The Board of Directors of Nanyang Holdings Limited announces that the unaudited Group results for the six months ended 30th June 2010 showed a profit of HK\$64.4 million (2009: HK\$14.8 million). The increase is mainly due to the dividend received from The Shanghai Commercial & Savings Bank, Ltd., in Taiwan, for the year ended 31st December 2009, of HK\$47.3 million on the enlarged holding, as approved at the special general meeting held on 11th December 2009, and the change in fair value of the investment properties (including that owned by a jointly controlled entity) of HK\$22.8 million. Excluding the net effect of revaluing the investment properties at fair value, the half year would have shown a gain of HK\$41.6 million (2009: gain HK\$16.8 million). Earnings per share for the period were HK\$1.53 (2009: HK\$0.35).

Business Review and Prospects

Textile Operations

Shanghai Sung Nan Textile Company Limited (“Sung Nan”), 65% owned by the Group, has now sold its textile production machinery and equipment. Regarding the project at the industrial site in Taicang, Jiangsu Province, Sung Nan has signed an agreement with the Taicang local government to assign the project to another investor. Our share of Sung Nan’s loss for the period was HK\$3.6 million.

The Group’s 45% joint venture in Shenzhen, Southern Textile Company Limited, continued to perform satisfactorily. Its main asset, a factory building which is leased to third parties, is almost fully occupied.

Real Estate

As the local economy continued to grow, the take-up rate and rental levels of prime office space improved. Leasing activities at our building were affected by the ample supply of office space available in the Kwun Tong area. In order to attract tenants, we are offering attractive leasing packages with incentives at competitive rental levels. Of the 290,000 sq.ft. of industrial/office space the Group holds at Nanyang Plaza, presently 90.9% is leased.

Leasing activities at the commercial property, 33% owned by the Group, in the Jingan District in Shanghai, continued to be satisfactory. The building, which has a total area of 23,500 sq.m., is presently 98% leased.

Financial Investments

Markets traded lower in the first half of the year and, during this period, we modestly increased the allocation to equities. For the six months ended 30th June 2010, our portfolios showed a decline of 4.0%. As at that date, the market value of the portfolios stood at US\$30.1 million or approximately HK\$233.8 million.

Since the beginning of July, markets have rebounded as corporate earnings improved. As at 31st July 2010, the portfolios were marginally down by 0.3% for the year to date and the value stood at US\$31.2 million or approximately HK\$242.2 million. Equities comprised 48% (of which 36% was in U.S. equities), 24% in bonds, 5% in alternative investments, 6% in commodities and 17% in cash. As the global economy continues to grow slowly, we expect our portfolios to be affected by market volatility.

Financial Position

The Group’s investment properties with a value at 30th June 2010 of HK\$996 million (31st December 2009: HK\$975 million) have been used to secure general banking facilities of which HK\$7 million (31st December 2009: HK\$9 million) is being utilised as a guarantee to a jointly controlled entity and HK\$28 million (31st December 2009: HK\$50 million) of these facilities had been drawn down. At the end of the period, the Group had net current assets of HK\$188.2 million (31st December 2009: HK\$182.8 million).
