Management Discussion and Analysis

MARKET OUTLOOK

The Company is diversifying its business into the development and operation of cemetery. Over the past decade, the end of year population of the PRC increased from approximately 1.26 billion in 1999 to approximately 1.33 billion in 2008, representing an increase of approximately 5.58%. According to the China Statistic Yearbook (中國統計年鑒), the population over the age of 65 in the PRC were approximately 7.63% and 9.54% of the total population of the PRC for 1999 and 2008 respectively, representing an increase of approximately 31.94%. The mortality rate of the PRC for 1999 and 2008 were 0.65% and 0.71%, representing an increase of 15.34%. The statistic shows that the PRC is facing aging problem and there is an increasing need and demand for death care services. Ample growth in the funeral services business is expected.

FINANCIAL RESULTS

For the Period, the Group recorded turnover of approximately HK\$5.2 million (2009: approximately HK\$23.3 million) and net loss of approximately HK\$33.1 million (2009: approximately HK\$42.2 million). The net loss for the Period was mainly due to administrative expenses of the head office and the preliminary expenses for the preparation of cemetery business coupled with share options expense of approximately HK\$13.3 million during the Period.

BUSINESS REVIEW

During the Period, the Group continued the trading of leather, consumer electronic appliances and scrap metal. The turnover of leather trading amounted to approximately HK\$5.2 million (2009: approximately HK\$10.6 million). No turnover was recorded for the trading of consumer electronic appliances and scrap metal during the Period (2009: approximately HK\$8.7 million and HK\$4.0 million respectively). Although the Group is increasing effort on new business – the developing and managing cemetery, the Group kept on looking for profitable and relatively low risk transaction on trading of consumer electronic product and scrap metal.

BUSINESS DEVELOPMENT

The acquisition of equity interest in a Sino-foreign joint venture enterprise developing and managing cemetery in Shanghai, the PRC is still undergoing.

On 18 June 2010, the Company entered into an acquisition agreement with independent third parties in relation to (i) the acquisition at a consideration of RMB105,468,750 (equivalent to approximately HK\$120,536,000), being acquisition of 41.2% equity interest in Anxian Yuan which engages cemetery business in Hangzhou, the PRC and (ii) the Increase in registered capital of Anxian Yuan at a sum of RMB80,000,000 (equivalent to approximately HK\$91,429,000), being further injection to Anxian Yuan so as to increase the Group's equity interest in Anxian Yuan by a further 9.8%. Upon the completion of the agreement, the Company will own, through a nominee, as to 51% equity interest in Anxian Yuan. The acquisition of the above-mentioned 41.2% equity interest was completed on 19 November 2010.

LOOKING FORWARD

The Group intends to expand its existing business to developing and managing cemetery in the PRC, which, the Directors believed has ample growth opportunities due to the growing trend of aged population. Funeral services are a very important component in Chinese social and religious systems. It has been a long tradition in the PRC to hold public decorum and show respect to the deceased. In recent years, the PRC has experienced quick economic development, with concomitant increase in national income. Demand for high quality services has emerged and extended to the funeral services industry. The Directors considered that the above-mentioned proposed acquisitions represent opportunities for the Group to enter into the funeral services industry, and believed that the Group could broaden its source of income by diversifying into such industry.
