurance Company Limited believes that reporting the Company's embedded value and value of one year's sales provides useful information to investors in two respects. First, the value of the Company's in-force business represents the total amount of distributable earnings, in present value terms, which can be expected to emerge over time, in accordance with the assumptions used. Second, the value of one year's sales provides an indication of the value created for investors by new business activity and hence the potential of the business. However, the information on embedded value and value of one year's sales should not be viewed as a substitute of financial measures under the relevant accounting bases. Investors should not make investment decisions based solely on embedded value information and the value of one year's sales.

It is important to note that actuarial standards with respect to the calculation of embedded value are still evolving. There is still no universal standard which defines the form, calculation methodology or presentation format of the embedded value of an insurance company. Hence, differences in definition, methodology, assumptions, accounting basis and disclosures may cause inconsistency when comparing the results of different companies.

Also, embedded value calculation involves substantial technical complexity and estimates can vary materially as key assumptions are changed. Therefore, special care is advised when interpreting embedded value results.

The values shown below do not consider the future financial effects of the Policy Management Agreement Between China Life Insurance (Group) Company ("CLIC") and China Life Insurance Company Limited, the Non-competition Agreement Between CLIC and China Life Insurance Company Limited, the Trademark License Agreement Between CLIC and China Life Insurance Company Limited, and the Property Leasing Agreement Between China Life Investment Holding Company Limited and China Life Insurance Company Limited, nor the future financial impacts of transactions of China Life Insurance Company Limited with China Life Insurance Asset Management Company Limited, China Life Pension Company Limited, and China Life Property and Casualty Insurance Company Limited.

### DEFINITIONS OF EMBEDDED VALUE AND VALUE OF ONE YEAR'S SALES

The embedded value of a life insurer is defined as the sum of the adjusted net worth and the value of in-force business allowing for the cost of capital supporting a company's desired solvency margin.

"Adjusted net worth" is equal to the sum of:

- Net assets, defined as assets less PRC statutory policy reserves and other liabilities; and
- Net-of-tax adjustments for relevant differences between the market value and the book value of assets, together with relevant net-of-tax adjustments to certain liabilities.

The market value of assets can fluctuate significantly over time due to the impact of the prevailing market environment. Hence the adjusted net worth can fluctuate significantly between valuation dates.

The “value of in-force business” and the “value of one year’s sales” are defined here as the discounted value of the projected stream of future after-tax distributable profits for existing in-force business at the valuation date and for one year’s sales in the 12 months immediately preceding the valuation date. Distributable profits arise after allowance for PRC statutory reserves and solvency margins at the required regulatory minimum level.

The value of in-force business and the value of one year’s sales have been determined using a traditional deterministic discounted cash flow methodology. This methodology makes implicit allowance for the cost of investment guarantees and policyholder options, asset/liability mismatch risk, credit risk and the economic cost of capital through the use of a risk-adjusted discount rate.

### PREPARATION AND REVIEW

The embedded value and the value of one year’s sales were prepared by China Life Insurance Company Limited in accordance with “Life Insurance Embedded Value Reporting Guidelines” issued by China Insurance Regulatory Commission. Towers Watson, an international firm of consultants, performed a review of China Life’s embedded value. The review statement from Towers Watson is contained in the “Report on Towers Watson Review and Opinion on Embedded Value” section.

### ASSUMPTIONS

The valuation assumptions used as at 30 June 2010 are consistent with those used as at 31 December 2009.

### SUMMARY OF RESULTS

The embedded value as at 30 June 2010, and the value of one year’s sales for the 12 months to 30 June 2010, and their corresponding results in 2009 are shown below.

## Embedded Value

**Table 1**

**Components of Embedded Value and Value of One Year's Sales (RMB million)**

(Assuming the method to determine taxable income for 2009 and thereafter was the same as that in 2008)

## REPORT ON TOWERS WATSON REVIEW AND OPINION ON EMBEDDED VALUE

### To The Directors of China Life Insurance Company Limited

China Life Insurance Company Limited (“China Life”) has prepared embedded value results for the half year ended 30 June 2010 (“EV Results”). The disclosure of these EV Results, together with a description of the methodology and assumptions that have been used, are shown in the Embedded Value section.

China Life has engaged Towers Watson Pennsylvania Inc., trading as Towers Watson (“Towers Watson”) to review its EV Results. This report is addressed solely to China Life in accordance with the terms of our engagement letter, and sets out the scope of our work and our conclusions. To the fullest extent permitted by applicable law, we do not accept or assume any responsibility, duty of care or liability to anyone other than China Life for or in connection with our review work, the opinions we have formed, or for any statement set forth in this report.

### Scope of work

Our scope of work covered:

- a review of the methodology used to develop the embedded value as at 30 June 2010, and the value of one year’s sales and value of half year’s sales in the 12 months and 6 months to 30 June 2010 respectively (“Value of Sales”), in the light of the requirements of the “Life Insurance Embedded Value Reporting Guidelines” issued by the China Insurance Regulatory Commission (“CIRC”) in September 2005;
- a review of the economic and operating assumptions used to develop the embedded value as at 30 June 2010 and the Value of Sales;
- a review of the results of China Life’s calculation of the EV Results.

In carrying out our review, we have relied on the accuracy of audited and unaudited data and information provided by China Life.

### Opinion

Based on the scope of work above, we have concluded that:

- the embedded value methodology used by China Life is consistent with the requirements of the “Life Insurance Embedded Value Reporting Guidelines” issued by the CIRC. The methodology applied by China Life is a common methodology used to determine embedded values of life insurance companies in China at the current time;
- the economic assumptions used by China Life are internally consistent, have been set with regard to current economic conditions, and have made allowance for the company’s current and expected future asset mix and investment strategy;

## Embedded Value

- the operating assumptions used by China Life have been set with appropriate regard to past, current and expected future experience;
- no changes have been assumed to the treatment of tax, but some sensitivity results relating to tax have been shown by China Life; and
- the EV Results have been prepared, in all material respects, in accordance with the methodology and assumptions set out in the Embedded Value section.
