
CANADIAN OFFERING

Concurrently with the International Offering, we are offering Canadian Offer Shares in Canada by means of a Canadian Offering. The Canadian Prospectus is issued solely in connection with the Canadian Offering and is prepared pursuant to Canadian regulatory requirements. However, you should rely only on the information contained in this prospectus and the related Application Forms to make your investment decision in subscribing the Offer Shares.

Our Proposed Canadian Offering

Concurrently with the International Offering, we are undertaking a public offering of our Canadian Offer Shares in Canada.

The Canadian Offering comprises an offering of initially 4,050,000 Canadian Offer Shares, subject to reallocation, for subscription or placing in Canada and in the United States to QIBs in reliance on Rule 144A, representing 2.5% of our total outstanding shares following the completion of the Offerings, assuming that the Over-allotment Options are not exercised and the Options granted under the EIP are not exercised. The information set forth in this prospectus in relation to our Canadian Offering, including, but not limited to, the net proceeds of the Canadian Offering, has been prepared based on the assumption that our Canadian Offering will comprise an offering of up to 4,050,000 Canadian Offer Shares for subscription. In the event that the Shares are reallocated between the International Placing and the Canadian Offering, no more than (i) 25% of the total Shares available under the Offerings, or 6,750,000 Shares (without taking into account the Canadian Over-allotment Option), would be available under the Canadian Offering, and (ii) 85% of the total Shares available under the Offerings, or 22,950,000 Shares (without taking into account the Over-allotment Option and the reallocation between the Hong Kong Public Offering and the International Placing), would be available under the International Placing.

The Canadian Offer Shares will be offered to the public only in those Canadian jurisdictions where they may be lawfully offered for sale or sold. A copy of the Canadian Prospectus is expected to be filed with the securities regulators in each of the provinces in Canada, but must become final for the purpose of the sale of securities. The Canadian Offer Shares will not be registered under the U.S. Securities Act or offered to the public in the United States, but may be offered in the United States to QIBs in reliance on Rule 144A under the U.S. Securities Act.

Our Canadian Offer Shares will be listed and traded on the TSX, subject to applicable Canadian laws and regulations and on the Stock Exchange, subject to applicable Hong Kong laws and regulations. The Canadian Offer Shares and the Offer Shares are of the same class of shares. Our Offer Shares and Canadian Offer Shares will be fungible and tradeable on both the TSX and the Stock Exchange. For further details see “Listings, Registration, Dealings and Settlement”.

Pricing of Canadian Offering

The Canadian Offer Price for Canadian Offer Shares in the Canadian Offering is expected to be approximately the same as the Offer Price for our Offer Shares in the International Offering, as adjusted for the exchange rate difference between Hong Kong dollars and Canadian dollars.

Canadian Offering Conditional on International Offering

Our Canadian Offering is conditional upon our International Offering. Our International Offering is not conditional upon our Canadian Offering.
